

Franklin U.S. Government Securities Fund

Fixed Income
June 30, 2021

Fund Fact Sheet | Share Classes: A, C

Fund Description

The fund's investment goal is income. Since 1983, the fund has invested substantially in Government National Mortgage Association securities, or Ginnie Maes (GNMAs). These securities carry a guarantee backed by the full faith and credit of the U.S. government as to timely payment of principal and interest.

Performance data represents past performance, which does not guarantee future results. Current performance may differ from figures shown. The fund's investment returns and principal values will change with market conditions, and you may have a gain or a loss when you sell your shares. Please call Franklin Templeton at (800) DIAL BEN/(800) 342-5236 or visit franklintempleton.com for the most recent month-end performance.

If the sales charge had been included, the return would have been lower.

The fund has a fee waiver associated with any investment it makes in a Franklin Templeton money fund and/or other Franklin Templeton fund, contractually guaranteed through January 31, 2022. Fund investment results reflect the fee waiver; without this waiver, the results would have been lower.

Fund Measures

Average Duration	3.52 Years
Average Weighted Maturity	4.42 Years
Standard Deviation (3 Yrs) - Class A	1.96%

What Are the Risks?

All investments involve risks, including possible loss of principal. The fund's share price and yield will be affected by interest rate movements and mortgage prepayments. Bond prices generally move in the opposite direction of interest rates. Thus, as the prices of bonds in the fund adjust to a rise in interest rates, the fund's share price may decline. Changes in the financial strength of a bond issuer or in a bond's credit rating may affect its value. These and other risk considerations are discussed in the fund's prospectus.

Glossary

Average Duration: A measure of the sensitivity of the price (the value of principal) of a fixed-income investment to a change in interest rates. Duration is expressed as a number of years. The weighted average duration of a fund reflects the effective duration of the underlying issues, based on the size of each holding.

Average Weighted Maturity: An estimate of the number of years to maturity, taking the possibility of early payments into account, for the underlying holdings.

Standard Deviation: A measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.

Important Information

Investors should carefully consider a fund's investment goals, risks, charges and expenses before investing. To obtain a summary prospectus and/or prospectus, which contains this and other information, talk to your financial professional, call us at (800) DIAL BEN/342-5236 or visit franklintempleton.com. Please carefully read a prospectus before you invest or send money.

Information is historical and may not reflect current or future portfolio characteristics. All portfolio holdings are subject to change.

Performance: The fund offers other share classes subject to different fees and expenses, which will affect their performance.

Class A: Prior to 3/1/19, these shares were offered at a higher initial sales charge of 4.25%; thus actual returns would have differed. Total returns with sales charges have been restated to reflect the current maximum initial sales charge of 3.75%. Effective 9/10/18, Class A shares closed to new investors, were renamed Class A1 shares, and a new Class A share with a different expense structure became available. Class A performance shown has been calculated as follows: (a) for periods prior to 9/10/18, a restated figure is used based on the fund's Class A1 performance and including any Rule 12b-1 rate differential as exists between Class A1 and Class A; and (b) for periods after 9/10/18, actual Class A performance is used, reflecting all charges and fees applicable to that class.

30-Day Standardized Yield: The fund's 30-Day Standardized Yield is calculated using the net income (interest and dividends) per share earned over a trailing 30-day period (annualized), divided by the fund's share price at the end of that period. It may not equal the fund's actual income distribution rate, which reflects the fund's past dividends paid to shareholders.

Securities owned by the fund, but not shares of the fund, are guaranteed by the U.S. government, its agencies or instrumentalities as to timely payment of principal and interest. The fund's yield and share price are not guaranteed and will fluctuate with market conditions
