1. As of 12/31/13. Holdings are subject to change. For updated information, please call Franklin Templeton Investments at (800) DIAL BEN/342-5236 or visit franklintempleton.com. The portfolio manager for the fund reserves the right to withhold release of information with respect to holdings that would otherwise be included in the top 10 holdings list.

2. Source: © 2014 Thomson Reuters, 12/31/13. Beta measures the fund's market-related risk over a three-year period. The MSCI World Value (Net) Index has a beta of 1.00. A beta lower than 1.00 indicates historically lower volatility than the index; higher than 1.00 indicates historically higher volatility.

3. Figures include the Rule 12b-1 expenses as if in effect during the entire period.

4. Prior to 11/1/96, only a single class of fund shares was offered without a sales charge and Rule 12b-1 expenses. Returns shown are a restatement of the original class to include both the Rule 12b-1 expenses and the current sales charges applicable to each share class. Class A: Prior to 8/3/98, these shares were offered at a lower initial sales charge; thus actual returns would have differed. Class C: Prior to 1/1/04, these shares were offered with an initial sales charge; thus actual returns would have differed.

5. Due to rounding, the sum of portfolio holdings may not equal 100%.

WHAT ARE THE RISKS?

All investments involve risks, including possible loss of principal. Value securities may not increase in price as anticipated or may decline further in value. The fund's investments in smaller-company stocks and foreign securities involve special risks. Smaller-company stocks have exhibited greater price volatility than larger-company stocks, particularly over the short term. Foreign securities risks include currency fluctuations, and economic and political uncertainties. The fund may also invest in companies engaged in mergers, reorganizations or liquidations, which involve special risks as pending deals may not be completed on time or on favorable terms, as well as lower-rated bonds, which entail higher credit risk. Please consult the prospectus for a more detailed description of the fund's risks.

Investors should carefully consider a fund's investment goals, risks, charges and expenses before investing. To obtain a summary prospectus and/or prospectus, which contains this and other information, talk to your financial advisor, call us at (800) DIAL BEN/342-5236 or visit franklintempleton.com. Please carefully read a prospectus before you invest or send money.

MANAGER'S PERSPECTIVE

"Mutual Beacon Fund aims to deliver solid risk-adjusted returns over the long term. We focus on deep value stocks where we believe there is an opportunity for capital appreciation and less room for these stocks to fall, thus helping reduce our downside risk. Select investments in distressed debt and merger arbitrage are natural extensions of the fund's value approach/strategy and help provide diversification to the overall portfolio. Our bottom-up, in-depth research helps us identify undervalued securities with viable catalysts that we believe may change the way the market views their true worth. When necessary, we will be activist investors if we feel we can unlock value for our shareholders. In these circumstances, we think and act like company owners as we attempt to help a company realize its full potential."

—Christian Correa, Portfolio Manager

GAIN FROM OUR PERSPECTIVE®

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups—Franklin, Templeton and Mutual Series.

Specialized Expertise

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

- Franklin. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.
- Templeton. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with offices in over 25 countries, Templeton offers investors a truly global perspective.
- Mutual Series. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among what it believes are undervalued stocks, as well as arbitrage situations and distressed securities.
