SUPPLEMENT DATED SEPTEMBER 12, 2025 TO THE
PROSPECTUS AND STATEMENT OF ADDITIONAL
INFORMATION (“SAI”)
OF EACH FUND LISTED IN SCHEDULE A**

Effective September 12, 2025, the following changes are made to the prospectus and SAI of each fund listed in Schedule A.

1. The following replaces the section titled “Redeeming shares — Redemption proceeds” in each fund’s prospectus:

Your redemption proceeds normally will be sent within 2 business days after your request is received in good order, but in any event within 7 days, regardless of the method the fund uses to make such payment (e.g., check, wire or electronic transfer (ACH)). If you make a redemption request before the fund has collected payment for the purchase of shares, the fund may delay your proceeds until payment is collected, for up to 10 days.

Your redemption proceeds may be delayed, or your right to receive redemption proceeds suspended beyond 7 days, if the NYSE is closed (other than on weekends or holidays) or trading is restricted, if an emergency exists, or otherwise as permitted by order of the Securities and Exchange Commission (“SEC”).

If you have a brokerage account with a Service Agent, your redemption proceeds may be sent to your Service Agent. Your redemption proceeds can be sent by check to your address of record or by wire or electronic transfer (ACH) to a bank account designated by you. To change the bank account designated to receive wire or electronic transfers, you will be required to deliver a new written authorization and may be asked to provide other documents. You may be charged a fee by your bank on a wire or an electronic transfer (ACH).

In other cases, unless you direct otherwise, your proceeds will be paid by check mailed to your address of record. You will not receive interest on uncashed redemption checks.

Under normal circumstances, the fund expects to meet redemption requests by using cash or cash equivalents in its portfolio and/or selling portfolio assets to generate cash. The fund also may pay redemption proceeds using cash obtained through borrowing arrangements that may be available from time to time.

To the extent consistent with applicable laws and regulations, the fund reserves the right to pay all or a portion of your redemption proceeds by giving you securities (an “in-kind” redemption), under both normal and stressed market conditions. The fund generally expects to use in-kind redemptions in stressed market conditions or under other circumstances where the manager considers in-kind redemption to be beneficial to the fund, such as redemption requests that represent a large percentage of the fund’s net assets in order to minimize the effect of the large redemption on the fund and its remaining shareholders. The fund does not expect to use in-kind redemptions for retail investors who hold shares of the fund through a financial intermediary.

In-kind redemptions typically will be effected through a pro rata distribution of all publicly traded portfolio securities or securities for which quoted bid prices are available, subject to certain exceptions. In some cases, in-kind redemptions may be made other than through a pro rata distribution in accordance with procedures approved by the fund’s Board. The securities distributed in an in-kind redemption will be valued in the same manner as they are valued for purposes of computing the fund’s net asset value.

You may pay transaction costs to dispose of securities received through an in-kind redemption, and you may receive less for them than the price at which they were valued for purposes of the redemption.

The fund has available an unsecured revolving credit facility (the “Global Credit Facility”) that may be used as an additional source of liquidity to fund redemptions of shares. There can be no assurance that the Global Credit Facility will remain available to the fund generally or that any available credit under the Global Credit Facility will be available to the fund when the fund seeks to draw on the Global Credit Facility.

During periods of deteriorating or stressed market conditions, when an increased portion of the fund’s portfolio may be

comprised of investments that have lower liquidity, or during extraordinary or emergency circumstances, the fund may be more likely to pay redemption proceeds with cash obtained through short-term borrowing arrangements (if available) or by giving you securities.

For information regarding procedures for in-kind redemptions, please contact the Distributor.

2. The following replaces the section titled “Redemption of Shares — Redemptions In Kind” in each fund’s SAI:

To the extent consistent with applicable laws and regulations, the Fund reserves the right to satisfy all or a portion of a redemption request by distributing securities or other property in lieu of cash (“in-kind” redemptions), except in the case of redemption requests by retail investors who hold shares of the Fund through financial intermediaries. The Fund will effect an in-kind redemption only when the Fund determines it to be in the Fund’s best interest to do so, and in accordance with the Fund’s policies on in-kind redemptions. In-kind redemptions may benefit the Fund and its shareholders by reducing the need to maintain significant cash balances or to sell securities held in the Fund to meet redemption requests, or for other selling activities and, in so doing, may avoid or reduce cash drag, transaction costs and capital gain realization that could otherwise arise from reserves maintained or securities sold.

In some circumstances, the Fund, in its discretion, may accept large purchase orders from one or more financial institutions that are willing, upon redemption of their investment, to receive redemption proceeds in-kind rather than in cash. The Fund’s ability to pay these redemption proceeds in-kind relieves it of the need to sell the securities that are distributed in-kind and allows it to avoid the brokerage and other transaction costs associated with such sale. As with other in-kind redemptions, the Fund would enter into these transactions only when it determines it to be in the Fund’s best interests to do so, and in accordance with the Fund’s policies covering in-kind redemptions.

With respect to any in-kind redemption, shareholders will receive either a pro rata basket or a custom basket of securities. In constructing a custom basket, the Manager may select, or give greater weight to, specific securities as a means of their disposition.

Securities delivered through an in-kind redemption will be valued in the same manner as they are for purposes of determining the Fund's net asset value.

The Fund may provide a shareholder receiving redemption proceeds in-kind with information concerning the securities to be distributed. To the extent the redeeming shareholder receives information regarding a significant portion of the securities held by the Fund, the redeeming shareholder may be required to agree to keep the information confidential, except to the extent necessary to dispose of the securities.

Any transaction costs or other expenses involved in liquidating securities received in an in-kind redemption will be borne by the redeeming investor. The market price of those securities will be subject to fluctuation until they are sold. In addition, a redemption is generally a taxable event for shareholders, regardless of whether the redemption is satisfied in cash or in kind.

Also, there is a risk that in-kind redemptions could negatively impact the market value of the securities redeemed in-kind and, in turn, the net asset value of the Fund.

For additional information regarding procedures for in-kind redemptions, please contact the Distributor.

WESTERN ASSET FUNDS, INC.
SUPPLEMENT DATED MAY 14, 2025 TO THE
PROSPECTUS OF EACH FUND LISTED IN SCHEDULE A**

For each of the funds listed in Schedule A, the following disclosure replaces and supersedes the corresponding Stifel, Nicolaus & Company, Inc. disclosure in each fund's Prospectus in the appendix titled "Appendix: Waivers and Discounts Available from Certain Service Agents":

**STIFEL, NICOLAUS & COMPANY, INCORPORATED AND ITS
BROKER DEALER AFFILIATES ("STIFEL")**

Shareholders purchasing or holding fund shares, including existing fund shareholders, through a Stifel or affiliated platform that provides trade execution, clearance, and/or custody services, will be eligible for the following sales charge load waivers (including front-end sales charge waivers and contingent deferred, or back-end, ("CDSC") sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this prospectus or the fund's SAI.

Class A Shares

As described elsewhere in this prospectus, Stifel may receive compensation out of the front-end sales charge if you purchase Class A shares through Stifel.

Rights of Accumulation

- Rights of accumulation ("ROA") that entitle shareholders to breakpoint discounts on front-end sales charges will be calculated by Stifel based on the aggregated holding of eligible assets in Franklin Templeton funds held by accounts within the purchaser's

household at Stifel. Ineligible assets include Class A Money Market Funds not assessed a sales charge. Fund family assets not held at Stifel may be included in the calculation of ROA only if the shareholder notifies his or her financial advisor about such assets.

- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.

Front-end Sales Charge Waivers on Class A Shares Available at Stifel

Sales charges may be waived for the following shareholders and in the following situations:

- Class C shares that have been held for more than seven (7) years may be converted to Class A shares or other front-end share class(es) shares of the same fund pursuant to Stifel's policies and procedures. To the extent that this prospectus elsewhere provides for a waiver with respect to the exchange or conversion of such shares following a shorter holding period, those provisions shall continue to apply.
- Shares purchased by employees and registered representatives of Stifel or its affiliates and their family members as designated by Stifel.
- Shares purchased in a Stifel fee-based advisory program, often referred to as a "wrap" program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same or other fund within the fund family.
- Shares purchased from the proceeds of redeemed shares of the same fund family so long as the proceeds are from the sale of shares from an account with the same owner/beneficiary within 90 days of the purchase. For the absence of doubt, automated transactions (i.e. systematic purchases, including salary deferral transactions and withdrawals) and purchases made after shares are sold to cover Stifel Nicolaus' account maintenance fees are not eligible for rights of reinstatement.
- Shares from rollovers into Stifel from retirement plans to IRAs.

- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the direction of Stifel. Stifel is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in this prospectus.
- Purchases of Class 529-A shares through a rollover from another 529 plan.
- Purchases of Class 529-A shares made for reinvestment of refunded amounts.
- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Charitable organizations and foundations, notably 501(c)(3) organizations.

Contingent Deferred Sales Charges Waivers on Class A and C Shares

- Death or disability of the shareholder or, in the case of 529 plans, the account beneficiary.
- Shares sold as part of a systematic withdrawal plan not to exceed 12% annually.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations.
- Shares acquired through a right of reinstatement.
- Shares sold to pay Stifel fees or costs in such cases where the transaction is initiated by Stifel.
- Shares exchanged or sold in a Stifel fee-based program.

Share Class Conversions in Advisory Accounts

- Stifel continually looks to provide our clients with the lowest cost share class available based on account type. Stifel reserves the right to convert shares to the lowest cost share class available at Stifel upon transfer of shares into an advisory program.

Appendix: Waivers and Discounts Available from Certain Service Agents	A-1

Fees and expenses of the fund

The accompanying table describes the fees and expenses that you may pay if you buy, hold and sell shares of the fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$25,000 in certain funds distributed through Franklin Distributors, LLC ("Franklin Distributors" or the "Distributor"), the fund's distributor. More information about these and other discounts is available from your Service Agent, in the fund's Prospectus on page 20 under the heading "Additional information about each share class," in the appendix titled "Appendix: Waivers and Discounts Available from Certain Service Agents" on page A-1 of the fund's Prospectus and in the fund's Statement of Additional Information ("SAI") on page 57 under the heading "Sales Charge Waivers and Reductions for Class A Shares." "Service Agents" include banks, brokers, dealers, insurance companies, investment advisers, financial consultants or advisers, mutual fund supermarkets and other financial intermediaries that have entered into an agreement with the Distributor to sell shares of the fund. The fund offers Class O shares only to former Class O shareholders of ClearBridge Equity Fund.

If you purchase Class I shares or Class IS shares through a Service Agent acting solely as an agent on behalf of its customers, that Service Agent may charge you a commission. Such commissions, if any, are not charged by the fund and are not reflected in the fee table or expense example below.

Shareholder fees

Small account fee ⁵	\$15	\$15	None	None	None	\$15

Annual fund operating expenses (%)

(expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Class R	Class I	Class IS	Class O
Management fees	0.62	0.62	0.62	0.62	0.62	0.62
Distribution and/or service (12b-1) fees	0.25	1.00	0.50	None	None	None
Other expenses	0.14	0.10	0.21	0.11	0.02	0.06
Total annual fund operating expenses	1.01	1.72	1.33	0.73	0.64	0.68

¹ The sales charge is waived for shareholders purchasing Class A shares through accounts where Franklin Distributors is the broker-dealer of record ("Distributor Accounts").

² Shareholders purchasing Class A shares through certain Service Agents or in certain types of accounts may be eligible for a waiver of the sales charge. For additional information, see "Additional information about each share class — Sales charges" in the Prospectus.

³ Maximum deferred sales charge (load) may be reduced over time.

⁴ You may buy Class A shares in amounts of \$1,000,000 or more at net asset value (without an initial sales charge), but if you redeem those shares within 18 months of their purchase, you will pay a contingent deferred sales charge of 1.00%.

⁵ If the value of your account is below \$1,000 (\$250 for retirement plans that are not employer-sponsored), the fund may charge you a fee of \$3.75 per account that is determined and assessed quarterly by the fund or your Service Agent (with an annual maximum of \$15.00 per account). Please contact your Service Agent or the fund for more information.

Example

This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes:

- You invest \$10,000 in the fund for the time periods indicated
- Your investment has a 5% return each year and the fund's operating expenses remain the same (except that any applicable fee waiver or expense reimbursement is reflected only through its expiration date)
- You reinvest all distributions and dividends without a sales charge

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Number of years you own your shares (\$)	1 year	3 years	5 years	10 years
Class A (with or without redemption at end of period)	647	853	1,076	1,716
Class C (with redemption at end of period)	275	542	934	1,842
Class C (without redemption at end of period)	175	542	934	1,842
Class R (with or without redemption at end of period)	135	421	728	1,600
Class I (with or without redemption at end of period)	75	234	407	908
Class IS (with or without redemption at end of period)	65	204	356	797
Class O (with or without redemption at end of period)	69	217	378	846

Portfolio turnover. The fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the fund's performance. During the most recent fiscal year, the fund's portfolio turnover rate was 16% of the average value of its portfolio.

Principal investment strategies

Under normal circumstances, the fund invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities or other investments with similar economic characteristics of U.S. companies with large market capitalizations. Large capitalization companies are those companies with market capitalizations similar to companies in the Russell 1000 Index (the “Index”).

The core holdings of the fund are large capitalization companies that the portfolio managers believe to be dominant in their industries due to product, distribution or service strength. The portfolio managers emphasize individual security selection while diversifying the fund's investments across industries, which may help to reduce risk. The portfolio managers attempt to identify established large capitalization companies with the highest growth potential. The portfolio managers then analyze each company in detail, ranking its management, strategy and competitive market position. Finally, the portfolio managers attempt to identify the best values available among the growth companies identified. The portfolio managers may sell a security if it no longer meets the fund's investment criteria or for other reasons, including to meet redemptions or to redeploy assets to better investment opportunities.

The fund may invest up to 20% of its net assets (at the time of investment) in foreign securities.

Principal risks

Risk is inherent in all investing. The value of your investment in the fund, as well as the amount of return you receive on your investment, may fluctuate significantly. You may lose part or all of your investment in the fund or your investment may not perform as well as other similar investments. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or by any bank or government agency. The following is a summary description of certain risks of investing in the fund. The relative significance of the risks of investing in the fund may change over time.

Stock market and equity securities risk. The stock markets are volatile and the market prices of equity securities held by the fund may go up or down, sometimes rapidly or unpredictably. Equity securities may include exchange-traded and over-the-counter common stocks, preferred stock, depositary receipts, trust certificates, limited partnership interests, warrants, rights, securities convertible into equity securities, and shares of other investment companies, including exchange-traded funds, and of real estate investment trusts. Equity securities may have greater price volatility than other asset classes, such as fixed income securities. The market price of a security may fluctuate based on overall market conditions, such as real or perceived adverse economic or political conditions or trends, tariffs and trade disruptions, inflation, substantial economic downturn or recession, changes in interest rates, or adverse investor sentiment. Changes in market conditions will not typically have the same impact on all types of securities. If the market prices of the equity securities owned by the fund fall, the value of your investment in the fund will decline. If the fund holds

equity securities in a company that becomes insolvent, the fund's interests in the company will be subordinated to the interests of debtholders and general creditors of the company, and the fund may lose its entire investment.

Market events risk. The market values of securities or other assets will fluctuate, sometimes sharply and unpredictably, due to factors such as economic events, governmental actions or intervention, actions taken by the U.S. Federal Reserve or foreign central banks, market disruptions caused by trade disputes, labor strikes or other factors, political developments, armed conflicts, economic sanctions and countermeasures in response to sanctions, major cybersecurity events, the global and domestic effects of widespread or local health, weather or climate events, and other factors that may or may not be related to the issuer of the security or other asset. Economies and financial markets throughout the world are increasingly interconnected. Economic, financial or political events, trading and tariff arrangements, public health events, terrorism, wars, natural disasters and other circumstances in one country or region could have profound impacts on global economies or markets. As a result, whether or not the fund invests in securities of issuers located in or with significant exposure to the countries or markets directly affected, the value and liquidity of the fund's investments may be negatively affected. Ongoing armed conflicts between Russia and Ukraine in Europe and among Israel, Hamas and other militant groups in the Middle East have caused and could continue to cause significant market disruptions and volatility. The hostilities and sanctions resulting from those hostilities have and could continue to have a significant impact on certain fund investments as well as fund performance and liquidity. Following Russia's invasion of Ukraine in 2022, Russian stocks lost all, or nearly all, of their market value. Other securities or markets could be similarly affected by past or future geopolitical or other events or conditions. Furthermore, events involving limited liquidity, defaults, non-performance or other adverse developments that affect one industry, such as the financial services industry, or concerns or rumors about any events of these kinds, have in the past and may in the future lead to market-wide liquidity problems, may spread to other industries, and could negatively affect the value and liquidity of the fund's investments.

Raising the ceiling on U.S. government debt has become increasingly politicized. Any failure to increase the total amount that the U.S. government is authorized to borrow could lead to a default on U.S. government obligations, with unpredictable consequences for economies and markets in the U.S. and elsewhere. Recently, inflation and interest rates have been volatile and may increase in the future. These circumstances could adversely affect the value and liquidity of the fund's investments, impair the fund's ability to satisfy redemption requests, and negatively impact the fund's performance.

The United States and other countries are periodically involved in disputes over trade and other matters, which may result in tariffs, investment restrictions and adverse impacts on affected companies and securities. For example, the United States has imposed tariffs and other trade barriers on Chinese exports, has restricted sales of certain categories of goods to China, and has established barriers to investments in China. Trade disputes may adversely affect the economies of the United States and its trading partners, as well as companies directly or indirectly affected and financial markets generally. The United States government has prohibited U.S. persons from investing in Chinese companies designated as related to the Chinese military. These and possible future restrictions could limit the fund's opportunities for investment and require the sale of securities at a loss or make them illiquid. Moreover, the Chinese government is involved in a longstanding dispute with Taiwan that has included threats of invasion. If the political climate between the United States and China does not improve or continues to deteriorate, if China were to attempt unification of Taiwan by force, or if other geopolitical conflicts develop or get worse, economies, markets and individual securities may be severely affected both regionally and globally, and the value of the fund's assets may go down.

Large capitalization company risk. Large capitalization companies may fall out of favor with investors based on market and economic conditions. In addition, larger companies may not be able to attain the high growth rates of successful smaller companies and may be less capable of responding quickly to competitive challenges and industry changes. As a result, the fund's value may not rise as much as, or may fall more than, the value of funds that focus on companies with smaller market capitalizations.

Growth investing risk. The fund's growth-oriented investment style may increase the risks of investing in the fund. Growth securities typically are very sensitive to market movements because their market prices tend to reflect future expectations. When it appears those expectations will not be met, the prices of growth securities typically fall. Growth securities may also be more volatile than other investments because they often do not pay dividends. The values of growth securities tend to go down when interest rates rise because the rise in interest rates reduces the current value of future cash flows. Growth stocks as a group may be out of favor and underperform the overall equity market while the market favors value stocks.

Foreign investments risk. The fund's investments in securities of foreign issuers or issuers with significant exposure to foreign markets involve additional risk as compared to investments in U.S. securities or issuers with predominantly U.S. exposure, such as less liquid, less transparent, less regulated and more volatile markets. The value of the fund's investments may decline because of factors affecting the particular issuer as well as foreign markets and issuers generally, such as unfavorable or unsuccessful government actions, reduction of government or central bank support, inadequate accounting standards and auditing and financial recordkeeping requirements, lack of information, political, economic, financial or social instability, terrorism, armed conflicts and other geopolitical events, and the impact of tariffs and other restrictions on trade or economic sanctions. Geopolitical or other events such as nationalization or expropriation could even cause the loss of the fund's entire investment in one or more countries. In addition, there may be significant obstacles to obtaining information necessary for investigations into or litigation against issuers located in or operating in certain foreign markets, particularly emerging market countries, and shareholders may have limited legal remedies.

The value of investments in securities denominated in foreign currencies increases or decreases as the rates of exchange between those currencies and the U.S. dollar change. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile, and are affected by factors such as general economic and political conditions, the actions of the U.S. and foreign

governments or central banks, the imposition of currency controls and speculation. The fund may be unable or may choose not to hedge its foreign currency exposure.

Issuer risk. The market price of a security held by the fund can go up or down more than the market as a whole and can perform differently from the value of the market as a whole due to factors specifically relating to the security's issuer, such as disappointing earnings reports by the issuer, unsuccessful products or services, loss of major customers, changes in management, corporate actions, negative perception in the marketplace, or major litigation or changes in government regulations affecting the issuer or the competitive environment. An individual security may also be affected by factors relating to the industry or sector of the issuer or the securities markets as a whole, and conversely an industry or sector or the securities markets may be affected by a change in financial condition or other event affecting a single issuer. The fund may experience a substantial or complete loss on an individual security.

Industry or sector focus risk. The fund may be susceptible to an increased risk of loss, including losses due to events that adversely affect the fund's investments more than the market as a whole, to the extent that the fund may, from time to time, have greater exposure to the securities of a particular issuer or issuers within the same industry or sector.

Information technology sector risk. Companies in the rapidly changing field of information technology face special risks. Additionally, companies in this field are dependent upon consumer and business acceptance as new technologies evolve. Information technology companies face intense competition and potentially rapid product obsolescence. They are also heavily dependent on intellectual property rights and may be adversely affected by the loss or impairment of, or inability to enforce, those rights.

Illiquidity risk. Some assets held by the fund may be or become impossible or difficult to sell, particularly during times of market turmoil. These illiquid assets may also be difficult to value. Markets may become illiquid quickly. Markets may become illiquid when, for instance, there are few, if any, interested buyers or sellers or when dealers are unwilling or unable to make a market for certain securities. As a general matter, dealers have been less willing to make markets in recent years. If the fund is forced to sell an illiquid asset to meet redemption requests or other cash needs, or to try to limit losses, the fund may be forced to sell at a substantial loss or may not be able to sell at all.

Portfolio management risk. The value of your investment may decrease if the subadviser's judgment about the attractiveness or value of, or market trends affecting, a particular security, industry, sector or region, or about market movements, is incorrect or does not produce the desired results, or if there are imperfections, errors or limitations in the models, tools and data used by the subadviser. In addition, the fund's investment strategies or policies may change from time to time. Those changes may not lead to the results intended by the subadviser and could have an adverse effect on the value or performance of the fund.

Valuation risk. The sales price the fund could receive for any particular portfolio investment may differ from the fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology. These differences may increase significantly and affect fund investments more broadly during periods of market volatility. Investors who purchase or redeem fund shares on days when the fund is holding fair-valued securities may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the fund had not fair-valued securities or had used a different valuation methodology. The fund's ability to value its investments may be impacted by technological issues and/or errors by pricing services or other third party service providers. The valuation of the fund's investments involves subjective judgment, which may prove to be incorrect.

Cybersecurity risk. Like other funds and business enterprises, the fund, the manager, the subadvisers and their service providers are subject to the risk of cyber incidents occurring from time to time. Cybersecurity incidents, whether intentionally caused by third parties or otherwise, may allow an unauthorized party to gain access to fund assets, fund or customer data (including private shareholder information) or proprietary information, cause the fund, the manager, the subadvisers and/or their service providers (including, but not limited to, fund accountants, custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality, or prevent fund investors from purchasing, redeeming or exchanging shares, receiving distributions or receiving timely information regarding the fund or their investment in the fund. The fund, the manager, and the subadvisers have limited ability to prevent or mitigate cybersecurity incidents affecting third party service providers, and such third party service providers may have limited indemnification obligations to the fund, the manager, and/or the subadvisers. Cybersecurity incidents may result in financial losses to the fund and its shareholders, and substantial costs may be incurred in order to prevent or mitigate any future cybersecurity incidents. Issuers of securities in which the fund invests are also subject to cybersecurity risks, and the value of these securities could decline if the issuers experience cybersecurity incidents.

New ways to carry out cyber attacks continue to develop. There is a chance that some risks have not been identified or prepared for, or that an attack may not be detected, which puts limitations on the fund's ability to plan for or respond to a cyber attack.

These and other risks are discussed in more detail in the Prospectus or in the Statement of Additional Information.

Performance

The accompanying bar chart and table provide some indication of the risks of investing in the fund. The bar chart shows changes in the fund's performance from year to year for Class A shares. The table shows the average annual total returns of each class of the fund that has been in operation for at least one full calendar year and also compares the fund's performance with the average annual total returns of a broad measure of market performance and an additional index with characteristics relevant to the fund. Performance for classes other than those shown may vary from the performance shown to the extent the expenses for those classes differ. The fund makes updated performance information, including its current net asset value, available at www.franklintempleton.com/prospectus (select fund and share class), or by calling the fund at 877-6LM-FUND/656-3863.

The fund's past performance (before and after taxes) is not necessarily an indication of how the fund will perform in the future.

Sales charges are not reflected in the accompanying bar chart, and if those charges were included, returns would be less than those shown.

Tax information

The fund's distributions are generally taxable as ordinary income or capital gains.

Payments to broker/dealers and other financial intermediaries

The fund's related companies pay Service Agents for the sale of fund shares, shareholder services and other purposes. These payments create a conflict of interest by influencing your Service Agent or its employees or associated persons to recommend the fund over another investment. Ask your financial adviser or salesperson or visit your Service Agent's or salesperson's website for more information.

More on the fund's investment strategies, investments and risks

Important information

The fund seeks long-term capital growth.

The fund's investment objective may be changed by the Board of Trustees (the "Board") without shareholder approval and on notice to shareholders. There is no assurance that the fund will meet its investment objective.

Under normal circumstances, the fund invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities or other investments with similar economic characteristics, of U.S. companies with large market capitalizations. Large capitalization companies are those companies with market capitalizations similar to companies in the Russell 1000 Index (the "Index"). The size of the companies in the Index changes with market conditions and the composition of the Index. As of January 31, 2025, the largest market capitalization of a company in the Index was approximately \$3,588.17 billion and the median market capitalization of a company in the Index was approximately \$15.98 billion. Securities of companies whose market capitalizations no longer meet this definition after purchase by the fund still will be considered securities of large capitalization companies for purposes of the fund's 80% investment policy.

The fund's 80% investment policy may be changed by the Board without shareholder approval upon 60 days' prior notice to shareholders.

The fund may invest up to 20% of its net assets (at the time of investment) in foreign securities.

The fund's other investment strategies and policies may be changed from time to time without shareholder approval, unless specifically stated otherwise in this Prospectus or in the Statement of Additional Information ("SAI").

Equity investments

Equity securities include exchange-traded and over-the-counter ("OTC") common and preferred stocks, warrants and rights, securities convertible into equity securities, and securities of other investment companies and of real estate investment trusts ("REITs").

Foreign investments

The fund may invest up to 20% of its net assets (at the time of investment) in foreign securities. The fund may invest directly in foreign issuers or invest in depositary receipts.

Short sales

A short sale is a transaction in which the fund sells securities it does not own in anticipation of a decline in the market price of the securities. The fund may designate no more than 25% of its net assets (taken at the then current market value) as required collateral for such sales at any one time.

Small and medium capitalization companies

As a non-principal investment strategy, the fund may invest up to 20% of its assets in equity securities of companies other than those with market capitalizations similar to companies in the Index (i.e., medium or small capitalization companies).

Cash management

The fund may hold cash pending investment, may invest in money market instruments and may enter into repurchase agreements and reverse repurchase agreements (which have characteristics like borrowings) for cash management purposes. The fund may invest in money market funds, which may or may not be affiliated with the fund's manager or the subadvisers. The amount of assets the fund may hold for cash management purposes will depend on market conditions and the need to meet expected redemption requests.

Defensive investing

The fund may depart from its principal investment strategies in response to adverse market, economic, political or other conditions by taking temporary defensive positions, including by investing in any type of money market instruments and short-term debt securities or holding cash without regard to any percentage limitations. If a significant amount of the fund's assets is used for defensive investing purposes, the fund will be less likely to achieve its investment objective. Although the subadviser has the ability to take defensive positions, it may choose not to do so for a variety of reasons, even during volatile market conditions.

Other investments

The fund may also use other strategies and invest in other investments that are described, along with their risks, in the Statement of Additional Information ("SAI"). However, the fund might not use all of the strategies and techniques or invest in all of the types of investments described in this Prospectus or in the SAI.

Percentage and other limitations

The fund's compliance with its investment limitations and requirements described in this Prospectus is usually determined at the time of investment. If such a percentage limitation is complied with at the time of an investment, any subsequent change resulting from a change in asset values or characteristics will not constitute a violation of that limitation.

Selection process

The portfolio managers emphasize individual security selection while diversifying the fund's investments across industries, which may help to reduce risk. The portfolio managers attempt to identify established large capitalization companies with the highest growth potential. The portfolio managers then analyze each company in detail, ranking its management, strategy and competitive market position. Finally, the portfolio managers attempt to identify the best values available among the growth companies identified. The core holdings of the fund will be large capitalization companies that the portfolio managers believe to be dominant in their industries, global in scope and with a long-term history of performance.

In selecting individual companies for investment, the portfolio managers consider:

- Favorable earnings prospects
- Technological innovation
- Industry dominance
- Competitive products and services
- Global scope
- Long-term operating history
- Consistent and sustainable long-term growth in dividends and earnings per share
- Strong cash flow
- High return on equity
- Strong financial condition
- Experienced and effective management

The subadviser's fundamental research analysts typically use their industry expertise to determine the material environmental, social and governance ("ESG") factors facing both individual companies and industry sectors. The fundamental research analysts may also engage with company management regarding the extent to which they promote best practices of such factors. ESG factors may include, but are not necessarily limited to, environmentally-friendly product initiatives, labor audits of overseas supply chains and strong corporate governance. The choice of ESG factors for any particular company generally reflects the specific industry. At times, the ESG analysis may be performed by the portfolio managers. The subadviser may not assess every investment for ESG factors and, when it does, not every ESG factor may be identified or evaluated.

The fundamental research analysts (or portfolio managers, as applicable) typically use an established proprietary research and engagement process to determine a company's profile on ESG issues. This includes generating an ESG rating, through its ESG ratings system, by assessing ESG factors, both quantitatively and qualitatively. This system has four rating levels: AAA, AA, A and B, assigned to companies based on performance on key ESG issues (such as health and safety, gender diversity, climate risk, corporate governance risk and data security), including performance relative to the companies' industry peer set.

More on risks of investing in the fund

Following is more information on the principal risks summarized above and additional risks of investing in the fund.

Stock market and equity securities risk. The stock markets are volatile and the market prices of equity securities held by the fund may go up or down, sometimes rapidly or unpredictably. Equity securities may include exchange-traded and over-the-counter common stocks, preferred stock, depositary receipts, trust certificates, limited partnership interests, warrants, rights, securities convertible into equity securities, and shares of other investment companies, including exchange-traded funds, and of real estate investment trusts. Equity securities may have greater price volatility than other asset classes, such as fixed income securities. The market price of an equity security may fluctuate based on overall market conditions, such as real or perceived adverse economic or political conditions or trends, tariffs and trade disruptions, inflation, substantial economic downturn or recession, changes in interest rates, or adverse investor sentiment. The market price of a security may also fall due to specific conditions that affect a particular sector of the securities market or a particular issuer. Changes in market conditions will not typically have the same impact on all types of securities. If the market prices of the equity securities owned by the fund fall, the value of your investment in the fund will decline. If the fund holds equity securities in a company that becomes insolvent, the fund's interests in the company will be subordinated to the interests of debtholders and general creditors of the company, and the fund may lose its entire investment.

Market events risk. The market values of securities or other assets will fluctuate, sometimes sharply and unpredictably, due to factors such as economic events, governmental actions or intervention, actions taken by the U.S. Federal Reserve or foreign central banks, market disruptions caused by trade disputes, labor strikes or other factors, political developments, armed conflicts, economic sanctions and countermeasures in response to sanctions, major cybersecurity events, the global and domestic effects of widespread or local health, weather or climate events, and other factors that may or may not be related to the issuer of the security or other asset. Economies and financial markets throughout the world are increasingly interconnected. Economic, financial or political events, trading and tariff arrangements, public health events, terrorism, wars, natural disasters and other circumstances in one country or region could have profound impacts on global economies or markets. As a result, whether or not the fund

invests in securities of issuers located in or with significant exposure to the countries or markets directly affected, the value and liquidity of the fund's investments may be negatively affected. Ongoing armed conflicts between Russia and Ukraine in Europe and among Israel, Hamas and other militant groups in the Middle East have caused and could continue to cause significant market disruptions and volatility. The hostilities and sanctions resulting from those hostilities have and could continue to have a significant impact on certain fund investments as well as fund performance and liquidity. Following Russia's invasion of Ukraine in 2022, Russian stocks lost all, or nearly all, of their market value. Other securities or markets could be similarly affected by past or future geopolitical or other events or conditions. Furthermore, events involving limited liquidity, defaults, non-performance or other adverse developments that affect one industry, such as the financial services industry, or concerns or rumors about any events of these kinds, have in the past and may in the future lead to market-wide liquidity problems, may spread to other industries, and could negatively affect the value and liquidity of the fund's investments.

The long-term impact of the COVID-19 pandemic and its subsequent variants on economies, markets, industries and individual issuers is not known. The U.S. government and the Federal Reserve, as well as certain foreign governments and central banks, took extraordinary actions to support local and global economies and the financial markets in response to the COVID-19 pandemic. This and other government intervention into the economy and financial markets have resulted in a large expansion of government deficits and debt, the long term consequences of which are not known.

Raising the ceiling on U.S. government debt has become increasingly politicized. Any failure to increase the total amount that the U.S. government is authorized to borrow could lead to a default on U.S. government obligations, with unpredictable consequences for economies and markets in the U.S. and elsewhere. Recently, inflation and interest rates have been volatile and may increase in the future. These circumstances could adversely affect the value and liquidity of the fund's investments, impair the fund's ability to satisfy redemption requests, and negatively impact the fund's performance.

The United States and other countries are periodically involved in disputes over trade and other matters, which may result in tariffs, investment restrictions and adverse impacts on affected companies and securities. For example, the United States has imposed tariffs and other trade barriers on Chinese exports, has restricted sales of certain categories of goods to China, and has established barriers to investments in China. Trade disputes may adversely affect the economies of the United States and its trading partners, as well as companies directly or indirectly affected and financial markets generally. The United States government has prohibited U.S. persons from investing in Chinese companies designated as related to the Chinese military. These and possible future restrictions could limit the fund's opportunities for investment and require the sale of securities at a loss or make them illiquid. Moreover, the Chinese government is involved in a longstanding dispute with Taiwan that has included threats of invasion. If the political climate between the United States and China does not improve or continues to deteriorate, if China were to attempt unification of Taiwan by force, or if other geopolitical conflicts develop or get worse, economies, markets and individual securities may be severely affected both regionally and globally, and the value of the fund's assets may go down.

Large capitalization company risk. Large capitalization companies may fall out of favor with investors based on market and economic conditions. In addition, larger companies may not be able to attain the high growth rates of successful smaller companies and may be less capable of responding quickly to competitive challenges and industry changes. As a result, the fund's value may not rise as much as, or may fall more than, the value of funds that focus on companies with smaller market capitalizations.

Issuer risk. The market price of a security held by the fund can go up or down more than the market as a whole and can perform differently from the value of the market as a whole due to factors specifically relating to the security's issuer, such as disappointing earnings reports by the issuer, unsuccessful products or services, loss of major customers, changes in management, corporate actions, negative perception in the marketplace, or major litigation or changes in government regulations affecting the issuer or the competitive environment. An individual security may also be affected by factors relating to the industry or sector of the issuer or the securities markets as a whole, and conversely an industry or sector or the securities markets may be affected by a change in financial condition or other event affecting a single issuer. The fund may experience a substantial or complete loss on an individual security.

Growth investing risk. The fund's growth-oriented investment style may increase the risks of investing in the fund. Growth securities typically are very sensitive to market movements because their market prices tend to reflect future expectations. When it appears those expectations will not be met, the prices of growth securities typically fall. Growth securities may also be more volatile than other investments because they often do not pay dividends. The values of growth securities tend to go down when interest rates rise because the rise in interest rates reduces the current value of future cash flows. Growth stocks as a group may be out of favor and underperform the overall equity market while the market favors value stocks.

Industry or sector focus risk. The fund may be susceptible to an increased risk of loss, including losses due to events that adversely affect the fund's investments more than the market as a whole, to the extent that the fund may, from time to time, have greater exposure to the securities of a particular issuer or issuers within the same industry or sector.

Information technology sector risk. Information technology companies face intense competition, both domestically and internationally, which may have an adverse effect on profit margins. Like other technology companies, information technology companies may have limited product lines, markets, financial resources or personnel. The products of information technology companies may face obsolescence due to rapid technological developments, frequent new product introduction, unpredictable changes in growth rates and competition for the services of qualified personnel. Companies in the information technology sector are heavily dependent on patent and intellectual property rights. The loss, or impairment of, or inability to enforce, these rights may adversely affect the profitability of these companies.

Illiquidity risk. Illiquidity risk exists when particular investments are impossible or difficult to sell. Although most of the fund's investments must be liquid at the time of investment, investments may be or become illiquid after purchase by the fund, particularly during periods of market turmoil. Markets may become illiquid quickly. Markets may become illiquid when, for instance, there are few, if any, interested buyers or sellers or when dealers are unwilling or unable to make a market for certain securities. As a general matter, dealers have been less willing to make markets in recent years. When the fund holds illiquid investments, the portfolio may be harder to value, especially in changing markets, and if the fund is forced to sell these investments to meet redemption requests or for other cash needs, or to try to limit losses, the fund may be forced to sell at a substantial loss or may not be able to sell at all. The fund may experience heavy redemptions that could cause the fund to liquidate its assets at inopportune times or at a loss or depressed value, which could cause the value of your investment to decline. In addition, when there is illiquidity in the market for certain investments, the fund, due to limitations on illiquid investments, may be unable to achieve its desired level of exposure to a certain sector.

Valuation risk. Many factors may influence the price at which the fund could sell any particular portfolio investment. The sales price may well differ—higher or lower—from the fund's last valuation, and such differences could be significant, particularly for illiquid securities and securities that trade in relatively thin markets and/or markets that experience extreme volatility. If market conditions make it difficult to value some investments, the fund may value these investments using more subjective methods, such as fair value methodologies. These differences may increase significantly and affect fund investments more broadly during periods of market volatility. Investors who purchase or redeem fund shares on days when the fund is holding fair-valued securities may receive fewer or more shares, or lower or higher redemption proceeds, than they would have received if the fund had not fair-valued securities or had used a different valuation methodology. The value of non-U.S. securities, certain fixed income securities and currencies, as applicable, may be materially affected by events after the close of the markets in which they are traded, but before the fund determines its net asset value. The fund's ability to value its investments may also be impacted by technological issues and/or errors by pricing services or other third party service providers. The valuation of the fund's investments involves subjective judgment, which may prove to be incorrect.

Foreign investments risk. The fund's investments in securities of foreign issuers or issuers with significant exposure to foreign markets involve additional risk as compared to investments in U.S. securities or issuers with predominantly U.S. exposure, such as less liquid, less regulated, less transparent and more volatile markets. The markets for some foreign securities are relatively new, and the rules and policies relating to these markets are not fully developed and may change. The value of the fund's investments may decline because of factors affecting the particular issuer as well as foreign markets and issuers generally, such as unfavorable or unsuccessful government actions, tariffs and trade disputes, economic sanctions, reduction of government or central bank support, inadequate accounting standards and auditing and financial recordkeeping requirements, lack of information, political, economic, financial or social instability, terrorism, armed conflicts and other geopolitical events. Geopolitical or other events such as nationalization or expropriation could even cause the loss of the fund's entire investment in one or more countries.

The Public Company Accounting Oversight Board, which regulates auditors of U.S. public companies, may, from time to time, be unable to inspect audit work papers in certain foreign countries. Investors in foreign countries often have limited rights and few practical remedies to pursue shareholder claims, including class actions or fraud claims, and the ability of the Securities and Exchange Commission, the U.S. Department of Justice and other authorities to bring and enforce actions against foreign issuers or foreign persons is limited. Foreign investments may also be adversely affected by U.S. government or international interventions, restrictions or economic sanctions, which could negatively affect the value of an investment or result in the fund selling an investment at a disadvantageous time.

The value of the fund's foreign investments may also be affected by foreign tax laws, special U.S. tax considerations and restrictions on receiving the investment proceeds from a foreign country. Dividends or interest on, or proceeds from the sale or disposition of, foreign securities may be subject to non-U.S. withholding or other taxes.

It may be difficult for the fund to pursue claims against a foreign issuer or other parties in the courts of a foreign country. Some securities issued by non-U.S. governments or their subdivisions, agencies and instrumentalities may not be backed by the full faith and credit of such governments. Even where a security is backed by the full faith and credit of a government, it may be difficult for the fund to pursue its rights against the government. In the past, some non-U.S. governments have defaulted on principal and interest payments.

If the fund buys securities denominated in a foreign currency, receives income in foreign currencies, or holds foreign currencies from time to time, the value of the fund's assets, as measured in U.S. dollars, can be affected unfavorably by changes in exchange rates relative to the U.S. dollar or other foreign currencies. Currency exchange rates can be volatile, and are affected by factors such as general economic and political conditions, the actions of the U.S. and foreign governments or central banks, the imposition of currency controls and speculation. The fund may be unable or may choose not to hedge its foreign currency exposure.

In certain foreign markets, settlement and clearance of trades may experience delays in payment for or delivery of securities not typically associated with settlement and clearance of U.S. investments. Settlement of trades in these markets can take longer than in other markets and the fund may not receive its proceeds from the sale of certain securities for an extended period (possibly several weeks or even longer) due to, among other factors, low trading volumes and volatile prices. The custody or holding of securities, cash and other assets by local banks, agents and depositories in securities markets outside the United States may entail additional risks. Governments or trade groups may compel local agents to hold securities in designated depositories that may not be subject to independent evaluation. Local agents are held only to the standards of care of their local markets, and may be subject to limited or no government oversight. In extreme cases, the fund's securities may be misappropriated or the fund may be unable to sell its securities. In general, the less developed a country's securities market is, the greater the likelihood of custody problems.

The risks of foreign investments are heightened when investing in issuers in emerging market countries.

Small and mid-capitalization company risk. The fund will be exposed to additional risks as a result of its investments in the securities of small and mid-capitalization companies. Small and mid-capitalization companies may fall out of favor with investors; may have limited product lines, operating histories, markets or financial resources; or may be dependent upon a limited management group. The prices of securities of small and mid-capitalization companies generally are more volatile than those of large capitalization companies and are more likely to be adversely affected than large capitalization companies by changes in earnings results and investor expectations or poor economic or market conditions, including those experienced during a recession. Securities of small and mid-capitalization companies may underperform large capitalization companies, may be harder to sell at times and at prices the portfolio managers believe appropriate and may have greater potential for losses.

Portfolio management risk. The value of your investment may decrease if the subadviser's judgment about the attractiveness or value of, or market trends affecting, a particular security, industry, sector or region, or about market movements, is incorrect or does not produce the desired results, or if there are imperfections, errors or limitations in the models, tools and data used by the subadviser. In addition, the fund's investment strategies or policies may change from time to time. Those changes may not lead to the results intended by the subadviser and could have an adverse effect on the value or performance of the fund.

Short sales risk. If the price of the security sold short increases between the time of the short sale and the time the fund replaces the borrowed security, the fund will realize a loss, which may be substantial. A fund that engages in a short sale or short position may lose more money than the actual cost of the short sale or short position and its potential losses may be unlimited if the fund does not own the security sold short or the reference instrument and it is unable to close out of the short sale or short position.

Investment in other investment companies risk. Investments in other investment companies are subject to market and portfolio selection risk, as well as portfolio management risk. If the fund acquires shares of investment companies, including ones affiliated with the fund, shareholders bear both their proportionate share of expenses in the fund (including management and advisory fees) and, indirectly, the expenses of the investment companies.

Transactions by affiliated funds and by other significant investors. The fund may be an investment option for mutual funds and exchange-traded funds ("ETFs") that are managed by Franklin Templeton Fund Adviser, LLC and its affiliates, unaffiliated mutual funds and ETFs and other investors with substantial investments in the fund. As a result, from time to time, the fund may experience relatively large redemptions and could be required to liquidate its assets at inopportune times or at a loss or depressed value, which could cause the value of your investment to decline. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments result in gains, and may also increase transaction costs. Similarly, large fund share purchases may adversely affect the fund's performance to the extent that the fund is delayed in investing new cash or otherwise maintains a larger cash position than it ordinarily would.

Cash management and defensive investing risk. The value of the investments held by the fund for cash management or defensive investing purposes can fluctuate. Like other fixed income securities, they are subject to risk, including market, interest rate and credit risk. If the fund holds cash uninvested, the cash will be subject to the credit risk of the depository institution holding the cash and the fund will not earn income on the cash. If a significant amount of the fund's assets is used for cash management or defensive investing purposes, the fund will be less likely to achieve its investment objective. Defensive investing may not work as intended and the value of an investment in the fund may still decline.

Capital gain risk. As of the date of this Prospectus, a substantial portion of the fund's net asset value is attributable to net unrealized capital gains on portfolio securities. If the fund realizes capital gains in excess of realized capital losses in any fiscal year, it generally expects to make capital gain distributions to shareholders. You may receive distributions that are attributable to appreciation of portfolio securities that happened before you made your investment. Unless you purchase shares through a tax-advantaged account (such as an IRA or 401(k) plan), these distributions will be taxable to you even though they economically represent a return of a portion of your investment. You should consult your tax professional about your investment in the fund.

Risk of increase in expenses. Your actual costs of investing in the fund may be higher than the expenses shown in "Annual fund operating expenses" for a variety of reasons. For example, expenses may be higher if the fund's average net assets decrease, as a result of redemptions or otherwise, or if a fee limitation is changed or terminated. Net assets are more likely to decrease and fund expense ratios are more likely to increase when markets are volatile.

Environmental, social and governance (ESG) considerations risk. ESG considerations are one of a number of factors that the subadviser examines when considering investments for the fund's portfolio. In light of this, the issuers in which the fund invests may not be considered ESG-focused issuers and may have lower or adverse ESG assessments. The subadviser may not assess every investment for ESG factors and, when it does, not every ESG factor may be identified or evaluated. The subadviser's assessment of an issuer's ESG factors is subjective and may differ from that of investors, third-party service providers (e.g., ratings providers) and other funds. As a result, securities selected by the subadviser may not reflect the beliefs and values of any particular investor. The subadviser also may be dependent on the availability of timely, complete and accurate ESG data reported by issuers and/or third party research providers, the timeliness, completeness and accuracy of which is out of the subadviser's control. ESG factors are often not uniformly measured or defined, which could impact the subadviser's ability to assess an issuer. While the subadviser views ESG considerations as having the potential to contribute to the fund's long-term performance, there is no guarantee that such results will be achieved.

Operational risk. Your ability to transact with the fund or the valuation of your investment may be negatively impacted because of the operational risks arising from factors such as processing errors and human errors, inadequate or failed internal or external processes, failures in systems and technology (including those due to cybersecurity incidents), changes in personnel, and errors caused by third party service providers or trading counterparties. It is not possible to identify all of the operational risks that may affect the fund or to develop processes and controls that eliminate or mitigate the occurrence of such failures. The fund and its shareholders could be negatively impacted as a result.

Cybersecurity risk. Like other funds and business enterprises, the fund, the manager, the subadvisers and their service providers are subject to the risk of cyber incidents occurring from time to time. Cybersecurity incidents, whether intentionally caused by third parties or otherwise, may allow an unauthorized party to gain access to fund assets, fund or customer data (including private shareholder information) or proprietary information, cause the fund, the manager, the subadvisers and/or their service providers (including, but not limited to, fund accountants, custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality, or prevent fund investors from purchasing, redeeming or exchanging shares, receiving distributions or receiving timely information regarding the fund or their investment in the fund. The fund, the manager, and the subadvisers have limited ability to prevent or mitigate cybersecurity incidents affecting third party service providers, and such third party service providers may have limited indemnification obligations to the fund, the manager, and/or the subadvisers. Cybersecurity incidents may result in financial losses to the fund and its shareholders, and substantial costs may be incurred in order to prevent or mitigate any future cybersecurity incidents. Issuers of securities in which the fund invests are also subject to cybersecurity risks, and the value of these securities could decline if the issuers experience cybersecurity incidents.

New ways to carry out cyber attacks continue to develop. There is a chance that some risks have not been identified or prepared for, or that an attack may not be detected, which puts limitations on the fund's ability to plan for or respond to a cyber attack.

Please note that there are other factors that could adversely affect your investment and that could prevent the fund from achieving its investment objective. More information about risks appears in the SAI. Before investing, you should carefully consider the risks that you will assume.

Portfolio holdings

A description of the fund's policies and procedures with respect to the disclosure of its portfolio holdings is available in the SAI. The fund posts its complete portfolio holdings at www.franklintempleton.com/prospectus (click on the name of the fund) on a monthly basis. The fund intends to post its complete portfolio holdings no later than 14 calendar days following the month-end.

More on fund management

Franklin Templeton Fund Adviser, LLC ("FTFA" or the "manager") is the fund's investment manager. FTFA, with offices at 1 Madison Avenue, New York, New York 10010, also serves as the investment manager of other Franklin Templeton-sponsored funds. FTFA provides administrative and certain oversight services to the fund. As of December 31, 2024, FTFA's total assets under management were approximately \$157.78 billion.

ClearBridge Investments, LLC ("ClearBridge" or the "subadviser") provides the day-to-day portfolio management of the fund, except for any portion of the fund's cash and short-term instruments that is allocated to Western Asset Management Company, LLC ("Western Asset"). ClearBridge has offices at 1 Madison Avenue, New York, New York 10010 and is an investment adviser that manages U.S. and international equity investment strategies for institutional and individual investors. ClearBridge has been committed to delivering long-term results through active management for more than 60 years, and bases its investment decisions on fundamental research and the insights of seasoned portfolio management teams. As of December 31, 2024, ClearBridge's total assets under management (including assets under management for ClearBridge, LLC, an affiliate of ClearBridge) were approximately \$189.18 billion, including \$41.59 billion for which ClearBridge provides non-discretionary investment models to managed account sponsors.

Western Asset manages the portion of the fund's cash and short-term instruments allocated to it. Western Asset, established in 1971, has offices at 385 East Colorado Boulevard, Pasadena, California 91101 and 1 Madison Avenue, New York, New York 10010. Western Asset acts as investment adviser to institutional accounts, such as corporate pension plans, mutual funds and endowment funds. As of December 31, 2024, the total assets under management of Western Asset and its supervised affiliates were approximately \$272.25 billion.

FTFA, ClearBridge and Western Asset are indirect, wholly-owned subsidiaries of Franklin Resources, Inc. ("Franklin Resources"). Franklin Resources, whose principal executive offices are at One Franklin Parkway, San Mateo, California 94403, is a global investment management organization operating, together with its subsidiaries, as Franklin Templeton. As of December 31, 2024, Franklin Templeton's asset management operations had aggregate assets under management of approximately \$1.58 trillion.

Portfolio managers

Primary responsibility for the day-to-day management of the fund lies with the following portfolio managers. The portfolio managers have the ultimate authority to make portfolio decisions.

Portfolio manager	Title and recent biography	Portfolio manager of the fund since
Erica Furfaro	Ms. Furfaro is a Director and Portfolio Manager of ClearBridge. Ms. Furfaro joined ClearBridge in 2019. Prior to joining ClearBridge, she worked as a Sector Head at Millennium Partners, an Analyst at York Capital Management, an Analyst at the Carlyle Group, and an Investment Banking Analyst at Merrill Lynch & Co. She has 20 years of investment industry experience.	December 2024
Margaret Vitrano	Ms. Vitrano is a Managing Director and Portfolio Manager of ClearBridge. Previously, she was a Senior Research Analyst for Information Technology and Communications of ClearBridge from 2007 to 2012. Ms. Vitrano joined the subadviser or its predecessor in 2003. Prior to that, she was a Director of CGMI and a research analyst at Citigroup. Ms. Vitrano has 28 years of investment industry experience.	2012

The SAI provides information about the compensation of the portfolio managers, other accounts managed by the portfolio managers and any fund shares held by the portfolio managers.

Management fee

The fund pays a management fee at an annual rate that decreases as assets increase, as follows: 0.700% of assets up to and including \$1 billion; 0.680% of assets over \$1 billion and up to and including \$2 billion; 0.650% of assets over \$2 billion and up to and including \$5 billion; 0.600% of assets over \$5 billion and up to and including \$10 billion; and 0.550% of assets over \$10 billion.

For the fiscal year ended November 30, 2024, the fund paid FTFA an effective management fee of 0.62% of the fund's average daily net assets for management services. The effective management fee reflects any fees waived by the manager (including any fees waived in connection with investments by the fund in affiliated investment companies for which the fund paid a management fee).

A discussion regarding the basis for the Board's approval of the fund's management agreement and subadvisory agreements is available in the fund's report on Form N-CSR for the period ended May 31, 2024.

Expense limitation

The manager has agreed to waive fees and/or reimburse operating expenses (other than interest, brokerage commissions, taxes, extraordinary expenses and acquired fund fees and expenses) so that the ratio of total annual fund operating expenses will not exceed 1.10% for Class A shares, 1.90% for Class C shares, 1.40% for Class R shares, 0.80% for Class I shares, 0.70% for Class IS shares and 0.74% for Class O shares, subject to recapture as described below. In addition, the ratio of total annual fund operating expenses for Class IS shares will not exceed the ratio of total annual fund operating expenses for Class I shares, subject to recapture as described below. These arrangements are expected to continue until December 31, 2026, may be terminated prior to that date by agreement of the manager and the Board, and may be terminated at any time after that date by the manager. These arrangements, however, may be modified by the manager to decrease total annual fund operating expenses at any time. The manager is also permitted to recapture amounts waived and/or reimbursed to a class during the same fiscal year in which the manager earned the fee or incurred the expense if the class' total annual fund operating expenses have fallen to a level below the limits described above. In no case will the manager recapture any amount that would result, on any particular business day of the fund, in the class' total annual fund operating expenses exceeding the applicable limits described above or any other lower limit then in effect. In addition, the manager has agreed to waive the fund's management fee to an extent sufficient to offset the net management fee payable in connection with any investment in an affiliated money market fund. This management fee waiver is not subject to the recapture provision discussed above.

Additional information

The fund enters into contractual arrangements with various parties, including, among others, the fund's manager and the subadvisers, who provide services to the fund. Shareholders are not parties to, or intended (or "third-party") beneficiaries of, those contractual arrangements.

This Prospectus and the SAI provide information concerning the fund that you should consider in determining whether to purchase shares of the fund. The fund may make changes to this information from time to time. Neither this Prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than rights conferred by federal or state securities laws.

Distribution

Franklin Distributors, LLC ("Franklin Distributors" or the "Distributor"), an indirect, wholly-owned broker/dealer subsidiary of Franklin Resources, serves as the fund's sole and exclusive distributor.

The fund has adopted a shareholder services and distribution plan pursuant to Rule 12b-1 under the Investment Company Act of 1940, as amended. Under the plan, the fund pays distribution and/or service fees based on an annualized percentage of average daily net assets of up to 0.25% for Class A shares; up to 1.00% for Class C shares and up to 0.50% for Class R shares. Payments by the fund under its plan go to the Distributor, financial intermediaries and other parties that provide services in connection with or are otherwise involved in the distribution of its shares or administration of plans or programs that use its shares as their funding medium, and to reimburse certain other expenses and payments. From time to time, the Distributor and/or financial intermediaries may agree to a reduction or waiver of these fees. These fees are an ongoing expense and, over time, will increase the cost of your investment and may cost you more than other types of sales charges. Class I shares, Class IS shares and Class O shares are not subject to distribution and/or service fees under the plan.

Additional payments

In addition to payments made to intermediaries under the fund's shareholder services and distribution plan and other payments made by the fund for shareholder services and/or recordkeeping, the Distributor, the manager and/or their affiliates make payments for distribution, shareholder servicing, marketing and promotional activities and related expenses out of their profits and other available sources, including profits from their relationships with the fund. These payments are not reflected as additional expenses in the fee table contained in this Prospectus. The recipients of these payments may include the Distributor and affiliates of the manager, as well as Service Agents through which investors may purchase shares of the fund, including your Service Agent. The total amount of these payments is substantial, may be substantial to any given recipient and may exceed the costs and expenses incurred by the recipient for any fund-related marketing or shareholder servicing activities. The payments described in this paragraph are often referred to as "revenue sharing payments." Revenue sharing arrangements are separately negotiated between the Distributor, the manager and/or their affiliates, and the recipients of these payments.

Revenue sharing payments create an incentive for an intermediary or its employees or associated persons to recommend or sell shares of the fund to you. Contact your Service Agent for details about revenue sharing payments it receives or may receive. Additional information about revenue sharing payments is available in the SAI. Revenue sharing payments, as well as payments by the fund under the shareholder services and distribution plan, or for recordkeeping and/or shareholder services, also benefit the manager, the Distributor and their affiliates to the extent the payments result in more assets being invested in the fund on which fees are being charged.

Choosing a share class

The fund offers multiple share classes. Each share class represents an investment in the same portfolio of securities, but each has different availability (for example, not all Service Agents offer all share classes), eligibility criteria, expense structures and arrangements for shareholder services or distribution, allowing you to choose the class that best meets your needs. You should read this section carefully and speak with your Service Agent (if applicable) to determine which share class is most appropriate for you. When choosing the appropriate share class, you should consider the following factors:

- the amount you plan to invest;
- the length of time you expect to own the shares;
- the total costs associated with your investment, including any sales charges that you pay when you buy or sell fund shares and expenses that are paid out of fund assets over time;
- whether you qualify for any reduction or waiver of the sales charge;
- the availability of the share class;
- the services that will be available to you and whether you meet any eligibility criteria; and
- the amount of compensation that your Service Agent will receive.

For example, when choosing between Class A or Class C shares, you should be aware that, generally speaking, the larger the size of your investment and the longer your investment horizon, the more likely it will be that Class C shares will not be as advantageous as Class A shares. The annual distribution and/or service fees on Class C shares may cost you more over the longer term than the front-end sales charge and service fees you would pay for larger purchases of Class A shares. If you are eligible to purchase Class I shares, you should be aware that Class I shares are not subject to a front-end sales charge or distribution or service fees and generally have lower annual expenses than Class A or Class C shares.

Generally speaking, Class A shares have lower annual operating expenses than Class C shares but not as low as Class I/Class IS shares. Overall, Class IS shares generally have the lowest annual expenses of all share classes.

More information about the fund's classes of shares is available through the fund's website. You'll find detailed information, free of charge and in a clear and prominent format, about sales charges and ways you can qualify for reduced or waived sales charges.

The fund's shares are distributed by Franklin Distributors.

Share class features summary

The following table summarizes key features of the fund's share classes. In addition, you should read carefully this Prospectus, including the fee table and the expense example at the front of this Prospectus before choosing your share class. If you are not purchasing shares directly from the fund, you should contact your Service Agent for help choosing a share class that may be appropriate for you. Capitalized terms used in the table have the definition given to them in this Prospectus.

¹ Please note that the minimum initial investment amount must be met on a per class basis. In addition, your Service Agent may impose higher or lower investment minimums, or may impose no minimum investment requirement.

² You or your Service Agent may instruct the fund to exchange shares of any class for shares of the same class of any other fund sold by the Distributor (excluding Putnam Investments Funds), provided that the fund shares to be acquired in the exchange are available to new investors in such other fund and that you are eligible to invest in such shares. For investors investing through retirement and benefit plans or fee-based programs, you should contact your Service Agent that administers your plan or sponsors the fee-based program to request an exchange. Certain retirement plan programs with exchange features in effect prior to November 20, 2006, as approved by the Distributor, remain eligible for exchange from Class C shares to Class A shares in accordance with the program terms. Please see the SAI for more details. In addition, you may exchange shares of the fund for another share class of the same fund if you meet the eligibility requirements of that particular class. Please contact your Service Agent or the fund about funds available for exchange.

* If this share class is not available, you may be eligible to exchange into a different share class of such fund; see "Exchanging shares — Exchangeability between funds without the same share class" below.

Share class availability

You may buy shares of the fund either directly from the fund or through a Service Agent. Please note that your Service Agent may not offer all classes of shares since each Service Agent determines which share class(es) to make available to its clients. Your Service Agent may receive different compensation for selling one class of shares than for selling another class, which may depend on, among other things, the type of investor account and the practices adopted by your Service Agent. Each class of shares, except Class IS shares, is authorized to pay fees for recordkeeping services, account servicing, networking, or similar services to Service Agents. As a result, operating expenses of classes that incur new or additional recordkeeping fees may increase over time. Certain Service Agents may impose their own investment fees and maintain their own practices for purchasing and selling fund shares, including higher or lower investment minimums or none at all; these practices are not described in this Prospectus or the SAI and will depend on the policies, procedures and trading platforms of the Service Agent. Your Service Agent may provide shareholder services that differ from the services provided by other Service Agents. Services provided by your Service Agent may vary by class.

Plan sponsors, plan fiduciaries and other Service Agents may choose to impose qualification requirements that differ from the fund's share class eligibility standards as stated in this Prospectus. In certain cases, this could result in the selection of a share class with higher distribution and/or service fees than otherwise would have been incurred. The fund is not responsible for, and has no control over, the decision of any plan sponsor, plan fiduciary or Service Agent to impose such differing requirements. Please consult with your plan sponsor, plan fiduciary or Service Agent for more information about available share classes.

Please contact your Service Agent about the availability of fund shares, the shareholder services it provides for each class, the compensation it receives in connection with the sale of each share class and the Service Agent's practices and other information.

The following table provides information on the availability of each share class based on investor type, subject to the share class' eligibility requirements. Your Service Agent can help you determine which share class is appropriate for you. **The fund reserves the right to modify or waive the eligibility policies for share class availability at any time.**

¹ Shares are not available for purchase through accounts where the Distributor is the broker-dealer of record ("Distributor Accounts").

² The fund offers Class O shares only to former Class O shareholders of ClearBridge Equity Fund.

³ Individual investors investing through a Service Agent may be eligible to invest in Class I or Class IS shares, if such Service Agent is acting solely as an agent on behalf of its customers pursuant to an agreement with the Distributor and such investor's shares are held in an omnibus account on the books of the fund. Please contact your Service Agent for more information.

⁴ Class I shares may be purchased directly from the fund by the following persons: (i) current employees of the manager and its affiliates; (ii) former employees of the manager and its affiliates with existing accounts; (iii) current and former board members of investment companies managed by affiliates of Franklin Resources; (iv) current and former board members of Franklin Resources; and (v) the "immediate families" of such persons. "Immediate families" are such person's spouse (including the surviving spouse of a deceased board member), parents, grandparents, and children and grandchildren (including step-relationships). For such investors, the minimum initial investment is \$1,000 and the minimum for each purchase of additional shares is \$50. Current employees may purchase additional Class I shares through a systematic investment plan.

⁵ Investors who qualify as Clients of Eligible Financial Intermediaries or who participate in Eligible Investment Programs made available through their Service Agents (such as investors in fee-based advisory or mutual fund "wrap" programs) are eligible to purchase, directly or via exchange, Class I or Class IS shares, among other share classes. In such cases your ability to hold Class I or Class IS shares may be premised on your continuing participation in a fee-based advisory or mutual fund wrap program. Your Service Agent may reserve the right to redeem your Class I or Class IS shares or exchange your Class I or Class IS shares or exchange them for Class A shares of the same fund, as applicable, if you terminate your fee-based advisory or mutual fund wrap program and are no longer eligible for Class I or Class IS shares. You may be subject to an initial sales charge in connection with such exchange, and you will be subject to the annual distribution and/or service fee applicable to Class A shares. Any redemption may generate a taxable gain or loss and significantly change the asset allocation of your account.

Omnibus Retirement Plans are retirement plans held on the books of the fund in a plan level or omnibus level account and include:

(i) 401(k) plans; (ii) 457 plans; (iii) employer-sponsored 403(b) plans; (iv) profit-sharing plans; (v) non-qualified deferred compensation plans; (vi) employer-sponsored benefit plans (including health savings accounts); (vii) defined benefit plans; (viii) other similar employer-sponsored retirement and benefit plans; (ix) individual retirement accounts that are administered on the same IRA recordkeeping platform and that invest in the fund through a single omnibus account pursuant to a special contractual arrangement with the fund or the Distributor; and (x) investors who rollover fund shares from a retirement plan into an individual retirement account administered on the same retirement plan platform. SIMPLE IRAs are considered Omnibus Retirement Plans if they are employer-sponsored and held at the plan level.

Individual Retirement Plans include: (i) retirement plans investing through brokerage accounts; (ii) certain retirement plans with direct relationships to the fund that are not Institutional Investors nor investing through omnibus accounts; and (iii) individual retirement vehicles not held through an omnibus account, such as: (a) traditional and Roth IRAs; (b) Coverdell education savings accounts; (c) individual 403(b)(7) custodial accounts; (d) Keogh plans; (e) SEPs; (f) SARSEPs; and (g) SIMPLE IRAs or similar accounts. Individual Retirement Plans include plans held at the individual participant level. Individual Retirement Plans are treated like individual investors for purposes of determining sales charges and any applicable sales charge reductions or waivers.

Clients of Eligible Financial Intermediaries include: investors who invest in the fund through Service Agents that (a) charge such investors an ongoing fee for advisory, investment, consulting or similar services, or (b) have entered into an agreement with the Distributor to offer Class A, Class C, Class R, Class I or Class IS shares through a no-load network or platform (including college savings vehicles) ("Eligible Investment Programs"). These investors may include (i) investors who invest in the fund through the program of a Service Agent where the investor typically invests \$10 million or more in assets under management in accounts with the Service Agent ("Management Accounts"); (ii) pension and profit sharing plans; (iii) other employee benefit trusts; (iv) endowments; (v) foundations; (vi) corporations; (vii) college savings vehicles such as Section 529 plans; and (viii) direct retail investment platforms through mutual fund "supermarkets," where the sponsor links its client's account (including

IRA accounts on such platforms) to a master account in the sponsor's name.

Institutional Investors may include: (i) corporations; (ii) banks; (iii) trust companies; (iv) insurance companies; (v) investment companies; (vi) foundations; (vii) endowments; and (viii) other similar entities. The Distributor or the Service Agent may impose additional eligibility requirements or criteria to determine if an investor, including the types of investors listed above, qualifies as an Institutional Investor.

Additional information about each share class

Class A shares

The public offering price of Class A shares is the net asset value per share plus the applicable sales charge, unless you qualify for a sales charge waiver.

Sales charges

The following table shows the front-end sales charge that you may pay, depending on the amount you purchase. You pay a lower rate as the size of your investment increases to certain levels called breakpoints. You do not pay a sales charge on the fund's distributions or dividends that you reinvest in additional Class A shares.

It also shows the amount of compensation that will be paid to your Service Agent out of the sales charge if you buy shares from a Service Agent. As shown below, the sales charge may be allocated between your Service Agent and the Distributor. Service Agents will receive a distribution and/or service fee payable on Class A shares at an annual rate of up to 0.25% of the average daily net assets represented by the Class A shares serviced by them. The Distributor may not pay Service Agents selling Class A shares to Omnibus Retirement Plans a commission on the purchase price of Class A shares sold by them. However, for Omnibus Retirement Plans that are permitted to purchase shares at net asset value, the Distributor may pay Service Agents commissions of up to 1.00% of the purchase price of the Class A shares that are purchased with regular ongoing plan contributions. Please contact your Service Agent for more information.

¹ The Distributor may pay a commission of up to 1.00% to a Service Agent for purchase amounts of \$1 million or more. In such cases, starting in the thirteenth month after purchase, the Service Agent will also receive an annual distribution and/or service fee of up to 0.25% of the average daily net assets represented by the Class A shares held by its clients. Prior to the thirteenth month, the Distributor will retain this fee. Where the Service Agent does not receive the payment of this commission, the Service Agent will instead receive the annual distribution and/or service fee starting immediately after purchase. Please contact your Service Agent for more information.

Reductions, waivers or elimination of sales charges for Class A shares

Larger purchases

You may reduce or eliminate your Class A front-end sales charge by purchasing greater quantities. You pay a lower rate as the size of your investment increases to the breakpoint levels indicated in the chart above. You do not pay an initial sales charge when you buy \$1,000,000 or more of Class A shares. However, if you redeem these Class A shares within 18 months of purchase, you will pay a contingent deferred sales charge of 1.00%. Please see "Contingent deferred sales charges—Class A and Class C shares" below.

Letter of intent and accumulation privilege

There are several ways you can combine Eligible Purchases (as defined below) within Eligible Accounts (as defined below) to take advantage of the breakpoints in the Class A sales charge schedule. In order to take advantage of reductions in sales charges that may be available to you when you purchase fund shares, you must inform your Service Agent or the fund if you believe you are eligible for a letter of intent or a right of accumulation. Whether you made Eligible Purchases through one or more Service Agents, directly from the fund or through a combination of the foregoing, it is your responsibility to inform your Service Agent or the fund if you own Eligible Purchases that you believe are eligible to be aggregated with your

purchases. **If you do not do so, you may not receive all sales charge reductions for which you are eligible.** Account statements may be necessary in order to verify your eligibility for a reduced sales charge.

Eligible Purchases include: (i) any class of shares of any other Legg Mason or Franklin Templeton fund other than shares of such funds offered through separately managed accounts that are managed by a Franklin Templeton affiliate; and (ii) units of a Section 529 Plan managed by a Franklin Templeton affiliate. For purposes of a letter of intent and the accumulation privilege, Legg Mason and Franklin Templeton funds include BrandywineGLOBAL funds, ClearBridge Investments funds, Martin Currie funds, and Western Asset funds. They do not include the funds in the Franklin Templeton Variable Insurance Products Trust, Legg Mason Partners Variable Equity Trust, Legg Mason Partners Variable Income Trust or Legg Mason Partners Money Market Trust (except for shares held in Distributor Accounts). Please contact your Service Agent or the fund for more information.

Eligible Accounts include shares of Legg Mason and Franklin Templeton funds registered to (or held by a financial intermediary for):

- You, individually;
- Your “family member,” defined as your spouse or domestic partner, as recognized by applicable state law, or your children;
- You jointly with one or more family members;
- You jointly with one or more persons who are not family members if that other person has not included the value of the jointly-owned shares for purposes of the accumulation privilege (as described below) for that person’s separate investments in Legg Mason or Franklin Templeton fund shares;
- A Coverdell Education Savings account for which you or a family member is the identified responsible person;
- A trustee/custodian of an IRA (which includes a Roth IRA and an employer sponsored IRA such as a SIMPLE IRA) or your non-ERISA covered 403(b) plan account, if the shares are registered/recorded under your or a family member’s Social Security number;
- A 529 college savings plan over which you or a family member has investment discretion and control;
- Any entity over which you or a family member has individual or shared authority, as principal, has investment discretion and control (for example, an UGMA/UTMA account for a child on which you or a family member is the custodian, a trust on which you or a family member is the trustee, a business account (not to include retirement plans) for your solely owned business (or the solely owned business of a family member) on which you or a family member is the authorized signer); or
- A trust established by you or a family member as grantor.

Legg Mason and Franklin Templeton fund shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (see definition below) such as a 401(k) plan do not qualify for the accumulation privilege.

Legg Mason and Franklin Templeton fund assets held in multiple Employer Sponsored Retirement Plans (as defined below) may be combined in order to qualify for sales charge breakpoints at the plan level if the plans are sponsored by the same employer.

An “Employer Sponsored Retirement Plan” is a Qualified Retirement Plan (as defined below), ERISA covered 403(b) plan or certain non-qualified deferred compensation arrangements that operate in a similar manner to a Qualified Retirement Plan, such as 457 plans and executive deferred compensation arrangements, but not including employer sponsored IRAs. A “Qualified Retirement Plan” is an employer sponsored pension or profit sharing plan that qualifies under section 401(a) of the Internal Revenue Code, including 401(k), money purchase pension, profit sharing and defined benefit plans.

Letter of intent. You may qualify for a reduced front-end sales charge by signing a “Letter of Intent”. A Letter of Intent allows you to combine the current or cost value, whichever is higher, of Eligible Purchases in Eligible Accounts with the value that you intend to purchase within the next 13 months, which would, if bought all at once, qualify you for a reduced sales charge. In addition, current holdings under the accumulation privilege may be included in the Letter of Intent. Shares or units redeemed or sold prior to reaching the threshold for a reduced sales charge will not be counted for these purposes. The 13-month period begins when the Letter of Intent is received by the fund or your Service Agent and you must inform your Service Agent or the fund that later purchases are subject to a Letter of Intent. Account statements may be necessary in order to verify your eligibility. If you hold Eligible Purchases in accounts at two or more Service Agents, please contact your Service Agent to determine which shares/units may be credited toward the Letter of Intent. Certain directors, trustees and fiduciaries may be entitled to combine accounts in determining their sales charge.

During the term of the Letter of Intent, the fund will hold Class A shares representing up to 5% of the indicated amount in an escrow account for payment of the sales charge due if you do not meet the intended asset level goal during the 13-month term of the Letter of Intent. If the full amount is not purchased during the 13-month period, shares in the amount of any sales charge due, based on the amount of actual purchases will be redeemed from your account.

Accumulation privilege. The accumulation privilege allows you to combine the current or cost value, whichever is higher, of Eligible Purchases in Eligible Accounts with the dollar amount of your next purchase of Class A shares in determining whether you qualify for a breakpoint and a reduced front-end sales charge. The current value of shares is determined by multiplying the number of shares as of the day prior to your current purchase by their public offering price. The cost value of shares is determined by aggregating the amount of Eligible Purchases in Eligible Accounts (including reinvested dividends and capital gains, but excluding capital appreciation), less any withdrawals, as of the date prior to your current purchase. The cost value of Eligible Purchases in Eligible Accounts, however, may only be aggregated for share purchases that took place within 18 months of your current purchase or your letter of intent start date, if applicable. You must inform your Service Agent or the fund if you are eligible for the

accumulation privilege and of the other Eligible Purchases you own that are eligible to be aggregated with your purchases. Account statements may be necessary in order to verify your eligibility. If you hold Eligible Purchases in accounts at two or more Service Agents, please contact your Service Agent to determine which Eligible Purchases may be credited toward the accumulation privilege.

Waivers for certain Class A investors

Class A initial sales charges are waived for certain types of investors, including:

- Shareholders investing in Class A shares through Distributor Accounts
- Investors who redeemed at least the same amount of Class A shares of a fund sold by the Distributor (excluding Putnam Investments Funds) in the past 90 days, if the investor's Service Agent is notified
- Directors and officers of any Franklin Templeton sponsored fund
- Employees of Franklin Resources and its subsidiaries
- Investors investing through certain retirement plans
- Investors who rollover fund shares from an employer-sponsored retirement plan into an individual retirement account administered on the same retirement plan platform
- Franklin Templeton donor-advised funds (such as the Franklin or Fiduciary Trust Charitable Programs) or investors purchasing through such funds

If you qualify for a waiver of the Class A initial sales charge, you must notify your Service Agent or the fund at 877-6LM-FUND/656-3863 at the time of purchase and provide sufficient information at the time of purchase to permit verification that the purchase qualifies for the initial sales charge waiver.

Different Service Agents may impose different sales loads or offer different ways to reduce sales loads. These variations are described at the end of this Prospectus in the appendix titled "Appendix: Waivers and Discounts Available from Certain Service Agents."

For additional information regarding waivers of Class A initial sales charges, contact your Service Agent or the fund, consult the SAI or visit www.franklintempleton.com/prospectus and click on the name of the fund. On the selected fund's page, scroll to the bottom of the page and click on the disclosure labeled "Click here for funds sales charge and breakpoint information."

Class C shares

You buy Class C shares at net asset value with no initial sales charge. However, if you redeem your Class C shares within one year of purchase, you will pay a contingent deferred sales charge of 1.00%. Omnibus Retirement Plans may not be subject to a contingent deferred sales charge.

Except as noted below, the Distributor generally will pay Service Agents selling Class C shares a commission of up to 1.00% of the purchase price of the Class C shares they sell. The Distributor will retain the contingent deferred sales charges and an annual distribution and/or service fee of up to 1.00% of the average daily net assets represented by the Class C shares serviced by these Service Agents until the thirteenth month after purchase. Starting in the thirteenth month after purchase, these Service Agents will receive an annual distribution and/or service fee of up to 1.00% of the average daily net assets represented by the Class C shares serviced by them. The Distributor may not pay Service Agents selling Class C shares to Omnibus Retirement Plans a commission on the purchase price of Class C shares sold by them. Instead, immediately after purchase, the Distributor may pay these Service Agents an annual distribution and/or service fee of up to 1.00% of the average daily net assets represented by the Class C shares serviced by them.

Class C share conversion

Except as noted below, Class C shares automatically convert to Class A shares after the shares have been held for 8 years from the purchase date; the shares will be converted in the month of, or the month following, the 8-year anniversary of purchase. The monthly conversion processing date typically occurs around the middle of every month and generally falls on a Friday. It is the responsibility of your Service Agent and not the fund or the Distributor to ensure that you are credited with the proper holding period. If your Service Agent does not have records verifying that your shares have been held for at least 8 years, your Service Agent may not convert your Class C shares to Class A shares. Group retirement plans held in an omnibus recordkeeping platform through a Service Agent that does not track participant-level share lot aging may not convert Class C shares to Class A shares. Customers of certain Service Agents may be subject to different terms or conditions, as set by their Service Agent, in connection with such conversions. Please refer to the appendix titled "Appendix: Waivers and Discounts Available from Certain Service Agents" on page A-1 of this Prospectus or contact your Service Agent for more information.

For Class C shares that have been acquired through an exchange from another eligible fund sold by the Distributor, the purchase date is calculated from the date the shares were originally acquired in the other fund. When Class C shares that a shareholder acquired through a purchase or exchange convert, any other Class C shares that the shareholder acquired as reinvested dividends and distributions related to those shares also will convert into Class A shares on a pro rata basis.

All conversions from Class C shares to Class A shares will be based on the per share net asset value without the imposition of any sales load, fee or other charge. The conversion from Class C shares to Class A shares is not considered a taxable event for U.S. federal income tax purposes.

Contingent deferred sales charges – Class A and Class C shares

The contingent deferred sales charge is based on the net asset value at the time of purchase or redemption, whichever is less, and therefore you do not pay a sales charge on amounts representing appreciation or depreciation.

In addition, you do not pay a contingent deferred sales charge:

- When you exchange shares for shares of the same share class of another eligible fund sold by the Distributor
- On shares representing reinvested distributions and dividends
- On shares no longer subject to the contingent deferred sales charge

Each time you place a request to redeem shares, the fund will first redeem any shares in your account that are not subject to a contingent deferred sales charge and then redeem the shares in your account that have been held the longest.

If you redeem shares of a fund sold by the Distributor and pay a contingent deferred sales charge, you may, under certain circumstances, reinvest all or part of the redemption proceeds within 90 days in any other fund sold by the Distributor (excluding Putnam Investments Funds) and receive pro rata credit for any contingent deferred sales charge imposed on the prior redemption. Please contact your Service Agent or the fund for additional information.

The Distributor receives contingent deferred sales charges as partial compensation for its expenses in selling shares, including the payment of compensation to your Service Agent.

Contingent deferred sales charge waivers

The contingent deferred sales charge for each share class will generally be waived:

- On payments made through certain systematic withdrawal plans
- On certain distributions from a retirement plan
- For certain Omnibus Retirement Plans
- For involuntary redemptions of small account balances
- For 12 months following the death or disability of a shareholder
- On redemptions with respect to investors where the Distributor did not pay the Service Agent a commission
- On redemptions of Class A shares purchased by or through a Franklin Templeton donor-advised fund (such as the Franklin or Fiduciary Trust Charitable Programs)

To have your contingent deferred sales charge waived, you or your Service Agent must let the fund know at the time you redeem shares that you qualify for such a waiver.

Different Service Agents may offer different contingent deferred sales charge waivers. These variations are described at the end of this Prospectus in the appendix titled “Appendix: Waivers and Discounts Available from Certain Service Agents.”

For additional information regarding waivers of contingent deferred sales charges, contact your Service Agent or the fund, consult the SAI or visit the fund’s website, www.franklintempleton.com/prospectus, and click on the name of the fund. On the selected fund’s page, scroll to the bottom of the page and click on the disclosure labeled “Click here for funds sales charge and breakpoint information.”

Class R shares

You buy Class R shares at net asset value with no initial sales charge and no contingent deferred sales charge when redeemed.

Service Agents receive an annual distribution and/or service fee of up to 0.50% of the average daily net assets represented by the Class R shares serviced by them.

Class I and Class IS shares

You buy Class I or Class IS shares at net asset value with no initial sales charge, no contingent deferred sales charge when redeemed and no asset-based fee for sales or distribution. However, if you purchase Class I or Class IS shares through a Service Agent acting solely as an agent on behalf of its customers pursuant to an agreement with the Distributor, that Service Agent may charge you a commission in an amount determined and separately disclosed to you by the Service Agent.

Because the fund is not a party to any commission arrangement between you and your Service Agent, any purchases and redemptions of Class I or Class IS shares will be made by the fund at the applicable net asset value (before imposition of the sales commission). Any commissions charged by a Service Agent are not reflected in the fees and expenses listed in the fee table or expense example in this Prospectus nor are they reflected in the performance in the bar chart and table in this Prospectus because these commissions are not charged by the fund.

Class O shares

Class O shares are offered only to former Class O shareholders of ClearBridge Equity Fund. You buy Class O shares at net asset value with no initial sales charge and no contingent deferred sales charge when redeemed. Class O shares are not subject to any distribution and/or service fees.

Buying shares

Generally

You may buy shares at their net asset value next determined after receipt by your Service Agent or the transfer agent of your purchase request in good order, plus any applicable sales charge.

The fund may not be available for sale in certain states. Prospective investors should inquire as to whether the fund is available for sale in their state of residence.

You must provide the following information for your order to be processed:

- Name of fund being bought
- Class of shares being bought
- Dollar amount or number of shares being bought (as applicable)
- Account number (if existing account)

Through a Service Agent

You should contact your Service Agent to open an account and make arrangements to buy shares.

Your Service Agent may charge an annual account maintenance fee.

Through the fund

Investors should contact the fund at 877-6LM-FUND/656-3863 to open an account and make arrangements to buy shares.

For initial purchases, complete and send your account application to the fund at one of the following addresses:

Regular Mail:

Legg Mason Funds
P.O. Box 33030
St. Petersburg, FL 33733-8030

Express, Certified or Registered Mail:

Legg Mason Funds
100 Fountain Parkway
St. Petersburg, FL 33716-1205

Subsequent purchases should be sent to the same address. Enclose a check to pay for the shares. The fund will accept checks from other fund families and investment companies as long as the registration name on your fund account is the same as that listed on the check.

Through a systematic investment plan

You may authorize your Service Agent or the fund transfer agent to transfer funds automatically from (i) a regular bank account, (ii) cash held in a brokerage account with a Service Agent, (iii) another fund sold by the Distributor (excluding Putnam Investments Funds) or (iv) certain money market funds, in order to buy shares on a regular basis.

- Amounts transferred must meet the applicable minimums (see "Purchase and sale of fund shares")
- If you do not have sufficient funds in your account on a transfer date, you may be charged a fee
- For amounts transferred from other funds sold by the Distributor, please see the section titled "Exchanging shares—Through a systematic exchange plan" in such fund's prospectus

For more information, please contact your Service Agent or the fund, or consult the SAI.

Franklin Templeton VIP Services®

You may be eligible for Franklin Templeton VIP Services® if you currently have \$500,000 or more invested in Franklin Templeton affiliated funds based solely on shares registered directly with the fund and excluding shares held indirectly through brokerage accounts. Franklin Templeton VIP Services® shareholders enjoy enhanced services and transaction capabilities. Please contact Shareholder Services at (800) 632-2301 for additional information on this program.

Additional information about purchases

If you pay with a check or electronic transfer (ACH) that does not clear or if your payment is not received in a timely manner, your purchase may be cancelled and you may be liable for any loss to the fund. Please note that the fund will not accept cash, third-party checks, credit card convenience checks, pre-paid debit cards, non-bank money orders, traveler's checks or checks drawn on foreign banks for purchase of fund shares. The fund will

accept checks payable to the shareholders that have been issued by a U.S. state or federal government agency. The fund and its agents have the right to reject or cancel any purchase due to nonpayment.

Account registration changes

Changes in registration or certain account options for accounts held directly with the fund must be made in writing. Medallion signature guarantees may be required. (See “Other things to know about transactions—Medallion signature guarantees” below.) All correspondence must include the account number and must be sent to one of the following addresses:

Regular Mail:

Exchanging shares

Generally

You or your Service Agent may instruct the fund to exchange shares of any class for shares of the same class of any other fund sold by the Distributor (excluding Putnam Investments Funds), provided that the fund shares to be acquired in the exchange are available to new investors in such other fund and you are eligible to invest in such shares. Additionally, if the fund into which you wish to exchange your shares does not offer the class of shares in which you are currently invested, you may be able to exchange for a different share class (see “Exchangeability between funds without the same share class” below).

In addition, you may exchange shares of a fund for a different share class of the same fund provided you meet the eligibility requirements of the share class into which you are exchanging. You may exchange shares of the fund on any day that both the fund and the fund into which you are exchanging are open for business. Please contact your Service Agent or the fund about funds available for exchange.

You may not exchange Class O shares for the same class of shares of other funds sold by the Distributor.

An exchange of shares of one fund for shares of another fund is considered a sale and generally results in a capital gain or loss for U.S. federal income tax purposes, unless you are investing through an IRA, 401(k) or other tax-advantaged account. An exchange of shares of one class directly for shares of another class of the same fund normally should not be taxable for U.S. federal income tax purposes. You should talk to your tax professional before making an exchange.

The exchange privilege is not intended as a vehicle for short-term trading. The fund may suspend or terminate your exchange privilege if you engage in a pattern of excessive exchanges.

Exchangeability between funds without the same share class

If the fund you are exchanging into does not offer your share class, you may be able to exchange your shares for a different share class.

Exchange from share class	Exchangeable for
Class I	Class A shares of Franklin U.S. Government Money Fund, Advisor Class or Class Z
Class IS	Advisor Class, Class Z or Class R6
Class R	Class FI

Franklin Templeton offers a distinctive family of funds tailored to help meet the varying needs of large and small investors

You may exchange shares at their net asset value next determined after receipt by your Service Agent or the transfer agent of your exchange request in good order.

- If you bought shares through a Service Agent, contact your Service Agent to learn which funds your Service Agent makes available to you for exchanges
- If you bought shares directly from the fund, contact the fund at 877-6LM-FUND/656-3863 to learn which funds are available to you for exchanges
- Generally, exchanges may be made only between accounts that have identical registrations, unless you send written instructions with a signature guarantee
- Not all funds offer all classes
- Some funds are offered only in a limited number of states. Your Service Agent or the fund will provide information about the funds offered in your state

Always be sure to read the prospectus of the fund into which you are exchanging shares.

Investment minimums, sales charges and other requirements

- In most instances, your shares will not be subject to an initial sales charge or a contingent deferred sales charge at the time of the exchange. You may be charged an initial or contingent deferred sales charge if the shares being exchanged were not subject to a sales charge
- Except as noted above, your contingent deferred sales charge (if any) will continue to be measured from the date of your original purchase of shares subject to a contingent deferred sales charge, and you will be subject to the contingent deferred sales charge of the fund that you originally purchased
- You will generally be required to meet the minimum investment requirement for the class of shares of the fund or share class into which your exchange is made (except in the case of systematic exchange plans or in exchanges of an entire account balance)
- Your exchange will also be subject to any other requirements of the fund or share class into which you are exchanging shares
- The fund may suspend or terminate your exchange privilege if you engage in a pattern of excessive exchanges

By telephone

Contact your Service Agent or, if you hold shares directly with the fund, call the fund at 877-6LM-FUND/656-3863 for information. Exchanges are priced at the net asset value next determined. Telephone exchanges may be made only between accounts that have identical registrations and may be made on any day the New York Stock Exchange ("NYSE") is open.

By mail

Contact your Service Agent or, if you hold shares directly with the fund, write to the fund at one of the following addresses:

Through a systematic exchange plan

You may be permitted to schedule automatic exchanges of shares of the fund for shares of other funds available for exchange. All requirements for exchanging shares described above apply to these exchanges. In addition:

- Exchanges may be made monthly, every alternate month, quarterly, semi-annually or annually
- Each exchange must meet the applicable investment minimums for systematic investment plans (see "Purchase and sale of fund shares")

For more information, please contact your Service Agent or the fund or consult the SAI.

Redeeming shares

Generally

You may redeem shares at their net asset value next determined after receipt by your Service Agent or the fund transfer agent of your redemption request in good order, less any applicable contingent deferred sales charge. Redemptions made through your Service Agent may be subject to transaction fees or other conditions as set by your Service Agent.

If the shares are held by a fiduciary or corporation, partnership or similar entity, other documents may be required.

Redemption proceeds

Your redemption proceeds normally will be sent within 2 business days after your request is received in good order, but in any event within 7 days, regardless of the method the fund uses to make such payment (e.g., check, wire or electronic transfer (ACH)). If you make a redemption request before the fund has collected payment for the purchase of shares, the fund may delay your proceeds until payment is collected, for up to 10 days.

Your redemption proceeds may be delayed, or your right to receive redemption proceeds suspended beyond 7 days, if the NYSE is closed (other than on weekends or holidays) or trading is restricted, if an emergency exists, or otherwise as permitted by order of the Securities and Exchange Commission ("SEC").

If you have a brokerage account with a Service Agent, your redemption proceeds may be sent to your Service Agent. Your redemption proceeds can be sent by check to your address of record or by wire or electronic transfer (ACH) to a bank account designated by you. To change the bank account designated to receive wire or electronic transfers, you will be required to deliver a new written authorization and may be asked to provide other documents. You may be charged a fee by your bank on a wire or an electronic transfer (ACH).

In other cases, unless you direct otherwise, your proceeds will be paid by check mailed to your address of record.

Under normal circumstances, the fund expects to meet redemption requests by using cash or cash equivalents in its portfolio and/or selling portfolio assets to generate cash. The fund also may pay redemption proceeds using cash obtained through borrowing arrangements that may be available from time to time.

The fund may pay all or a portion of your redemption proceeds by giving you securities (for example, if the fund reasonably believes that a cash redemption may have a substantial impact on the fund and its remaining shareholders). You may pay transaction costs to dispose of the securities, and you may receive less for them than the price at which they were valued for purposes of the redemption.

The fund has available an unsecured revolving credit facility (the "Global Credit Facility") that may be used as an additional source of liquidity to fund redemptions of shares. There can be no assurance that the Global Credit Facility will remain available to the fund generally or that any available credit under the Global Credit Facility will be available to the fund when the fund seeks to draw on the Global Credit Facility.

During periods of deteriorating or stressed market conditions, when an increased portion of the fund's portfolio may be comprised of investments that have lower liquidity, or during extraordinary or emergency circumstances, the fund may be more likely to pay redemption proceeds with cash obtained through short-term borrowing arrangements (if available) or by giving you securities.

Your written request must provide the following:

- The fund name, the class of shares being redeemed and your account number
- The dollar amount or number of shares being redeemed
- Signature of each owner exactly as the account is registered
- Medallion signature guarantees, as applicable (see "Other things to know about transactions")

By telephone

If your account application permits, you may be eligible to redeem shares by telephone. Contact your Service Agent or, if you

hold shares directly with the fund, call 877-6LM-FUND/656-3863 for more information. Please have the following information ready when you call:

- Name of fund being redeemed
- Class of shares being redeemed
- The dollar amount or number of shares being redeemed
- Account number

Systematic withdrawal plans

You may be permitted to schedule automatic redemptions of a portion of your shares. To qualify, you must own shares of the fund with a value of at least \$5,000 and each automatic redemption must be at least \$50 per transaction per month. For retirement plans subject to mandatory distribution requirements, the minimum withdrawal amounts will not apply.

The following conditions apply:

- Redemptions may be made monthly, quarterly, semi-annually or annually. Redemptions may be processed on the 1st, 5th, 10th, 15th, 20th and 25th days of the month, if no day is indicated, redemptions will be made on the 20th day of the month.
- If your shares are subject to a contingent deferred sales charge, the charge will be required to be paid upon redemption. However, the charge will be waived if your automatic redemptions do not exceed 1% monthly, 3% quarterly, 6% semiannually or 12% annually of your account's net asset value, depending on the frequency of your plan.
- Your Service Agent may impose a lower minimum amount for each automatic redemption on a monthly and quarterly basis.

For more information, please contact your Service Agent or the fund or consult the SAI.

Other things to know about transactions

When you buy, exchange or redeem shares, your request must be in good order. This means you have provided the following information, without which your request may not be processed:

- Name of the fund
- Your account number
- In the case of a purchase (including a purchase as part of an exchange transaction), the class of shares being bought
- In the case of an exchange or redemption, the class of shares being exchanged or redeemed (if you own more than one class)
- Dollar amount or number of shares being bought, exchanged or redeemed
- In certain circumstances, the signature of each owner exactly as the account is registered (see "Redeeming shares")

In certain circumstances, such as during periods of market volatility, severe weather and emergencies, shareholders may experience difficulties placing exchange or redemption orders by telephone. In that case, shareholders should consider using the fund's other exchange and redemption procedures described under "Exchanging shares" and "Redeeming shares."

The transfer agent or the fund will employ reasonable procedures to confirm that any telephone, electronic or other exchange or redemption request is genuine, which may include recording calls, asking the caller to provide certain personal identification information, employing identification numbers, sending you a written confirmation or requiring other confirmation procedures from time to time. If these procedures are followed, neither the fund nor its agents will bear any liability for these transactions, subject to applicable law.

The fund does not consider the U.S. Postal Service or private delivery services to be its agents. Therefore, deposits in the mail or with such delivery services, or receipt at the fund's post office box, of purchase requests or redemption orders, do not constitute receipt by the fund or its transfer agent.

Purchase, redemption and exchange requests mailed to Franklin Templeton's address in San Mateo, California, rather than to the address set forth in the "Buying shares" and "Redeeming shares" sections above, will be date- and time-stamped when received in San Mateo. If these requests are in good order, such orders will be priced at the next net asset value calculated after the date and time indicated by the stamp on the request.

The fund has the right to:

- Suspend the offering of shares permanently or for a period of time
- Waive or change minimum initial and additional investment amounts
- Reject any purchase or exchange order
- Change, revoke or suspend the exchange privilege
- Suspend telephone transactions
- Suspend or postpone redemptions of shares on any day when trading on the NYSE is restricted or as otherwise permitted by the SEC
- Redeem shares if information provided in the application should prove to be incorrect in any manner judged by the fund to be material (e.g., in a manner such as to render the shareholder ineligible to purchase shares of that class)
- Delay sending out redemption proceeds for up to seven days if, in the judgment of the subadviser, the fund could be adversely affected by immediate payment. The fund may delay redemptions beyond seven days, or suspend redemptions, only as permitted by the SEC or the Investment Company Act of 1940, as amended

The fund may be required to close your account after a period of inactivity, as determined by applicable U.S. state or territory abandoned or unclaimed property laws and regulations, and transfer your shares to the appropriate U.S. state or territory. If your shares are transferred to an applicable U.S. state or territory from an IRA account, that could be treated as a taxable distribution from your IRA to you. For more information on unclaimed property and how to maintain an active account, please contact your Service Agent or the fund's transfer agent.

For your protection, the fund or your Service Agent may request additional information in connection with large redemptions, unusual activity in your account, or otherwise to ensure your redemption request is in good order. Please contact your Service Agent or the fund for more information.

Medallion signature guarantees

To be in good order, you may be asked to include a Medallion signature guarantee with your redemption request if you:

- are redeeming shares and sending the proceeds to an address or bank account not currently on file or to an account in another fund sold by the Distributor with a different account registration
- are redeeming more than \$250,000 worth of shares
- changed your account registration or your address within 15 calendar days
- want the check paid to someone other than the account owner(s)
- are transferring the redemption proceeds to an account with a different registration

For other types of transactions involving changes to your account registration information, please contact the fund or your Service Agent.

When a Medallion signature guarantee is called for, the shareholder should have a Medallion signature guarantee stamped under his or her signature. You can obtain a signature guarantee from most banks, dealers, brokers, credit unions and federal savings and loan institutions, national securities exchanges, registered securities associations and clearing agencies (each an "Eligible Guarantor Institution"), but not from a notary public.

The fund and its agents reserve the right to reject any Medallion signature guarantee pursuant to written signature guarantee standards or procedures, which may be revised in the future to permit them to reject Medallion signature guarantees from Eligible Guarantor Institutions. The fund may change the signature guarantee requirements from time to time without prior notice to shareholders.

Restrictions on the availability of the fund outside the United States

The distribution of this Prospectus and the offering of shares of the fund are restricted in certain jurisdictions. This Prospectus is not an offer or solicitation in any jurisdiction where such offer or solicitation is unlawful, where the person making an offer or solicitation is not authorized to make it or a person receiving an offer or solicitation may not lawfully receive it or may not lawfully invest in the fund. Investors should inform themselves as to the legal requirements within their own country before investing in the fund.

This Prospectus, and the offer of shares hereunder, are not directed at persons outside the United States. In particular, the fund is not intended to be marketed to prospective investors in any member state of the European Union, Iceland, Liechtenstein or Norway (collectively, the "European Economic Area" or "EEA"). No notification or application has been made to the competent authority of any member state of the EEA under the Alternative Investment Fund Managers Directive (or any applicable legislation or regulations made thereunder) to market the fund to investors in the EEA and it is not intended that any such notification or application shall be made.

U.S. citizens with addresses in the United States, and non-U.S. citizens who reside in the United States and have U.S. addresses, are permitted to establish accounts with the fund. For these purposes, the "United States" and "U.S." include U.S. territories.

The fund generally does not permit persons who do not reside in the United States or who do not have U.S. addresses to establish accounts. Therefore, U.S. citizens residing in foreign countries, as well as non-U.S. citizens residing in foreign countries, generally will not be permitted to establish accounts with the fund.

For further information, you or your Service Agent may contact the fund at 877-6LM-FUND/656-3863.

Anti-money laundering

Federal anti-money laundering regulations require all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you sign your account application, you may be asked to provide additional information in order for the fund to verify your identity in accordance with these regulations. If you are opening the account in the name of a legal entity (e.g. partnership, limited liability company, business trust, corporation, etc.), you may also be required to supply the identity of the beneficial owners and a control individual with management authority, prior to the opening of your account. Accounts may be restricted and/or closed, and the monies withheld, pending verification of this information or as otherwise required under these and other federal regulations.

Small account fees/Mandatory redemptions

Small accounts may be subject to a small account fee or to mandatory redemption, as described below. Please contact your Service Agent or the fund for information on the policy applicable to your account.

Small account fees

To offset the relatively higher impact on fund expenses of servicing smaller accounts, the fund may charge you a fee of \$3.75 per account that is determined and assessed quarterly by your Service Agent or by the Distributor for Distributor Accounts on the next-to-last business day of the quarter (with an annual maximum of \$15.00 per account) if the value of your account is below \$1,000 (if applicable, \$250 for retirement plans that are not employer-sponsored) for any reason (including declines in net asset value). The small account fee will be charged by redeeming shares in your account. If the value of your account is \$3.75 or less, the amount in the account may be exhausted to pay the small account fee. If your Service Agent or the Distributor assesses a small account fee, the small account fee will not be assessed on systematic investment plans until the end of the first quarter after the account has been established for 21 months. Payment of the small account fee through a redemption of fund shares may result in tax consequences to you (see "Taxes" for more information).

The small account fee will not be charged on, if applicable: (i) retirement plans (but will be charged on other plans that are not employer-sponsored such as traditional and Roth individual retirement accounts, Coverdell education savings accounts, individual 403(b)(7) custodial accounts, Keogh plans, SEPs, SARSEPs, SIMPLE IRAs or similar accounts); (ii) Franklin Templeton funds that have been closed to subsequent purchases for all classes; (iii) accounts that do not have a valid address as evidenced by mail being returned to the fund or its agents; (iv) Class R, Class I and Class IS shares; and (v) for new accounts (except for new accounts opened by way of an exchange), a small account fee will not be charged during the calendar quarter in which you open your account.

If your share class is no longer offered, you may not be able to bring your account up to the minimum investment amount (although you may exchange into existing accounts of other funds sold by the Distributor in which you hold the same share class, to the extent otherwise permitted by those funds and subject to any applicable sales charges).

The small account fee is calculated on a fund-by-fund basis. If you have accounts in multiple funds, they will not be aggregated for the purpose of calculating the small account fee.

Some shareholders who hold accounts in Classes A and C of the same fund may have those accounts aggregated for the purposes of these calculations. Please contact the fund or your Service Agent for more information.

Small account balance liquidations

The fund reserves the right to ask you to bring your account up to a minimum investment amount determined by your Service Agent if your account has been open for more than one year and the aggregate value of the fund shares in your account is less than \$500. You will be notified in writing and will have 30 days to make an additional investment to bring your account value up to the required level. If you choose not to do so within this 30-day period, the fund may close your account and send you the redemption proceeds. You will not be charged a contingent deferred sales charge, if applicable, if your account is closed for this reason. If your share class is no longer offered, you may not be able to bring your account up to the minimum investment amount.

If your account is closed, you will not be eligible to have your account reinstated without imposition of any sales charges that may apply to your new purchase. Please contact your Service Agent for more information. Any redemption of fund shares may result in tax consequences to you (see "Taxes" for more information).

This policy does not apply to: (i) certain broker-controlled accounts established through the National Securities Clearing Corporation's Networking system; (ii) Class A accounts established pursuant to a conversion from Class C or C1, and any remaining Class C or C1 accounts involved in the conversion with a low balance due to the conversion; (iii) tax-advantaged retirement plan accounts; (iv) accounts with an active systematic investment plan; (v) accounts held through a 529 college saving program; (vi) accounts that do not have a valid address as evidenced by mail being returned to the fund or its agents, (vii) Coverdell Education Saving Plan accounts; and (viii) accounts identified to us by the applicable Service Agent as being fee-based accounts.

General

The fund may, with prior notice, change the minimum size of accounts subject to mandatory redemption, which may vary by class, implement fees for other small accounts or change the amount of the fee for small direct accounts.

Subject to applicable law, the fund may, with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

For more information, please contact your Service Agent or the fund or consult the SAI.

Frequent trading of fund shares

The Board has adopted the following policies and procedures with respect to frequent trading in fund shares ("Frequent Trading Policy").

The fund does not intend to accommodate short-term or frequent purchases and redemptions of fund shares that may be detrimental to the fund. For example, this type of trading activity could interfere with the efficient management of the fund's portfolio or materially increase the fund's transaction costs, administrative costs or taxes.

In addition, since the fund may invest in foreign securities, it may be vulnerable to a form of short-term trading that is sometimes referred to as "time-zone arbitrage." Time-zone arbitrage occurs when an investor seeks to take advantage of delays between changes in the value of a mutual fund's portfolio holdings and the reflection of those changes in the fund's net asset value per share. These delays are more likely to occur in the case of foreign investments, due to differences between the times during which the fund's international portfolio securities trade on foreign markets and the time as of which the fund's net asset value is calculated (generally as of the close of the NYSE). Time-zone arbitrage traders seek to purchase or redeem shares of a fund based on events occurring after foreign market closing prices are established, but before calculation of the fund's net asset value. This can result in the value of the fund's shares being diluted. One of the objectives of the fund's fair value pricing procedures is to minimize the possibility of this type of arbitrage; however, there can be no assurance that the fund's valuation procedures will be successful in eliminating it.

Since the fund may invest in securities that are, or may be, restricted, unlisted, traded infrequently, thinly traded, or relatively illiquid ("relatively illiquid securities"), it may be particularly vulnerable to arbitrage short-term trading. Such arbitrage traders may seek to take advantage of a possible differential between the last available market prices for one or more of those relatively illiquid securities that are used to calculate the fund's net asset value and the latest indications of market values for those securities. One of the objectives of the fund's fair value pricing procedures is to minimize the possibilities of this type of arbitrage; however, there can be no assurance that the fund's valuation procedures will be successful in eliminating it.

Through its transfer agent, the fund performs ongoing monitoring of shareholder trading in shares of the fund and other Franklin Templeton affiliated funds in order to try and identify shareholder trading patterns that suggest an ongoing short-term trading strategy. If shareholder trading patterns identified by the transfer agent through monitoring or from other information regarding the shareholder's trading activity in non-Franklin Templeton affiliated funds leads the transfer agent to reasonably conclude that such trading may be detrimental to the fund as described in this Frequent Trading Policy, the transfer agent, on behalf of the fund, may temporarily or permanently bar future purchases into the fund or, alternatively, may limit the amount, number or frequency of any future purchases and/or the method by which you may request future purchases and redemptions (including purchases and/or redemptions by an exchange or transfer between the fund and any other mutual fund).

In considering an investor's trading patterns, the fund may consider, among other factors, the investor's trading history both directly and, if known, through financial intermediaries, in the fund, in other Franklin Templeton affiliated funds, in non-Franklin Templeton affiliated mutual funds, or in accounts under common control or ownership. The transfer agent may also reject any purchase request, whether or not it represents part of any ongoing trading pattern, if the manager or the fund's transfer agent reasonably concludes that the amount of the requested transaction may disrupt or otherwise interfere with the efficient management of the fund's portfolio. In determining what actions should be taken, the fund's transfer agent may consider a variety of factors, including the potential impact of such remedial actions on the fund and its shareholders. If the fund is a "fund of funds," the fund's transfer agent may consider the impact of the trading activity and of any proposed remedial action on both the fund and the affiliated underlying funds in which the fund invests.

Frequent trading through financial intermediaries. You are an investor subject to this Frequent Trading Policy whether you are a direct shareholder of the fund or you are investing indirectly in the fund through a financial intermediary, such as a broker-dealer, bank, trust company, insurance company product such as an annuity contract, investment advisor, or an administrator or trustee of an IRS-recognized tax-advantaged savings plan such as a 401(k) retirement plan and a 529 college savings plan.

Some financial intermediaries maintain master accounts with the fund on behalf of their customers ("omnibus accounts"). The fund has entered into "information sharing agreements" with these financial intermediaries, which permit the fund to obtain, upon request, information about the trading activity of the intermediary's customers that invest in the fund. If the fund's transfer agent identifies omnibus account level trading patterns that have the potential to be detrimental to the fund, the transfer agent may, in its sole discretion, request from the financial intermediary information concerning the trading activity of its customers. Based upon its review of the information, if the transfer agent determines that the trading activity of any customer may be detrimental to the fund, it may, in its sole discretion, request the financial intermediary to restrict or limit further trading in the fund by that customer. There can be no assurance that the transfer agent's monitoring of omnibus account level trading patterns will enable it to identify all short-term trading by a financial intermediary's customers.

Record ownership

If you hold shares through a Service Agent, your Service Agent may establish and maintain your account and be the shareholder of record. In the event that the fund holds a shareholder meeting, your Service Agent, as record holder, will be entitled to vote your shares and may seek voting instructions from you. If you do not give your Service Agent voting instructions, your Service Agent, under certain circumstances, may nonetheless be entitled to vote your shares.

Confirmations and account statements

If you bought shares directly from the fund, you will receive a confirmation from the fund after each transaction (except a reinvestment of dividends or capital gain distributions, an investment made through the Systematic Investment Plan, exchanges made through a systematic exchange plan and withdrawals made through the Systematic Withdrawal Plan). Shareholders will receive periodic account statements.

To assist you in the management of your account you may direct the transfer agent to send copies of your confirmations and/or periodic statements to another party whom you designate, at no charge.

Dividends, other distributions and taxes

Dividends and other distributions

The fund generally pays dividends and distributes capital gain, if any, once in December and at such other times as are necessary. Shares will generally begin to earn dividends on the settlement date of purchase. The fund may pay additional distributions and dividends in order to avoid a U.S. federal tax.

You can elect to receive dividends and/or other distributions in cash.

Unless you elect to receive dividends and/or other distributions in cash, your dividends and capital gain distributions will be automatically reinvested in shares of the same class you hold, at the net asset value determined on the reinvestment date. You do not pay a sales charge on reinvested distributions or dividends.

If you hold shares directly with the fund and you elect to receive dividends and/or distributions in cash, you have the option to receive such dividends and/or distributions via a direct deposit to your bank account or by check.

If you hold Class A or Class C shares directly with the fund, you may instruct the fund to have your dividends and/or distributions invested in the corresponding class of shares of another fund sold by the Distributor (excluding Putnam Investments Funds and Western Asset Government Reserves), subject to the following conditions:

- You meet the minimum initial investment requirement of the other fund; and
- The other fund is available for sale in your state.

To change those instructions, you must notify your Service Agent or the fund at least three days before the next distribution is to be paid.

Please contact your Service Agent or the fund to discuss what options are available to you for receiving your dividends and other distributions.

The Board reserves the right to revise the dividend policy or postpone the payment of dividends, if warranted in the Board's judgment, due to unusual circumstances.

Taxes

The following discussion is very general, applies only to shareholders who are U.S. persons, and does not address shareholders subject to special rules, such as those who hold fund shares through an IRA, 401(k) plan or other tax-advantaged account. Except as specifically noted, the discussion is limited to U.S. federal income tax matters, and does not address state, local, non-U.S. or non-income taxes. Further information regarding taxes, including certain U.S. federal income tax considerations relevant to non-U.S. persons, is included in the SAI. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax professional about U.S. federal, state, local and/or non-U.S. tax considerations that may be relevant to your particular situation.

In general, redeeming shares, exchanging shares and receiving dividends and distributions (whether received in cash or reinvested in additional shares or shares of another fund) are all taxable events. An exchange between classes of shares of the same fund normally is not taxable for U.S. federal income tax purposes, whether or not the shares are held in a taxable account.

The following table summarizes the tax status of certain transactions related to the fund.

Transaction	U.S. federal income tax status
Redemption or exchange of shares	Usually capital gain or loss; long-term only if shares are owned more than one year
Dividends of investment income and distributions of net short-term capital gain	Ordinary income, or in certain cases qualified dividend income
Distributions of net capital gain (excess of net long-term capital gain over net short-term capital loss)	Long-term capital gain if reported as capital gain dividends by the fund

Distributions that the fund reports as qualified dividend income may be eligible to be taxed to noncorporate shareholders at the reduced rates applicable to long-term capital gain if certain requirements are satisfied. Distributions of net capital gain reported by the fund as capital gain dividends are taxable to you as long-term capital gain regardless of how long you have owned your shares. Noncorporate shareholders ordinarily pay tax at reduced rates on long-term capital gain.

If the fund realizes capital gains in excess of realized capital losses in any fiscal year, it generally expects to make capital gain distributions to shareholders. You may receive distributions that are attributable to appreciation of portfolio securities that happened before you made your investment but had not been realized at the time you made your investment, or that are attributable to capital gains or other income that, although realized by the fund, had not yet been distributed at the time you made your investment. Unless you purchase shares through a tax-advantaged account, these distributions will be taxable to you even though they economically represent a return of a portion of your investment. You may want to avoid buying shares when the fund is about to declare a dividend or capital gain distribution. You should consult your tax professional before buying shares no matter when you are investing.

A Medicare contribution tax is imposed at the rate of 3.8% on all or a portion of net investment income of U.S. individuals if their income exceeds specified thresholds and on all or a portion of undistributed net investment income of certain estates and trusts. Net investment income generally includes for this purpose dividends and capital gain distributions paid by the fund and gain on the redemption, exchange or other taxable disposition of fund shares.

A dividend declared by the fund in October, November or December and paid during January of the following year will, in certain circumstances, be treated as paid in December for tax purposes.

The fund's investment in certain non-U.S. securities, foreign currencies or foreign currency derivatives may affect the amount, timing, and character of fund distributions to shareholders.

After the end of each year, your Service Agent or the fund will provide you with information about the distributions and dividends you received and any redemptions of shares during the previous year. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax professional about your investment in the fund.

Share price

You may buy, exchange or redeem shares at their net asset value next determined after receipt of your request in good order, adjusted for any applicable sales charge. The fund's net asset value per share is the value of its assets minus its liabilities divided by the number of shares outstanding. Net asset value is calculated separately for each class of shares.

The fund calculates its net asset value every day the NYSE is open. The fund generally values its securities and other assets and calculates its net asset value as of the scheduled close of regular trading on the NYSE, normally at 4:00 p.m. (Eastern time). If the NYSE closes at a time other than the scheduled closing time, the fund will calculate its net asset value as of the scheduled closing time. The NYSE is closed on certain holidays listed in the SAI.

In order to buy, redeem or exchange shares at a certain day's price, you must place your order with your Service Agent or the fund transfer agent before the scheduled close of regular trading on the NYSE on that day to receive that day's price. If the NYSE closes early on that day, you must place your order prior to the scheduled closing time. It is the responsibility of the Service Agent to transmit all orders to buy, exchange or redeem shares to the fund transfer agent on a timely basis.

Valuation of the fund's securities and other assets is performed in accordance with the valuation policy approved by the Board. The fund's manager serves as the fund's valuation designee for purposes of compliance with Rule 2a-5 under the Investment Company Act of 1940, as amended. Under the valuation policy, assets are valued as follows:

- Equity securities and certain derivative instruments that are traded on an exchange are valued at the closing price (which may be reported at a different time than the time at which the fund's net asset value is calculated) or, if that price is unavailable or deemed by the manager not representative of market value, the last sale price. Where a security is traded on more than one exchange (as is often the case overseas), the security is generally valued at the price on the exchange considered by the manager to be the primary exchange. In the case of securities not traded on an exchange, or if exchange prices are not otherwise available, the prices are typically determined by independent third party pricing services that use a variety of techniques and methodologies. Investments in mutual funds are valued at the net asset value per share of the class of the underlying fund held by the fund as determined on each business day.
- The valuations for fixed income securities and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of fair valuation techniques and methodologies.
- The valuations of securities traded on foreign markets and certain fixed income securities will generally be based on prices determined as of the earlier closing time of the markets in which they primarily trade. The prices of foreign equity securities typically are adjusted using a fair value model developed by an independent third party pricing service to estimate the value of those securities at the time of closing of the NYSE. When the fund holds securities or other assets that are denominated in a foreign currency, the fund will normally use the currency exchange rates as of 4:00 p.m. (Eastern time). Foreign markets are open for trading on weekends and other days when the fund does not price its shares. Therefore, the value of the fund's shares may change on days when you will not be able to purchase or redeem the fund's shares.
- If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers. When such prices or quotations are not available, or when the manager believes that they are unreliable, the manager will price securities in accordance with the valuation policy. Among other things, the use of a formula or other method that takes into consideration market indices, yield curves and other specific adjustments may be used to determine fair value. Fair value of a security is the amount, as determined by the manager in good faith, that the fund might reasonably expect to receive upon a current sale of the security. Fair value procedures may also be used if the manager determines that a significant event has occurred between the time at which a market price is determined and the time at which the fund's net asset value is calculated.

Many factors may influence the price at which the fund could sell any particular portfolio investment. The sales price may well differ—higher or lower—from the fund's last valuation, and such differences could be significant, particularly for securities that trade in relatively thin markets and/or markets that experience extreme volatility. Moreover, valuing securities using fair value methodologies involves greater reliance on judgment than valuing securities based on market quotations. Fair value methodologies may value securities higher or lower than another fund using market quotations or its own fair value methodologies to price the same securities. There can be no assurance that the fund could obtain the value assigned to a security if it were to sell the security at approximately the time at which the fund determines its net asset value. Investors who purchase or redeem fund shares on days when the fund is holding fair-valued securities may receive a greater or lesser number of shares, or higher or lower redemption proceeds, than they would have received if the fund had not fair-valued the security or had used a different methodology.

Financial highlights

The financial highlights tables are intended to help you understand the performance of each class for the past five years, unless otherwise noted. Certain information reflects financial results for a single fund share. Total return represents the rate that an investor would have earned (or lost) on an investment in the fund, assuming reinvestment of all dividends and other distributions. This information has been audited by the fund's independent registered public accounting firm, PricewaterhouseCoopers LLP, whose report, along with the fund's audited financial statements for the fiscal year ended November 30, 2024, is incorporated by reference into the fund's SAI (see back cover). The fund's audited annual financial statements for the fiscal year ended November 30, 2024 are available upon request by calling toll-free 877-6LM-FUND/656-3863 or via the following hyperlink: (https://www.sec.gov/ix?doc=/Archives/edgar/data/880366/000113322825000536/Impit-efp13579_ncsr.htm).

Appendix: Waivers and Discounts Available from Certain Service Agents

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the fund or through a financial intermediary. Financial intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or contingent deferred (back-end) sales load waivers, which are discussed below. In all instances, it is the purchaser's responsibility to notify the fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. For waivers and discounts not available through a particular financial intermediary, shareholders will have to purchase fund shares directly from the fund or through another financial intermediary to receive these waivers or discounts.

The information below has been provided by the named financial intermediaries. Please contact the applicable financial intermediary with any questions regarding how it applies the policies described below and for assistance in determining whether you may qualify for a particular sales charge waiver or discount.

MERRILL LYNCH

Purchases or sales of front-end (i.e., Class A) or level-load (i.e., Class C) mutual fund shares through a Merrill platform or account will be eligible only for the following sales load waivers (front-end, contingent deferred, or back-end waivers) and discounts, which differ from those disclosed elsewhere in this fund's Prospectus. Purchasers will have to buy mutual fund shares directly from the mutual fund company or through another intermediary to be eligible for waivers or discounts not listed below.

It is the client's responsibility to notify Merrill at the time of purchase or sale of any relationship or other facts that qualify the transaction for a waiver or discount. A Merrill representative may ask for reasonable documentation of such facts and Merrill may condition the granting of a waiver or discount on the timely receipt of such documentation.

Additional information on waivers and discounts is available in the Merrill Sales Load Waiver and Discounts Supplement (the "Merrill SLWD Supplement") and in the Mutual Fund Investing at Merrill pamphlet at ml.com/funds. Clients are encouraged to review these documents and speak with their financial advisor to determine whether a transaction is eligible for a waiver or discount.

Front-end Sales Load Waivers Available at Merrill

- Shares of mutual funds available for purchase by employer-sponsored retirement, deferred compensation, and employee benefit plans (including health savings accounts) and trusts used to fund those plans provided the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
- Shares purchased through a Merrill investment advisory program
- Brokerage class shares exchanged from advisory class shares due to the holdings moving from a Merrill investment advisory program to a Merrill brokerage account
- Shares purchased through the Merrill Edge Self-Directed platform
- Shares purchased through the systematic reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same mutual fund in the same account
- Shares exchanged from level-load shares to front-end load shares of the same mutual fund in accordance with the description in the Merrill SLWD Supplement
- Shares purchased by eligible employees of Merrill or its affiliates and their family members who purchase shares in accounts within the employee's Merrill Household (as defined in the Merrill SLWD Supplement)
- Shares purchased by eligible persons associated with the fund as defined in this Prospectus (e.g., the fund's officers or trustees)
- Shares purchased from the proceeds of a mutual fund redemption in front-end load shares provided: (1) the repurchase is in a mutual fund within the same fund family; (2) the repurchase occurs within 90 calendar days from the redemption trade date; and (3) the redemption and purchase occur in the same account (known as Rights of Reinstatement). Automated transactions (i.e., systematic purchases and withdrawals) and purchases made after shares are automatically sold to pay Merrill's account maintenance fees are not eligible for Rights of Reinstatement

Contingent Deferred Sales Charge ("CDSC") Waivers on Front-end, Back-end, and Level Load Shares Available at Merrill

- Shares sold due to the client's death or disability (as defined by Internal Revenue Code Section 22e(3))
- Shares sold pursuant to a systematic withdrawal program subject to Merrill's maximum systematic withdrawal limits as described in the Merrill SLWD Supplement
- Shares sold due to return of excess contributions from an IRA account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the investor reaching the qualified age based on applicable IRS regulation

- Front-end or level-load shares held in commission-based, non-taxable retirement brokerage accounts (e.g., traditional, Roth, rollover, SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans) that are transferred to fee-based accounts or platforms and exchanged for a lower cost share class of the same mutual fund

Front-end Load Discounts Available at Merrill: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoint discounts, as described in this Prospectus, where the sales load is at or below the maximum sales load that Merrill permits to be assessed to a front-end load purchase, as described in the Merrill SLWD Supplement
- Rights of Accumulation (“ROA”), as described in the Merrill SLWD Supplement, which entitle clients to breakpoint discounts based on the aggregated holdings of mutual fund family assets held in accounts in their Merrill Household
- Letters of Intent (“LOI”), which allow for breakpoint discounts on eligible new purchases based on anticipated future eligible purchases within a fund family at Merrill, in accounts within your Merrill Household, as further described in the Merrill SLWD Supplement

AMERIPRISE FINANCIAL

Front-end sales charge reductions on Class A shares purchased through Ameriprise Financial:

Shareholders purchasing Class A shares of the fund through an Ameriprise Financial platform or account are eligible only for the following sales charge reductions, which may differ from those disclosed elsewhere in this prospectus or the SAI. Such shareholders can reduce their initial sales charge on the purchase of Class A shares as follows:

- *Transaction size breakpoints*, as described in this Prospectus or the SAI.
- *Rights of accumulation (ROA)*, as described in this Prospectus or the SAI.
- *Letter of intent*, as described in this Prospectus or the SAI.

Front-end sales charge waivers on Class A shares purchased through Ameriprise Financial

Shareholders purchasing Class A shares of the fund through an Ameriprise Financial platform or account are eligible only for the following sales charge waivers, which may differ from those disclosed elsewhere in this prospectus or the SAI. Such shareholders may purchase Class A shares at NAV without payment of a sales charge as follows:

- Shares purchased by employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Shares purchased through reinvestment of capital gains and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the same fund family).
- Shares exchanged from Class C shares of the same fund in the month of or following the seven-year anniversary of the purchase date. To the extent that this prospectus elsewhere provides for a waiver with respect to such shares following a shorter holding period, that waiver will apply to exchanges following such shorter period. To the extent that this prospectus elsewhere provides for a waiver with respect to exchanges of Class C shares for load waived shares, that waiver will also apply to such exchanges.
- Shares purchased by employees and registered representatives of Ameriprise Financial or its affiliates and their immediate family members.
- Shares purchased by or through qualified accounts (including IRAs, Coverdell Education Savings Accounts, 401(k)s, 403(b) TSCAs subject to ERISA and defined benefit plans) that are held by a covered family member, defined as an Ameriprise Financial advisor and/or the advisor's spouse, advisor's lineal ascendant (mother, father, grandmother, grandfather, great grandmother, great grandfather), advisor's lineal descendant (son, stepson, daughter, step-daughter, grandson, granddaughter, great grandson, great granddaughter) or any spouse of a covered family member who is a lineal descendant.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e. Rights of Reinstatement).

CDSC waivers on Class A and C shares purchased through Ameriprise Financial

Fund shares purchased through an Ameriprise Financial platform or account are eligible only for the following CDSC waivers, which may differ from those disclosed elsewhere in this prospectus or the SAI:

- Redemptions due to death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in this Prospectus or the SAI.
- Redemptions made in connection with a return of excess contributions from an IRA account.
- Shares purchased through a Right of Reinstatement (as defined above).
- Redemptions made as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code.

MORGAN STANLEY WEALTH MANAGEMENT

Front-end Sales Charge Waivers on Class A Shares available at Morgan Stanley Wealth Management:

Shareholders purchasing Fund shares through a Morgan Stanley Wealth Management brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Fund's Prospectus or SAI.

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund
- Shares purchased through a Morgan Stanley self-directed brokerage account
- Class C (i.e., level-load) and Class C2 shares, as applicable, that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Morgan Stanley Wealth Management's share class conversion program
- Shares purchased from the proceeds of redemptions within the same fund family, provided (i) the repurchase occurs within 90 days' following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.
- Morgan Stanley, on your behalf, can convert Class P shares, as applicable, to Class A shares, generally on a tax-free basis, without clients being subject to a front-end sales charge.

In addition, effective November 12, 2021, for the purpose of calculating rights of accumulation and letters of intent with respect to purchases made in a Morgan Stanley Wealth Management brokerage account, the following definition for "Eligible Purchases" applies. This definition may be more limited than the one contained in this Fund's Prospectus or SAI. It is the shareholder's responsibility to inform Morgan Stanley at the time of purchase of any relationship, holdings, or other facts qualifying the purchaser for a discount. Morgan Stanley can ask for documentation of such circumstance. Shareholders should contact Morgan Stanley if they have questions.

Eligible Purchases include:

- Any class of shares of any Franklin Templeton or Legg Mason fund that is registered in the U.S.; and
- Units of a Section 529 Plan where Franklin Templeton or Legg Mason is the program manager.

For purposes of this section, Franklin Templeton and Legg Mason funds also include BrandywineGLOBAL funds, ClearBridge Investments funds, Martin Currie funds, Western Asset funds and certain other funds managed by affiliated investment advisers. They do not include the funds in the Franklin Templeton Variable Insurance Products Trust, Legg Mason Partners Variable Equity Trust or Legg Mason Partners Variable Income Trust.

RAYMOND JAMES & ASSOCIATES, INC., RAYMOND JAMES FINANCIAL SERVICES, INC. AND EACH ENTITY'S AFFILIATES ("RAYMOND JAMES")

Effective March 1, 2019, shareholders purchasing fund shares through a Raymond James platform or account, or through an introducing broker-dealer or independent registered investment adviser for which Raymond James provides trade execution, clearance, and/or custody services, are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this fund's Prospectus or SAI.

Front-End Sales Charge Waivers on Class A Shares Available at Raymond James

- Shares purchased in an investment advisory program.
- Shares purchased within the same fund family through a systematic reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs with 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).
- A shareholder in the fund's Class C shares will have their shares converted at net asset value to Class A shares (or the appropriate share class) of the fund if the shares are no longer subject to a contingent deferred sales charge and the conversion is in line with the policies and procedures of Raymond James.

Contingent Deferred Sales Charge Waivers on Class A and Class C Shares Available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's Prospectus.
- Return of excess contributions from an IRA Account.

- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations as described in the fund's Prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-End Load Discounts Available at Raymond James: Breakpoints, Rights of Accumulation, and/or Letters of Intent

- Breakpoints as described in the fund's Prospectus.
- Rights of accumulation ("ROA"), which entitle shareholders to breakpoint discounts, will be automatically calculated based on the aggregated holding of the fund family assets held by accounts within the purchaser's household at Raymond James. Eligible fund family assets not held at Raymond James may be included in the calculation of rights of accumulation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family over a 13-month time period. Eligible fund family assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

EDWARD D. JONES & CO., L.P. ("EDWARD JONES")

Policies Regarding Transactions Through Edward Jones:

Effective on or after September 3, 2024, the following information supersedes prior information with respect to transactions and positions held in fund shares through an Edward Jones system. Clients of Edward Jones (also referred to as "shareholders") purchasing fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from discounts and waivers described elsewhere in the mutual fund Prospectus or statement of additional information ("SAI") or through another broker-dealer. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of Franklin Templeton funds, or other facts qualifying the purchaser for discounts or waivers. Edward Jones can ask for documentation of such circumstance. Shareholders should contact Edward Jones if they have questions regarding their eligibility for these discounts and waivers.

Breakpoints

- Breakpoint pricing, otherwise known as volume pricing, at dollar thresholds as described in the Prospectus.

Rights of Accumulation ("ROA")

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except certain money market funds and any assets held in group retirement plans) of the Franklin Templeton fund family held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations ("pricing groups"). If grouping assets as a shareholder, this includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible fund family assets in the ROA calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Money market funds are included only if such shares were sold with a sales charge at the time of purchase or acquired in exchange for shares purchased with a sales charge.
- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.
- ROA is determined by calculating the higher of cost minus redemptions or market value (current shares x NAV).

Letter of Intent ("LOI")

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible fund family assets in the LOI calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not adjusted under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.
- If the employer maintaining a SEP IRA plan and/or SIMPLE IRA plan has elected to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping, LOIs will also be at the plan-level and may only be established by the employer.

Sales Charge Waivers

Sales charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and other accounts in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing and remains in good standing pursuant to Edward Jones' policies and procedures.
 - Shares purchased in an Edward Jones fee-based program.
 - Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
 - Shares purchased from the proceeds of redeemed shares of the same fund family so long as the following conditions are met: the proceeds are from the sale of shares within 60 days of the purchase, the sale and purchase are made from a share class that charges a front load and one of the following ("Right of Reinstatement"):
 - The redemption and repurchase occur in the same account.
 - The redemption proceeds are used to process an: IRA contribution, excess contributions, conversion, recharacterizing of contributions, or distribution, and the repurchase is done in an account within the same Edward Jones grouping for ROA.
- The Right of Reinstatement excludes systematic or automatic transactions including, but not limited to, purchases made through payroll deductions, liquidations to cover account fees, and reinvestments from non-mutual fund products.
- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the Prospectus.
 - Exchanges from Class C shares to Class A shares of the same fund, generally, in the 84th month following the anniversary of the purchase date or earlier at the discretion of Edward Jones.
 - Purchases of Class 529-A shares through a rollover from either another education savings plan or a security used for qualified distributions.
 - Purchases of Class 529-A shares made for recontribution of refunded amounts.

Contingent Deferred Sales Charge ("CDSC") Waivers

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder is responsible to pay the CDSC except in the following conditions:

- The death or disability of the shareholder.
- Systematic withdrawals with up to 10% per year of the account value.
- Return of excess contributions from an Individual Retirement Account (IRA).
- Shares redeemed as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares redeemed to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones.
- Shares exchanged in an Edward Jones fee-based program.

JANNEY MONTGOMERY SCOTT LLC ("JANNEY")

Effective May 1, 2020, if you purchase fund shares through a Janney brokerage account, you will be eligible for the following load waivers (front-end sales charge waivers and contingent deferred sales charge ("CDSC"), or back-end sales charge, waivers) and discounts, which may differ from those disclosed elsewhere in this fund's Prospectus or SAI.

Front-end sales charge* waivers on Class A shares available at Janney

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).
- Shares purchased by employees and registered representatives of Janney or its affiliates and their family members as designated by Janney.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within ninety (90) days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e., right of reinstatement).
- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans.
- Shares acquired through a right of reinstatement.
- Class C shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Janney's policies and procedures.

CDSC waivers on Class A and C shares available at Janney

- Shares sold upon the death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's Prospectus.
- Shares purchased in connection with a return of excess contributions from an IRA account.
- Shares sold as part of a required minimum distribution for IRA and other retirement accounts due to the shareholder reaching age 70½ as described in the fund's Prospectus.
- Shares sold to pay Janney fees but only if the transaction is initiated by Janney.
- Shares acquired through a right of reinstatement.
- Shares exchanged into the same share class of a different fund.

Front-end sales charge* discounts available at Janney: breakpoints, rights of accumulation, and/or letters of intent

- Breakpoints as described in the fund's Prospectus.
- Rights of accumulation ("ROA"), which entitle shareholders to breakpoint discounts, will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Janney. Eligible fund family assets not held at Janney may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Janney Montgomery Scott may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

*Also referred to as an "initial sales charge."

Eligible Legg Mason-sponsored fund assets not held at Baird may be included in the rights of accumulations calculation only if the shareholder notifies his or her financial advisor about such assets
- Letters of Intent (LOI) allow for breakpoint discounts based on anticipated purchases of Legg Mason-sponsored funds through Baird, over a 13-month period of time

STIFEL, NICOLAUS & COMPANY, INCORPORATED AND ITS BROKER DEALER AFFILIATES ("STIFEL")

Effective September 3, 2024, shareholders purchasing or holding fund shares, including existing fund shareholders, through a Stifel, Nicolaus & Company, Incorporated or affiliated platform that provides trade execution, clearance, and/or custody services, will be eligible for the following sales charge load waivers (including front-end sales charge waivers and contingent deferred, or back-end, ("CDSC") sales charge waivers) and discounts, which may differ from those disclosed elsewhere in the Fund's Prospectus or SAI.

Class A Shares

As described elsewhere in this Prospectus, Stifel may receive compensation out of the front-end sales charge if you purchase Class A shares through Stifel.

Rights of Accumulation

- Rights of accumulation ("ROA") that entitle shareholders to breakpoint discounts on front-end sales charges will be calculated by Stifel based on the aggregated holding of eligible assets in all classes of shares of Franklin Templeton funds held by accounts within the purchaser's household at Stifel. Ineligible assets include Class A Money Market Funds not assessed a sales charge. Fund family assets not held at Stifel may be included in the calculation of ROA only if the shareholder notifies his or her financial advisor about such assets.
- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.

Front-end Sales Charge Waivers on Class A Shares Available at Stifel

Sales charges may be waived for the following shareholders and in the following situations:

- **Class C** shares that have been held for more than seven (7) years may be converted to **Class A or other Front-end share class(es)** shares of the same fund pursuant to Stifel's policies and procedures. To the extent that this Prospectus elsewhere provides for a waiver with respect to the exchange or conversion of such shares following a shorter holding period, those provisions shall continue to apply.
- Shares purchased by employees and registered representatives of Stifel or its affiliates and their family members as designated by Stifel.
- Shares purchased in an Stifel fee-based advisory program, often referred to as a "wrap" program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same or other fund within the fund family.
- Shares purchased from the proceeds of redeemed shares of the same fund family so long as the proceeds are from the sale of shares from an account with the same owner/beneficiary within 90 days of the purchase. For the absence of doubt, automated transactions (i.e. systematic purchases, including salary deferral transactions and withdrawals) and purchases made after shares are sold to cover Stifel Nicolaus' account maintenance fees are not eligible for rights of reinstatement.
- Shares from rollovers into Stifel from retirement plans to IRAs.
- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the direction of Stifel. Stifel is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.
- Purchases of Class 529-A shares through a rollover from another 529 plan.
- Purchases of Class 529-A shares made for reinvestment of refunded amounts.
- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.

Contingent Deferred Sales Charges Waivers on Class A and C Shares

- Death or disability of the shareholder or, in the case of 529 plans, the account beneficiary.
- Shares sold as part of a systematic withdrawal plan not to exceed 12% annually.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations.
- Shares acquired through a right of reinstatement.
- Shares sold to pay Stifel fees or costs in such cases where the transaction is initiated by Stifel.
- Shares exchanged or sold in a Stifel fee-based program.

Share Class Conversions in Advisory Accounts

- Stifel continually looks to provide our clients with the lowest cost share class available based on account type. Stifel reserves the right to convert shares to the lowest cost share class available at Stifel upon transfer of shares into an advisory program.

PFS INVESTMENTS INC. ("PFSI")

Policies Regarding Transactions Through PFSI

Effective August 1, 2024, the following information supersedes all prior information with respect to transactions and positions held in fund shares purchased through PFSI and held on the mutual fund platform of its affiliate, Primerica Shareholder Services ("PSS"). Clients of PFSI (also referred to as "shareholders") purchasing fund shares on the PSS platform are eligible only for the following share classes, sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from share classes, discounts and waivers described elsewhere in this prospectus or the related statement of additional information ("SAI") or through another broker-dealer.

Share Classes

- Class A shares: in non-retirement accounts, individual retirement accounts (IRA), SEP IRAs, SIMPLE IRAs, Keogh Plans, and all other account types unless expressly provided for below.
- Class A1 and Class C shares: only in accounts that already hold such shares.

Breakpoints

- Breakpoint pricing at dollar thresholds as described in the prospectus of the fund you are purchasing.

Rights of Accumulation ("ROA")

- The applicable sales charge on a purchase of Class A or Class A1 shares is determined by taking into account all share classes (except any assets held in group retirement plans) of Franklin Templeton funds held by the shareholder on the PSS platform.
- It is the shareholder's responsibility to inform PFSI of all eligible fund family assets at the time of calculation. Shares of money market funds are included only if such shares were acquired in exchange for shares of another Franklin Templeton fund purchased with a sales charge. No shares of Franklin Templeton funds held by the shareholder away from the PSS platform will be granted ROA with shares of any Franklin Templeton fund purchased on the PSS platform.
- Any SEP IRA plan, any SIMPLE IRA plan or any Payroll Deduction plan ("PDP") on the PSS platform will be defaulted to plan-level grouping for purposes of ROA, which allows each participating employee ROA with all other eligible shares held in plan accounts on the PSS platform. At any time, a participating employee may elect to exercise a one-time option to change grouping for purposes of ROA to shareholder-level grouping, which allows the plan account of the electing employee ROA with her other eligible holdings on the PSS platform, but not with all other eligible participant holdings in the plan. Eligible shares held in plan accounts electing shareholder-level grouping will not be available for purposes of ROA to plan accounts electing plan-level grouping.
- ROA is determined by calculating the higher of cost minus redemptions or current market value (current shares x NAV).

Letter of Intent ("LOI")

- By executing a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period through PFSI, from the date PSS receives the LOI. The purchase price of the LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the dollar amount the shareholder intends to invest over a 13-month period to arrive at total investment for purposes of determining any breakpoint discount and the applicable front-end sales charge. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the projected total investment.
- Only holdings of Franklin Templeton funds on the PSS platform are eligible for inclusion in the LOI calculation and the shareholder must notify PFSI of all eligible assets at the time of calculation. It is the shareholder's responsibility to inform PFSI at the time of a purchase of all holdings of Franklin Templeton funds on the PSS platform, or other facts qualifying the purchaser for this discount.
- Purchases made before the LOI is received by PSS are not adjusted under the LOI, and the LOI will not reduce any sales charge previously paid. Sales charges will be automatically adjusted if the total purchases required by the LOI are not met.
- If an employer maintaining a SEP IRA plan, SIMPLE IRA plan or non-IRA PDP on the PSS platform has elected to establish or change ROA for the accounts associated with the plan to a plan-level grouping, LOIs will also be at the plan-level and may only be established by the employer. LOIs are not available to PDP IRA plans on the PSS platform with plan-level grouping for purposes of ROA, but are available to any participating employee that elects shareholder-level grouping for purposes of ROA.

Sales Charge Waivers

Sales charges are waived for the following shareholders and in the following situations:

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
- Shares purchased with the proceeds of redeemed shares of the same fund family so long as the following conditions are met: 1) the proceeds are from the sale of shares within 90 days of the purchase, 2) the sale and purchase are made in the same share class and the same account or the purchase is made in an individual retirement account with proceeds from liquidations in a non-retirement account, and 3) the redeemed shares were subject to a front-end or deferred sales load. Automated transactions (i.e. systematic purchases and withdrawals), full or partial transfers or rollovers of retirement accounts, and purchases made after shares are automatically sold to pay account maintenance fees are not eligible for this sales charge waiver.
- Shares exchanged into Class A or Class A1 shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of PFSI. PFSI is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.

Policies Regarding Fund Purchases Through PFSI That Are Not Held on the PSS Platform

- Class R shares are available through PFSI only in 401(k) plans covering a business owner with no employees, commonly referred to as a one-participant 401(k) plan or solo 401(k).

PFSI may request reasonable documentation of facts qualifying the purchaser for the discounts and waivers identified above, and condition the granting of any discount or waiver on the timely receipt of such documents. Shareholders should contact PSS if they have questions regarding their eligibility for these discounts and waivers.

D.A. DAVIDSON

Effective September 1, 2021, shareholders purchasing Fund shares including existing Fund shareholders through a D.A. Davidson & Co. ("D.A. Davidson") platform or account, or through an introducing broker-dealer or independent registered investment advisor for which D.A. Davidson provides trade execution, clearance, and/or custody services, will be eligible for the following sales charge waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Prospectus or the Fund's SAI.

Front-End Sales Charge Waivers on Class A Shares available at D.A. Davidson

- Shares purchased within the same fund family through a systematic reinvestment of capital gains and dividend distributions.
- Employees and registered representatives of D.A. Davidson or its affiliates and their family members as designated by D.A. Davidson.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales charge (known as Rights of Reinstatement).
- A shareholder in the Fund's Class C Shares will have their shares converted at net asset value to Class A Shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is consistent with D.A. Davidson's policies and procedures.

CDSC Waivers on Class A and Class C Shares available at D.A. Davidson

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus.
- Return of excess contributions from an IRA account.
- Shares sold as part of a required minimum distribution for IRA or other qualifying retirement accounts pursuant to the Internal Revenue Code.
- Shares acquired through a right of reinstatement.

Front-end sales charge discounts available at D.A. Davidson: breakpoints, rights of accumulation and/or letters of intent

- Breakpoints as described in this Prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at D.A. Davidson. Eligible fund family assets not held at D.A. Davidson may be included in the calculation of rights of accumulation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at D.A. Davidson may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

J.P. MORGAN SECURITIES LLC

Effective September 29, 2023, if you purchase or hold fund shares through an applicable J.P. Morgan Securities LLC brokerage account, you will be eligible for the following sales charge waivers (front-end sales charge waivers and contingent deferred sales charge ("CDSC"), or back-end sales charge, waivers), share class conversion policy and discounts, which may differ from those disclosed elsewhere in this fund's prospectus or Statement of Additional Information ("SAI").

Front-end sales charge waivers on Class A shares available at J.P. Morgan Securities LLC

- Shares exchanged from Class C (i.e., level-load) shares that are no longer subject to a CDSC and are exchanged into Class A shares of the same fund pursuant to J.P. Morgan Securities LLC's share class exchange policy.
- Qualified employer-sponsored defined contribution and defined benefit retirement plans, nonqualified deferred compensation plans, other employee benefit plans and trusts used to fund those plans. For purposes of this provision, such plans do not include SEP IRAs, SIMPLE IRAs, SAR-SEPs or 501(c)(3) accounts.
- Shares of funds purchased through J.P. Morgan Securities LLC Self-Directed Investing accounts.
- Shares purchased through rights of reinstatement.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).

- Shares purchased by employees and registered representatives of J.P. Morgan Securities LLC or its affiliates and their spouse or financial dependent as defined by J.P. Morgan Securities LLC.

Class C to Class A share conversion

- A shareholder in the fund's Class C shares will have their shares converted by J.P. Morgan Securities LLC to Class A shares (or the appropriate share class) of the same fund if the shares are no longer subject to a CDSC and the conversion is consistent with J.P. Morgan Securities LLC's policies and procedures.

CDSC waivers on Class A and C shares available at J.P. Morgan Securities LLC

- Shares sold upon the death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Shares purchased in connection with a return of excess contributions from an IRA account.
