Class A	Class C	Class R	Class R6	Advisor Class
TFMAX	FFRMX	Pending	FFMRX	FFRZX

The U.S. Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this prospectus. Any representation to the contrary is a criminal offense.

million or more sold within 18 months

Lower annual expenses than Class C or R due to lower distribution fees	Higher annual expenses than Class A due to higher distribution fees. Automatic conversion to Class A shares after approximately ten years, reducing future annual expenses.	Higher annual expenses than Class A due to higher distribution fees (lower than Class C). No conversion to Class A shares, so annual expenses do not decrease.
--	---	--

IV. The first two charts and the introduction to the second chart under the “Your Account – Choosing a Share Class – Class A, C & R – Sales Charges – Class A” section of the prospectus is replaced with the following:

when you invest this amount	the sales charge makes up this % of the offering price ¹	which equals this % of your net investment ¹
Under \$50,000	5.50%	5.82%
\$50,000 but under \$100,000	4.50%	4.71%
\$100,000 but under \$250,000	3.50%	3.63%
\$250,000 but under \$500,000	2.50%	2.56%
\$500,000 but under \$1 million	2.00%	2.04%

1. The dollar amount of the sales charge is the difference between the offering price of the shares purchased (which factors in the applicable sales charge in this table) and the net asset value of those shares. Since the offering price is calculated to two decimal places using standard rounding criteria, the number of shares purchased and the dollar amount of the sales charge as a percentage of the offering price and of your net investment may be higher or lower depending on whether there was a downward or upward rounding.

V. The following is added to the “Your Account – Choosing a Shares Class – Sales Charges - Class A – Sales Charge Waivers – Waivers for certain investors” section:

- Class C shareholders whose shares are converted to Class A shares after 10 years under the Class C shares’ conversion feature.

VI. The “Notice of Automatic Conversion of Class C Shares to Class A Shares after 10-Year Holding Period” section under the “Your Account” section of the prospectus is removed and the following is added after the “Your Account – Choosing a Shares Class – Sales Charges – Class C – Distribution and Service (12b-1) Fees” section:

Automatic Conversion of Class C Shares to Class A Shares After 10-Year Holding Period

Effective on October 5, 2018, Class C shares’ conversion feature will become effective. The conversion feature provides that Class C shares that have been held for 10 years or more will automatically convert into Class A shares and will be subject to Class A shares’ lower Rule 12b-1 fees (the “Conversion Feature”). On or about October 19, 2018, Class C shares of the Fund that have been outstanding for 10 years or more will automatically convert to Class A shares of the Fund on the basis of the relative net asset values of the two classes. Thereafter, Class C shares of the Fund will convert automatically to Class A shares of the Fund on a monthly basis in the month of, or the month following, the 10-year anniversary of the Class C (or Class C1) shares’ purchase date. The monthly conversion date is expected to occur around the middle of every month and generally falls on a Friday.

Terms of the Conversion Feature. Class C shares that automatically convert to Class A shares of the Fund will convert on the basis of the relative net asset values of the two classes. Shareholders will not pay a sales charge, including a CDSC, upon the conversion of their Class C shares to Class A shares pursuant to the Conversion Feature. The automatic conversion of the Fund’s Class C shares into Class A shares after the 10-year holding period is not expected to be a taxable event for federal income tax purposes. Shareholders should consult with their tax advisor regarding the state and local tax consequences of such conversions.

If you previously owned Class C1 shares of the Fund, the time you held such shares will count towards the 10-year period for automatic conversion to Class A shares. Class C (or Class C1) shares of the Fund acquired through automatic reinvestment of dividends or distributions will convert to Class A shares of the Fund on the conversion date pro rata with the converting Class C shares of the Fund that were not acquired through reinvestment of dividends or distributions.

Class C shares held through a financial intermediary in an omnibus account will be automatically converted into Class A shares only if the intermediary can document that the shareholder has met the required holding period. In certain circumstances, when shares are invested through retirement plans, omnibus accounts, and in certain other instances, the Fund and its agents may not have transparency into how long a shareholder has held Class C (or Class C1) shares for purposes of determining whether such Class C shares are eligible for automatic conversion into Class A shares and the financial intermediary may not have the ability to track purchases to credit individual shareholders’ holding periods. This primarily occurs when shares are invested through certain record keepers for group retirement plans, where the

intermediary cannot track share aging at the participant level. In these circumstances, the Fund will not be able to automatically convert Class C shares into Class A shares as described above. In order to determine eligibility for conversion in these circumstances, it is the responsibility of the shareholder or their financial intermediary to notify the Fund that the shareholder is eligible for the conversion of Class C shares to Class A shares, and the shareholder or their financial intermediary may be required to maintain and provide the Fund with records that substantiate the holding period of Class C (and, if applicable, Class C1) shares. In these circumstances, it is the financial intermediary's (and not the Fund's) responsibility to keep records and to ensure that the shareholder is credited with the proper holding period. Please consult with your financial intermediary about your shares' eligibility for this conversion feature.

Also effective October 5, 2018, new accounts or plans may not be eligible to purchase Class C shares of the Fund if it is determined that the intermediary cannot track shareholder holding periods to determine whether a shareholder's Class C shares are eligible for conversion to Class A shares. Accounts or plans (and their successor, related and affiliated plans) that have Class C (or Class C1) shares of the Fund available to participants on or before October 5, 2018, may continue to open accounts for new participants in that share class and purchase additional shares in existing participant accounts. The Fund has no responsibility for overseeing, monitoring or implementing a financial intermediary's process for determining whether a shareholder meets the required holding period for conversion.

A financial intermediary may sponsor and/or control accounts, programs or platforms that impose a different conversion schedule or different eligibility requirements for the conversion of Class C shares into Class A shares. In these cases, Class C shareholders may convert to Class A shares under the policies of the financial intermediary and the conversion may be structured as an exchange of Class C shares for Class A shares of the Fund. Financial intermediaries will be responsible for making such exchanges in those circumstances. Please consult with your financial intermediary if you have any questions regarding your shares' conversion from Class C shares to Class A shares.

VII. The following replaces the first sentence in the "Your Account – Choosing a Shares Class – Reinstatement Privilege" section:

If you sell any class of shares of a Franklin Templeton Investments fund, you may reinvest all or a portion of the proceeds from that sale within 90 days within the same share class (or share class equivalent if the share class you redeemed from is closed to new investors) without an initial sales charge.

VIII. The following is added to the "Your Account – Exchanging Shares – Exchange Privilege" section:

Exchange Effects on Class C Conversion Feature. Effective October 5, 2018, if you exchange your Class C shares for the same class of shares of another Franklin Templeton fund, the time your shares are held in the initial Fund will count towards the 10-year period for automatic conversion to Class A shares.

IX. The following replaces the first paragraph under the "Your Account – Account Policies – Calculating Share Price – Class A & C" section of the prospectus:

When you buy shares, you pay the "offering price" for the shares. The "offering price" is determined by dividing the NAV per share by an amount equal to 1 minus the sales charge applicable to the purchase (expressed in decimals), calculated to two decimal places using standard rounding criteria. The number of Fund shares you will be issued will equal the amount invested divided by the applicable offering price for those shares, calculated to three decimal places using standard rounding criteria. For example, if the NAV per share is \$10.25 and the applicable sales charge for the purchase is 5.50%, the offering price would be calculated as follows: 10.25 divided by 1.00 minus 0.055 [10.25/0.945] equals 10.582011, which, when rounded to two decimal points, equals 10.58. The offering price per share would be \$10.58.

X. The following replaces the chart under the "Your Account – Account Policies – Dealer Compensation – Class A, C & R" section of the prospectus:

	Class A	Class C	Class R
Commission (%)	—	1.00 ¹	—
Investment under \$50,000	5.00	—	—
\$50,000 but under \$100,000	4.00	—	—
\$100,000 but under \$250,000	3.00	—	—
\$250,000 but under \$500,000	2.25	—	—
\$500,000 but under \$1 million	1.75	—	—
\$1 million or more	up to 1.00	—	—
12b-1 fee to dealer	0.25 ^{2,3}	1.00 ⁴	0.50

1. Commission includes advance of the first year's 0.25% 12b-1 service fee. Distributors may pay a prepaid commission. However, Distributors does not pay a prepaid commission on any purchases by Employer Sponsored Retirement Plans.
2. For purchases at NAV where Distributors paid a prepaid commission, dealers may start to receive the 12b-1 fee in the 13th month after purchase. For purchases at NAV where Distributors did not pay a prepaid commission, dealers may start to receive the 12b-1 fee at the time of purchase.
3. Under the Distribution Plan for Class A, the Fund may pay up to 0.30% to Distributors or others, out of which 0.05% generally will be retained by Distributors for its distribution expenses. As set by the board of trustees (until further notice), the Fund currently may pay up to 0.25% under the Plan.
4. Dealers may be eligible to receive up to 0.25% at the time of purchase and may be eligible to receive 1% starting in the 13th month. During the first 12 months, the full 12b-1 fee will be paid to Distributors to partially offset the commission and the prepaid service fee paid at the time of purchase. For purchases at NAV where Distributors did not pay a prepaid commission, dealers may start to receive the 12b-1 fee at the time of purchase. After approximately 10 years, Class C shares convert to Class A shares and dealers may then be eligible to receive the 12b-1 fee applicable to Class A.

Please keep this supplement with your prospectus for future reference.

Fund Summary

Investment Goal

Long-term capital appreciation.

Fees and Expenses of the Fund

These tables describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts in Class A if you and your family invest, or agree to invest in the future, at least \$50,000 in Franklin Templeton funds. More information about these and other discounts is available from your financial professional and under “Your Account” on page 33 in the Fund’s Prospectus and under “Buying and Selling Shares” on page 48 of the Fund’s Statement of Additional Information. In addition, more information about sales charge discounts and waivers for purchases of shares through specific financial intermediaries is set forth in Appendix A - “Intermediary Sales Charge Discounts and Waivers” to the Fund’s prospectus.

Please note that the tables and examples below do not reflect any transaction fees that may be charged by financial intermediaries, or commissions that a shareholder may be required to pay directly to its financial intermediary when buying or selling Class R6 or Advisor Class shares.

Shareholder Fees

(fees paid directly from your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Maximum Sales Charge (Load) Imposed on Purchases (as percentage of offering price)	5.75%	None	None	None	None
Maximum Deferred Sales Charge (Load) (as percentage of the lower of original purchase price or sale proceeds)	None ¹	1.00%	None	None	None

1. There is a 1% contingent deferred sales charge that applies to investments of \$1 million or more (see “Investments of \$1 Million or More” under “Choosing a Share Class”) and purchases by certain retirement plans without an initial sales charge on shares sold within 18 months of purchase.

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Management fees ¹	1.45%	1.45%	1.45%	1.45%	1.45%
Distribution and service (12b-1) fees	0.25%	1.00%	0.50%	None	None
Other expenses ²	0.65%	0.65%	0.65%	0.43%	0.65%
Acquired fund fees and expenses ³	0.01%	0.01%	0.01%	0.01%	0.01%
Total annual Fund operating expenses ^{1,2,3}	2.36%	3.11%	2.61%	1.89%	2.11%
Fee waiver and/or expense reimbursement ¹	-0.35%	-0.35%	-0.35%	-0.35%	-0.35%
Total annual Fund operating expenses after fee waiver and/or expense reimbursement^{1,2,3}	2.01%	2.76%	2.26%	1.54%	1.76%

1. The investment manager has contractually agreed to waive its fee so that the management fee for the Fund does not exceed 1.35% until July 31, 2019. In addition, the investment manager has contractually agreed to waive or assume certain expenses so that total annual Fund operating expenses (excluding Rule 12b-1 fees, acquired fund fees and expenses and certain non-routine expenses) for each class of the Fund do not exceed 1.75% until July 31, 2019. The investment manager also has contractually agreed in advance to reduce its fees as a result of the Fund’s investment in a Franklin Templeton money fund (acquired fund) for the next 12-month period. Contractual fee waiver agreements may not be changed or terminated during the time period set forth above. The “Fee waiver and/or expense reimbursement” and “Total annual Fund operating expenses after fee waiver and/or expense reimbursement” line items have been restated to reflect the current fee waivers and/or expense reimbursements for the Fund for the upcoming fiscal year. Consequently, the Fund’s “Total annual Fund operating expenses after fee waiver and/or expense reimbursement” differ from the ratio of expenses to average net assets (net of waiver and payments by affiliates) shown in the Financial Highlights. If the “Fee waiver and/or expense reimbursement” had not been restated, the “Total annual Fund operating expenses after fee waiver and/or expense reimbursement” for Class A, Class C, Class R, Class R6 and Advisor Class shares would have been 2.25%, 3.00%, 2.50%, 1.78% and 2.00%, respectively.

2. Other expenses of the Fund have been restated to exclude non-recurring prior period expenses, and for Class R6 shares, to reflect current fiscal year expenses. If the non-recurring prior period expenses were included in the table above, the amounts stated would have been greater. Consequently, the total annual Fund operating expenses differ from the ratio of expenses to average net assets shown in the Financial Highlights.

3. Total annual Fund operating expenses differ from the ratio of expenses to average net assets shown in the Financial Highlights, which reflect the operating expenses of the Fund and do not include acquired fund fees and expenses.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of the period. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The Example reflects adjustments made to the Fund’s operating expenses due to the fee waivers and/or expense reimbursements by management for the 1 Year numbers only. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A	\$767	\$1,238	\$1,733	\$3,092
Class C	\$379	\$927	\$1,600	\$3,398
Class R	\$229	\$778	\$1,354	\$2,919
Class R6	\$157	\$560	\$989	\$2,184
Advisor Class	\$179	\$627	\$1,102	\$2,415
If you do not sell your shares:				
Class C	\$279	\$927	\$1,600	\$3,398

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 30.94% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund invests at least 80% of its net assets in securities of companies located in “frontier market countries.” The Fund deems the following to be “frontier market countries:”

Central and Eastern Europe: Belarus, Bulgaria, Croatia, Czech Republic, Estonia, Georgia, Hungary, Latvia, Lithuania, Macedonia, Montenegro, Romania, Serbia, Slovakia, Slovenia, Turkey, Ukraine

Africa: Botswana, Cote d’Ivoire, Ghana, Kenya, Malawi, Mauritius, Morocco, Mozambique, Namibia, Nigeria, Senegal, Swaziland, Tanzania, Uganda, Zambia, Zimbabwe

Middle East: Bahrain, Egypt, Iraq, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Tunisia, United Arab Emirates

Asia-Pacific region: Azerbaijan, Bangladesh, Cambodia, Indonesia, Kazakhstan, Mongolia, Pakistan, Philippines, Sri Lanka, Thailand, Turkmenistan, Vietnam

Central and South America: Argentina, Chile, Colombia, Ecuador, Jamaica, Panama, Paraguay, Peru, Trinidad & Tobago, Uruguay, Venezuela

The Fund may deem other countries to be frontier markets either currently or in the future. In general, frontier market countries are a sub-set of those currently considered to be developing by the World Bank, the International Finance Corporation, the United Nations, or the countries’ authorities, or countries with a stock market capitalization of less than 3% of the MSCI World Index. These countries typically are located in the Asia-Pacific region, Central and Eastern Europe, the Middle East, Central and South America, and Africa.

The Fund invests primarily in the equity securities of frontier market companies. The equity securities in which the Fund invests are principally common stock and related depositary receipts and participatory notes. The Fund may invest in the equity securities of companies of any size. Because frontier market companies tend to be considered small and micro-cap, the Fund’s investments in equity securities consist principally of those of small and micro-cap companies. Participatory notes are equity access products structured as debt obligations that are issued or backed by banks and broker-dealers and designed to replicate equity market exposure in markets where direct investment is either impossible or difficult due to local investment restrictions.

Generally, the Fund does not concentrate (i.e., invest more than 25% of its net assets) in the securities of companies in any particular industry, except that the Fund may invest between 25% and 35% of its net assets in securities of any industry if, at the time of investment, that industry represents 20% or more of the Fund’s current primary benchmark index. The Fund’s current primary benchmark index is the MSCI Frontier Markets Index. As of the date of this Prospectus, the banking industry constituted a significant portion of the Fund’s benchmark index and the Fund also had significant investments in that industry.

When choosing equity investments for the Fund, the investment manager applies a fundamental research, value-oriented, long-term approach, focusing on the market price of a company’s securities relative to the investment manager’s evaluation of the company’s long-term earnings, asset value and cash flow potential. The investment manager also considers a company’s profit and loss outlook, balance sheet strength, cash flow trends and asset value in relation to the current price of the company’s securities.

The investment manager may consider selling an equity security when it believes the security has become overvalued due to either its price appreciation or changes in the company’s fundamentals, or when the investment manager believes another security is a more attractive investment opportunity.

Principal Risks

You could lose money by investing in the Fund. Mutual fund shares are not deposits or obligations of, or guaranteed or endorsed by, any bank, and are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board, or any other agency of the U.S. government.

Market The market values of securities or other investments owned by the Fund will go up or down, sometimes rapidly or unpredictably. The market value of a security or other investment may be reduced by market activity or other results of supply and demand unrelated to the issuer. This is a basic risk associated with all investments. When there are more sellers than buyers, prices tend to fall. Likewise, when there are more buyers than sellers, prices tend to rise.

Stock prices tend to go up and down more dramatically than those of debt securities. A slower-growth or recessionary economic environment could have an adverse effect on the prices of the various stocks held by the Fund.

Foreign Securities (non-U.S.) Investing in foreign securities typically involves more risks than investing in U.S. securities, and includes risks associated with: (i) internal and external political and economic developments – e.g., the political, economic and social policies and structures of some foreign countries may be less stable and more volatile than those in the U.S. or some foreign countries may be subject to trading restrictions or economic sanctions; (ii) trading practices – e.g., government supervision and regulation of foreign securities and currency markets, trading systems and brokers may be less than in the U.S.; (iii) availability of information – e.g., foreign issuers may not be subject to the same disclosure, accounting and financial reporting standards and practices as U.S. issuers; (iv) limited markets – e.g., the securities of certain foreign issuers may be less liquid (harder to sell) and more volatile; and (v) currency exchange rate fluctuations and policies. The risks of foreign investments may be greater in developing or emerging market countries.

Developing Market Countries The Fund's investments in securities of issuers in developing market countries are subject to all of the risks of foreign investing generally, and have additional heightened risks due to a lack of established legal, political, business and social frameworks to support securities markets, including: delays in settling portfolio securities transactions; currency and capital controls; greater sensitivity to interest rate changes; pervasiveness of corruption and crime; currency exchange rate volatility; and inflation, deflation or currency devaluation.

Frontier Market Countries Frontier market countries generally have smaller economies and even less developed capital markets than traditional developing markets, and, as a result, the risks of investing in developing market countries are

magnified in frontier market countries. The magnification of risks are the result of: potential for extreme price volatility and illiquidity in frontier markets; government ownership or control of parts of private sector and of certain companies; trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by frontier market countries or their trading partners; and the relatively new and unsettled securities laws in many frontier market countries.

Liquidity From time to time, the trading market for a particular security or type of security or other investments in which the Fund invests may become less liquid or even illiquid. Reduced liquidity will have an adverse impact on the Fund's ability to sell such securities or other investments when necessary to meet the Fund's liquidity needs, which may arise or increase in response to a specific economic event or because the investment manager wishes to purchase particular investments or believes that a higher level of liquidity would be advantageous. Reduced liquidity will also generally lower the value of such securities or other investments. Market prices for such securities or other investments may be relatively volatile.

Focus To the extent that the Fund focuses on particular countries, regions, industries, sectors or types of investment from time to time, the Fund may be subject to greater risks of adverse developments in such areas of focus than a fund that invests in a wider variety of countries, regions, industries, sectors or investments. To the extent that the Fund has significant investments in the banking industry, the Fund will be particularly sensitive to the risks of the banking industry. These risks include the effects of: (1) changes in interest rates on the profitability of banks; (2) the rate of corporate and consumer debt defaults; (3) price competition; (4) governmental limitations on a company's loans, other financial commitments, product lines and other operations; and (5) ongoing changes in the financial services industry (including consolidations, development of new products and changes to the industry's regulatory framework). The oversight of, and regulations applicable to, companies in the banking industry in frontier markets may be ineffective and underdeveloped relative to more developed markets.

Smaller and Midsize Companies Securities issued by smaller and midsize companies may be more volatile in price than those of larger companies, involve substantial risks and should be considered speculative. Such risks may include greater sensitivity to economic conditions, less certain growth prospects, lack of depth of management and funds for growth and development, and limited or less developed product lines and markets. In addition, smaller and midsize companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans.

Participatory Notes Participatory notes involve risks that are in addition to the risks normally associated with a direct investment in the underlying equity securities. The Fund is subject to the risk that the issuer of the participatory note is unable or refuses to perform under the terms of the participatory note. In addition, participatory notes are not traded on exchanges, are privately issued and may be illiquid.

Value Style Investing A value stock may not increase in price as anticipated by the investment manager if other investors fail to recognize the company's value and bid up the price, the markets favor faster-growing companies, or the factors that the investment manager believes will increase the price of the security do not occur or do not have the anticipated effect.

Management The Fund is subject to management risk because it is an actively managed investment portfolio. The Fund's investment manager applies investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these decisions will produce the desired results.

Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the Fund's performance from year to year for Class A shares. The table shows how the Fund's average annual returns for 1 year, 5 years, 10 years or since inception, as applicable, compared with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. You can obtain updated performance information at franklintempleton.com or by calling (800) DIAL BEN/342-5236.

The MSCI Frontier Emerging Markets Select Countries Capped Index (MSCI FEMI Select Countries Capped) was developed by MSCI for the Fund's investment manager and represents a capped version of the MSCI Frontier Emerging Markets Index (MSCI FEMI). MSCI applies caps on the exposure of the MSCI FEMI to emerging market and frontier market countries to create the MSCI FEMI Select Countries Capped so that the index reflects predominantly frontier market countries. The secondary index is included in the table below because the investment manager believes the composition of the MSCI FEMI Select Countries Capped more accurately reflects the Fund's holdings.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

Class A Annual Total Returns

Best Quarter:	Q2'09	29.03%
Worst Quarter:	Q4'14	-18.71%

As of June 30, 2018, the Fund's year-to-date return was -11.21%.

Average Annual Total Returns

(figures reflect sales charges)

For the periods ended December 31, 2017

	1 Year	5 Years	Since Inception 10/14/2008
Templeton Frontier Markets Fund - Class A			
Return Before Taxes	15.80%	-1.23%	5.23%
Return After Taxes on Distributions	16.01%	-2.09%	4.58%
Return After Taxes on Distributions and Sale of Fund Shares	9.43%	-1.00%	4.12%

1. Since inception May 1, 2013.

No one index is representative of the Fund's portfolio.

The after-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown only for Class A and after-tax returns for other classes will vary.

Investment Manager

Templeton Asset Management Ltd. (Asset Management)

Portfolio Managers

Tom Wu

Director of Asset Management and portfolio manager of the Fund since 2011.

Bassel Khatoun

Portfolio Manager of the Fund since May 2018.

Purchase and Sale of Fund Shares

You may purchase or redeem shares of the Fund on any business day online through our website at franklintempleton.com, by mail (Franklin Templeton Investor Services, P.O. Box 33030, St. Petersburg, FL 33733-8030), or by telephone at (800) 632-2301. For Class A, C and R, the minimum initial purchase for most accounts is \$1,000 (or \$25 under an automatic investment plan). Class R6 and Advisor Class are only available to certain qualified investors and the minimum initial investment will vary depending on the type of qualified investor, as described under "Your Account — Choosing a Share Class — Qualified Investors — Class R6" and "— Advisor Class" in the Fund's prospectus. There is no minimum investment for subsequent purchases.

Taxes

The Fund's distributions are generally taxable to you as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case your distributions would generally be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary's website for more information.

Fund Details

Investment Goal

The Fund's investment goal is long-term capital appreciation.

Principal Investment Policies and Practices

Under normal market conditions, the Fund invests at least 80% of its net assets in securities of companies located in "frontier market countries," as defined below. Shareholders will be given at least 60 days' advance notice of any change to the 80% policy.

The Fund deems the following to be "frontier market countries:"

Central and Eastern Europe: Belarus, Bulgaria, Croatia, Czech Republic, Estonia, Georgia, Hungary, Latvia, Lithuania, Macedonia, Montenegro, Romania, Serbia, Slovakia, Slovenia, Turkey, Ukraine

Africa: Botswana, Cote d'Ivoire, Ghana, Kenya, Malawi, Mauritius, Morocco, Mozambique, Namibia, Nigeria, Senegal, Swaziland, Tanzania, Uganda, Zambia, Zimbabwe

Middle East: Bahrain, Egypt, Iraq, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Tunisia, United Arab Emirates

Asia-Pacific region: Azerbaijan, Bangladesh, Cambodia, Indonesia, Kazakhstan, Mongolia, Pakistan, Philippines, Sri Lanka, Thailand, Turkmenistan, Vietnam

Central and South America: Argentina, Chile, Colombia, Ecuador, Jamaica, Panama, Paraguay, Peru, Trinidad & Tobago, Uruguay, Venezuela

The Fund may deem other countries to be frontier markets either currently or in the future. In general, frontier market countries are a sub-set of those currently considered to be developing by the World Bank, the International Finance Corporation, the United Nations, or the countries' authorities, or countries with a stock market capitalization of less than 3% of the MSCI World Index. These countries typically are located in the Asia-Pacific region, Central and Eastern Europe, the Middle East, Central and South America, and Africa.

For purposes of the Fund's investments, companies located in frontier market countries are those:

- whose principal securities trading markets are in frontier market countries; or
- that derive 50% or more of their total revenue or profit from either goods or services produced or sales made in frontier market countries; or
- that have 50% or more of their assets in frontier market countries; or

- that are linked to currencies of frontier market countries; or
- that are organized under the laws of, or with principal offices in, frontier market countries.

The Fund invests primarily in the equity securities of frontier market companies. The Fund's investments in equity securities may include investments in companies of any size. Because frontier market companies tend to be considered small and micro-cap, the Fund's investments in equity securities consist principally of those of small and micro-cap companies.

An equity security represents a proportionate share of the ownership of a company; its value is based on the success of the company's business and the value of its assets, as well as general market conditions. Common stocks and related depositary receipts and participatory notes, among others, are examples of equity securities. Depositary receipts are certificates typically issued by a bank or trust company that give their holders the right to receive securities issued by a foreign or domestic company.

Participatory notes, which are a type of equity access product, are structured as unsecured and unsubordinated debt securities designed to replicate exposure to the underlying referenced equity investment and are sold by a bank or broker-dealer in markets where the Fund is restricted from directly purchasing equity securities. The Fund may tender a participatory note for cash payment in an amount that reflects the current market value of the referenced underlying equity investments, reduced by program fees.

Generally, the Fund does not concentrate (i.e., invest more than 25% of its net assets) in the securities of companies in any particular industry, except that the Fund may invest between 25% and 35% of its net assets in securities of any industry if, at the time of investment, that industry represents 20% or more of the Fund's current primary benchmark index. The Fund's current primary benchmark index is the MSCI Frontier Markets Index. As of the date of this Prospectus, the banking industry constituted a significant portion of the Fund's benchmark index and the Fund also had significant investments in that industry.

In addition to the Fund's main investments, the Fund may invest up to 20% of its net assets in securities of issuers in countries that are not deemed to be frontier markets. The Fund may also invest up to 20% of its net assets in debt obligations of issuers located in frontier market countries.

When choosing equity investments for the Fund, the investment manager applies a fundamental research, value-oriented, long-term approach, focusing on the market price of a company's securities relative to the investment manager's evaluation of the company's long-term earnings, asset value and cash flow potential. The investment manager also considers a company's profit and loss outlook, balance

sheet strength, cash flow trends and asset value in relation to the current price of the company's securities. The analysis considers the company's corporate governance behavior as well as its position in its sector, the economic framework and political environment.

The investment manager may consider selling an equity security when it believes the security has become overvalued due to either its price appreciation or changes in the company's fundamentals, or when the investment manager believes another security is a more attractive investment opportunity.

Temporary Investments

When the investment manager believes market or economic conditions are unfavorable for investors, the investment manager may invest up to 100% of the Fund's assets in a temporary defensive manner by holding all or a substantial portion of its assets in cash, cash equivalents or other high quality short-term investments. Temporary defensive investments generally may include short-term U.S. government securities, high-grade commercial paper, bank obligations, repurchase agreements, money market fund shares (including shares of an affiliated money market fund) and other money market instruments. The investment manager also may invest in these types of securities or hold cash while looking for suitable investment opportunities or to maintain liquidity. In these circumstances, the Fund may be unable to achieve its investment goal.

Principal Risks

Market

The market values of securities or other investments owned by the Fund will go up or down, sometimes rapidly or unpredictably. Securities or other investments may decline in value due to factors affecting individual issuers, markets generally or sectors within the markets. The value of a security or other investment may go up or down due to general market conditions which are not specifically related to a particular issuer, such as real or perceived adverse economic conditions, changes in interest rates or exchange rates, or adverse investor sentiment generally. The value may also go up or down due to factors that affect an individual issuer or a particular sector. During a general downturn in the securities markets, multiple asset classes may decline in value. When markets perform well, there can be no assurance that securities or other investments held by the Fund will participate in or otherwise benefit from the advance.

Stock prices tend to go up and down more dramatically than those of debt securities. A slower-growth or recessionary economic environment could have an adverse effect on the prices of the various stocks held by the Fund.

Foreign Securities (non-U.S.)

Investing in foreign securities typically involves more risks than investing in U.S. securities. Certain of these risks also may apply to securities of U.S. companies with significant foreign operations.

Currency exchange rates. Foreign securities may be issued and traded in foreign currencies. As a result, their market values in U.S. dollars may be affected by changes in exchange rates between such foreign currencies and the U.S. dollar, as well as between currencies of countries other than the U.S. For example, if the value of the U.S. dollar goes up compared to a foreign currency, an investment traded in that foreign currency will go down in value because it will be worth fewer U.S. dollars. The Fund accrues additional expenses when engaging in currency exchange transactions, and valuation of the Fund's foreign securities may be subject to greater risk because both the currency (relative to the U.S. dollar) and the security must be considered.

Political and economic developments. The political, economic and social policies or structures of some foreign countries may be less stable and more volatile than those in the United States. Investments in these countries may be subject to greater risks of internal and external conflicts, expropriation, nationalization of assets, foreign exchange controls (such as suspension of the ability to transfer currency from a given country), restrictions on removal of assets, political or social instability, military action or unrest, diplomatic developments, currency devaluations, foreign ownership limitations, and substantial, punitive or confiscatory tax increases. It is possible that a government may take over the assets or operations of a company or impose restrictions on the exchange or export of currency or other assets. Some countries also may have different legal systems that may make it difficult or expensive for the Fund to vote proxies, exercise shareholder rights, and pursue legal remedies with respect to its foreign investments. Diplomatic and political developments could affect the economies, industries, and securities and currency markets of the countries in which the Fund is invested. These developments include rapid and adverse political changes; social instability; regional conflicts; sanctions imposed by the United States, other nations or other governmental entities, including supranational entities; terrorism; and war. In addition, such developments could contribute to the devaluation of a country's currency, a downgrade in the credit ratings of issuers in such country, or a decline in the value and liquidity of securities of issuers in that country. An imposition of sanctions upon certain issuers in a country could result in an immediate freeze of that issuer's securities, impairing the ability of the Fund to buy, sell, receive or deliver those securities. These factors would affect the value of the Fund's investments and are extremely difficult, if not impossible, to predict and take into account with respect to the Fund's investments.

Trading practices. Brokerage commissions, withholding taxes, custodial fees, and other fees generally are higher in foreign markets. The policies and procedures followed by foreign stock exchanges, currency markets, trading systems and brokers may differ from those applicable in the United States, with possibly negative consequences to the Fund. The procedures and rules governing foreign trading, settlement and custody (holding of the Fund's assets) also may result in losses or delays in payment, delivery or recovery of money or other property. Foreign government supervision and regulation of foreign securities markets and trading systems may be less than or different from government supervision in the United States, and may increase the Fund's regulatory and compliance burden and/or decrease the Fund's investor rights and protections.

Availability of information. Foreign issuers may not be subject to the same disclosure, accounting, auditing and financial reporting standards and practices as U.S. issuers. Thus, there may be less information publicly available about foreign issuers than about most U.S. issuers. In addition, information provided by foreign issuers may be less timely or less reliable than information provided by U.S. issuers.

Limited markets. Certain foreign securities may be less liquid (harder to sell) and their prices may be more volatile than many U.S. securities. Illiquidity tends to be greater, and valuation of the Fund's foreign securities may be more difficult, due to the infrequent trading and/or delayed reporting of quotes and sales.

Regional. Adverse conditions in a certain region or country can adversely affect securities of issuers in other countries whose economies appear to be unrelated. To the extent that the Fund invests a significant portion of its assets in a specific geographic region or a particular country, the Fund will generally have more exposure to the specific regional or country economic risks. In the event of economic or political turmoil or a deterioration of diplomatic relations in a region or country where a substantial portion of the Fund's assets are invested, the Fund may experience substantial illiquidity or reduction in the value of the Fund's investments.

Developing market countries. The Fund's investments in securities of issuers in developing market countries are subject to all of the risks of foreign investing generally, and have additional heightened risks due to a lack of established legal, political, business and social frameworks to support securities markets. Some of the additional significant risks include:

- less social, political and economic stability;
- a higher possibility of the devaluation of a country's currency, a downgrade in the credit ratings of issuers in such country, or a decline in the value and liquidity of securities of issuers in that country if the United States, other nations or other governmental entities (including supranational entities) impose sanctions on

issuers that limit or restrict foreign investment, the movement of assets or other economic activity in the country due to political, military or regional conflicts or due to terrorism or war;

- smaller securities markets with low or non-existent trading volume and greater illiquidity and price volatility;
- more restrictive national policies on foreign investment, including restrictions on investment in issuers or industries deemed sensitive to national interests;
- less transparent and established taxation policies;
- less developed regulatory or legal structures governing private and foreign investment or allowing for judicial redress for injury to private property, such as bankruptcy;
- less familiarity with a capital market structure or market-oriented economy and more widespread corruption and fraud;
- less financial sophistication, creditworthiness and/or resources possessed by, and less government regulation of, the financial institutions and issuers with which the Fund transacts;
- less government supervision and regulation of business and industry practices, stock exchanges, brokers and listed companies than in the U.S.;
- greater concentration in a few industries resulting in greater vulnerability to regional and global trade conditions;
- higher rates of inflation and more rapid and extreme fluctuations in inflation rates;
- greater sensitivity to interest rate changes;
- increased volatility in currency exchange rates and potential for currency devaluations and/or currency controls;
- greater debt burdens relative to the size of the economy;
- more delays in settling portfolio transactions and heightened risk of loss from share registration and custody practices; and
- less assurance that when favorable economic developments occur, they will not be slowed or reversed by unanticipated economic, political or social events in such countries.

Because of the above factors, the Fund's investments in developing market countries may be subject to greater price volatility and illiquidity than investments in developed markets.

Frontier market countries. Frontier market countries generally have smaller economies and less developed capital markets than traditional developing markets, and, as a result, the risks of investing in developing market countries are

magnified in frontier market countries. The economies of frontier market countries are less correlated to global economic cycles than those of their more developed counterparts and their markets have low trading volumes and the potential for extreme price volatility and illiquidity. This volatility may be further heightened by the actions of a few major investors. For example, a substantial increase or decrease in cash flows of mutual funds investing in these markets could significantly affect local stock prices and, therefore, the price of Fund shares. These factors make investing in frontier market countries significantly riskier than in other countries and any one of them could cause the price of the Fund's shares to decline.

Governments of many frontier market countries in which the Fund may invest may exercise substantial influence over many aspects of the private sector. In some cases, the governments of such frontier market countries may own or control certain companies. Accordingly, government actions could have a significant effect on economic conditions in a frontier market country and on market conditions, prices and yields of securities in the Fund's portfolio. Moreover, the economies of frontier market countries may be heavily dependent upon international trade and, accordingly, have been and may continue to be, adversely affected by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. These economies also have been and may continue to be adversely affected by economic conditions in the countries with which they trade.

Investment in equity securities of issuers operating in certain frontier market countries may be restricted or controlled to varying degrees. These restrictions or controls may at times limit or preclude foreign investment in equity securities of issuers operating in certain frontier market countries and increase the costs and expenses of the Fund. Certain frontier market countries require governmental approval prior to investments by foreign persons, limit the amount of investment by foreign persons in a particular issuer, limit the investment by foreign persons only to a specific class of securities of an issuer that may have less advantageous rights than the classes available for purchase by domiciliaries of the countries and/or impose additional taxes on foreign investors. Certain frontier market countries may also restrict investment opportunities in issuers in industries deemed important to national interests.

Frontier market countries may require governmental approval for the repatriation of investment income, capital or the proceeds of sales of securities by foreign investors, such as the Fund. In addition, if deterioration occurs in a frontier market country's balance of payments, the country could impose temporary restrictions on foreign capital remittances. The Fund could be adversely affected by delays in, or a refusal to grant, any required governmental approval for repatriation of capital, as well as by the application to the Fund of any restrictions on investments. Investing

in local markets in frontier market countries may require the Fund to adopt special procedures, seek local government approvals or take other actions, each of which may involve additional costs to the Fund.

There may be no centralized securities exchange on which securities are traded in frontier market countries. Also, securities laws in many frontier market countries are relatively new and unsettled. Therefore, laws regarding foreign investment in frontier market securities, securities regulation, title to securities, and shareholder rights may change quickly and unpredictably.

The frontier market countries in which the Fund invests may become subject to sanctions or embargoes imposed by the U.S. government, the United Nations or other nations. The value of the securities issued by companies that operate in, or have dealings with these countries may be negatively impacted by any such sanction or embargo and may reduce the Fund's returns.

Banks in frontier market countries that are used to hold the Fund's securities and other assets in that country may lack the same operating experience as banks in developed markets. In addition, in certain countries there may be legal restrictions or limitations on the ability of the Fund to recover assets held by a foreign bank in the event of the bankruptcy of the bank. Settlement systems in frontier markets may be less well organized than in the developed markets. As a result, there is greater risk than in developed countries that settlements will take longer and that cash or securities of the Fund may be in jeopardy because of failures of or defects in the settlement systems.

Liquidity

Liquidity risk exists when the markets for particular securities or types of securities or other investments are or become relatively illiquid so that the Fund is unable, or it becomes more difficult for the Fund, to sell the security or other investment at the price at which the Fund has valued the security. Illiquidity may result from political, economic or issuer specific events; supply/demand imbalances; changes in a specific market's size or structure, including the number of participants; or overall market disruptions. Securities or other investments with reduced liquidity or that become illiquid may involve greater risk than securities with more liquid markets. Market prices or quotations for illiquid securities may be volatile, and there may be large spreads between bid and ask prices. Reduced liquidity may have an adverse impact on market price and the Fund's ability to sell particular securities when necessary to meet the Fund's liquidity needs, which may arise or increase in response to a specific economic event or because the investment manager wishes to purchase particular investments or believes that a higher level of liquidity would be advantageous. To the extent that the Fund and its affiliates hold a significant portion of an issuer's outstanding securities, the Fund may be subject to greater liquidity risk than if the issuer's securities were more widely held.

Focus

The greater the Fund's exposure to any single type of investment – including investment in a given industry, sector, region, country, issuer, or type of security – the greater the losses the Fund may experience upon any single economic, business, political, regulatory, or other occurrence. As a result, there may be more fluctuation in the price of the Fund's shares.

To the extent that the Fund has significant investments in the banking industry, the Fund will be particularly sensitive to the risks of the banking industry. These risks include the effects of: (1) changes in interest rates on the profitability of banks; (2) the rate of corporate and consumer debt defaults; (3) price competition; (4) governmental limitations on a company's loans, other financial commitments, product lines and other operations; and (5) ongoing changes in the financial services industry (including consolidations, development of new products and changes to the industry's regulatory framework). In addition, investments in the banking industry of frontier markets can be considered riskier than investments in the U.S. banking industry. The oversight of, and regulations applicable to, companies in the banking industry in frontier markets may be ineffective and underdeveloped relative to more developed markets. The impact of recent or future regulation in various countries on any individual bank or on the sector as a whole can be very difficult to predict.

Smaller and Midsize Companies

While smaller and midsize companies may offer substantial opportunities for capital growth, they also involve substantial risks and should be considered speculative. Historically, smaller and midsize company securities have been more volatile in price than larger company securities, especially over the short term. Among the reasons for the greater price volatility are the less certain growth prospects of smaller and midsize companies, the lower degree of liquidity in the markets for such securities, and the greater sensitivity of smaller and midsize companies to changing economic conditions.

In addition, smaller and midsize companies may lack depth of management, be unable to generate funds necessary for growth or development, have limited product lines or be developing or marketing new products or services for which markets are not yet established and may never become established. Smaller and midsize companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying loans, particularly those with floating interest rates.

Micro-Cap Company Risk

Micro-cap stocks involve substantially greater risks of loss and price fluctuations because their earnings and revenues tend to be less predictable (and some companies may be experiencing significant losses), and their share prices tend to be more volatile and their markets less liquid than companies with larger market capitalizations. Micro-cap companies may be newly formed or in the early stages of development, with limited product lines, markets or financial resources and may lack management depth. In addition, there may be less public information available about these companies. The shares of micro-cap companies tend to trade less frequently than those of larger, more established companies, which can adversely affect the pricing of these securities and the future ability to sell these securities. Also, it may take a long time before the Fund realizes a gain, if any, on an investment in a micro-cap company.

Participatory Notes

Participatory notes involve risks that are in addition to the risks normally associated with a direct investment in the underlying equity securities. The Fund is subject to the risk that the issuer of the participatory note (i.e., the issuing bank or broker-dealer), which is the only responsible party under the note, is unable or refuses to perform under the terms of the participatory note. While the holder of a participatory note is entitled to receive from the issuing bank or broker-dealer any dividends or other distributions paid on the underlying securities, the holder is not entitled to the same rights as an owner of the underlying securities, such as voting rights. Participatory notes are also not traded on exchanges, are privately issued, and may be illiquid. To the extent a participatory note is determined to be illiquid, it would be subject to the Fund's limitation on investments in illiquid securities. There can be no assurance that the trading price or value of participatory notes will equal the value of the underlying value of the equity securities they seek to replicate.

Depository Receipts

Depository receipts are subject to many of the risks of the underlying security. For some depository receipts, the custodian or similar financial institution that holds the issuer's shares in a trust account is located in the issuer's home country. The Fund could be exposed to the credit risk of the custodian or financial institution, and in cases where the issuer's home country does not have developed financial markets, greater market risk. In addition, the depository institution may not have physical custody of the underlying securities at all times and may charge fees for various services, including forwarding dividends and interest and corporate actions. The Fund would be expected to pay a share of the additional fees, which it would not pay if investing directly in the foreign securities. The Fund may experience delays in receiving its dividend and interest payments or exercising rights as a shareholder.

Value Style Investing

Value stock prices are considered “cheap” relative to the company’s perceived value and are often out of favor with other investors. The investment manager may invest in such stocks if it believes the market may have overreacted to adverse developments or failed to appreciate positive changes. However, if other investors fail to recognize the company’s value (and do not become buyers, or if they become sellers or favor investing in faster growing companies), value stocks may not increase in value as anticipated by the investment manager and may even decline in value.

Management

The Fund is actively managed and could experience losses (realized and unrealized) if the investment manager’s judgment about markets, interest rates or the attractiveness, relative values, liquidity, or potential appreciation of particular investments made for the Fund’s portfolio prove to be incorrect. There can be no guarantee that these techniques or the investment manager’s investment decisions will produce the desired results. Additionally, legislative, regulatory, or tax developments may affect the investment techniques available to the investment manager in connection with managing the Fund and may also adversely affect the ability of the Fund to achieve its investment goal.

More detailed information about the Fund and its policies and risks can be found in the Fund’s Statement of Additional Information (SAI).

A description of the Fund’s policies and procedures regarding the release of portfolio holdings information is also available in the Fund’s SAI. Portfolio holdings information can be viewed online at franklintempleton.com.

Management

Templeton Asset Management Ltd. (Asset Management), whose principal office is 7 Temasek Boulevard, Suntec Tower One, #38-03, Singapore 038987, is the Fund’s investment manager. Asset Management has a branch office in Hong Kong. Together, Asset Management and its affiliates manage as of June 30, 2018, over \$724 billion in assets, and have been in the investment management business since 1947.

The Fund is managed by a team of dedicated professionals focused on investments in frontier market countries. The portfolio managers of the team are as follows:

Tom Wu Director of Asset Management

Mr. Wu has been a portfolio manager of the Fund since 2011. He joined Franklin Templeton Investments in 1987.

Bassel Khatoun Portfolio Manager of the Fund

Mr. Khatoun has been a portfolio manager of the Fund since May 2018. He joined Franklin Templeton Investments in 2007.

As portfolio managers, Messer’s. Wu and Khatoun are jointly and primarily responsible for the investments of the Fund. They have equal authority over all aspects of the Fund’s investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio risk assessment, and the management of daily cash balances in accordance with anticipated investment management requirements. The degree to which they may perform these functions, and the nature of these functions, may change from time to time.

The Fund’s SAI provides additional information about portfolio manager compensation, other accounts that they manage and their ownership of Fund shares.

The Fund pays Asset Management a fee for managing the Fund’s assets. For the fiscal year ended March 31, 2018, Asset Management agreed to reduce its fees to reflect reduced services resulting from the Fund’s investment in a Franklin Templeton money fund. In addition, Asset Management has agreed to waive or assume certain expenses so that total annual Fund operating expenses (excluding the Rule 12b-1 fees; acquired fund fees and expenses and certain non-routine expenses or costs, including those relating to litigation, indemnification, reorganizations and liquidations) for each class of the Fund do not exceed 1.75% until July 31, 2019. Asset Management also has contractually agreed to waive its fee so that the management fee for the Fund does not exceed 1.35% until July 31, 2019. The investment management fees before and after such waivers were 1.45% and 1.34%, respectively.

A discussion regarding the basis for the board of trustees approving the investment management contract of the Fund is available in the Fund’s annual report to shareholders for the fiscal year ended March 31.

Distributions and Taxes

Income and Capital Gain Distributions

As a regulated investment company, the Fund generally pays no federal income tax on the income and gains it distributes to you. The Fund intends to pay income dividends at least annually from its net investment income. Capital gains, if any, may be paid at least annually. The Fund may distribute income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund. The amount of any distribution will vary, and there is no guarantee the Fund will pay either income dividends or capital gain distributions.

Your income dividends and capital gain distributions will be automatically reinvested in additional shares at net asset value (NAV) unless you elect to receive them in cash.

Annual statements. After the close of each calendar year, you will receive tax information from the Fund with respect to the federal income tax treatment of the Fund's distributions and any taxable sales or exchanges of Fund shares occurring during the prior calendar year. If the Fund finds it necessary to reclassify its distributions or adjust the cost basis of any covered shares sold or exchanged after you receive your tax information, the Fund will send you revised tax information. Distributions declared in December to shareholders of record in such month and paid in January are taxable as if they were paid in December. Additional tax information about the Fund's distributions is available at franklintempleton.com.

Avoid "buying a dividend." At the time you purchase your Fund shares, the Fund's net asset value may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in the value of the portfolio securities held by the Fund. For taxable investors, a subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. Buying shares in the Fund just before it declares an income dividend or capital gain distribution is sometimes known as "buying a dividend."

Tax Considerations

If you are a taxable investor, Fund distributions are generally taxable to you as ordinary income, capital gains or some combination of both. This is the case whether you reinvest your distributions in additional Fund shares or receive them in cash.

Dividend income. Income dividends are generally subject to tax at ordinary rates. Income dividends reported by the Fund to shareholders as qualified dividend income may be subject to tax by individuals at reduced long-term capital gains tax rates provided certain holding period requirements are met. A return-of-capital distribution is generally not taxable but will reduce the cost basis of your shares, and will result in a higher capital gain or a lower capital loss when you later sell your shares.

Capital gains. Fund distributions of short-term capital gains are also subject to tax at ordinary rates. Fund distributions of long-term capital gains are taxable at the reduced long-term capital gains rates no matter how long you have owned your Fund shares. For single individuals with taxable income not in excess of \$38,600 in 2018 (\$77,200 for married individuals filing jointly), the long-term capital gains tax rate is 0%. For single individuals and joint filers with taxable income in excess of these amounts but not more than \$425,800 or \$479,000, respectively, the long-term capital gains tax rate is 15%. The rate is 20% for single individuals with taxable

income in excess of \$425,800 and married individuals filing jointly with taxable income in excess of \$479,000. An additional 3.8% Medicare tax may also be imposed as discussed below.

Sales of Fund shares. When you sell your shares in the Fund, or exchange them for shares of a different Franklin Templeton fund, you will generally recognize a taxable capital gain or loss. If you have owned your Fund shares for more than one year, any net long-term capital gains may qualify for the reduced rates of taxation on long-term capital gains. An exchange of your shares in one class of the Fund for shares of another class of the same Fund is not taxable and no gain or loss will be reported on the transaction.

Cost basis reporting. If you acquire shares in the Fund on or after January 1, 2012, generally referred to as "covered shares," and sell or exchange them after that date, the Fund is generally required to report cost basis information to you and the IRS annually. The Fund will compute the cost basis of your covered shares using the average cost method, the Fund's "default method," unless you contact the Fund to select a different method, or choose to specifically identify your shares at the time of each sale or exchange. If your account is held by your financial advisor or other broker-dealer, that firm may select a different default method. In these cases, please contact the firm to obtain information with respect to the available methods and elections for your account. Shareholders should carefully review the cost basis information provided by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal and state income tax returns. Additional information about cost basis reporting is available at franklintempleton.com/costbasis.

Medicare tax. An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds a threshold amount. Any liability for this additional Medicare tax is reported on, and paid with, your federal income tax return.

Backup withholding. A shareholder may be subject to backup withholding on any distributions of income, capital gains, or proceeds from the sale or exchange of Fund shares if the shareholder has provided either an incorrect tax identification number or no number at all, is subject to backup withholding by the IRS for failure to properly report payments of interest or dividends, has failed to certify that the shareholder is not subject to backup withholding, or has not certified that the shareholder is a U.S. person (including a U.S. resident alien). The backup withholding rate is currently 24%. State backup withholding may also apply.

State, local and foreign taxes. Distributions of ordinary income and capital gains, and gains from the sale of your Fund shares, are generally subject to state and local taxes. If the Fund qualifies, it may elect to pass through to you as a foreign tax credit or deduction any foreign taxes that it pays on its investments.

Non-U.S. investors. Non-U.S. investors may be subject to U.S. withholding tax at 30% or a lower treaty rate on Fund dividends of ordinary income. Non-U.S. investors may be subject to U.S. estate tax on the value of their shares. They are subject to special U.S. tax certification requirements to avoid backup withholding, claim any exemptions from withholding and claim any treaty benefits. Exemptions from U.S. withholding tax are generally provided for capital gains realized on the sale of Fund shares, capital gain dividends paid by the Fund from net long-term capital gains, short-term capital gain dividends paid by the Fund from net short-term capital gains and interest-related dividends paid by the Fund from its qualified net interest income from U.S. sources. However, notwithstanding such exemptions from U.S. withholding tax at source, any such dividends and distributions of income and capital gains will be subject to backup withholding at a rate of 24% if you fail to properly certify that you are not a U.S. person.

Other reporting and withholding requirements. Payments to a shareholder that is either a foreign financial institution or a non-financial foreign entity within the meaning of the Foreign Account Tax Compliance Act (FATCA) may be subject to a 30% withholding tax on income dividends, and, after December 31, 2018, certain capital gain distributions, return-of-capital distributions and the gross proceeds from the redemption or exchange of Fund shares. The FATCA withholding tax generally can be avoided by such foreign entity if it provides the Fund, and in some cases, the IRS, information concerning the ownership of certain foreign financial accounts or other appropriate certifications or documentation concerning its status under FATCA. The Fund may be required to report certain shareholder account information to the IRS, non-U.S. taxing authorities or other parties to comply with FATCA.

Other tax information. This discussion of “Distributions and Taxes” is for general information only and is not tax advice. You should consult your own tax advisor regarding your particular circumstances, and about any federal, state, local and foreign tax consequences before making an investment in the Fund. Additional information about the tax consequences of investing in the Fund may be found in the SAI.

Financial Highlights

The Financial Highlights present the Fund’s financial performance for the past five years or since its inception. Certain information reflects financial results for a single Fund share. The total returns represent the rate that an investor would have earned

or lost on an investment in the Fund assuming reinvestment of dividends and capital gains. This information has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, whose report, along with the Fund’s financial statements, are included in the annual report, which is available upon request.

Class A

Year Ended March 31,

	2018	2017	2016	2015	2014
Per share operating performance (for a share outstanding throughout the year)					
Net asset value, beginning of year	\$11.81	\$10.19	\$13.47	\$18.10	\$16.94
Income from investment operations: ^a

Your Account

Notice of Automatic Conversion of Class C Shares to Class A Shares after 10-Year Holding Period

At Board meetings held on February 26 and 27, 2018, the Board of Trustees approved an automatic conversion feature for the Fund's Class C shares (which includes Class C1 shares as applicable) that will automatically convert shareholders' Class C shares into Class A shares of the same Fund after they have been held for 10 years. After conversion, your new shares will be subject to Class A shares' lower Rule 12b-1 fees. The conversion feature will become effective on or about October 5, 2018. Later that month Class C shares of the Fund that have been outstanding for 10 years or more will automatically convert to Class A shares of such Fund on the basis of the relative net asset values of the two classes. Thereafter, Class C shares of the Fund will convert automatically to Class A shares of such Fund on a monthly basis in the month of, or the month following, the 10-year anniversary of the Class C shares' purchase date. Class C shares of the Fund acquired through automatic reinvestment of dividends or distributions will convert to Class A shares of the Fund on the conversion date pro rata with the converting Class C shares of the Fund that were not acquired through reinvestment of dividends or distributions.

Shareholders will not pay a sales charge, including a contingent deferred sales charge, upon the conversion of their Class C shares to Class A shares pursuant to this conversion feature. The automatic conversion of the Fund's Class C shares into Class A shares after the 10-year holding period is not expected to be a taxable event for federal income tax purposes. Shareholders should consult with their tax advisor regarding the state and local tax consequences of such conversions.

Class C shares held through a financial intermediary in an omnibus account will be converted into Class A shares only if the intermediary can document that the shareholder has met the required holding period. In certain circumstances, when shares are invested through retirement plans, omnibus accounts, and in certain other instances, the Fund and its agents may not have transparency into how long a shareholder has held Class C shares for purposes of determining whether such Class C shares are eligible for automatic conversion into Class A shares and the financial intermediary may not have the ability to track purchases to credit individual shareholders' holding periods. This primarily occurs when shares are invested through certain record keepers for group retirement plans, where the intermediary cannot track share aging at the participant level. In these circumstances, the Fund will not be able to automatically convert Class C shares into Class A shares as described above. In order to determine eligibility for conversion in these circumstances, it is the responsibility of the shareholder or their financial intermediary to notify the Fund that the shareholder is eligible

for the conversion of Class C shares to Class A shares, and the shareholder or their financial intermediary may be required to maintain and provide the Fund with records that substantiate the holding period of Class C shares. It is the financial intermediary's (and not the Fund's) responsibility to keep records and to ensure that the shareholder is credited with the proper holding period. Please consult with your financial intermediary about your shares' eligibility for this conversion feature.

Also effective October 5, 2018, new accounts or plans may not be eligible to purchase Class C shares of the Fund if it is determined that the intermediary cannot track shareholder holding periods to determine whether a shareholder's Class C shares are eligible for conversion to Class A shares. Accounts or plans (and their successor, related and affiliated plans) that have Class C shares of the Fund available to participants on or before October 5, 2018, may continue to open accounts for new participants in such share class and purchase additional shares in existing participant accounts. The Fund has no responsibility for overseeing, monitoring or implementing a financial intermediary's process for determining whether a shareholder meets the required holding period for conversion.

A financial intermediary may sponsor and/or control accounts, programs or platforms that impose a different conversion schedule or different eligibility requirements for the conversion of Class C shares into Class A shares. In these cases, Class C shareholders may convert to Class A shares under the policies of the financial intermediary and the conversion may be structured as an exchange of Class C shares for Class A shares of the same Fund. Financial intermediaries will be responsible for making such exchanges in those circumstances. Please consult with your financial intermediary if you have any questions regarding your shares' conversion from Class C shares to Class A shares.

Choosing a Share Class

Each class has its own sales charge and expense structure, allowing you to choose the class that best meets your situation. Some share classes may not be offered by certain financial intermediaries. Your financial intermediary or investment representative (financial advisor) can help you decide which class is best for you. Investors may purchase Class C or Class R shares only for Fund accounts on which they have appointed an investment representative (financial advisor) of record. Investors who have not appointed an investment representative (financial advisor) to existing Class C or Class R share Fund accounts may not make additional purchases to those accounts but may exchange their shares for shares of a Franklin Templeton fund that offers Class C or Class R shares. Dividend and capital gain distributions may continue to be reinvested in existing Class C or Class R share Fund accounts. These provisions do not apply to Employer Sponsored Retirement Plans.

Class A	Class C	Class R	Class R6	Advisor Class
Initial sales charge of 5.75% or less	No initial sales charge	No initial sales charge	See "Qualified Investors - Class R6" below	See "Qualified Investors - Advisor Class" below
Deferred sales charge of 1% on purchases of \$1 million or more sold within 18 months	Deferred sales charge of 1% on shares you sell within 12 months	Deferred sales charge is not applicable		
Lower annual expenses than Class C or R due to lower distribution fees	Higher annual expenses than Class A due to higher distribution fees	Higher annual expenses than Class A due to higher distribution fees (lower than Class C)		

Class A, C & R

The availability of certain sales charge waivers and discounts may depend on whether you purchase your shares directly from the Fund or through a financial intermediary. Different intermediaries may impose different sales charges (including potential reductions in or waivers of sales charges) other than those listed below. Such intermediary-specific sales charge variations are described in Appendix A to this prospectus, entitled "Intermediary Sales Charge Discounts and Waivers." Appendix A is incorporated herein by reference (is legally a part of this prospectus).

In all instances, it is the purchaser's responsibility to notify the Fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. For waivers and discounts not available through a particular intermediary, shareholders will have to purchase Fund shares directly from the Fund or through another intermediary to receive these waivers or discounts.

Sales Charges - Class A

when you invest this amount	the sales charge makes up this % of the offering price ¹	which equals this % of your net investment ¹
Under \$50,000	5.75	6.10
\$50,000 but under \$100,000	4.50	4.71
\$100,000 but under \$250,000	3.50	3.63
\$250,000 but under \$500,000	2.50	2.56
\$500,000 but under \$1 million	2.00	2.04

1. The dollar amount of the sales charge is the difference between the offering price of the shares purchased (which factors in the applicable sales charge in this table) and the net asset value of those shares. Since the offering price is calculated to two decimal places using standard rounding criteria, the number of shares purchased and the dollar amount of the sales charge as a percentage of the offering price and of your net investment may be higher or lower depending on whether there was a downward or upward rounding.

On or about September 10, 2018, for Class A shares of the Fund, the new front-end sales charge and dealer commission schedules will be as follows:

Sales Charges - Class A

when you invest this amount	the sales charge makes up this % of the offering price ¹	which equals this % of your net investment ¹	dealer commission (as a percentage of offering price)
Under \$50,000	5.50	5.82	5.00
\$50,000 but under \$100,000	4.50	4.71	4.00
\$100,000 but under \$250,000	3.50	3.63	3.00
\$250,000 but under \$500,000	2.50	2.56	2.25
\$500,000 but under \$1 million	2.00	2.04	1.75
\$1 million or more	0.00	0.00	Up to 1.00

1. The dollar amount of the sales charge is the difference between the offering price of the shares purchased (which factors in the applicable sales charge in this table) and the net asset value of those shares. Since the offering price is calculated to two decimal places using standard rounding criteria, the number of shares purchased and the dollar amount of the sales charge as a percentage of the offering price and of your net investment may be higher or lower depending on whether there was a downward or upward rounding.

Sales Charge Reductions

Quantity discounts. We offer two ways for you to combine your current purchase of Class A Fund shares with other existing Franklin Templeton fund share holdings that might enable you to qualify for a lower sales charge with your current purchase. You can qualify for a lower sales charge when you reach certain “sales charge breakpoints.” This quantity discount information is also available free of charge at franklintempleton.com/quantity-discounts. This web page can also be reached at franklintempleton.com by clicking the “Products & Planning” tab and then choosing “Quantity Discounts for Class A Shares” under “Fund Resources.”

1. Cumulative quantity discount - lets you combine certain existing holdings of Franklin Templeton fund shares - referred to as “cumulative quantity discount eligible shares” - with your current purchase of Class A shares to determine if you qualify for a sales charge breakpoint.

Cumulative quantity discount eligible shares are Franklin Templeton fund shares registered to (or held by a financial intermediary for):

- You, individually;
- Your “family member,” defined as your spouse or domestic partner, as recognized by applicable state law, and your children under the age of 21;
- You jointly with one or more family members;

- You jointly with another person(s) who is (are) not family members if that other person has not included the value of the jointly-owned shares as cumulative quantity discount eligible shares for purposes of that person’s separate investments in Franklin Templeton fund shares;
- A Coverdell Education Savings account for which you or a family member is the identified responsible person;
- A trustee/custodian of an IRA (which includes a Roth IRA and an employer sponsored IRA such as a SIMPLE IRA) or your non-ERISA covered 403(b) plan account, if the shares are registered/recorded under your or a family member’s Social Security number;
- A 529 college savings plan over which you or a family member has investment discretion and control;
- Any entity over which you or a family member has (have) individual or shared authority, as principal, has investment discretion and control (for example, an UGMA/UTMA account for a child on which you or a family member is the custodian, a trust on which you or a family member is the trustee, a business account [not to include retirement plans] for your solely owned business [or the solely owned business of a family member] on which you or a family member is the authorized signer);
- A trust established by you or a family member as grantor.

Franklin Templeton fund shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (see definition below) such as a 401(k) plan do not qualify for a cumulative quantity discount.

Franklin Templeton fund assets held in multiple Employer Sponsored Retirement Plans may be combined in order to qualify for sales charge breakpoints at the plan level if the plans are sponsored by the same employer.

If you believe there are cumulative quantity discount eligible shares that can be combined with your current purchase to achieve a sales charge breakpoint (for example, shares held in a different broker-dealer’s brokerage account or with a bank or an investment advisor), it is your responsibility to specifically identify those shares to your financial advisor at the time of your purchase (including at the time of any future purchase). It may be necessary for you to provide your financial advisor with information and records (including account statements) of all relevant accounts invested in the Franklin Templeton funds. If you have not designated a financial advisor associated with your Franklin Templeton fund shares, it is your responsibility to specifically identify any cumulative quantity discount eligible shares to the Fund’s transfer agent at the time of any purchase.

If there are cumulative quantity discount eligible shares that would qualify for combining with your current purchase and you do not tell your financial advisor or the Franklin Templeton funds' transfer agent at the time of any purchase, you may not receive the benefit of a reduced sales charge that might otherwise be available since your financial advisor and the Fund generally will not have that information.

The value of cumulative quantity discount eligible shares equals the current or cost value of those shares, whichever is higher. The current value of shares is determined by multiplying the number of shares as of the day prior to your current purchase by their public offering price on the day of your current purchase. The cost value of shares is determined by aggregating the amount you invested in cumulative quantity discount eligible shares (including reinvested dividends and capital gains, but excluding capital appreciation), less any withdrawals, as of the date prior to your current purchase. It is your responsibility to retain any records necessary to substantiate historical share costs because neither your current financial advisor nor the Franklin Templeton funds may have or maintain this information.

An "Employer Sponsored Retirement Plan" is a Qualified Retirement Plan, ERISA covered 403(b) plan and certain non-qualified deferred compensation arrangements that operate in a similar manner to a Qualified Retirement Plan, such as 457 plans and executive deferred compensation arrangements, but not including employer sponsored IRAs. A "Qualified Retirement Plan" is an employer sponsored pension or profit sharing plan that qualifies under section 401(a) of the Internal Revenue Code, including 401(k), money purchase pension, profit sharing and defined benefit plans.

2. Letter of intent (LOI) - expresses your intent to buy a stated dollar amount of "cumulative quantity discount eligible shares" (as defined in the "Cumulative quantity discount" section above) over a 13-month period and lets you receive the same sales charge as if all shares had been purchased at one time; however, purchases made under a right of reinvestment, appreciation of your holdings, and reinvested dividends and capital gains do not count as purchases made during the LOI period. We will reserve 5% of your total intended purchase in Class A shares registered in your name until you fulfill your LOI to cover any additional sales charge that may apply if you do not buy the amount stated in your LOI. It is your responsibility to tell your financial advisor when you believe you have fulfilled your LOI with sufficient cumulative quantity discount eligible shares. The value of your cumulative quantity discount eligible shares (as calculated in the "Cumulative quantity discount" section above) as of the day prior to your LOI start date may be counted toward fulfillment of your LOI. The cost value of cumulative quantity discount eligible shares, however, may only be aggregated for share purchases that took place within 18 months of the LOI start date.

If you have not designated a financial advisor associated with your Franklin Templeton fund shares, it is your responsibility to tell the Fund's transfer agent when you believe you have fulfilled your LOI with sufficient cumulative quantity discount eligible shares. Please refer to the SAI for more LOI details.

To sign up for these programs, complete the appropriate section of your account application.

Franklin Templeton funds include all of the U.S. registered mutual funds of Franklin Templeton. They do not include the funds in the Franklin Templeton Variable Insurance Products Trust.

Sales Charge Waivers

Class A shares may be purchased without an initial sales charge or contingent deferred sales charge (CDSC) by certain investors. If you would like information about available sales charge waivers, call your investment representative or call Shareholder Services at (800) 632-2301.

Waivers for certain investors. The following investors or investments qualify to buy Class A shares without an initial sales charge or CDSC due to anticipated economies in sales efforts and expenses, including:

- Current employees of securities dealers that have executed a selling agreement with Franklin Templeton Distributors, Inc. (Distributors) and their affiliates and their family members, as allowed by the internal policies of their employer.
- Assets held in accounts managed by a subsidiary of Franklin Resources, Inc.: (1) under an advisory agreement (including sub-advisory agreements); and/or (2) as trustee of an inter vivos or testamentary trust.
- Group annuity separate accounts offered to retirement plans.
- Purchases by a bank, trust company or thrift institution that is acting as a fiduciary exercising investment discretion.
- Advisory Fee Programs. Shares acquired by an investor in connection with a comprehensive fee or other advisory fee arrangement between the investor and a registered broker-dealer, investment advisor, trust company, bank, or other financial intermediary (referred to as the "Sponsor") in which the investor pays that Sponsor a fee for investment advisory services and the Sponsor or a broker-dealer through whom the shares are acquired has an agreement with Distributors authorizing the sale of Fund shares. No minimum initial investment.
- Clients of financial intermediaries who have entered into an agreement with Distributors and have been approved by Distributors to offer Fund shares through a network, platform or self-directed investment brokerage account that may charge a transaction or other fee to customers.
- Shareholders who purchase directly from the Funds and not through any financial intermediary (i.e., Distributors is the broker of record).

Retirement plans. Provided that Franklin Templeton Investor Services, LLC is notified, Class A shares at NAV are available for:

- Employer Sponsored Retirement Plans (“Plans” or individually, “Plan”) that invest through a record-keeper platform or third party retirement platform; or
- Any investors who purchases shares with proceeds from an IRA for which Fiduciary Trust International of the South (FTIOS) is custodian.

Investments of \$1 Million or More

If you invest \$1 million or more, either as a lump sum or through our cumulative quantity discount or letter of intent programs, you can buy Class A shares without an initial sales charge. However, there is a 1% CDSC on any shares you sell within 18 months of purchase. The way we calculate the CDSC is the same for each class (please see “Contingent Deferred Sales Charge (CDSC) - Class A & C”).

Distribution and Service (12b-1) Fees

Class A has a distribution plan, sometimes known as a Rule 12b-1 plan, that allows the Fund to pay distribution fees of up to 0.30% per year to those who sell and distribute Class A shares and provide other services to shareholders. Because these fees are paid out of Class A’s assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. As set by the board of trustees (until further notice), the Fund currently may pay up to 0.25% under the Class A plan, notwithstanding the higher limit provided in such plan.

We calculate the amount of these fees over a 12-month period that may differ from the Fund’s fiscal year. Therefore, the amount shown from time to time in the Fund’s fee table (which is based upon the Fund’s fiscal year) may differ from the amount set forth in the Rule 12b-1 plan due to timing differences.

Sales Charges - Class C

With Class C shares, there is no initial sales charge.

We place any investment of \$1 million or more in Class A shares, since Class A’s annual expenses are lower.

CDSC

There is a 1% CDSC on any Class C shares you sell within 12 months of purchase. The way we calculate the CDSC is the same for each class (please see “Contingent Deferred Sales Charge (CDSC) - Class A & C”).

Distribution and Service (12b-1) Fees

Class C has a distribution plan, sometimes known as a Rule 12b-1 plan, that allows the Fund to pay distribution and other fees of up to 1% per year for the sale of Class C shares and for services provided to shareholders. Because these fees are paid

out of Class C’s assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Sales Charges - Class R

With Class R shares, there is no initial sales charge.

Retirement Plans

Class R shares are available to the following investors:

- Employer Sponsored Retirement Plans
- Health Reimbursement Accounts and Health Savings Accounts, either as a direct investment or as a separate or managed account.
- IRAs on financial intermediary platforms approved by Distributors
- Non-ERISA 403(b) plans
- Certain other retirement accounts held through financial intermediaries that have been approved by Distributors.

Distribution and Service (12b-1) Fees

Class R has a distribution plan, sometimes known as a Rule 12b-1 plan, that allows the Fund to pay distribution and other fees of up to 0.50% per year for the sale of Class R shares and for services provided to shareholders. Because these fees are paid out of Class R’s assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Contingent Deferred Sales Charge (CDSC) - Class A & C

The CDSC for each class is based on the current value of the shares being sold or their net asset value when purchased, whichever is less. There is no CDSC on shares you acquire by reinvesting your dividends or capital gain distributions.

To keep your CDSC as low as possible, each time you place a request to sell shares we will first sell any shares in your account that are not subject to a CDSC. If there are not enough of these to meet your request, we will sell the shares in the order they were purchased. We will use this same method if you exchange your shares into another Franklin Templeton fund (please see “Exchanging Shares”).

The **holding period for the CDSC** begins on the day you buy your shares. Your shares will age one month on that same date the next month and each following month. For example, if you buy shares on the 18th of the month, they will age one month on the 18th day of the next month and each following month.

Reinstatement Privilege

If you sell any class of shares of a Franklin Templeton Investments fund, you may reinvest all or a portion of the proceeds from that sale within 90 days within the same share class without an initial sales charge. If at the time of investment your shares are registered directly with the Fund's transfer agent: Class C or Class R shares will be reinvested in Class A shares if the account does not have an investment representative of record; and, proceeds from the earlier sale of Class Z shares from another fund may also be reinvested in Class A shares.

This reinstatement privilege does not apply to: (i) a purchase of Fund shares made through a regularly scheduled automatic investment plan such as a purchase by a regularly scheduled payroll deduction or transfer from a bank account, or (ii) a purchase of Fund shares with proceeds from the sale of Franklin Templeton fund shares that were held indirectly through a non-Franklin Templeton individual or employer sponsored IRA.

In order to take advantage of this reinstatement privilege, you must inform your investment representative or the Fund's transfer agent of this privilege at the time of your investment.

Generally, if you paid a CDSC when you sold your Class A or Class C shares, Distributors will credit back to you the CDSC paid on the amount you are reinvesting within 90 days of the sale by adding it to the amount of your reinvestment. For Class A shares reinvested with a CDSC credit, a new CDSC will apply and the CDSC holding period will begin again. For Class C shares reinvested with a CDSC credit in Class A shares, you will not receive a CDSC credit in the new Class A shares and your reinvestment will not be subject to any otherwise applicable CDSC.

Qualified Investors - Class R6

Class R6 shares are available to the following investors:

- Employer Sponsored Retirement Plans where plan level or omnibus accounts are held on the books of Franklin Templeton Investor Services.
- Endowments; foundations; local, city and state governmental institutions; corporations; non-profit organizations that are organized as corporations; and insurance companies, (collectively "institutional investors") when purchasing directly from a Fund. The minimum initial investment for institutional investors is \$1,000,000 per Fund.
- Unaffiliated U.S. registered mutual funds, including those that operate as "fund of funds."
- Other Franklin Templeton funds and funds for which Franklin Templeton investment managers provide advisory or subadvisory services.

- Intermediaries that execute an addendum to their selling agreement acknowledging that they are acting exclusively as agents of their clients in transacting in Class R6 shares.
- Advisory Fee Programs. A registered broker-dealer, investment advisor, trust company, bank, or other financial intermediary (referred to as a "Sponsor") that has an agreement with Distributors authorizing the sale of Fund shares and that acquires shares of the Fund for its clients in connection with a comprehensive fee or other advisory fee arrangement for which the client pays the Sponsor a fee for investment advisory services. No minimum initial investment.

Qualified Investors - Advisor Class

The following investors or investments qualify to buy Advisor Class shares of the Fund:

- Advisory Fee Programs. Shares acquired by an investor in connection with a comprehensive fee or other advisory fee arrangement between the investor and a registered broker-dealer, investment advisor, trust company, bank, or other financial intermediary (referred to as the "Sponsor") in which the investor pays that Sponsor a fee for investment advisory services and the Sponsor or a broker-dealer through whom the shares are acquired has an agreement with Distributors authorizing the sale of Fund shares. No minimum initial investment.
- Governments, municipalities, and tax-exempt entities that meet the requirements for qualification under section 501 of the Internal Revenue Code when purchasing direct from the Fund.
- Current employees of securities dealers that have executed a selling agreement with Distributors and their affiliates and their family members, as allowed by the internal policies of their employer.
- Current and former officers, trustees, directors, and full-time employees (and, in each case, their family members) of Franklin Templeton Investments or Franklin Templeton funds (including any foundation, trust or benefit plan maintained, owned, controlled, or established by or for any such person), consistent with our then-current policies. Minimum initial investment: \$1,000 (\$25 for accounts with an automatic investment plan).
- Assets held in accounts managed by a subsidiary of Franklin Resources, Inc.: (1) under an advisory agreement (including sub-advisory agreements); and/or (2) as trustee of an inter vivos or testamentary trust.
- Employer Sponsored Retirement Plans ("Plans" or individually, "Plan") that invest through a record-keeper or third party retirement platform.
- Plans with aggregate plan assets of \$1 million or more invested directly with Franklin Templeton Investments funds.

- Purchases by a bank, trust company or thrift institution that is acting as a fiduciary exercising investment discretion.
- Any trust or plan established as part of a qualified tuition program under Section 529 of the Internal Revenue Code.
- An individual or entity associated with a current customer of Franklin Templeton Institutional, LLC (FTI, LLC) if approved by FTI, LLC in consultation with its customers.
- Unaffiliated U.S. registered mutual funds, including those that operate as “fund of funds.”
- Assets held in accounts under the recommendation of an investment consultant provided that (1) assets are held with a firm unaffiliated with the investment consultant’s firm; (2) the investment consultant is under a retainer or other similar fee arrangement with its clients; (3) the client is not an individual; and (4) a subsidiary of Franklin Resources, Inc. approves the investment.
- Clients of financial intermediaries who have entered into an agreement with Distributors and have been approved by Distributors to offer Fund shares through a network, platform, or self-directed investment brokerage account that may charge a transaction or other fee to customers. Minimum initial investment \$100,000.

Waivers for Exchanges between Classes of the Same Fund

Financial Intermediary Exchanges between Classes of the Same Fund.

Exchanges between Classes of the same Fund as described below generally will be tax-free for federal income tax purposes. You should also consult with your tax advisor regarding the state and local tax consequences of such an exchange of Fund shares. These exchange privileges are subject to termination and may be amended from time to time.

Advisory Programs Eligible for Advisor Class or Class Z shares. Class A and Class C shares purchased by accounts participating in certain programs sponsored by and/or controlled by financial intermediaries (“Advisory Programs”) may be exchanged by the financial intermediary on behalf of the shareholder for Advisor Class shares of the same Fund under certain circumstances, including such Advisory Program’s eligibility to purchase Advisor Class shares of the Fund. Such exchange will be on the basis of each Class’ NAV per share, without the imposition of any sales charge, fee or other charge. Unless otherwise permitted, any CDSC owed must be paid on Class A and Class C shares that you wish to exchange.

Financial Intermediary Exchanges from Class C Shares to Class A Shares.

Class C shares purchased through financial intermediaries may be exchanged by the financial intermediary on behalf of the shareholder for Class A shares of

the same Fund under certain circumstances. Such exchange will be on the basis of each Class’ NAV per share, without the imposition of any sales charge, fee or other charge.

Buying Shares

Because of the nature of securities of frontier market companies, the Fund may periodically close to new investors to ensure orderly investment of cash proceeds in portfolio securities.

Minimum Investments - Class A, C & R

	Initial
Regular accounts, UGMA/UTMA accounts, current and former full-time employees, officers, trustees and directors of Franklin Templeton entities, and their family members	\$1,000
Automatic investment plans	\$25
Employer Sponsored Retirement Plans, SIMPLE-IRAs, SEP-IRAs, SARSEPs or 403(b) plan accounts	no minimum
IRAs, IRA rollovers, Coverdell Education Savings Plans or Roth IRAs	\$250
Broker-dealer sponsored wrap account programs	no minimum

Please note that you may only buy shares (including the purchase side of an exchange) of a fund eligible for sale in your state or jurisdiction. The Fund and other Franklin Templeton funds are intended for sale to residents of the United States, and, with very limited exceptions, are not registered or otherwise offered for sale in other jurisdictions.

In particular, the Fund is not registered in any provincial or territorial jurisdiction in Canada, and shares of the Fund have not been qualified for sale in any Canadian jurisdiction. The shares offered by this prospectus may not be directly or indirectly offered or sold in any provincial or territorial jurisdiction in Canada or to or for the benefit of residents thereof. Prospective investors may be required to declare that they are not Canadian residents and are not acquiring shares on behalf of any Canadian residents. Similarly, the Fund is not registered, and shares of the Fund have not been qualified for distribution, in any member country of the European Union (EU) or European Economic Area (EEA), and may not be directly or indirectly offered or distributed in any such country. If an investor becomes a Canadian, EU or EEA resident after purchasing shares of the Fund, the investor will not be able to purchase any additional shares of the Fund (other than reinvestment of dividends and capital gains) or exchange shares of the Fund for other U.S. registered Franklin Templeton funds.

Account Application

If you are opening a new account, please complete and sign the enclosed account application. Make sure you indicate the share class you have chosen. If you do not indicate a class, we will place your purchase in Class A shares. To save time, you can sign up now for services you may want on your account by completing the appropriate sections of the application (see “Investor Services”). For example, if you would like to link one of your bank accounts to your Fund account so that you may use electronic funds transfer to and from your bank account to buy and sell shares, please complete the bank information section of the application. We will keep your bank information on file for future purchases and redemptions. We do not accept cash, credit card convenience checks, non-bank money orders, travelers checks or checks drawn on foreign banks as forms of payment to purchase shares.

Investor Services

Automatic Investment Plan

This plan offers a convenient way for you to invest in the Fund by automatically transferring money from your checking or savings account each month to buy shares. To sign up, visit us online at franklintempleton.com or complete the appropriate section of your account application and send it to Investor Services. If you are opening a new account, please include your minimum initial investment with your application.

Automated Telephone System

Our automated system offers around-the-clock access to information about your account or any Franklin Templeton fund. This service is available by dialing any of the following numbers from a touch-tone phone:

Shareholder Services	(800) 632-2301
Advisor Services	(800) 524-4040
Retirement Services	(800) 527-2020

Distribution Options

You may reinvest distributions you receive from the Fund in an existing account in the same share class* of the Fund or another Franklin Templeton fund. Initial sales charges and CDSCs will not apply to reinvested distributions. You also can have your distributions deposited in a bank account, or mailed by check. Deposits to a bank account may be made by electronic funds transfer.

*Class C shareholders may reinvest their distributions in Class A shares of any Franklin Templeton money fund. Advisor Class shareholders may reinvest in Advisor Class or Class A shares of another Franklin Templeton fund. To reinvest your distributions in Advisor Class shares of another Franklin Templeton fund, you must be a current shareholder in Advisor Class or otherwise qualify to buy that fund's Advisor Class shares.

If you received a distribution and chose to return it to purchase additional shares in Class A shares of another Franklin Templeton fund, you will not be charged an initial sales charge if you invest the distribution within 90 days of the distribution date.

Please indicate on your application the distribution option you have chosen, otherwise we will reinvest your distributions in the same share class of the Fund.

Retirement Plans

Franklin Templeton Investments offers a variety of retirement plans for individuals and businesses. These plans require separate applications, may require special forms for redemptions, and their policies and procedures may be different than those described in this prospectus. For more information, including a free retirement plan brochure or application, please call Retirement Services at (800) 527-2020.

Telephone/Online Privileges

You will automatically receive telephone/online privileges when you open your account, allowing you to obtain or view your account information, and conduct a number of transactions by phone or online, including: buy, sell, or exchange shares of most funds; use electronic funds transfer to buy or sell shares of most funds; change your address; and add or change account services (including distribution options, systematic withdrawal plans and automatic investment plans).

To view your account information or request online transactions, you will first need to register for these services at the shareholder section of our website at franklintempleton.com. You will be asked to accept the terms of an online agreement(s) and establish a password for online services. If you are registered for online services, you may enroll online in Franklin Templeton's electronic delivery program for your shareholder documents. This will allow you to receive electronic delivery (through our website) of most Franklin Templeton funds' prospectuses, annual/semiannual reports to shareholders, and proxy statements, as well as your account(s) statements and trade confirmations, and discontinue receiving your paper copies through the U.S. mail. Using our shareholder website means you are consenting to sending and receiving personal financial information over the Internet, so you should be sure you are comfortable with the risks.

As long as we follow reasonable security procedures and act on instructions we reasonably believe are genuine, we will not be responsible for any losses that may occur from unauthorized requests. We will request passwords or other information, and also may record calls. We have the right (but have no obligation) to refuse a telephone request if the caller is unable to provide the requested information or if we reasonably believe the caller is not an individual authorized to act on the account. To help safeguard your account, keep your password confidential, and verify the accuracy of your confirmation statements immediately after you receive them. Contact us immediately if you believe someone has obtained unauthorized access to your account or password. For transactions done over the Internet, we recommend the use of an Internet browser with 128-bit encryption. Certain methods of contacting us (such as by phone or by Internet) may be unavailable or delayed during periods of unusual market activity. *Of course, you can choose not to register for online privileges. Additionally, if you don't want telephone privileges, or want to discontinue telephone/online privileges at any time please contact us for instructions.* You may reinstate these privileges at any time in writing, including online registration with respect to online privileges.

Note: We discourage you from including confidential or sensitive information in any Internet communication to us. If you do choose to send email (encrypted or not) to us over the Internet, you are accepting the associated risks of lack of confidentiality (such as the possibility that your personal information may be stolen or sold to others by third parties).

Systematic Withdrawal Plan

This plan allows you to automatically sell your shares and receive regular payments from your account. A CDSC may apply to withdrawals that exceed certain amounts. Certain terms and minimums apply. To sign up, visit us online at franklintempleton.com or contact us for instructions.

Franklin Templeton VIP Services®

You may be eligible for Franklin Templeton VIP Services® if you are currently eligible for the \$500,000 sales charge breakpoint based solely on shares registered directly with the Franklin Templeton funds' transfer agent and excluding shares held indirectly through brokerage accounts. Franklin Templeton VIP Services® shareholders enjoy enhanced service and transaction capabilities. Please contact Shareholder Services at (800) 632-2301 for additional information on this program.

Selling Shares

You can sell your shares at any time. To make a same day redemption, the redemption request must be received and accepted by us prior to 1 p.m. Pacific time or the regularly scheduled close of the New York Stock Exchange, whichever is earlier. Please keep in mind that a contingent deferred sales charge (CDSC) may apply.

Selling Shares in Writing

Generally, requests to sell \$100,000 or less can be made over the phone, online, or with a simple letter. Sometimes, however, to protect you and the Fund we will need written instructions signed by all registered owners, with a signature guarantee for each owner, if:

- you are selling more than \$100,000 worth of shares
- you want your proceeds paid to someone who is not a registered owner
- you want to send your proceeds somewhere other than the address of record, or preauthorized bank or brokerage firm account

We also may require a signature guarantee when: we receive instructions from an agent, not the registered owners; you want to send your proceeds to a bank account that was added or changed on your account without a signature guarantee within the last 15 days; you want to send proceeds to your address that was changed without a signature guarantee within the last 15 days; or we believe it would protect the Fund against potential claims based on the instructions received.

The amount may be higher for members of Franklin Templeton VIP Services®. Please see "Franklin Templeton VIP Services®" above for more information regarding eligibility.

A **signature guarantee** helps protect your account against fraud. You can obtain a signature guarantee at most banks and securities dealers.

A notary public CANNOT provide a signature guarantee.

Selling Recently Purchased Shares

If you sell shares recently purchased, we may delay sending you the proceeds until your check, draft or wire/electronic funds transfer has cleared, which may take seven business days.

Redemption Proceeds

Your redemption check will be sent within seven days after we receive your request in proper form. We are not able to receive or pay out cash in the form of currency.

Retirement Plans

You may need to complete additional forms to sell shares in a FTIOS retirement plan. For participants under the age of 59½, tax penalties may apply. Call Retirement Services at (800) 527-2020 for details.

Selling Shares

To sell some or all of your shares

Through your investment representative
Contact your investment representative

By Mail

Send written instructions and endorsed share certificates (if you hold share certificates) to Investor Services. Corporate, partnership or trust accounts may need to send additional documents.

Specify the Fund, the account number and the dollar value or number of shares you wish to sell. Be sure to include all necessary signatures and any additional documents, as well as signature guarantees if required.

A check will be mailed to the name(s) and address on the account, or otherwise according to your written instructions.

By Phone/Online

(800) 632-2301
franklintempleton.com

As long as your transaction is for \$100,000 or less and you do not hold share certificates, you can sell your shares by phone or online. The amount may be higher for members of Franklin Templeton VIP Services®. Please see "Franklin Templeton VIP Services®" above for more information regarding eligibility.

A check will be mailed to the name(s) and address on the account, or a pre-authorized secondary address. Written instructions, with a signature guarantee, are required to send the check to another address or to make it payable to another person.

If you have changed your address within the last 15 days without a signature guarantee, requests to sell your shares and mail the check to the name(s) and address on the account must be in writing and we may require a signature guarantee. Requests to sell your shares and send the proceeds to a pre-authorized secondary address may be requested by phone or online.

By Electronic Funds Transfer (ACH)

You can call, write, or visit us online to have redemption proceeds sent to a bank account. See the policies at left for selling shares by mail, phone, or online.

Before requesting to have redemption proceeds sent to a bank account, please make sure we have your bank account information on file. If we do not have this information, you will need to send written instructions with your bank's name and a voided check or savings account deposit slip. All bank and Fund account owners must sign the request. If the bank and Fund accounts do not have at least one common owner, each individual must also have his or her signature notarized.

If the bank account was added or changed without a signature guarantee within the last 15 days, you may be required to provide written instructions signed by all Fund account owners, with a signature guarantee for each Fund account owner.

If we receive your request in proper form prior to 1 p.m. Pacific time, or the regularly scheduled close of the New York Stock Exchange, whichever is earlier, proceeds sent by ACH generally will be available within two to three business days.

By Exchange

Obtain a current prospectus for the fund you are considering. Prospectuses are available online at franklintempleton.com.

Call Shareholder Services at the number below or send signed written instructions. You also may place an exchange order online. See the policies at left for selling shares by mail, phone, or online.

If you hold share certificates, you will need to return them to the Fund before your exchange can be processed.

Call toll-free: (800) 632-2301
or visit us online 24 hours a day, 7 days a week, at franklintempleton.com

Exchanging Shares

Exchange Privilege

Class A, C & R

You can exchange shares between most Franklin Templeton funds within the same class,* generally without paying any additional sales charges. If you exchange shares from a money fund and those shares were not charged a sales charge previously, however, a sales charge may apply.

*Class Z shareholders of Franklin Mutual Series Funds may exchange into Class A without any sales charge. Advisor Class shareholders of another Franklin Templeton fund also may exchange into Class A without any sales charge. If you exchange into Class A shares and you later decide you would like to exchange into a fund that offers an Advisor Class or Class Z, you may exchange your Class A shares for Advisor Class or Class Z shares if you are a current shareholder in Advisor Class or Class Z or you otherwise qualify to buy the fund's Advisor Class or Class Z shares.

Any CDSC will continue to be calculated from the date of your initial investment and will not be charged at the time of the exchange. The purchase price for determining a CDSC on exchanged shares will be the price you paid for the original shares.

Class R6

You can exchange your Class R6 shares for Class R6 shares of other Franklin Templeton funds. You also may exchange your Class R6 shares for Advisor Class shares of a fund that does not currently offer Class R6 shares.

Advisor Class

You can exchange your Advisor Class shares for Advisor Class shares of other Franklin Templeton funds. You also may exchange your Advisor Class shares for Class A shares of a fund that does not currently offer an Advisor Class (without any sales charge)* or for Class Z shares of Franklin Mutual Series Funds.

*If you exchange into Class A shares and you later decide you would like to exchange into a fund that offers an Advisor Class, you may exchange your Class A shares for Advisor Class shares if you are a current shareholder in Advisor Class or you otherwise qualify to buy the fund's Advisor Class shares.

All Classes

The remainder of the "Exchanging Shares" section applies to all classes.

Generally exchanges may only be made between identically registered accounts, unless you send written instructions with a signature guarantee.

An **exchange** is really two transactions: a sale of one fund and the purchase of another. In general, the same policies that apply to purchases and sales also apply to exchanges, including minimum investment amounts (except exchanges of an entire account balance). Exchanges also generally have the same tax consequences as ordinary sales and purchases.

Rejected exchanges. If the Fund rejects an exchange request involving the sale of Fund shares, the rejected exchange request will also mean rejection of the request to purchase shares of another fund with the proceeds of the sale. Of course, you may generally redeem shares of the Fund at any time.

Exchanges through financial intermediaries. If you are investing indirectly in the Fund through a financial intermediary such as a broker-dealer, a bank, an insurance company separate account, an investment advisor, an administrator or trustee of an IRS-recognized tax-deferred savings plan such as a 401(k) retirement plan and a 529 college savings plan that maintains a master account (an Omnibus Account) with the Fund for trading on behalf of its customers, different exchange and/or transfer limit guidelines and restrictions may apply. The financial intermediary through whom you are investing may choose to adopt different trading restrictions designed to discourage short-term or excessive trading. Consult with your financial intermediary (or in the case of a 401(k) retirement plan, your plan sponsor) to determine what trading restrictions, including exchange/transfer limitations, may be applicable to you.

Fund exchange privilege changes/waiver. The Fund may terminate or modify (temporarily or permanently) this exchange privilege in the future. You will receive at least 60 days' notice of any material changes, unless otherwise provided by law.

Other funds' exchange privileges. If there is a conflict between the exchange privileges of two funds involved in an exchange transaction, the stricter policy will apply to the transaction. Other Franklin Templeton funds may have different exchange restrictions. Check each fund's prospectus for details.

Exchange of shares into shares of the same Fund. The exchange of shares of one class into another class of the same Fund is not taxable for federal income tax purposes. However, shareholders should consult their tax advisors regarding the state and local tax consequences of a conversion or exchange of shares.

Frequent Trading Policy

The Fund's board of trustees has adopted the following policies and procedures with respect to frequent trading in Fund shares (Frequent Trading Policy).

The Fund does not intend to accommodate short-term or frequent purchases and redemptions of Fund shares that may be detrimental to the Fund. For example, this type of trading activity could interfere with the efficient management of the Fund's portfolio or materially increase the Fund's transaction costs, administrative costs or taxes.

In addition, since the Fund may invest in foreign securities, it may be vulnerable to a form of short-term trading that is sometimes referred to as "time-zone arbitrage." Time-zone arbitrage occurs when an investor seeks to take advantage of delays between changes in the value of a mutual fund's portfolio holdings and the reflection of those changes in the Fund's net asset value per share. These delays are more likely to occur in the case of foreign investments, due to differences between the times during which the Fund's international portfolio securities trade on foreign markets and the time as of which the Fund's NAV is calculated (generally as of

the close of the NYSE - please see “Account Policies - Calculating Share Price”). Time-zone arbitrage traders seek to purchase or redeem shares of a fund based on events occurring after foreign market closing prices are established, but before calculation of the fund’s NAV. This can result in the value of the Fund’s shares being diluted. One of the objectives of the Fund’s fair value pricing procedures is to minimize the possibility of this type of arbitrage (please see “Account Policies - Security Valuation - Foreign Securities - Potential Impact of Time Zones and Market Holidays”); however, there can be no assurance that the Fund’s valuation procedures will be successful in eliminating it.

Since the Fund may invest in securities that are, or may be, restricted, unlisted, traded infrequently, thinly traded, or relatively illiquid (“relatively illiquid securities”), it may be particularly vulnerable to arbitrage short-term trading. Such arbitrage traders may seek to take advantage of a possible differential between the last available market prices for one or more of those relatively illiquid securities that are used to calculate the Fund’s NAV and the latest indications of market values for those securities. One of the objectives of the Fund’s fair value pricing procedures is to minimize the possibilities of this type of arbitrage (please see “Account Policies - Fair Valuation - Individual Securities”); however, there can be no assurance that the Fund’s valuation procedures will be successful in eliminating it.

Through its transfer agent, the Fund performs ongoing monitoring of shareholder trading in shares of the Fund and other Franklin Templeton funds in order to try and identify shareholder trading patterns that suggest an ongoing short-term trading strategy. If shareholder trading patterns identified by the transfer agent through monitoring or from other information regarding the shareholder’s trading activity in non-Franklin Templeton funds leads the transfer agent to reasonably conclude that such trading may be detrimental to the Fund as described in this Frequent Trading Policy, the transfer agent, on behalf of the Fund, may temporarily or permanently bar future purchases into the Fund or, alternatively, may limit the amount, number or frequency of any future purchases and/or the method by which you may request future purchases and redemptions (including purchases and/or redemptions by an exchange or transfer between the Fund and any other mutual fund).

In considering an investor’s trading patterns, the Fund may consider, among other factors, the investor’s trading history both directly and, if known, through financial intermediaries, in the Fund, in other Franklin Templeton funds, in non-Franklin Templeton mutual funds, or in accounts under common control or ownership (see, for example, “Buying and Selling Shares - Investment by asset allocators and large shareholders” in the SAI). The transfer agent may also reject any purchase or redemption request, whether or not it represents part of any ongoing trading pattern, if the Fund’s investment manager or transfer agent reasonably concludes that the amount of the requested transaction may disrupt or otherwise interfere with the efficient management of the Fund’s portfolio. In determining what actions should

be taken, the Fund’s transfer agent may consider a variety of factors, including the potential impact of such remedial actions on the Fund and its shareholders. If the Fund is a “fund of funds,” the Fund’s transfer agent may take into account the impact of the trading activity and of any proposed remedial action on both the Fund and the affiliated underlying funds in which the Fund invests.

Frequent trading through financial intermediaries. You are an investor subject to this Frequent Trading Policy whether you are a direct shareholder of the Fund or you are investing indirectly in the Fund through a financial intermediary, such as a broker-dealer, bank, trust company, insurance company product such as an annuity contract, investment advisor, or an administrator or trustee of an IRS-recognized tax-deferred savings plan such as a 401(k) retirement plan and a 529 college savings plan.

Some financial intermediaries maintain master accounts with the Fund on behalf of their customers (“omnibus accounts”). The Fund has entered into “information sharing agreements” with these financial intermediaries, which permit the Fund to obtain, upon request, information about the trading activity of the intermediary’s customers that invest in the Fund. If the Fund’s transfer agent identifies omnibus account level trading patterns that have the potential to be detrimental to the Fund, the transfer agent may, in its sole discretion, request from the financial intermediary information concerning the trading activity of its customers. Based upon its review of the information, if the transfer agent determines that the trading activity of any customer may be detrimental to the Fund, it may, in its sole discretion, request the financial intermediary to restrict or limit further trading in the Fund by that customer. There can be no assurance that the transfer agent’s monitoring of omnibus account level trading patterns will enable it to identify all short-term trading by a financial intermediary’s customers.

Revocation of trades. While the Fund reserves the right to reject any purchase order for any reason, the Fund may also revoke executed purchase orders that the transfer agent reasonably concludes in its sole discretion may have been contrary to the objectives of the Fund’s Frequent Trading Policy.

Account Policies

Calculating Share Price

Class A & C

When you buy shares, you pay the “offering price” for the shares. The “offering price” is determined by dividing the NAV per share by an amount equal to 1 minus the sales charge applicable to the purchase (expressed in decimals), calculated to two decimal places using standard rounding criteria. The number of Fund shares you will be issued will equal the amount invested divided by the applicable offering price for those shares, calculated to three decimal places using standard rounding criteria. For example, if the NAV per share is \$10.25 and the applicable sales charge for the purchase is 5.75%, the offering price would be calculated as follows: $10.25 \div (1.00 - 0.0575) [10.25/0.9425]$ equals 10.87533, which, when rounded to two decimal points, equals 10.88. The offering price per share would be \$10.88.

When you sell shares, you receive the NAV minus any applicable CDSC.

All Classes

The value of a mutual fund is determined by deducting the fund’s liabilities from the total assets of the portfolio. The NAV per share is determined by dividing the total net asset value of each fund’s share class by the applicable number of shares outstanding per share class.

The Fund calculates the NAV per share each business day as of 1 p.m. Pacific time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. The Fund does not calculate the NAV on days the NYSE is closed for trading, which include New Year’s Day, Martin Luther King Jr. Day, President’s Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. If the NYSE has a scheduled early close, the Fund’s share price would be determined as of the time of the close of the NYSE. If, due to weather or other special or unexpected circumstances, the NYSE has an unscheduled early close on a day that it has opened for business, the Fund reserves the right to consider that day as a regular business day and accept purchase and redemption orders and calculate its share price as of the normally scheduled close of regular trading on the NYSE. The Fund’s NAV per share for each class is readily available online at www.franklintempleton.com/performance.

The Fund has an agreement with certain financial intermediaries that authorize them to accept orders or designate third parties to accept orders on behalf of the Fund. If you place your order through these financial intermediaries, the order will be considered received when they accept the order. Those orders will be priced at the next NAV calculated after acceptance of the order by the financial intermediary or its agent. If you place an order through an account at an intermediary, please

consult with the intermediary to determine when your order will be executed, as some intermediaries may require that they receive orders prior to a specified cut-off time.

Requests to buy and sell shares are processed at the NAV next calculated after we or an approved financial intermediary receive your request in proper form.

When determining its NAV, the Fund values cash and receivables at their realizable amounts, and records interest as accrued and dividends on the ex-dividend date. The Fund generally utilizes two independent pricing services to assist in determining a current market value for each security. If market quotations are readily available for portfolio securities listed on a securities exchange, the Fund values those securities at the last quoted sale price or the official closing price of the day, respectively, or, if there is no reported sale, within the range of the most recent quoted bid and ask prices. The Fund values over-the-counter portfolio securities within the range of the most recent bid and ask prices. If portfolio securities trade both in the over-the-counter market and on a stock exchange, the Fund values them according to the broadest and most representative market. Prices received by the Fund for securities may be based on institutional “round lot” sizes, but the Fund may hold smaller, “odd lot” sizes. Odd lots may trade at lower prices than round lots.

Generally, trading in corporate bonds, U.S. government securities and money market instruments is substantially completed each day at various times before 1 p.m. Pacific time. The value of these securities used in computing the NAV is determined as of such times. Occasionally, events affecting the values of these securities may occur between the times at which they are determined and 1 p.m. Pacific time that will not be reflected in the computation of the NAV. The Fund relies on third-party pricing vendors to provide evaluated prices that reflect current fair market value at 1 p.m. Pacific time.

Fair Valuation – Individual Securities

Since the Fund may invest in securities that are restricted, unlisted, traded infrequently, thinly traded, or relatively illiquid, there is the possibility of a differential between the last available market prices for one or more of those securities and the latest indications of market values for those securities. The Fund has procedures, approved by the board of trustees, to determine the fair value of individual securities and other assets for which market prices are not readily available (such as certain restricted or unlisted securities and private placements) or which may not be reliably priced (such as in the case of trade suspensions or halts, price movement limits set by certain foreign markets, and thinly traded or illiquid securities). Some methods for valuing these securities may include: fundamental analysis (earnings multiple, etc.), matrix pricing, discounts from market prices of similar securities, or

discounts applied due to the nature and duration of restrictions on the disposition of the securities. The board of trustees oversees the application of fair value pricing procedures.

The application of fair value pricing procedures represents a good faith determination based upon specifically applied procedures. There can be no assurance that the Fund could obtain the fair value assigned to a security if it were able to sell the security at approximately the time at which the Fund determines its NAV per share.

Security Valuation – Corporate Debt Securities

Corporate debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may value these portfolio securities by utilizing quotations from bond dealers, information with respect to bond and note transactions and may rely on independent pricing services to assist in determining a current market value for each security. The Fund's pricing services may utilize independent quotations from bond dealers and bond market activity to determine current value.

Security Valuation – Foreign Securities – Computation of U.S. Equivalent Value

The Fund generally determines the value of a foreign security as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 1 p.m. Pacific time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 1 p.m. Pacific time on the day that the value of the foreign security is determined. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices. Occasionally events (such as repatriation limits or restrictions) may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the board of trustees.

Security Valuation – Foreign Securities – Potential Impact of Time Zones and Market Holidays

Trading in securities on foreign securities stock exchanges and over-the-counter markets, such as those in Europe and Asia, may be completed before 1 p.m. Pacific time on each day that the Fund is open. Occasionally, events occur between the time at which trading in a foreign security is completed and 1 p.m. Pacific time that might call into question the availability (including the reliability) of the value of a foreign portfolio security held by the Fund. As a result, the Fund may be susceptible to what is referred to as "time-zone arbitrage." Certain investors in the Fund may seek to take advantage of discrepancies in the value of the Fund's portfolio securities as determined by the foreign market at its close and the latest indications

of value attributable to the portfolio securities at the time the Fund's NAV is computed. Trading by these investors, often referred to as "arbitrage market timers," may dilute the value of the Fund's shares, if such discrepancies in security values actually exist. To attempt to minimize the possibilities for time-zone arbitrage, and in accordance with procedures established and approved by the Fund's board of trustees, the investment manager monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds).

These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that might call into question the availability (including the reliability) of the values of foreign securities between the times at which they are determined and the time of the NAV calculation (1 p.m. Pacific time). If such an event occurs, the foreign securities may be valued using fair value procedures established and approved by the board of trustees. In certain circumstances these procedures include the use of independent pricing services. The intended effect of applying fair value pricing is to compute an NAV that accurately reflects the value of the Fund's portfolio at the time that the NAV is calculated, to discourage potential arbitrage market timing in Fund shares, to mitigate the dilutive impact of such attempted arbitrage market timing and to be fair to purchasing, redeeming and existing shareholders. However, the application of fair value pricing procedures may, on occasion, worsen rather than mitigate the potential dilutive impact of shareholder trading.

In addition, trading in foreign portfolio securities generally, or in securities markets in a particular country or countries, may not take place on every Funds' business day. Furthermore, trading takes place in various foreign markets on days that are not business days for the Funds, and on which the Fund's NAV is not calculated (in which case, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem Fund shares). Thus, the calculation of the Fund's NAV does not take place contemporaneously with the determination of the prices of many of the foreign portfolio securities used in the calculation. If events affecting the last determined values of these foreign securities occur (determined through the monitoring process described above), the securities will be valued at fair value determined in good faith in accordance with the Fund's fair value procedures established and approved by the board of trustees.

Accounts with Low Balances

If your account has been open for more than one year and its value falls below \$500, we will mail you a notice asking you to bring the account back up to its applicable minimum investment amount. If you choose not to do so within 30 days, we will close your account and mail the proceeds to the address of record. You

will not be charged a CDSC if your account is closed for this reason. This policy does not apply to: (1) certain broker-controlled accounts established through the National Securities Clearing Corporation's Networking system; (2) Class A accounts established pursuant to a conversion from Class B; (3) tax-deferred retirement plan accounts; (4) active automatic investment plan accounts; (5) broker-dealer sponsored separately managed accounts (wrap accounts); (6) accounts held through a 529 college savings program; and (7) Coverdell Education Savings Plan accounts.

Redemptions

Typically, the Fund uses cash and cash equivalents held in its portfolio or sells portfolio assets to meet all redemption needs. In unusual circumstances or under stressed market conditions, the Fund may use other methods to meet redemptions, such as the use of lines of credit or interfund lending in reliance on exemptive relief from the SEC. Also, see "Account Policies – Redemptions in Kind" for information regarding redemption requests that exceed \$250,000 or 1% of the value of the Fund's assets, whichever is less.

Redemptions in Kind

If your redemption requests during any 90-day period exceed \$250,000 (or 1% of the value of the Fund's net assets, if less), the Fund reserves the right to make payments in whole or in part in securities or other assets of the Fund. You should expect to incur transaction costs upon the disposition of the securities received in the distribution. In addition, you will bear the market risk of the securities you hold until the securities are sold.

Statements, Reports and Prospectuses

You will receive quarterly account statements that show all your account transactions during the quarter. You also will receive written notification after each transaction affecting your account (except for distributions and transactions made through automatic investment or withdrawal programs, which will be reported on your quarterly statement). Upon receipt, review all account statements and written notifications after each transaction affecting your account and notify us immediately if there is a discrepancy.

You also will receive the Fund's financial reports every six months as well as an annual updated prospectus. To reduce Fund expenses, we try to identify related shareholders in a household and send only one copy of the financial reports and prospectus. This process, called "householding," will continue indefinitely unless you instruct us otherwise. If you prefer not to have these documents househanded, please call us at (800) 632-2301. At any time you may view current prospectuses and financial reports on our website.

If you choose, you may receive your statements, financial reports and prospectuses through electronic delivery (please see "Investor Services - Telephone/Online Privileges").

Investment Representative Account Access

If there is a dealer or other investment representative of record on your account, he or she will be able to obtain your account information, conduct transactions for your account, and also will receive copies of all notifications and statements and other information about your account directly from the Fund.

Street or Nominee Accounts

You may transfer your shares from the street or nominee name account of one dealer to another, as long as both dealers have an agreement with Distributors. We will process the transfer after we receive authorization in proper form from your delivering securities dealer.

Joint Accounts

Unless you specify a different registration, shares issued to two or more owners are registered as "joint tenants with rights of survivorship" (shown as "Jt Ten" on your account statement). To make any ownership changes to jointly owned shares, or to sever a joint tenancy in jointly owned shares, all owners must agree in writing.

Joint Account Risk with Telephone/Online Privileges

You will automatically receive telephone/online privileges when you open your account. If your account has more than one registered owner, telephone/online privileges allow the Fund to accept online registration for online services (including electronic delivery of shareholder documents) and transaction instructions online or by telephone from only one registered owner. This means that *any one registered owner on your account, acting alone and without the consent of any other registered owner*, may give the Fund instructions by telephone, online or in writing (subject to any limitations in telephone or online privileges) to:

- Exchange shares from a jointly registered Fund account requiring all registered owner signatures into an identically registered money fund account that only requires one registered owner's signature to redeem shares;
- Redeem Fund shares and direct the redemption proceeds to a pre-established bank account that may or may not be owned by you and, if owned by you jointly with someone else, only requires one person to withdraw funds by check or otherwise; and
- Purchase Fund shares by debiting a pre-established bank account that may be owned by you.

If you do NOT want another registered owner on your account to be able to issue these kinds of instructions to the Fund without your consent, you must instruct the Fund to deny/terminate online privileges and the ability to issue such instructions by telephone so that these types of instructions will only be accepted in writing signed by all account owners. This decision will apply to any other fund into which you may exchange your jointly owned Fund shares. Any later decision to permit these types of instructions by telephone and/or online will need to be given to the Fund in a written instruction signed by all registered owners.

Additional Policies

Please note that the Fund maintains additional policies and reserves certain rights, including:

- The Fund may restrict, reject or cancel any purchase orders, including an exchange request.
- Typically, redemptions are processed by the next business day provided the redemption request is received in proper form and good order, but may take up to seven days to be processed if making immediate payment would adversely affect the Fund or there is another cause for delay (for example, if you sell shares recently purchased, proceeds may be delayed until your check, draft or wire/ electronic funds transfer has cleared).
- The Fund may modify, suspend, or terminate telephone/online privileges at any time.
- The Fund may make material changes to or discontinue the exchange privilege on 60 days' notice or as otherwise provided by law.
- The Fund may stop offering shares completely or may offer shares only on a limited basis, for a period of time or permanently.
- In unusual circumstances, we may temporarily suspend redemptions or postpone the payment of proceeds, as allowed by federal securities laws.
- For redemptions over a certain amount, the Fund may pay redemption proceeds in securities or other assets rather than cash if the investment manager determines it is in the best interest of the Fund, consistent with applicable law. Investors should expect to incur transaction costs upon the disposition of the securities received in the distribution.
- You may only buy shares of a fund (including the purchase side of an exchange) eligible for sale in your state or jurisdiction.
- To permit investors to obtain the current price, dealers are responsible for transmitting all orders to the Fund promptly.

- For non-retirement accounts, if you are receiving a dividend, capital gains or a systematic withdrawal plan payment in cash, and at least three consecutive checks remain uncashed for at least six months, the Fund reserves the right to change your distribution option to reinvest future distributions or discontinue your systematic withdrawal plan.

Dealer Compensation

Class A, C & R

Qualifying dealers who sell Fund shares may receive sales commissions and other payments. These are paid by Distributors from sales charges received from purchasing or redeeming shareholders, from distribution and service (12b-1) fees from the Fund and from Distributors' other financial resources. Dealers may also receive shareholder servicing fees for servicing investors who indirectly hold Franklin Templeton fund shares through dealer-maintained brokerage accounts as more fully described under "Shareholder servicing and transfer agent" of the "Management and Other Services" section in the SAI. These fees are paid by the Fund's transfer agent from payments it receives under its agreement with the Fund.

No dealer commission will be paid on Class A NAV purchases by Employer Sponsored Retirement Plans.

If any dealer commissions are paid in connection with a purchase which is subsequently rejected or results in any trading restriction placed on the purchaser as a result of a determination by the Fund's investment manager or transfer agent that the purchase may be connected with trading activity that may be detrimental to the Fund as described in the Fund's "Frequent Trading Policy," the dealer shall, upon demand, refund such commissions to Distributors.

	Class A	Class C	Class R
Commission (%)	—	1.00 ¹	—
Investment under \$50,000	5.00	—	—
\$50,000 but under \$100,000	3.75	—	—
\$100,000 but under \$250,000	2.80	—	—
\$250,000 but under \$500,000	2.00	—	—
\$500,000 but under \$1 million	1.60	—	—
\$1 million or more	up to 1.00	—	—
12b-1 fee to dealer	0.25 ^{2,3}	1.00 ⁴	0.50

1. Commission includes advance of the first year's 0.25% 12b-1 service fee. Distributors may pay a prepaid commission. However, Distributors does not pay a prepaid commission on any purchases by Employer Sponsored Retirement Plans.

2. For purchases at NAV where Distributors paid a prepaid commission, dealers may start to receive the 12b-1 fee in the 13th month after purchase. For purchases at NAV where Distributors did not pay a prepaid commission, dealers may start to receive the 12b-1 fee at the time of purchase.

3. Under the Distribution Plan for Class A, the Fund may pay up to 0.30% to Distributors or others, out of which 0.05% generally will be retained by Distributors for its distribution expenses. As set by the board of trustees (until further notice), the Fund currently may pay up to 0.25% under the Plan.

4. Dealers may be eligible to receive up to 0.25% at the time of purchase and may be eligible to receive 1% starting in the 13th month. During the first 12 months, the full 12b-1 fee will be paid to Distributors to partially offset the commission and the prepaid service fee paid at the time of purchase. For purchases at NAV where Distributors did not pay a prepaid commission, dealers may start to receive the 12b-1 fee at the time of purchase.

Purchases of Certain Share Classes through Financial Intermediaries (Class R6 and Advisor Class) There are no associated sales charges or Rule 12b-1 distribution and service fees for the purchase of Class R6 and Advisor Class shares. However, pursuant to SEC guidance, certain financial intermediaries acting as agents on behalf of their customers may directly impose on shareholders sales charges or transaction fees determined by the financial intermediary related to the purchase of these shares. These charges and fees are not disclosed in this prospectus. You should consult with your financial advisor or visit your financial intermediary's website for more information.

The Fund's service providers also may pay financial intermediaries for marketing support and other related services as disclosed below for Advisor Class shares, but not for Class R6 shares. These payments may create a conflict of interest by influencing the financial intermediary and your salesperson to recommend one share class over another. There is some uncertainty concerning whether marketing support or other similar payments may be made or received in connection with Advisor Class shares where a financial intermediary has imposed its own sales charges or transaction fees. Based on future regulatory developments, such payments may be terminated.

Other financial intermediary compensation Except with respect to Class R6 shares, Distributors may make marketing support payments (a portion of which may be reimbursable under the terms of the Fund's Rule 12b-1 distribution plans) to certain dealers and other financial intermediaries, such as banks, insurance companies, or plan administrators, in connection with their efforts to educate financial advisors or provide other services which may facilitate, directly or indirectly, investment in Franklin Templeton mutual funds. In the case of any one intermediary, marketing support payments will generally not exceed 0.05% of the total assets of Franklin Templeton mutual funds attributable to that intermediary, on an annual basis. For an intermediary exceeding \$15 billion in total assets of Franklin Templeton mutual funds, Distributors may agree to make annual marketing support payments exceeding 0.05% of such assets. For an intermediary exceeding \$50 billion in total assets of Franklin Templeton mutual funds, Distributors may agree to make annual marketing support payments up to a limit of 0.06% of such assets. Marketing support payments made to organizations located outside the U.S., with respect to investments in the Fund by non-U.S. persons, may exceed this limitation. Any assets held on behalf of Employer Sponsored Retirement Plans for which

payment is made to a financial intermediary pursuant to the following paragraph will be excluded from the calculation of marketing support payments pursuant to this paragraph.

Except with respect to Class R6 shares, Distributors and/or its affiliates may also make payments (a portion of which may be reimbursable under the terms of the Fund's Rule 12b-1 distribution plans) to certain financial intermediaries in connection with their activities that are intended to assist in the sale of shares of Franklin Templeton mutual funds, directly or indirectly, to certain Employer Sponsored Retirement Plans. In the case of any one financial intermediary, such payments will not exceed 0.10% of the total assets of Franklin Templeton mutual funds held, directly or indirectly, by such Employer Sponsored Retirement Plans, on an annual basis.

A number of factors will be considered in determining these payments, including the qualifying financial intermediary's sales, assets and redemption rates, the nature and quality of any servicing provided by the financial intermediary, and the quality of the financial intermediary's relationship with Distributors. Distributors will, on an annual basis, determine the advisability of continuing these payments. These payments may be in addition to any shareholder servicing fees paid by the Fund's transfer agent from payments it receives under its agreement with the Fund.

To the extent permitted by SEC and Financial Industry Regulatory Authority rules and other applicable laws and regulations, Distributors may, in addition to marketing support payments, pay or allow other promotional incentives or payments to financial intermediaries, such as payments related to transaction support, various financial intermediary-sponsored events intended to educate financial advisers and their clients about the Franklin Templeton mutual funds, and data analytics and support.

Sales of Fund shares, as well as shares of other mutual funds in Franklin Templeton Investments, is not considered a factor in the selection of financial intermediaries to execute the Fund's portfolio transactions. Accordingly, the allocation of portfolio transactions for execution by financial intermediaries that sell Fund shares is not considered marketing support payments to such financial intermediaries.

You can find further details in the SAI about the payments made by Distributors and the services provided by your financial advisor. Your financial advisor may charge you additional fees or commissions other than those disclosed in this prospectus. You should ask your financial advisor for information about any payments it receives from Distributors and any services it provides, as well as about fees and/or commissions it charges.

FOR MORE INFORMATION

You can learn more about the Fund in the following documents:

Annual/Semiannual Report to Shareholders

Includes a discussion of recent market conditions and Fund strategies that significantly affected Fund performance during its last fiscal year, financial statements, detailed performance information, portfolio holdings and, in the annual report only, the independent registered public accounting firm's report.

Statement of Additional Information (SAI)

Contains more information about the Fund, its investments and policies. It is incorporated by reference (is legally a part of this prospectus).

For a free copy of the current annual/semiannual report or the SAI, please contact your investment representative or call us at the number below. You also can view the current annual/semiannual report and the SAI online through franklintempleton.com.

Appendix A to the Prospectus — Intermediary Sales Charge Discounts and Waivers

Contains more information about specific sales charge discounts and waivers available for shareholders who purchase Fund shares through a specific financial intermediary. Appendix A is a separate document and is incorporated herein by reference (is legally a part of this prospectus).

You also can obtain information about the Fund by visiting the SEC's Public Reference Room in Washington, DC (phone (202) 551-8090) or the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>. You can obtain copies of this information, after paying a duplicating fee, by writing to the SEC's Public Reference Section, Washington, DC 20549-1520 or by electronic request at the following email address: publicinfo@sec.gov.

APPENDIX A INTERMEDIARY SALES CHARGE DISCOUNTS AND WAIVERS

Specific intermediaries may have different policies and procedures regarding the availability of front-end sales load (charge) waivers or CDSC waivers, which are discussed below. In all instances, it is the purchaser's responsibility to notify the Fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. For waivers and discounts not available through a particular intermediary, shareholders will have to purchase Fund shares directly from the Fund or through another intermediary to receive such waivers or discounts. Please see the section entitled "Fund Details – Your Account – Choosing a Share Class – Class A, & C" for more information on sales charges and waivers available for different classes.

The information in this Appendix is part of, and incorporated into, the Fund's prospectus.

CLASS A AND CLASS C PURCHASES THROUGH MERRILL LYNCH

Shareholders purchasing Fund shares through a Merrill Lynch platform or account will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at Merrill Lynch
Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
Shares purchased by or through a 529 Plan
Shares purchased through a Merrill Lynch affiliated investment advisory program
Shares purchased by third party investment advisors on behalf of their advisory clients through Merrill Lynch's platform
Shares of funds purchased through the Merrill Edge Self-Directed platform (if applicable)
Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family)
Shares exchanged from Class C (i.e. level-load) shares of the same fund in the month of or following the 10-year anniversary of the purchase date
Employees and registered representatives of Merrill Lynch or its affiliates and their family members
Directors or Trustees of the Fund, and employees of the Fund's investment

adviser or any of its affiliates, as described in this prospectus
Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement)
CDSC Waivers on A and C Shares available at Merrill Lynch
Death or disability of the shareholder
Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus
Return of excess contributions from an IRA Account
Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½
Shares sold to pay Merrill Lynch fees but only if the transaction is initiated by Merrill Lynch
Shares acquired through a right of reinstatement
Shares held in retirement brokerage accounts, that are exchanged for a lower cost share class due to transfer to certain fee based accounts or platforms
Front-end load Discounts Available at Merrill Lynch: Breakpoints, Rights of Accumulation & Letters of Intent
Breakpoints as described in this prospectus.
Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Merrill Lynch. Eligible fund family assets not held at Merrill Lynch may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets
Letters of Intent (LOI) which allow for breakpoint discounts based on anticipated purchases within a fund family, through Merrill Lynch, over a 13-month period of time (if applicable)

CLASS A PURCHASES THROUGH MORGAN STANLEY

Effective July 1, 2018 shareholders purchasing Fund shares through a Morgan Stanley Wealth Management transactional brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Fund's Prospectus or SAI.

Front-end Sales Charge Waivers on Class A Shares available at Morgan Stanley Wealth Management

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans

- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund
- Shares purchased through a Morgan Stanley self-directed brokerage account
- Class C (i.e., level-load) shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Morgan Stanley Wealth Management's share class conversion program
- Shares purchased from the proceeds of redemptions within the same fund family, provided (i) the repurchase occurs within 90 days following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.

CLASS A AND CLASS C PURCHASES THROUGH AMERIPRISE FINANCIAL

Automatic exchange of Class C shares. Class C shares will automatically exchange to Class A shares in the month of the 10-year anniversary of the purchase date.

Class A Shares Front-End Sales Charge Waivers Available at Ameriprise Financial:

The following information applies to Class A shares purchases if you have an account with or otherwise purchase Fund shares through Ameriprise Financial:

Effective June 1, 2018, shareholders purchasing Fund shares through an Ameriprise Financial platform or account will be eligible for the following front-end sales charge waivers and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI:

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Shares purchased through an Ameriprise Financial investment advisory program (if an Advisory or similar share class for such investment advisory program is not available).
- Shares purchased by third party investment advisors on behalf of their advisory clients through Ameriprise Financial's platform (if

an Advisory or similar share class for such investment advisory program is not available).

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same Fund (but not any other fund within the same fund family).
- Shares exchanged from Class C shares of the same fund in the month of or following the 10-year anniversary of the purchase date. To the extent that this prospectus elsewhere provides for a waiver with respect to such shares following a shorter holding period, that waiver will apply to exchanges following such shorter period. To the extent that this prospectus elsewhere provides for a waiver with respect to exchanges of Class C shares for load waived shares, that waiver will also apply to such exchanges.
- Employees and registered representatives of Ameriprise Financial or its affiliates and their immediate family members.
- Shares purchased by or through qualified accounts (including IRAs, Coverdell Education Savings Accounts, 401(k)s, 403(b) TSCAs subject to ERISA and defined benefit plans) that are held by a covered family member, defined as an Ameriprise financial advisor and/or the advisor's spouse, advisor's lineal ascendant (mother, father, grandmother, grandfather, great grandmother, great grandfather), advisor's lineal descendant (son, daughter, grandson, granddaughter, great grandson, great granddaughter) or any spouse of a covered family member who is a lineal descendant.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e. Rights of Reinstatement).
