

FRANKLIN COREFOLIO ALLOCATION FUND

Franklin Fund Allocator Series

May 1, 2020

FRANKLIN
TEMPLETON

Class A	Class C	Class R	Class R6	Advisor Class
FTCOX	FTCLX	Pending	FTLQX	FCAZX

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, statement of additional information, reports to shareholders and other information about the Fund online at www.franklintempleton.com/prospectus. You can also get this information at no cost by calling (800) DIAL BEN/342-5236 or by sending an e-mail request to prospectus@franklintempleton.com. The Fund's prospectus and statement of additional information, both dated May 1, 2020, as may be supplemented, are all incorporated by reference into this Summary Prospectus.

Internet Delivery of Fund Reports Unless You Request Paper Copies: Effective January 1, 2021, as permitted by the SEC, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request them from the Fund or your financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you have not signed up for electronic delivery, we would encourage you to join fellow shareholders who have. You may elect to receive shareholder reports and other communications electronically from the Fund by calling (800) 632-2301 or by contacting your financial intermediary.

You may elect to continue to receive paper copies of all your future shareholder reports free of charge by contacting your financial intermediary or, if you invest directly with a Fund, calling (800) 632-2301 to let the Fund know of your request. Your election to receive reports in paper will apply to all funds held in your account.

Investment Goal

Capital appreciation.

Fees and Expenses of the Fund

These tables describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts in Class A if you and your family invest, or agree to invest in the future, at least \$50,000 in Franklin Templeton funds. More information about these and other discounts is available from your financial professional and under “Your Account” on page 45 in the Fund’s Prospectus and under “Buying and Selling Shares” on page 76 of the Fund’s Statement of Additional Information. In addition, more information about sales charge discounts and waivers for purchases of shares through specific financial intermediaries is set forth in Appendix A - “Intermediary Sales Charge Discounts and Waivers” to the Fund’s prospectus.

Please note that the tables and examples below do not reflect any transaction fees that may be charged by financial intermediaries, or commissions that a shareholder may be required to pay directly to its financial intermediary when buying or selling Class R6 or Advisor Class shares.

Shareholder Fees

(fees paid directly from your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Maximum Sales Charge (Load) Imposed on Purchases (as percentage of offering price)	5.50%	None	None	None	None
Maximum Deferred Sales Charge (Load) (as percentage of the lower of original purchase price or sale proceeds)	None ¹	1.00%	None	None	None

1. There is a 1% contingent deferred sales charge that applies to investments of \$1 million or more (see “Investments of \$1 Million or More” under “Choosing a Share Class”) and purchases by certain retirement plans without an initial sales charge on shares sold within 18 months of purchase.

Click to view the fund’s [prospectus](#) or [statement of additional information](#).

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Class R	Class R6	Advisor Class
Management fees	None	None	None	None	None
Distribution and service (12b-1) fees	0.25%	1.00%	0.50% ¹	None	None
Other expenses	0.19%	0.19%	0.19%	0.12%	0.19%
Acquired fund fees and expenses ²	0.62%	0.62%	0.62%	0.62%	0.62%
Total annual Fund operating expenses ²	1.06%	1.81%	1.31%	0.74%	0.81%
Fee waiver and/or expense reimbursement ³	None	None	None	-0.03%	None
Total annual Fund operating expenses after fee waiver and/or expense reimbursement^{2,3}	1.06%	1.81%	1.31%	0.71%	0.81%

1. Class R distribution and service (12b-1) fees have been restated to reflect the maximum annual rate approved by the board of trustees for the current fiscal year. Consequently, the total annual Fund operating expenses differ from the ratio of expenses to average net assets shown in the Financial Highlights due to a timing difference between the end of the 12b-1 plan year and the Fund's fiscal year end.

2. Total annual Fund operating expenses differ from the ratio of expenses to average net assets shown in the Financial Highlights, which reflect the operating expenses of the Fund and do not include acquired fund fees and expenses.

3. The transfer agent has contractually agreed to cap transfer agency fees for Class R6 shares of the Fund so that the transfer agency fees for that class do not exceed 0.03% until April 30, 2021. Contractual fee waiver and/or expense reimbursement agreements may not be changed or terminated during the time period set forth above.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of the period. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The Example reflects adjustments made to the Fund's operating expenses due to the fee waivers and/or expense reimbursements by management for the 1 Year numbers only. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A	\$652	\$869	\$1,103	\$1,773
Class C	\$284	\$569	\$980	\$2,127
Class R	\$133	\$415	\$718	\$1,579
Class R6	\$73	\$234	\$409	\$916
Advisor Class	\$83	\$259	\$450	\$1,002
If you do not sell your shares:				
Class C	\$184	\$569	\$980	\$2,127

Portfolio Turnover

A mutual fund generally pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when mutual fund shares are held in a taxable account. During the most recent fiscal year, the Fund’s portfolio turnover rate was 2.12% of the average value of its portfolio.

Principal Investment Strategies

The Fund is a “fund to funds” meaning that it seeks to achieve its investment goal by investing its assets in a combination of the Franklin Growth Fund, Franklin Growth Opportunities Fund, Franklin Mutual Shares Fund and Templeton Growth Fund (underlying funds) on a fixed percentage basis.

The Fund makes equal allocations (approximately 25%) to each of the underlying funds. The administrator rebalances the Fund’s investments in the underlying funds whenever the actual allocations exceed plus or minus 3% of the pre-determined fixed allocation percentages. The Fund’s Board may approve additional or different underlying funds for investment (without the approval of shareholders). These underlying funds, in turn, invest primarily in U.S. and foreign equity securities.

Principal Risks

You could lose money by investing in the Fund. Mutual fund shares are not deposits or obligations of, or guaranteed or endorsed by, any bank, and are not insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board, or any other agency of the U.S. government.

Investing in Underlying Funds Because the Fund invests in underlying funds, and the Fund’s performance is directly related to the performance of the underlying funds held by it, the ability of the Fund to achieve its investment goal is directly related to the ability of the underlying funds to meet their investment goals. In addition, shareholders of the Fund will indirectly bear the fees and expenses of the underlying funds.

For purposes of the discussion below, “Fund” means one or more of the underlying funds in which the Fund invests.

Market The market values of securities or other investments owned by the Fund will go up or down, sometimes rapidly or unpredictably. The market value of a security or other investment may be reduced by market activity or other results of supply and demand unrelated to the issuer. This is a basic risk associated with all investments. When there are more sellers than buyers, prices tend to fall. Likewise, when there are more buyers than sellers, prices tend to rise.

Click to view the fund’s [prospectus](#) or [statement of additional information](#).

Stock prices tend to go up and down more dramatically than those of debt securities. A slower-growth or recessionary economic environment could have an adverse effect on the prices of the various stocks held by the Fund.

Growth Style Investing Growth stock prices reflect projections of future earnings or revenues, and can, therefore, fall dramatically if the company fails to meet those projections. Prices of these companies' securities may be more volatile than other securities, particularly over the short term.

Value Style Investing A value stock may not increase in price as anticipated by the investment manager if other investors fail to recognize the company's value and bid up the price, the markets favor faster-growing companies, or the factors that the investment manager believes will increase the price of the security do not occur or do not have the anticipated effect.

Foreign Securities (non-U.S.) Investing in foreign securities typically involves more risks than investing in U.S. securities, and includes risks associated with: (i) internal and external political and economic developments – e.g., the political, economic and social policies and structures of some foreign countries may be less stable and more volatile than those in the U.S. or some foreign countries may be subject to trading restrictions or economic sanctions; (ii) trading practices – e.g., government supervision and regulation of foreign securities and currency markets, trading systems and brokers may be less than in the U.S.; (iii) availability of information – e.g., foreign issuers may not be subject to the same disclosure, accounting and financial reporting standards and practices as U.S. issuers; (iv) limited markets – e.g., the securities of certain foreign issuers may be less liquid (harder to sell) and more volatile; and (v) currency exchange rate fluctuations and policies. The risks of foreign investments may be greater in developing or emerging market countries.

Focus To the extent that the Fund focuses on particular countries, regions, industries, sectors or types of investment from time to time, the Fund may be subject to greater risks of adverse developments in such areas of focus than a fund that invests in a wider variety of countries, regions, industries, sectors or investments.

Small and Mid Capitalization Companies Securities issued by small and mid capitalization companies may be more volatile in price than those of larger companies and may involve additional risks. Such risks may include greater sensitivity to economic conditions, less certain growth prospects, lack of depth of management and funds for growth and development, and limited or less developed product lines and markets. In addition, small and mid capitalization companies may

be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans.

Derivative Instruments The performance of derivative instruments depends largely on the performance of an underlying instrument, such as a currency, security, interest rate or index, and such instruments often have risks similar to the underlying instrument, in addition to other risks. Derivatives involve costs and can create economic leverage in the Fund's portfolio which may result in significant volatility and cause the Fund to participate in losses (as well as gains) in an amount that exceeds the Fund's initial investment. Other risks include illiquidity, mispricing or improper valuation of the derivative instrument, and imperfect correlation between the value of the derivative and the underlying instrument so that the Fund may not realize the intended benefits. When a derivative is used for hedging, the change in value of the derivative may also not correlate specifically with the currency, security, interest rate, index or other risk being hedged. Derivatives also may present the risk that the other party to the transaction will fail to perform.

Management The underlying funds are subject to management risk because they are each an actively managed investment portfolio. Each underlying funds' investment manager will apply investment techniques and risk analyses in making investment decisions for the underlying fund, but there can be no guarantee that these decisions will produce the desired results.

Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the Fund's performance from year to year for Class A shares. The table shows how the Fund's average annual returns for 1 year, 5 years, 10 years or since inception, as applicable, compared with those of a broad measure of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. You can obtain updated performance information at franklintempleton.com or by calling (800) DIAL BEN/342-5236.

The secondary index in the table below show how the Fund's performance compares to a group of securities in an index of equity securities of issuers located in developed markets countries, including the United States.

Sales charges are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

Class A Annual Total Returns

Best Quarter:	Q1'19	13.05%
Worst Quarter:	Q3'11	-16.91%

As of March 31, 2020, the Fund's year-to-date return was -20.11%.

Average Annual Total Returns

(figures reflect sales charges)

For the periods ended December 31, 2019

	1 Year	5 Years	10 Years
Franklin Corefolio Allocation Fund - Class A			
Return Before Taxes	18.86%	7.11%	9.52%
Return After Taxes on Distributions	16.61%	5.69%	8.62%
Return After Taxes on Distributions and Sale of Fund Shares	12.71%	5.39%	7.71%
Franklin Corefolio Allocation Fund - Class C	23.83%	7.53%	9.33%
Franklin Corefolio Allocation Fund - Class R	25.51%	8.08%	9.88%
Franklin Corefolio Allocation Fund - Class R6	26.24%	8.67%	9.27% ¹
Franklin Corefolio Allocation Fund - Advisor Class	26.10%	8.61%	10.43%
S&P 500 [®] Index (index reflects no deduction for fees, expenses or taxes)	31.49%	11.70%	13.56%
MSCI World Index (index reflects no deduction for fees, expenses or taxes)	28.40%	9.36%	10.08%

1. Since inception August 1, 2017.

No one index is representative of the Fund's portfolio.

Click to view the fund's [prospectus](#) or [statement of additional information](#).

The figures in the average annual total returns table above reflect the Class A maximum front-end sales charge of 5.50%. Prior to September 10, 2018, Class A shares were subject to a maximum front-end sales charge of 5.75%. If the prior maximum front-end sales charge of 5.75% was reflected, performance for Class A in the average annual total returns table would be lower.

The after-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown only for Class A and after-tax returns for other classes will vary.

Investment Manager

The Fund does not have an investment manager, nor does it pay investment management fees. Franklin Templeton Services, LLC (FT Services), the Fund's administrator, monitors the percentage of the Fund's assets allocated to the underlying funds and periodically rebalances the Fund's portfolio. Thomas A. Nelson, CFA and May Tong, CFA, Portfolio Managers of Franklin Advisers, Inc., assist FT Services, at no charge to the Fund, in monitoring the underlying funds and the Fund's investment in the underlying funds and assists in the periodic rebalancing.

Purchase and Sale of Fund Shares

You may purchase or redeem shares of the Fund on any business day online through our website at franklintempleton.com, by mail (Franklin Templeton Investor Services, P.O. Box 997151, Sacramento, CA 95899-7151), or by telephone at (800) 632-2301. For Class A, C and R, the minimum initial purchase for most accounts is \$1,000 (or \$25 under an automatic investment plan). Class R6 and Advisor Class are only available to certain qualified investors and the minimum initial investment will vary depending on the type of qualified investor, as described under "Your Account — Choosing a Share Class — Qualified Investors — Class R6" and "— Advisor Class" in the Fund's prospectus. There is no minimum investment for subsequent purchases.

Taxes

The Fund's distributions are generally taxable to you as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case your distributions would generally be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary's website for more information.
