

# FRANKLIN GROWTH OPPORTUNITIES FUND

Franklin Strategic Series  
September 1, 2020

FRANKLIN  
TEMPLETON

Class A	Class C	Class R	Class R6	Advisor Class
FGRAX	FKACX	FKARX	FOPPX	FRAAX

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, statement of additional information, reports to shareholders and other information about the Fund online at [www.franklintempleton.com/prospectus](http://www.franklintempleton.com/prospectus). You can also get this information at no cost by calling (800) DIAL BEN/342-5236 or by sending an e-mail request to [prospectus@franklintempleton.com](mailto:prospectus@franklintempleton.com). The Fund's prospectus and statement of additional information, both dated September 1, 2020, as may be supplemented, are all incorporated by reference into this Summary Prospectus.

**Internet Delivery of Fund Reports Unless You Request Paper Copies:** Effective January 1, 2021, as permitted by the SEC, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request them from the Fund or your financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you have not signed up for electronic delivery, we would encourage you to join fellow shareholders who have. You may elect to receive shareholder reports and other communications electronically from the Fund by calling (800) 632-2301 or by contacting your financial intermediary.

You may elect to continue to receive paper copies of all your future shareholder reports free of charge by contacting your financial intermediary or, if you invest directly with a Fund, calling (800) 632-2301 to let the Fund know of your request. Your election to receive reports in paper will apply to all funds held in your account.

## Investment Goal

Capital appreciation.

## Fees and Expenses of the Fund

These tables describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts in Class A if you and your family invest, or agree to invest in the future, at least \$50,000 in Franklin Templeton funds. More information about these and other discounts is available from your financial professional and under “Your Account” on page 69 in the Fund’s Prospectus and under “Buying and Selling Shares” on page 52 of the Fund’s Statement of Additional Information. In addition, more information about sales charge discounts and waivers for purchases of shares through specific financial intermediaries is set forth in Appendix A - “Intermediary Sales Charge Discounts and Waivers” to the Fund’s prospectus.

Please note that the tables and examples below do not reflect any transaction fees that may be charged by financial intermediaries, or commissions that a shareholder may be required to pay directly to its financial intermediary when buying or selling Class R6 or Advisor Class shares.

### Shareholder Fees

(fees paid directly from your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Maximum Sales Charge (Load) Imposed on Purchases (as percentage of offering price)	5.50%	None	None	None	None
Maximum Deferred Sales Charge (Load) (as percentage of the lower of original purchase price or sale proceeds)	None <sup>1</sup>	1.00%	None	None	None

1. There is a 1% contingent deferred sales charge that applies to investments of \$1 million or more (see “Investments of \$1 Million or More” under “Choosing a Share Class”) and purchases by certain retirement plans without an initial sales charge on shares sold within 18 months of purchase.

### Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Management fees	0.54%	0.54%	0.54%	0.54%	0.54%
Distribution and service (12b-1) fees	0.25%	1.00%	0.50%	None	None
Other expenses	0.16%	0.16%	0.16%	0.05%	0.16%
<b>Total annual Fund operating expenses</b>	<b>0.95%</b>	<b>1.70%</b>	<b>1.20%</b>	<b>0.59%</b>	<b>0.70%</b>

Click to view the fund’s [prospectus](#) or [statement of additional information](#).

## Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of the period. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The Example reflects adjustments made to the Fund's operating expenses due to the fee waivers and/or expense reimbursements by management for the 1 Year numbers only. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
<b>Class A</b>	\$642	\$836	\$1,047	\$1,652
<b>Class C</b>	\$273	\$536	\$923	\$2,009
<b>Class R</b>	\$122	\$381	\$660	\$1,455
<b>Class R6</b>	\$60	\$189	\$329	\$738
<b>Advisor Class</b>	\$72	\$224	\$390	\$871
If you do not sell your shares:				
<b>Class C</b>	\$173	\$536	\$923	\$2,009

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 19.47% of the average value of its portfolio.

## Principal Investment Strategies

Under normal market conditions, the Fund invests predominantly in equity securities of companies demonstrating accelerating growth, increasing profitability, or above-average growth or growth potential as compared with the overall economy. The Fund normally invests predominantly in equity securities, primarily to predominantly common stock.

A portion to a significant amount of the Fund's investments may be in smaller and midsize companies. The Fund, from time to time, may have significant positions in particular sectors, such as information technology (including technology equipment and hardware, technology services, software and internet services) healthcare and consumer discretionary.

The Fund may make private investments in companies whose securities are not publicly traded (including companies that have not yet issued securities publicly in an initial public offering ("IPO")), often in the form of private placements, which are exempt from registration under the federal securities laws and are only sold to certain investors meeting predefined criteria.

The investment manager uses fundamental, "bottom-up" research to seek companies meeting its criteria of growth potential, quality and valuation. In seeking sustainable growth characteristics, the investment manager looks for companies that it believes can produce sustainable earnings and cash flow growth, evaluating the long term market opportunity and competitive structure of an industry to target leaders and emerging leaders. In assessing value, the investment manager considers whether security prices fully reflect the balance of the sustainable growth opportunities relative to business and financial risks.

## Principal Risks

You could lose money by investing in the Fund. Mutual fund shares are not deposits or obligations of, or guaranteed or endorsed by, any bank, and are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board, or any other agency of the U.S. government.

**Market** The market values of securities or other investments owned by the Fund will go up or down, sometimes rapidly or unpredictably. The market value of a security or other investment may be reduced by market activity or other results of supply and demand unrelated to the issuer. This is a basic risk associated with all investments. When there are more sellers than buyers, prices tend to fall. Likewise, when there are more buyers than sellers, prices tend to rise.

Stock prices tend to go up and down more dramatically than those of debt securities. A slower-growth or recessionary economic environment could have an adverse effect on the prices of the various stocks held by the Fund.

**Growth Style Investing** Growth stock prices reflect projections of future earnings or revenues, and can, therefore, fall dramatically if the company fails to meet those projections. Prices of these companies' securities may be more volatile than other securities, particularly over the short term.

Click to view the fund's [prospectus](#) or [statement of additional information](#).

**Focus** To the extent that the Fund focuses on particular countries, regions, industries, sectors or types of investment from time to time, the Fund may be subject to greater risks of adverse developments in such areas of focus than a fund that invests in a wider variety of countries, regions, industries, sectors or investments.

### Technology Companies

The Fund may focus in the technology sector. The technology sector has historically been volatile due to the rapid pace of product change and development within the sector. Companies in the technology sector may be affected by worldwide technological developments, the success of their products and services (which may be outdated quickly), anticipated products or services that are delayed or cancelled, and investor perception of the company and/or its products or services. Technology companies may also be affected by legislation or changes in government regulation and policies.

**Healthcare Companies** The activities of healthcare companies may be funded or subsidized by federal and state governments. If government funding and subsidies are reduced or discontinued, the profitability of these companies could be adversely affected. Healthcare companies may also be affected by government policies on healthcare reimbursements, regulatory approval for new drugs and medical products, and similar matters. They are also subject to legislative risk, i.e., the risks associated with the reform of the healthcare system through legislation.

**Consumer Discretionary Companies** By focusing its investments in financials related industries, the Fund carries much greater risks of adverse developments and price movements in such industries than a fund that invests in a wider variety of industries. Because the Fund concentrates in a specific industry or group of industries, there is also the risk that the Fund will perform poorly during a slump in demand for securities of companies in such industries.

**Small and Mid Capitalization Companies** Securities issued by small and mid capitalization companies may be more volatile in price than those of larger companies and may involve additional risks. Such risks may include greater sensitivity to economic conditions, less certain growth prospects, lack of depth of management and funds for growth and development, and limited or less developed product lines and markets. In addition, small and mid capitalization companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans.

**Private Company/Private Placement Risk** Investments in the stocks of private companies, including companies that have not yet issued securities publicly in an initial public offering ("IPO"), involve greater risks than investments in stocks

Click to view the fund's [prospectus](#) or [statement of additional information](#).

of many publicly traded companies. Compared to public companies, there is significantly less information available about private companies and there is no assurance that the information obtained by the Fund is reliable. Investments in private companies and private placements are generally considered to be illiquid and may be difficult to sell at a desirable time or at the prices at which the Fund has valued the investments. Investments in private companies and private placements are typically difficult to value since there are no market prices and less overall financial information available. Difficulty in valuing such investments may make it difficult to accurately determine a Fund's exposure to private investments, which could cause the Fund to invest to a greater extent in illiquid investments and subject the Fund to increased risks. In addition, private companies may have limited financial resources and may be unable to meet their obligations. Investments in private companies and private placements may involve a high degree of business and financial risk and may result in substantial losses. These factors may have a negative effect on the Fund's performance.

**Liquidity** From time to time, the trading market for a particular security or type of security or other investments in which the Fund invests may become less liquid or even illiquid. Reduced liquidity will have an adverse impact on the Fund's ability to sell such securities or other investments when necessary to meet the Fund's liquidity needs, which may arise or increase in response to a specific economic event or because the investment manager wishes to purchase particular investments or believes that a higher level of liquidity would be advantageous. Reduced liquidity will also generally lower the value of such securities or other investments. Market prices for such securities or other investments may be relatively volatile.

**Management** The Fund is subject to management risk because it is an actively managed investment portfolio. The Fund's investment manager applies investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these decisions will produce the desired results.

## Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the Fund's performance from year to year for Class A shares. The table shows how the Fund's average annual returns for 1 year, 5 years, 10 years or since inception, as applicable, compared with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. You can obtain updated performance information at [franklintempleton.com](http://franklintempleton.com) or by calling (800) DIAL BEN/342-5236.

Click to view the fund's [prospectus](#) or [statement of additional information](#).

The secondary index in the table below shows how the Fund’s performance compares to a group of securities that reflects the broader equity markets universe.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

**Class A Annual Total Returns**

Best Quarter:	Q1'19	18.91%
Worst Quarter:	Q3'11	-17.77%

As of June 30, 2020, the Fund’s year-to-date return was 16.10%.

## Average Annual Total Returns

(figures reflect sales charges)

For the periods ended December 31, 2019

	1 Year	5 Years	10 Years
<b>Franklin Growth Opportunities Fund - Class A</b>			
Return Before Taxes	26.38%	10.59%	12.44%
Return After Taxes on Distributions	23.94%	8.92%	11.31%
Return After Taxes on Distributions and Sale of Fund Shares	17.33%	8.14%	10.18%
<b>Franklin Growth Opportunities Fund - Class C</b>	31.74%	11.02%	12.27%
<b>Franklin Growth Opportunities Fund - Class R</b>	33.46%	11.58%	12.83%
<b>Franklin Growth Opportunities Fund - Class R6</b>	34.28%	12.32%	14.44% <sup>1</sup>
<b>Franklin Growth Opportunities Fund - Advisor Class</b>	34.13%	12.13%	13.40%
Russell 3000 <sup>®</sup> Growth Index (index reflects no deduction for fees, expenses or taxes)	35.85%	14.23%	15.06%
S&P 500 Index (index reflects no deduction for fees, expenses or taxes)	31.49%	11.70%	13.56%

1. Since inception May 1, 2013.

No one index is representative of the Fund's portfolio.

The figures in the average annual total returns table above reflect the Class A maximum front-end sales charge of 5.50%. Prior to September 10, 2018, Class A shares were subject to a maximum front-end sales charge of 5.75%. If the prior maximum front-end sales charge of 5.75% was reflected, performance for Class A in the average annual total returns table would be lower.

The after-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown only for Class A and after-tax returns for other classes will vary.

## Investment Manager

Franklin Advisers, Inc. (Advisers)

## Portfolio Managers

### Grant Bowers

Vice President of Advisers and portfolio manager of the Fund since 2007.

Click to view the fund's [prospectus](#) or [statement of additional information](#).

## **Sara Araghi, CFA**

Portfolio Manager and Research Analyst of Advisers and portfolio manager of the Fund since 2016.

## Purchase and Sale of Fund Shares

You may purchase or redeem shares of the Fund on any business day online through our website at [franklintempleton.com](http://franklintempleton.com), by mail (Franklin Templeton Investor Services, P.O. Box 997151, Sacramento, CA 95899-7151), or by telephone at (800) 632-2301. For Class A, C and R, the minimum initial purchase for most accounts is \$1,000 (or \$25 under an automatic investment plan). Class R6 and Advisor Class are only available to certain qualified investors and the minimum initial investment will vary depending on the type of qualified investor, as described under “Your Account — Choosing a Share Class — Qualified Investors — Class R6” and “— Advisor Class” in the Fund’s prospectus. There is no minimum investment for subsequent purchases.

## Taxes

The Fund’s distributions are generally taxable to you as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case your distributions would generally be taxed when withdrawn from the tax-deferred account.

## Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary’s website for more information.
