³ Includes issuers that have defaulted or have missed scheduled bond payments.

⁴These figures are rounded to two decimal places.

You may request a copy of the Fund's current Report to Shareholders by contacting Franklin Templeton's Fund Information Department at 1-800/DIAL BEN® (1-800-342-5236) or by visiting franklintempleton.com. All investments involve risks, including possible loss of principal. Bond prices generally move in the opposite direction of interest rates. As the prices of bonds in a fund adjust to a rise in interest rates, the fund's share price may decline. Investments in lower-rated bonds include higher risk of default and loss of principal. Stock prices fluctuate, sometimes rapidly and dramatically, due to factors affecting individual companies, particular industries or sectors, or general market conditions. In addition to other factors, securities issued by utility companies have historically been sensitive to interest rate changes. When interest rates fall, utility securities prices, and thus a utilities fund's share price, tend to rise; when interest rates rise, their prices generally fall. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results. This press release contains statistical data regarding the Fund's portfolio. The Fund's complete portfolio holdings are publicly available on a quarterly basis on Form N-Q, as well as in the Fund's Annual and Semi-Annual Reports to Shareholders filed with the U.S. Securities and Exchange Commission. These documents may be found at sec.gov. For portfolio management discussions, including information regarding the Fund's investment strategies, please view the most recent Annual or Semi-Annual Report to Shareholders which can be found at franklintempleton.com or sec.gov.
