

**FRANKLIN
TEMPLETON**

FRANKLIN RISING DIVIDENDS FUND

FRANKLIN MANAGED TRUST

SUMMARY PROSPECTUS | February 1, 2026

Class A	Class C	Class R	Class R6	Advisor Class
FRDPX	FRDTX	FRDRX	FRISX	FRDAX

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, statement of additional information, reports to shareholders and other information about the Fund online at www.franklintempleton.com/prospectus. You can also get this information at no cost by calling (800) DIAL BEN/342-5236 or by sending an e-mail request to prospectus.us.franklintempleton@fisglobal.com. The Fund's prospectus and statement of additional information, both dated February 1, 2026, as may be supplemented, are all incorporated by reference into this Summary Prospectus.

**SUPPLEMENT DATED APRIL 17, 2026
TO THE SUMMARY PROSPECTUS, PROSPECTUS AND
STATEMENT OF ADDITIONAL INFORMATION (“SAI”)
OF EACH FUND LISTED IN SCHEDULE A**

Effective May 31, 2026, the following supersedes any and all disclosure to the contrary in the Summary Prospectus, Prospectus and SAI of each fund listed in Schedule A:

The portfolio managers primarily responsible for the day-to-day management of the fund are Matthew D. Quinlan and Amritha Kasturirangan, CFA.

SCHEDULE A

<u>Fund</u>	<u>Date of Summary Prospectus, Prospectus and SAI</u>

<u>FRANKLIN TEMPLETON ETF TRUST</u> Franklin Dividend Growth ETF	August 28, 2025
<u>FRANKLIN TEMPLETON VARIABLE INSURANCE PRODUCTS TRUST</u> Franklin Rising Dividends VIP Fund	May 1, 2025

Please retain this supplement for future reference.

Fund Summary

Investment Goal

Long-term capital appreciation. Preservation of capital, while not a goal, is also an important consideration.

Fees and Expenses of the Fund

These tables describe the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees (including on Class R6 and Advisor Class shares), such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts in Class A if you and your family invest, or agree to invest in the future, at least \$25,000 in Franklin Templeton funds and certain other funds distributed through Franklin Distributors, LLC, the Fund’s distributor. More information about these and other discounts is available from your financial professional and under “Your Account” on page 31 in the Fund’s Prospectus and under “Buying and Selling Shares” on page 40 of the Fund’s Statement of Additional Information. In addition, more information about sales charge discounts and waivers for purchases of shares through specific financial intermediaries is set forth in Appendix A – “Intermediary Sales Charge Discounts and Waivers” to the Fund’s prospectus.

Shareholder Fees

(fees paid directly from your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Maximum Sales Charge (Load) Imposed on Purchases (as percentage of offering price)	5.50%	None	None	None	None
Maximum Deferred Sales Charge (Load) (as percentage of the lower of original purchase price or sale proceeds)	None ¹	1.00%	None	None	None

¹ There is a 1% contingent deferred sales charge that applies to investments of \$1 Million or more (see "Investments of \$1 Million or More" under "Choosing a Share Class") and purchases by certain retirement plans without an initial sales charge on shares sold within 18 months of purchase.

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Management fees	0.49%	0.49%	0.49%	0.49%	0.49%
Distribution and service (12b-1) fees	0.25%	1.00%	0.50%	None	None
Other expenses	0.09%	0.09%	0.09%	0.02%	0.09%
Acquired fund fees and expenses	0.01%	0.01%	0.01%	0.01%	0.01%
Total annual Fund operating expenses ¹	0.84%	1.59%	1.09%	0.52%	0.59%
Fee waiver and/or expense reimbursement ²	-0.01%	-0.01%	-0.01%	None	-0.01%
Total annual Fund operating expenses after fee waiver and/or expense reimbursement	0.83%	1.58%	1.08%	0.52%	0.58%

¹ Total annual Fund operating expenses differ from the ratio of expenses to average net assets shown in the Financial Highlights, which reflect the operating expenses of the Fund and do not include acquired fund fees and expenses.

² The investment manager has agreed to reduce its fees to reflect reduced services resulting from the Fund's investments in Franklin Templeton affiliated funds. In addition, the transfer agency fees on Class R6 shares of the Fund have been capped so that transfer agency fees for that class do not exceed 0.03%. These contractual arrangements are expected to continue until January 31, 2027. During the terms, the fee waiver and expense reimbursement agreements may not be terminated or amended without approval of the board of trustees except to add series or classes, to reflect the extension of termination dates or to lower the waiver and expense limitation (which would result in lower fees for shareholders).

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of the period. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The Example reflects adjustments made to the Fund's operating expenses due to the fee waivers and/or expense reimbursements by management for the 1 Year numbers only. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A	\$630	\$802	\$989	\$1,528
Class C	\$261	\$501	\$865	\$1,688
Class R	\$110	\$345	\$600	\$1,328
Class R6	\$53	\$167	\$291	\$652
Advisor Class	\$59	\$188	\$329	\$738
If you do not sell your shares:				
Class C	\$161	\$501	\$865	\$1,688

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 11.20% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund invests at least 80% of its net assets in investments of companies that have paid consistently rising dividends. The Fund invests predominantly in equity securities, primarily common stock. Companies that have paid consistently rising dividends include those companies that currently pay dividends on their common stocks and have maintained or increased their dividend rate during the last four consecutive years.

Under normal market conditions, the Fund invests at least 65% of its net assets in securities of companies that have:

- consistently increased dividends in at least 8 out of the last 10 years and have not decreased dividends during that time;
- increased dividends substantially (at least 100%) over the last 10 years;
- reinvested earnings, paying out less than 65% of current earnings in dividends (except for utility companies); and
- either long-term debt that is no more than 50% of total capitalization (except for utility companies) or senior debt that has been rated investment grade by at least one of the major bond rating organizations.

In addition to the criteria above, the investment manager utilizes a comprehensive suite of valuation tools in seeking investments which trade below the investment manager's view of intrinsic value.

The Fund typically invests the rest of its assets in equity securities of companies that pay dividends but do not meet all of these criteria. The Fund may invest in companies of any size, across the entire market spectrum. Although the investment manager searches for investments that it believes to meet the criteria across all sectors, from time to time, based on economic conditions, the Fund may have significant positions in particular sectors, including technology.

The investment manager is a research driven, fundamental investor. As a "bottom-up" investor focusing primarily on individual securities, the investment manager

looks for companies that it believes meet the criteria above and are fundamentally sound and attempts to acquire them at attractive prices. In following these criteria, the Fund does not necessarily focus on companies whose securities pay a high dividend rate but rather on companies that consistently increase their dividends.

The Fund may invest up to 15% of its total assets in foreign securities.

Principal Risks

You could lose money by investing in the Fund. Mutual fund shares are not deposits or obligations of, or guaranteed or endorsed by, any bank, and are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board, or any other agency of the U.S. government.

Market: The market values of securities or other investments owned by the Fund will go up or down, sometimes rapidly or unpredictably. The market value of a security or other investment may be reduced by market activity or other results of supply and demand unrelated to the issuer. This is a basic risk associated with all investments. When there are more sellers than buyers, prices tend to fall. Likewise, when there are more buyers than sellers, prices tend to rise. In addition, the value of the Fund's investments may go up or down due to general market or other conditions that are not specifically related to a particular issuer, such as: real or perceived adverse economic changes, including widespread liquidity issues and defaults in one or more industries; changes in interest, inflation or exchange rates; unexpected natural and man-made world events, such as diseases or disasters; financial, political or social disruptions, including terrorism and war; and U.S. trade disputes or other disputes with specific countries that could result in additional tariffs, trade barriers and/or investment restrictions in certain securities in those countries. Any of these conditions can adversely affect the economic prospects of many companies, sectors, nations, regions and the market in general, in ways that cannot necessarily be foreseen.

Stock prices tend to go up and down more dramatically than those of debt securities. A slower-growth or recessionary economic environment could have an adverse effect on the prices of the various stocks held by the Fund.

Dividend-Oriented Companies: Companies that have historically paid regular dividends to shareholders may decrease or eliminate dividend payments in the future. A decrease in dividend payments by an issuer may result in a decrease in the value of the issuer's stock and less available income for the Fund.

Small and Mid Capitalization Companies: Securities issued by small and mid capitalization companies may be more volatile in price than those of larger companies and may involve substantial risks. Such risks may include greater sensitivity to economic conditions, less certain growth prospects, lack of depth of

management and funds for growth and development, and limited or less developed product lines and markets. In addition, small and mid capitalization companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans. The markets for securities issued by small and mid capitalization companies also tend to be less liquid than the markets for securities issued by larger companies.

Focus: To the extent that the Fund focuses on particular countries, regions, industries, sectors or types of investments from time to time, the Fund may be subject to greater risks of adverse developments in such areas of focus than a fund that invests in a wider variety of countries, regions, industries, sectors or investments.

Technology companies: Companies in the technology sector have historically been volatile due to the rapid pace of product change and development within the sector. For example, their products and services may not prove commercially successful or may become obsolete quickly. In addition, delays in or cancellation of the release of anticipated products or services may also affect the price of a technology company's stock. Technology companies are subject to significant competitive pressures, such as new market entrants, aggressive pricing and tight profit margins. The activities of these companies may also be adversely affected by changes in government regulations, worldwide technological developments or investor perception of a company and/or its products or services. The stock prices of companies operating within this sector may be subject to abrupt or erratic movements.

Management: The Fund is subject to management risk because it is an actively managed investment portfolio. The Fund's investment manager applies investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these decisions will produce the desired results.

Foreign Securities (non-U.S.): Investing in foreign securities typically involves different risks than investing in U.S. securities, including risks related to currency exchange rates and policies, country or government specific issues, less favorable trading practices or regulation and greater price volatility. Certain of these risks also may apply to securities of U.S. companies with significant foreign operations. The risks of investing in foreign securities are typically greater in less developed or emerging market countries.

Cybersecurity: Cybersecurity incidents, both intentional and unintentional, may allow an unauthorized party to gain access to Fund assets, Fund or customer data (including private shareholder information), or proprietary information, cause the Fund, the investment manager, and/or their service providers (including, but not

limited to, Fund accountants, custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality or prevent Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The investment manager has limited ability to prevent or mitigate cybersecurity incidents affecting third party service providers, and such third party service providers may have limited indemnification obligations to the Fund or the investment manager. Cybersecurity incidents may result in financial losses to the Fund and its shareholders, and substantial costs may be incurred in an effort to prevent or mitigate future cybersecurity incidents. Issuers of securities in which the Fund invests are also subject to cybersecurity risks, and the value of these securities could decline if the issuers experience cybersecurity incidents.

Because technology is frequently changing, new ways to carry out cyber attacks are always developing. Therefore, there is a chance that some risks have not been identified or prepared for, or that an attack may not be detected, which puts limitations on the Fund's ability to plan for or respond to a cyber attack. Like other funds and business enterprises, the Fund, the investment manager, and their service providers are subject to the risk of cyber incidents occurring from time to time.

Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the Fund's performance from year to year for Class A shares. The table shows how the Fund's average annual returns for 1 year, 5 years, 10 years or since inception, as applicable, compared with those of a broad measure of market performance and an additional index with characteristics relevant to the Fund. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. You can obtain updated performance information at www.franklintempleton.com or by calling (800) DIAL BEN/342-5236.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

Class A Annual Total Returns

Best Quarter:	2020, Q2	19.71%
Worst Quarter:	2020, Q1	-20.43%

Average Annual Total Returns

(figures reflect sales charges)

For periods ended December 31, 2025

	1 Year	5 Years	10 Years
Franklin Rising Dividends Fund - Class A			
Return before taxes	5.74%	8.27%	11.34%
Return after taxes on distributions	3.40%	6.60%	10.07%
Return after taxes on distributions and sale of Fund shares	5.08%	6.34%	9.16%
Franklin Rising Dividends Fund - Class C	10.06%	8.69%	11.14%
Franklin Rising Dividends Fund - Class R	11.61%	9.23%	11.69%
Franklin Rising Dividends Fund - Class R6	12.24%	9.85%	12.35%
Franklin Rising Dividends Fund - Advisor Class	12.18%	9.78%	12.25%
Russell 3000® Index (index reflects no deduction for fees, expenses or taxes)	17.15%	13.15%	14.28%
NASDAQ US Broad Dividend Achievers Index (index reflects no deduction for fees, expenses or taxes)	14.50%	11.95%	12.41%
S&P 500® Index (index reflects no deduction for fees, expenses or taxes)	17.88%	14.43%	14.82%

No one index is representative of the Fund's portfolio.

The figures in the average annual total returns table above reflect the Class A shares maximum front-end sales charge of 5.50%. Prior to September 10, 2018,

Class A shares were subject to a maximum front-end sales charge of 5.75%. If the prior maximum front-end sales charge of 5.75% was reflected, performance for Class A shares in the average annual total returns table would be lower.

The after-tax returns presented in the table are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown only for Class A and after-tax returns for other classes will vary.

Important data provider notices and terms are available at www.franklintempletondatasources.com. Such information is subject to change.

Investment Manager

Franklin Advisers, Inc. (Advisers or investment manager)

Portfolio Managers

Matthew D. Quinlan

Senior Vice President of Advisers and portfolio manager of the Fund since 2019.

Amritha Kasturirangan, CFA

Portfolio Manager of Advisers and portfolio manager of the Fund since 2019.

Nayan Sheth, CFA

Portfolio Manager of Advisers and portfolio manager of the Fund since 2019.

Purchase and Sale of Fund Shares

You may purchase or redeem shares of the Fund on any business day online through our website at www.franklintempleton.com, by mail (Franklin Templeton Investor Services, P.O. Box 33030, St. Petersburg, FL 33733), or by telephone at (800) 632-2301. For Class A, C and R, the minimum initial purchase for most accounts is \$1,000 (or \$25 under an automatic investment plan). Class R6 and Advisor Class are only available to certain qualified investors and the minimum initial investment will vary depending on the type of qualified investor, as described under "Your Account — Choosing a Share Class — Qualified Investors — Class R6" and "— Advisor Class" in the Fund's prospectus. There is no minimum investment for subsequent purchases.

Taxes

The Fund's distributions are generally taxable to you as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-

advantaged arrangement, such as a 401(k) plan or an individual retirement account, in which case your distributions would generally be taxed when withdrawn from the tax-advantaged account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary's website for more information.
