Performance data quoted represents past performance, which does not guarantee future results. Current performance may be lower or higher than the figures shown. Principal value and investment returns will fluctuate, and investors' shares, when redeemed, may be worth more or less than the original cost. Performance would have been lower if fees had not been waived in various periods. Total returns assume the reinvestment of all distributions and the deduction of all fund expenses. Returns for periods of less than one year are not annualized. All classes of shares may not be available to all investors or through all distribution channels. For current month-end performance, please call Franklin Templeton at (800) DIAL BEN/342-5236 or visit www.franklintempleton.com.

1. Average Annual Total Returns shown "with sales charges" are net of the following: (1) the current annual program fee of 0.25% of plan portfolio assets; (2) the current annual sales fees of 0.25% for Class A Trust Shares and 1.00% for Class C Trust shares (not applicable for Advisor Class); (3) maximum initial sales charges up to 3.75% (Class A) or 1.00% CDSC for periods one year or less (Class C); and (4) annual expenses of the share classes of the underlying mutual funds and ETFs in which Plan portfolios invest, currently up to 0.75% of assets. Effective July 10, 2017, Trust Portfolios began offering Advisor Class shares. For periods prior to July 10, 2017, a restated figure is used based on each Trust Portfolio's Class A performance, excluding the effect of Class A's maximum initial sales charge but reflecting the effect of the Class A sales fee; and for periods after July 10, 2017, actual Advisor Class performance is used, reflecting all charges and fees applicable to that class.

2. After 6 years from the applicable purchase, Class C Trust Shares convert to Class A Trust Shares and the Annual Sales Fee declines to 0.25%.

3. The Age-Based Asset Allocations have been designed for savings intended for qualified higher education (i.e., college) expenses, not for elementary or secondary education tuition expenses.

4. Total Annual Asset Based Fee—annual expenses of the share class of the underlying funds in which Plan portfolios invest. Underlying fund expenses will vary. Operating expenses could change due to market conditions and investment decisions made by the portfolio manager. When fee waivers are in place, the underlying funds' operating expenses are reduced. Without such waivers, returns would be lower. This fee also includes the Program fee and applicable Annual Sales fee. Please see the *Program Description* for more information.

Performance data quoted represents past performance, which does not guarantee future results. Current performance may be lower or higher than the figures shown. Principal value and investment returns will fluctuate, and investors' shares, when redeemed, may be worth more or less than the original cost. Performance would have been lower if fees had not been waived in various periods. Total returns assume the reinvestment of all distributions and the deduction of all fund expenses. Returns for periods of less than one year are not annualized. All classes of shares may not be available to all investors or through all distribution channels. For current month-end performance, please call Franklin Templeton at (800) DIAL BEN/342-5236 or visit www.franklintempleton.com.
