### Fund Measures

Standard Deviation (3 Yrs) - Advisor Class	16.68%
Beta (3 Yrs, vs. S&P 500 Index) - Advisor Class	0.99

**Morningstar Rating™—Advisor Class**

**Overall Morningstar Rating™** As of June 30, 2020 the fund's Advisor Class shares received a 5 star overall Morningstar Rating™, measuring risk-adjusted returns against 157, 140 and 102 U.S.-domiciled US Fund Allocation--85%+ Equity funds over the 3-, 5- and 10- year periods, respectively. A fund's overall rating is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) rating metrics.

**What Are the Risks?**

All investments involve risks, including possible loss of principal. Because the Fund invests in underlying funds that may engage in a variety of investment strategies involving certain risks, this fund of funds may be subject to those same risks. Stock prices fluctuate, sometimes rapidly and dramatically, due to factors affecting individual companies, particular industries or sectors, or general market conditions. Growth stock prices reflect projections of future earnings or revenues, and can therefore fall dramatically if the company fails to meet those projections. Value securities may not increase in price as anticipated or may decline further in value. Foreign investing carries additional risks such as currency and market volatility, and political or social instability; risks which are heightened in developing countries. These and other risks, including investments in specialized industry sectors such as the technology sector, which has been among the most volatile in the market, are discussed in the fund's prospectus.

**Glossary**

**Beta:** A measure of the fund's volatility relative to the market, as represented by the stated Index. A beta greater than 1.00 indicates volatility greater than the market.

**Standard Deviation:** A measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.

**Important Information**

*Investors should carefully consider a fund's investment goals, risks, charges and expenses before investing. To obtain a summary prospectus and/or prospectus, which contains this and other information, talk to your financial professional, call us at (800) DIAL BEN/342-5236 or visit franklintempleton.com. Please carefully read a prospectus before you invest or send money.*

Indexes are unmanaged, and one cannot invest directly in an index. They do not reflect any fees, expenses or sales charges.

**Fund Management:** CFA® and Chartered Financial Analyst® are trademarks owned by CFA Institute.

**Asset Allocation:** Percentage may not equal 100% due to rounding.

**Performance:** The fund offers other share classes subject to different fees and expenses, which will affect their performance.

**Underlying Funds' Top Ten Holdings:** The portfolio manager for the fund reserves the right to withhold release of information with respect to holdings that would otherwise be included.

Based on a combined investment consisting of equal allocations to the four underlying funds.

**Morningstar Rating™:** Source: Morningstar®, 6/30/20. For each mutual fund and ETF with at least a 3-year history, Morningstar calculates a Morningstar Rating™ based on how a fund ranks on a Morningstar Risk-Adjusted Return measure against other funds in the same category. This measure takes into account variations in a fund's monthly performance, and does not take into account the effects of sales charges and loads, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The weights are: 100% 3-year rating for 36-59 months of total returns, 60% 5-year rating/40% 3-year rating for 60-119 months of total returns, and 50% 10-year rating/30% 5-year rating/20% 3-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent 3-year period actually has the greatest impact because it is included in all three rating periods. The Fund's Advisor Class shares received a Morningstar Rating of 4, 4 and 5 star(s) for the 3-, 5- and 10-year periods, respectively. Morningstar Rating™ is for the named share class only; other classes may have different performance characteristics. **Past performance is not an indicator or a guarantee of future performance.** Source: ©Morningstar.
