Performance data quoted represents past performance, which does not guarantee future results. Current performance may be lower or higher than the figures shown. Principal value and investment returns will fluctuate, and investors' shares, when redeemed, may be worth more or less than the original cost. Performance would have been lower if fees had not been waived in various periods. Total returns assume the reinvestment of all distributions and the deduction of all fund expenses. Returns with sales charge reflect a deduction of the stated maximum sales charge. An investor cannot invest directly in an index, and unmanaged index returns do not reflect any fees, expenses or sales charges. Returns for periods of less than one year are not annualized. All classes of shares may not be available to all investors or through all distribution channels. For current month-end performance, please visit franklintempleton.com.

The fund began offering Class C shares on 6/16/2016. Performance quotations have been calculated as follows: (a) Class C periods prior to 6/16/2016, a restated figure is used based on the fund's Class A performance; The restated performance for Class C was adjusted to take into account differences in class-specific operating expenses and maximum sales charges. (b) For periods after the share class offering, performance for the specific share class is used, reflecting the expenses and maximum sales charges applicable to that class. Class C share performance reflects conversion to class A shares after eight years.

What should I know before investing?

You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress. Although the fund invests in U.S. government obligations, an investment in the fund is neither insured nor guaranteed by the U.S. government. All investments involve risk, including loss of principal.

The fund's **yield** may be affected by changes in interest rates and changes in credit ratings. These and other risks are discussed in the fund's prospectus.

Glossary

The **7-Day Effective Yield** is the average income return over the previous seven days, assuming the rate stays the same for one year and that dividends are reinvested. It is the fund's total income net of expenses, divided by the total number of outstanding shares. The **7-Day Current Yield** is the average income return over the previous seven days. It is the fund's total income net of expenses, divided by the total number of outstanding shares. **Weighted Average Maturity** is the weighted average maturity at issue of the underlying holdings, on a market value basis, expressed in days. **Average Life:** The average number of days or years to maturity for the underlying holdings.
