FRANKLIN TEMPLETON | BSP BENEFIT STREET PARTNERS

Franklin BSP Private Credit Fund

Advisor Class: FBSPX Class A: FBPAX — **Private Debt |** Factsheet as of June 30, 2026

Investment Overview

The fund seeks to generate attractive risk-adjusted returns with consistent current income by investing primarily in private credit investments of "middle market" companies in the U.S. (typically, those with annual revenues up to $1 billion), including privately offered secured and unsecured debt, special situations, real estate debt and collateralized loan obligations across directly originated corporate loans, broadly syndicated corporate loans, and high yield corporate bonds.

Liquidity: Quarterly repurchase offer, at least 5% of total outstanding shares

The Quarterly Repurchase Offer: Franklin BSP Private Credit Fund is structured as a continuously offered, closed-end interval fund due to the relatively illiquid nature of many of the Fund's investments. Investors can purchase shares on any day the markets are open, but shares are not redeemed daily. Instead, Franklin BSP Private Credit Fund intends to make a quarterly offer to repurchase 5%-25% of the outstanding shares at NAV. Under normal market conditions, the Fund currently expects to offer to repurchase 5% of outstanding shares per quarter, subject to approval by the Fund's Board. There is no guarantee all shares can be repurchased.

Performance data quoted represents past performance, which does not guarantee future results. *Current performance may be lower or higher than the figures shown. Principal value and investment returns will fluctuate, and investors' shares, when redeemed, may be worth more or less than the original cost. Performance would have been lower if fees had not been waived in various periods. Total returns assume the reinvestment of all distributions and the deduction of all fund expenses. Returns with sales charge reflect a deduction of the stated maximum sales charge. An investor cannot invest directly in an index, and unmanaged index returns do not reflect any fees, expenses or sales charges. Returns for periods of less than one year are not annualized. All classes of shares may not be available to all investors or through all distribution channels. For current month-end performance, please visit franklintempleton.com.*

Share Class Details

			Sales Charges (%)		Expenses (%)	
	CUSIP	Ticker	Max	CDSC	Gross	Net
Advisor Class	35242N202	FBSPX	0.00	—	6.55	6.00
Class A	35242N103	FBPAX	0.00	—	7.05	6.50

Gross expenses are the fund's total annual operating expenses as of the fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns. Net expenses reflect contractual fee waivers, expense caps and/or reimbursements, which cannot be terminated prior to 05/01/2027 without Board consent. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice.

The returns and associated portfolio characteristics have been prepared using unaudited data and valuations of the underlying investments in the fund's portfolio which are estimates of fair value and form the basis for the fund's NAV. Valuations based on unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated. Distribution Rate is calculated by annualizing the most recent distribution amount paid, divided by the NAV as of the date indicated. The Distribution Rate calculation includes income, may include capital gains and excludes special distributions. The Distribution Rate is subject to change and is not guaranteed nor a quotation of fund performance.

Benefit Street Partners (BSP) is a leading credit-focused alternative asset management firm that invests across a range of illiquid and liquid credit strategies, with strong expertise in private lending in both sponsor and non-sponsor transactions.

What should I know before investing?

All investments involve risks, including possible loss of principal. An investment in an **interval fund** is not suitable for all investors. Unlike closed-end funds, an interval fund's shares are not typically listed on a stock exchange. There is also no secondary market for the fund's shares, and none is expected to develop. **An investment in the fund should be considered illiquid**. The fund may be able to invest in private securities that are illiquid and thinly traded, which may limit the manager's ability to sell such securities at their fair market value or when necessary to meet the portfolio's liquidity needs. There is no guarantee that an investor will be able to tender all or any of their requested fund shares in a periodic repurchase offer. Shareholders should not expect to be able to sell their shares regardless of how the fund performs. **Distributions** are not guaranteed and are subject to change. To the extent the fund invests in **privately held companies** they present certain challenges and involve incremental risks as opposed to investments in public companies, such as dealing with the lack of available information about these companies as well as their general lack of liquidity. **Fixed income securities** involve interest rate, credit, inflation and reinvestment risks, and possible loss of principal. As interest rates rise, the value of fixed income securities falls. **Low-rated, high-yield bonds** are subject to greater price volatility, illiquidity and possibility of default. **Derivative instruments** can be illiquid, may disproportionately increase losses, and have a potentially large impact on performance. **Leverage** increases the volatility of investment returns and subjects investments to magnified losses and a decline in value. These and other risks are discussed in the fund's prospectus.

Glossary

Managed Assets: The total assets of the fund (including any assets attributable to indebtedness or any preferred shares that may be issued) minus the fund's liabilities other than liabilities relating to indebtedness. **Effective Duration** is a duration calculation for bonds with embedded options. Effective duration takes into account that expected cash flows will fluctuate as interest rates change. Duration measures the sensitivity of price (the value of principal) of a fixed-income investment to a change in interest rates. The higher the duration number, the more sensitive a fixed-income investment will be to interest rate changes. **Weighted Average Maturity:** An estimate of the number of years to maturity for the underlying holdings. **Floating Rate:** Sum of the market value of assets with a floating rate coupon as a percentage of managed assets. **Leverage:** Leveraged Assets as a percentage of Total Net Assets.
Incentive Fee: The Net returns also reflect the Fund's incentive fee (if the Fund has charged the fee), which is 12.50% per quarter on the funds pre-incentive fee net investment income (with a 6.0% annualized hurdle rate), payable to the fund quarterly in arrears and subject to a catch up feature. **Tactical Credit:** represents relative value opportunities in semi-liquid syndicated loan investments.

Important Information

The Fund's investment adviser is Benefit Street Partners L.L.C. (BSP). Franklin Distributors, LLC and BSP are wholly owned subsidiaries of Franklin Resources, Inc. that, together with its affiliates operates as Franklin Templeton. A Private Debt Investment Committee sits alongside the Portfolio Managers and are involved in all aspects of the private debt investment process.
The **ICE BofA US High Yield Index** is market capitalization weighted and is designed to measure the performance of U.S. dollar denominated below investment grade (commonly referred to as "junk") corporate debt publicly issued in the U.S. domestic market. The **Morningstar LSTA US Leveraged Loan Index** is designed to reflect the performance of the largest facilities in the leveraged loan market. This fund is not sponsored, endorsed, sold or promoted by Morningstar, Inc. or any of its affiliates.
