

# Harmonizing values and returns

## ClearBridge ESG Portfolios

December 2025 | Separately Managed Accounts (SMAs)

Our **environmental, social and governance (ESG)** approach offers you the option of having your portfolios reflect your values. By applying ESG integration, active company engagement and shareholder advocacy to ClearBridge Investments' strategies, you can earn returns on your investments while helping to make the world a better place.<sup>1</sup>

<sup>1</sup> There is no guarantee that the Portfolios' objectives will be met.

**All investments involve risk, including loss of principal.** Equity securities are subject to price fluctuation and possible loss of principal.

# Pursue financial return and social good

ClearBridge believes that investors shouldn't have to choose between their values and investment performance.

That's why ClearBridge's ESG approach favors companies that promote best practices when it comes to the environment, social issues and corporate governance. ClearBridge believes the ways in which companies integrate these issues into their operations can potentially impact competitive opportunities and growth potential—and ultimately drive stock prices.

## Investors concerned with ESG issues generally haven't sacrificed investment returns

Growth of \$100

Important data provider notices and terms available at [www.franklintempletondatasources.com](http://www.franklintempletondatasources.com). **Past performance is no guarantee of future results.** All investments involve risk, including possible loss of principal. ESG stocks are represented by the MSCI KLD 400 Social Index, and the broad stock market is represented by the S&P 500 Index. Indexes are unmanaged, and not available for direct investment. Index returns do not include expenses or sales charges. This information is provided for informational purposes only. The **MSCI KLD 400 Social Index** comprises companies with high environmental, social and governance (ESG) ratings and excludes companies involved in alcohol, gambling, tobacco, military weapons, civilian firearms, nuclear power, adult entertainment and genetically modified organisms (GMO). The Index aims to serve as a benchmark for investors whose objectives include owning companies with very high ESG ratings and avoiding companies that are incompatible with specific values-based criteria. The **S&P 500 Index** is a capitalization-weighted, composite index of 500 stocks designed to measure the performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries. **An environmental, social and governance (ESG) investment strategy may limit the types and number of investment opportunities available to the portfolio and, as a result, may underperform strategies that are not subject to such criteria.**

# The ESG influence

ClearBridge takes a differentiated ESG approach than most of its peers. For instance, ClearBridge doesn't look solely at ESG factors to determine which companies go into the portfolio. Instead, ESG factors help shape conviction, influencing whether a particular company should be held, for how long and at what position size.

**ClearBridge's ESG strategies include the following portfolios, managed by their existing portfolio teams:**

All Cap Growth	Growth	Large Cap Value
Value	International Growth ADR	Sustainability Leaders
Appreciation	International Value ADR	
Dividend Strategy	Large Cap Growth	

## Environmental, social and governance factors

### Environment, health & safety

Includes regulatory compliance, occupational/workplace safety, environmental footprint, eco-efficiency, product safety, pollution prevention and life-cycle analysis.

### Community

Consists of human rights responsiveness, license to operate, impact to community, volunteerism, mission-related philanthropy and public policy engagement.

### Workplace

Covers workforce diversity, work/life balance, employee retention and training, employee benefits and compensation, labor relations, outsourcing and foreign sourcing.

### Corporate governance

Considers such issues as management structure, board composition guidelines, transparency and disclosure.

The manager's investment style may become out of favor and/or the manager's selection process may prove incorrect, which may have a negative impact on the Portfolios' performance.

# The ClearBridge ESG difference

ClearBridge Investments is a pioneer in ESG investing. Having established an ESG approach in 1987, the firm was among the first—and largest—mainstream investment managers to commit to ESG investing.

**When it comes to ESG investing, ClearBridge is structured to make a difference on your behalf.**

- Analyst-driven, ESG-focused meetings directly with portfolio companies
- ESG principles integrated firm-wide, not just within an ESG investment team
- Active participation in prominent ESG member networks, such as the Principles for Responsible Investment (PRI)<sup>2</sup> and the Sustainable Investment Forum<sup>3</sup>

**ClearBridge takes a broad view of ESG investing. Here's what we think sets it apart:**

## **Company engagement**

Advocacy via active proxy voting and engagement with company management. As high-conviction investors who own companies for the long haul, ClearBridge is positioned to try to guide and influence company management on issues related to ESG.

## **Proprietary rating system**

Every company within the ClearBridge research universe receives a rating intended to signal to investment teams how well a company has executed against ESG practices. ClearBridge analysts assign companies one of four proprietary ESG ratings, ranging from AAA (highest) to B (lowest), based on company performance/behavior and a comparison with industry peers.

## **Fully integrated process**

ESG evaluation is not a separate process at ClearBridge. In fact, their fundamental research process incorporates ESG perspectives that go well beyond traditional passive negative screens and overlays.

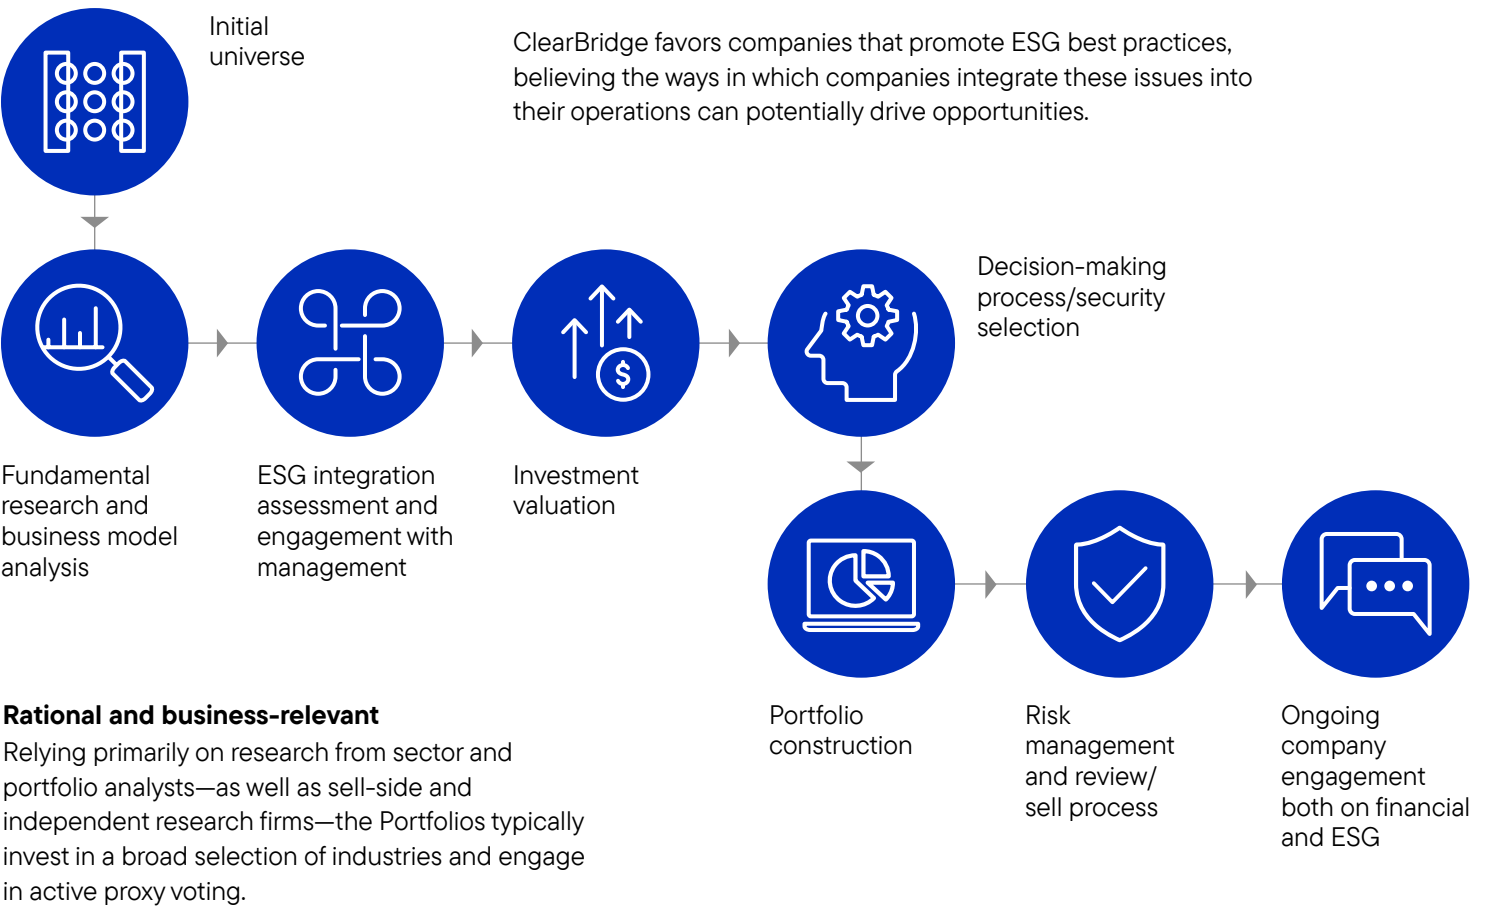

2. Principles for Responsible Investment (PRI) is an investor initiative in partnership with the UNEP Finance Initiative and the UN Global Compact. The Principles provide a voluntary framework for investment professionals who commit to integrate environmental, social and governance (ESG) factors into their investment analysis and decision-making practices.

3. The Sustainable Investment Forum is the leading voice advancing sustainable investing across all asset classes. US SIF is supported in its work by the US SIF Foundation, a 501(C)(3) organization that undertakes educational, research and programmatic activities to advance the mission of US SIF. US SIF is a member of the Global Sustainable Investment Alliance (GSIA) and a member of the US Impact Investing Alliance's Industry Advisory Council.

# More than an afterthought

Rather than select stocks purely on ESG characteristics, the Portfolios put the investment thesis first. Using integrated ESG research—as opposed to relying on third-party lists—the Portfolios look well beyond winnowing the stock universe.

## ClearBridge’s proprietary ESG evaluation process is integrated into the stock selection for each style

# Sustainable investment solutions

Whether investors are looking for income potential, risk management or high active share, ClearBridge's ESG approach has a strategy that fits the bill. Plus, investors can customize their portfolios based on specific guidelines.

**“Through our ESG approach, we are able to represent a large group of investors who take the environment, human factors and governance very seriously.”**

**Mary Jane McQuillen**

Managing Director, Portfolio Manager,  
Head of ESG

		Primary Objective	Designed for Investors Seeking
High Active Share	Value <sup>4</sup>	Focuses on large-, medium- and small-cap stocks whose prices appear attractive in relation to their underlying fundamentals.	A core value portfolio, with the ability to invest in all market capitalizations.
	All Cap Growth	Targets a diversified portfolio of large-, medium- and small-cap stocks with above average long-term growth potential.	A strategy that taps into the insights of four seasoned portfolio managers to actively pursue growth across market capitalizations.
	Large Cap Growth <sup>4</sup>	Seeks high-quality, large-cap stocks that provide potential for solid long-term performance.	A distinctive, style-pure growth strategy that uses fundamental research to invest in industry leaders.
	Growth	Uses a concentrated approach to invest in growth stocks with the potential for above average long-term earnings and/or cash flow growth.	A concentrated, benchmark-agnostic approach to complement core or passive equity strategies.
	International Growth ADR	Invests in ADRs of well-managed businesses whose intrinsic value does not appear to be recognized by the markets.	Core exposure to international developed markets, with low turnover.
	International Value ADR	Invests in ADRs of quality international companies that we believe are mispriced relative to their dynamic intrinsic value.	Diversification among developed and emerging markets across all market sectors and capitalizations.
	Sustainability Leaders	Seeks long-term growth of capital by seeking to invest in high-quality companies with attractive sustainability profiles.	To pursue financial return while seeking to make a positive impact on the world.
Income Solutions	Dividend Strategy	Invests primarily in dividend-paying stocks that offer the potential for income growth and capital appreciation over time.	A portfolio whose income may rise over time as companies raise dividends, which may help investors meet long-term financial goals.
Low Volatility	Appreciation	Invests in a diversified portfolio of growth and value stocks, mainly consisting of large-cap, blue-chip companies.	The potential for long-term growth of capital, without assuming unnecessary risk.
	Large Cap Value <sup>4</sup>	Seeks large-cap stocks whose market prices are attractive in relation to their underlying fundamentals.	For investors pursuing high-quality large-cap companies trading at attractive valuations.

4. Also available as Catholic Portfolios that incorporate considerations in line with investment guidelines of the United States Conference of Catholic Bishops (USCCB).

# Objectives consistent with beliefs

## Growing momentum

Business issues not traditionally included in the analysis of an investment portfolio are generally becoming more important value-producing elements for successful investing.

## Interconnected goals

ESG investing allows investors to seek to achieve their objectives in a way that is consistent with their beliefs and values.

## ESG innovators

ClearBridge Investments is among the leading—and most experienced—ESG investment managers, with an ESG program that goes back over 35 years.

## ClearBridge

- A well-established global investment manager focusing on proprietary research and fundamental investing
- Over 60 years of experience building portfolios for clients seeking income solutions, high active share or low volatility
- Long-tenured portfolio managers provide strong leadership in a centralized investment structure

**“At ClearBridge, ESG investing is much more than something we do. It’s something we believe in.”**

**Mary Jane McQuillen**  
Managing Director, Portfolio Manager,  
Head of ESG

**30+**  
years of experience

## WHAT ARE THE RISKS?

All investments involve risk, including loss of principal, and there is no guarantee that investment objectives will be met.

The managers' **environmental, social and governance (ESG)** strategies may limit the types and number of investments available and, as a result, may forgo favorable market opportunities or underperform strategies that are not subject to such criteria. There is no guarantee that the strategy's ESG directives will be successful or will result in better performance.

ClearBridge All Cap Growth ESG, ClearBridge All Cap Value ESG, ClearBridge Appreciation ESG, ClearBridge Dividend Strategy ESG, ClearBridge International Growth ADR ESG, ClearBridge International Value ADR ESG, ClearBridge Large Cap Value ESG, ClearBridge Growth ESG and ClearBridge Sustainability Leaders Portfolios: Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks.

ClearBridge International Growth ADR ESG and ClearBridge International Value ADR ESG: International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets.

ClearBridge All Cap Growth ESG and ClearBridge Growth ESG: To the extent the portfolio invests in a concentration of certain securities, regions or industries, it is subject to increased volatility.

Diversification does not assure a profit or protect against market loss.

Any information, statement or opinion set forth herein is general in nature, is not directed to or based on the financial situation or needs of any particular investor, and does not constitute, and should not be construed as, investment advice, forecast of future events, a guarantee of future results, or a recommendation with respect to any particular security or investment strategy or type of retirement account. Investors seeking financial advice regarding the appropriateness of investing in any securities or investment strategies should consult their financial professional.

Clients can also request customized screens to meet the needs of specific religious faiths or to address a client's sensitivity in a particular issue area, such as animal experimentation. All custom screens are subject to pre-approval by the portfolio manager.

Separately managed accounts (SMAs) are investment services provided by Franklin Templeton Private Portfolio Group, LLC (FTPPG), a federally registered investment advisor. Client portfolios are managed based on investment instructions or advice provided by one or more of the following Franklin Templeton affiliated sub-advisors: ClearBridge Investments. Management is implemented by FTPPG, the designated sub-advisor or, in the case of certain programs, the program sponsor or its designee.
