Performance data quoted represents past performance, which does not guarantee future results. Current performance may be lower or higher than the figures shown. Principal value and investment returns will fluctuate, and investors' shares, when redeemed, may be worth more or less than the original cost. Performance would have been lower if fees had not been waived in various periods. Total returns assume the reinvestment of all distributions and the deduction of all fund expenses. Returns with sales charge reflect a deduction of the stated maximum sales charge. An investor cannot invest directly in an index, and unmanaged index returns do not reflect any fees, expenses or sales charges. Returns for periods of less than one year are not annualized. All classes of shares may not be available to all investors or through all distribution channels. For current month-end performance, please visit franklintempleton.com.

The fund began offering Class R6 shares on 5/1/2013. Performance quotations have been calculated as follows: (a) for Class R6 periods prior to 5/1/2013, a restated figure is used based on the fund's Advisor Class performance. The performance was adjusted to take into account differences in class-specific operating expenses and maximum sales charges. (b) For periods after share class offering, performance for the specific share class is used, reflecting the expenses and maximum sales charges applicable to that class. For performance reporting purposes, the inception date is the date of effectiveness of the fund's registration statement or the first day the fund commenced operations.

Share Class Details

	CUSIP	Ticker	Sales Charges (%)		Expenses (%)		30-Day SEC Yield (%)	
			Max	CDSC	Gross	Net	Without Waiver	With Waiver
Advisor Class	353612658	FBFZX	0.00	—	0.66	0.65	3.20	3.23
Class A	353612682	FBLAX	5.50	—	0.91	0.90	2.78	2.81
Class C	353612674	FBMCX	0.00	1.00	1.66	1.65	2.20	2.23
Class R	353612666	FBFQX	0.00	—	1.16	1.15	2.70	2.73
Class R6	353612575	FBFRX	0.00	—	0.60	0.59	3.27	3.27

Gross expenses are the fund's total annual operating expenses as of the fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns. Net expenses reflect contractual fee waivers, expense caps and/or reimbursements, which cannot be terminated prior to 02/28/2026 without Board consent. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice. There is a 1% CDSC on any Class C shares you sell within 12 months of purchase.

What should I know before investing?

All investments involve risks, including possible loss of principal. Fixed income securities involve interest rate, credit, inflation and reinvestment risks, and possible loss of principal. As interest rates rise, the value of fixed income securities falls. **Equity securities** are subject to price fluctuation and possible loss of principal. The manager may consider **environmental, social and governance (ESG) criteria** in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the fund's prospectus.**Managed Distribution Policy Risks** - The fund is not guaranteed to achieve its investment goal nor is there any guarantee that the fund will provide sufficient income at or through the investor's retirement. In addition, some of its distributions may be treated in part as a return of capital, which will decrease shareholders' cost basis in the fund and affect the amount of any capital gain or loss that they realize when selling or exchanging fund shares. The annual payout rate may be adjusted higher or lower from year to year and could vary substantially over time. It is possible for the fund to suffer substantial investment losses and simultaneously experience additional asset reductions as a result of its distributions to shareholders under the managed distribution policy. Investors who hold the fund within a tax-advantaged retirement account should consult their tax professional to discuss tax consequences of receiving cash distributions. In addition, use of the fund or election of the option to receive distribution payments in cash may be restricted in certain retirement plans by the terms of the governing plan documents and/or the discretion of the plan administrator. Investors are strongly advised to consult with their financial professional for assistance before selecting the appropriate fund, based on their goals and personal situations, including time horizon, retirement income needs, risk tolerance, and tax bracket.

Glossary

The **30-day SEC yield** is calculated using the net income (interest and dividends) per share earned over a trailing 30-day period (annualized), divided by the fund's share price at the end of that period. It may not equal the fund's actual income distribution rate, which reflects the fund's past dividends paid to shareholders. **Turnover** is a measure of the fund's trading activity which represents the portion of the fund's holdings that has changed over a twelve-month period through the fiscal year end. There is no assurance that the fund will maintain its current level of turnover. **Price to Book:** The price per share of a stock divided by its book value (i.e., net worth) per share. For a portfolio, the value represents a weighted average of the stocks it holds. **Price to Earnings (12-Month Trailing)** is the share price of a stock, divided by its per-share earnings over the past year. For a portfolio, the value represents a weighted average of the stocks it holds. **Weighted Average Maturity:** An estimate of the number of years to maturity, taking the possibility of early payments into account, for the underlying holdings. **Effective Duration** is a duration calculation for bonds with embedded options. Effective duration takes into account that expected cash flows will fluctuate as interest rates change. Duration measures the sensitivity of price (the value of principal) of a fixed-income investment to a change in interest rates. The higher the duration number, the more sensitive a fixed-income investment will be to interest rate changes.

Portfolio Data Information

Holdings are provided for informational purposes only and should not be construed as a recommendation to purchase or sell any security. Portfolio breakdown percentages may not total 100% and may be negative due to rounding, use of any derivatives, unsettled trades or other factors.

Important Information

Effective 3/1/2019, Franklin Balanced Fund repositioned to become an income strategy. The fund changed its name to Franklin Managed Income Fund, as well as its dividend policy, investment management fee and primary benchmark.

Effective March 1, 2025, the fund changed its benchmark to the Linked 60% Bloomberg U.S. Aggregate Index & 40% MSCI USA High Dividend Yield Index.

CFA® and Chartered Financial Analyst® are trademarks owned by CFA Institute.

The MSCI USA High Dividend Yield Index is designed to reflect the performance of mid- and large-cap equities (excluding REITs) with higher dividend income, which is sustainable and persistent, than average dividend yields of securities in the MSCI USA Index, its parent index. The Bloomberg US Aggregate Index is comprised of investment-grade, U.S. dollar-denominated government, corporate, and mortgage- and asset-backed issues having at least one year to maturity. The Linked 60% Bloomberg U.S. Aggregate Index & 40% MSCI USA High Dividend Yield Index reflects the performance of the Blended 50% MSCI USA High Dividend Yield Index + 25% ICE BofA US Corporate & High Yield Index + 25% Bloomberg US Aggregate Index from fund inception through 2/28/2025 and 40% MSCI USA High Dividend Index & 60% Bloomberg US Aggregate thereafter.
