Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, statement of additional information, reports to shareholders and other information about the Fund online at [www.franklintempleton.com/prospectus](http://www.franklintempleton.com/prospectus). You can also get this information at no cost by calling (800) DIAL BEN/342-5236 or by sending an e-mail request to [prospectus@franklintempleton.com](mailto:prospectus@franklintempleton.com). The Fund's prospectus and statement of additional information, both dated November 1, 2019, as may be supplemented, are all incorporated by reference into this Summary Prospectus.

**Internet Delivery of Fund Reports Unless You Request Paper Copies:** Effective January 1, 2021, as permitted by the SEC, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request them from the Fund or your financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you have not signed up for electronic delivery, we would encourage you to join fellow shareholders who have. You may elect to receive shareholder reports and other communications electronically from the Fund by calling (800) 632-2301 or by contacting your financial intermediary.

You may elect to continue to receive paper copies of all your future shareholder reports free of charge by contacting your financial intermediary or, if you invest directly with a Fund, calling (800) 632-2301 to let the Fund know of your request. Your election to receive reports in paper will apply to all funds held in your account.

## Investment Goal

To provide investors with as high a level of income exempt from federal income taxes and California personal income taxes as is consistent with prudent investment management and the preservation of shareholders' capital.

## Fees and Expenses of the Fund

These tables describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts in Class A if you and your family invest, or agree to invest in the future, at least \$100,000 in Franklin Templeton funds. More information about these and other discounts is available from your financial professional and under "Your Account" on page 31 in the Fund's Prospectus and under "Buying and Selling Shares" on page 43 of the Fund's Statement of Additional Information. In addition, more information about sales charge discounts and waivers for purchases of shares through specific intermediaries is set forth in Appendix A – "Intermediary Sales Charge Discounts and Waivers" to the Fund's prospectus.

Please note that the tables and examples below do not reflect any transaction fees that may be charged by financial intermediaries, or commissions that a shareholder may be required to pay directly to its financial intermediary when buying or selling Class R6 or Advisor Class shares.

### Shareholder Fees

(fees paid directly from your investment)

	Class A	Class A1	Class C	Class R6	Advisor Class
Maximum Sales Charge (Load) Imposed on Purchases (as percentage of offering price)	2.25%	2.25%	None	None	None
Maximum Deferred Sales Charge (Load) (as percentage of the lower of original purchase price or sale proceeds)	None <sup>1</sup>	None <sup>1</sup>	1.00%	None	None

1. There is a 0.75% contingent deferred sales charge that applies to investments of \$500,000 or more (see "Investments of \$500,000 or More" under "Choosing a Share Class") and purchases by certain retirement plans without an initial sales charge on shares sold within 18 months of purchase.

## Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class A1	Class C	Class R6	Advisor Class
Management fees	0.47%	0.47%	0.47%	0.47%	0.47%
Distribution and service (12b-1) fees	0.25%	0.10%	0.65%	None	None
Other expenses	0.08%	0.08%	0.08%	0.06%	0.08%
Total annual Fund operating expenses	0.80%	0.65%	1.20%	0.53%	0.55%
Fee waiver and/or expense reimbursement <sup>1</sup>	-0.06%	-0.06%	-0.06%	-0.07%	-0.06%
<b>Total annual Fund operating expenses after fee waiver and/or expense reimbursement<sup>1</sup></b>	<b>0.74%</b>	<b>0.59%</b>	<b>1.14%</b>	<b>0.46%</b>	<b>0.49%</b>

1. The investment manager has contractually agreed to waive or assume certain fees and expenses so that total annual Fund operating expenses (excluding Rule 12b-1 fees, acquired fund fees and expenses and certain non-routine expenses) for each class of the Fund other than Class R6 do not exceed 0.49%, and for Class R6 do not exceed 0.46%, until October 31, 2020. Contractual fee waiver and/or expense reimbursement agreements may not be changed or terminated during the time period set forth above.

## Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of the period. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The Example reflects adjustments made to the Fund's operating expenses due to the fee waivers and/or expense reimbursements by management for the 1 Year numbers only. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
<b>Class A</b>	\$299	\$469	\$653	\$1,187
<b>Class A1</b>	\$284	\$422	\$573	\$1,012
<b>Class C</b>	\$216	\$375	\$654	\$1,449
<b>Class R6</b>	\$47	\$163	\$289	\$658
<b>Advisor Class</b>	\$50	\$170	\$301	\$684
If you do not sell your shares:				
<b>Class C</b>	\$116	\$375	\$654	\$1,449

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 15.26% of the average value of its portfolio.

## Principal Investment Strategies

Under normal market conditions, the Fund invests at least 80% of its total assets in securities that pay interest free from federal income taxes, including the federal alternative minimum tax, and from California personal income taxes. Under normal market conditions, the Fund invests at least 65% of its total assets in California municipal securities. Although the Fund tries to invest all of its assets in tax-free securities, it is possible, although not anticipated, that up to 20% of its total assets may be in securities that pay interest subject to federal or state income taxes, including interest that may be subject to the federal alternative minimum tax. Some of the Fund’s portfolio securities are supported by credit enhancements, which may be provided by either U.S. or foreign entities.

The Fund maintains a dollar-weighted average portfolio maturity of three to 10 years and only buys securities rated, at the time of purchase, in one of the top four ratings categories by one or more U.S. nationally recognized rating services or unrated or short-term rated securities of comparable credit quality.

The Fund may invest in insured municipal securities, which are covered by insurance policies that guarantee the timely payment of principal and interest. The insurance premium costs, however, are typically reflected in a lower yield and/or higher price for the insured bond. It is important to note that insurance does not guarantee the market value of an insured security, or the Fund’s share price or distributions, and shares of the Fund are not insured.

Although the investment manager will search for investments across a large number of municipal securities that finance different types of projects, from time to time, based on economic conditions, the Fund may have significant positions in municipal securities that finance similar types of projects.

The investment manager selects securities that it believes will provide the best balance between risk and return within the Fund’s range of allowable investments and typically uses a buy and hold strategy. This means it generally holds securities in the Fund’s portfolio for income purposes, rather than trading securities for capital

gains, although the investment manager may sell a security at any time if it believes it could help the Fund meet its goal. The investment manager also may consider the cost of insurance when selecting securities for the Fund.

## Principal Risks

You could lose money by investing in the Fund. Mutual fund shares are not deposits or obligations of, or guaranteed or endorsed by, any bank, and are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board, or any other agency of the U.S. government.

**Interest Rate** When interest rates rise, debt security prices generally fall. The opposite is also generally true: debt security prices rise when interest rates fall. Interest rate changes are influenced by a number of factors, including government policy, monetary policy, inflation expectations, perceptions of risk, and supply of and demand for bonds. In general, securities with longer maturities or durations are more sensitive to interest rate changes.

**California** The Fund invests predominantly in California municipal securities. Therefore, events in California are likely to affect the Fund's investment and its performance. These events may include economic or political policy changes, tax base erosion, unfunded pension and healthcare liabilities, constitutional limits on tax increases, budget deficits and other financial difficulties, and changes in the credit ratings assigned to municipal issuers of California. The same is true of events in other states or U.S. territories, to the extent that the Fund has exposure to any other state or territory at any given time.

**Focus** The Fund may invest more than 25% of its assets in municipal securities that finance similar types of projects, such as utilities, hospitals, higher education and transportation. A change that affects one project, such as proposed legislation on the financing of the project, a shortage of the materials needed for the project, or a declining need for the project, would likely affect all similar projects, thereby increasing market risk.

**Credit** An issuer of debt securities may fail to make interest payments or repay principal when due, in whole or in part. Changes in an issuer's financial strength or in a security's or government's credit rating may affect a security's value.

A change in the credit rating of a municipal bond insurer that insures securities in the Fund's portfolio may affect the value of the securities it insures, the Fund's share price and Fund performance. The Fund might also be adversely impacted by the inability of an insurer to meet its insurance obligations.

**Tax-Exempt Securities** Failure of a municipal security issuer to comply with applicable tax requirements may make income paid thereon taxable, resulting in a decline in the security's value. In addition, there could be changes in applicable tax laws or tax treatments that reduce or eliminate the current federal income tax exemption on municipal securities or otherwise adversely affect the current federal or state tax status of municipal securities.

**Income** The Fund's distributions to shareholders may decline when prevailing interest rates fall, when the Fund experiences defaults on debt securities it holds, or when the Fund realizes a loss upon the sale of a debt security.

**Bond Insurers** Market conditions or changes to ratings criteria could adversely impact the ratings of municipal bond insurance companies. Downgrades and withdrawal of ratings from municipal bond insurers have substantially limited the availability of insurance sought by municipal bond issuers thereby reducing the supply of insured municipal securities.

Because of the consolidation among municipal bond insurers the Fund is subject to additional risks including the risk that credit risk may be concentrated among fewer insurers and the risk that events involving one or more municipal bond insurers could have a significant adverse effect on the value of the securities insured by an insurer and on the municipal markets as a whole.

**Prepayment** Prepayment risk occurs when a debt security can be repaid in whole or in part prior to the security's maturity and the Fund must reinvest the proceeds it receives, during periods of declining interest rates, in securities that pay a lower rate of interest. Also, if a security has been purchased at a premium, the value of the premium would be lost in the event of prepayment. Prepayments generally increase when interest rates fall.

**Market** The market values of securities or other investments owned by the Fund will go up or down, sometimes rapidly or unpredictably. The market value of a security or other investment may be reduced by market activity or other results of supply and demand unrelated to the issuer. This is a basic risk associated with all investments. When there are more sellers than buyers, prices tend to fall. Likewise, when there are more buyers than sellers, prices tend to rise.

**Liquidity** From time to time, the trading market for a particular security or type of security or other investments in which the Fund invests may become less liquid or even illiquid. Reduced liquidity will have an adverse impact on the Fund's ability to sell such securities or other investments when necessary to meet the Fund's liquidity needs, which may arise or increase in response to a specific economic event or because the investment manager wishes to purchase particular investments or believes that a higher level of liquidity would be advantageous.

Click to view the fund's [prospectus](#) or [statement of additional information](#).

Reduced liquidity will also generally lower the value of such securities or other investments. Market prices for such securities or other investments may be relatively volatile.

**Management** The Fund is subject to management risk because it is an actively managed investment portfolio. The Fund's investment manager applies investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these decisions will produce the desired results.

## Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the Fund's performance from year to year for Class A shares. The table shows how the Fund's average annual returns for 1 year, 5 years, 10 years or since inception, as applicable, compared with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. You can obtain updated performance information at [franklintempleton.com](http://franklintempleton.com) or by calling (800) DIAL BEN/342-5236.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

## Class A Annual Total Returns

Best Quarter: Q3'09 7.14%

Worst Quarter: Q4'10 -4.03%

As of September 30, 2019, the Fund's year-to-date return was 4.88%.

Bloomberg Barclays 10-Year Municipal Bond Index (index reflects no deduction for fees, expenses or taxes) <sup>2</sup>	1.11%	3.95%	5.28%

1. Since inception August 1, 2017.

2. The Bloomberg Barclays Municipal M.F. CA Intermediate Index is replacing the Bloomberg Barclays 10-Year Municipal Bond Index as the Fund's benchmark. The investment manager believes the composition of the Bloomberg Barclays Municipal M.F. CA Intermediate Index more accurately reflects the Fund's holdings.

Historical performance for Class A shares in the bar chart and table above prior to their inception is based on the performance of Class A1 shares and has been adjusted to reflect differences in Rule 12b-1 fees between classes.

The after-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are shown only for Class A and after-tax returns for other classes will vary.

## Investment Manager

Franklin Advisers, Inc. (Advisers)

## Portfolio Managers

### Christopher Sperry, CFA

Vice President of Advisers and portfolio manager of the Fund since 2000.

## John Wiley

Senior Vice President of Advisers and portfolio manager of the Fund since 1992.

## Purchase and Sale of Fund Shares

You may purchase or redeem shares of the Fund on any business day online through our website at [franklintempleton.com](http://franklintempleton.com), by mail (Franklin Templeton Investor Services, P.O. Box 997151, Sacramento, CA 95899-7151), or by telephone at (800) 632-2301. For Class A, A1 and C, the minimum initial purchase for most accounts is \$1,000 (or \$25 under an automatic investment plan). Class R6 and Advisor Class are only available to certain qualified investors and the minimum initial investment will vary depending on the type of qualified investor, as described under “Your Account — Choosing a Share Class — Qualified Investors — Class R6” and “— Advisor Class” in the Fund’s prospectus. There is no minimum investment for subsequent purchases.

## Taxes

The Fund’s distributions are primarily exempt from regular federal and state income tax for individual residents of California. A portion of these distributions, however, may be subject to the federal alternative minimum tax. The Fund may also make distributions that are taxable to you as ordinary income or capital gains.

## Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary’s website for more information.
