- Proprietary research and ESG ratings
- 35+ year history of ESG investing with a fully-integrated approach

About ClearBridge Investments

US\$212.0 billion in assets under management

Headquartered in New York City with additional offices in: Baltimore, USA, Calgary, CA, Edinburgh, UK, Fort Lauderdale, USA, Leeds, UK, London, UK, Melbourne, AU, Sydney, AU

Operate with investment autonomy, wholly-owned subsidiary of Franklin Resources

PRI Signatory since 2008

Data as of December 31, 2025.

ClearBridge Investments consists of ClearBridge Investments, LLC (CBI) and its affiliated managers whose businesses have been operationally integrated with CBI's, including ClearBridge Investments Limited and its subsidiary in Australia, a part of Franklin Templeton Australia Limited doing business as ClearBridge Investments in Australia, a part of Franklin Templeton Investments Corp. doing business as ClearBridge Investments in Canada and ClearBridge Investment Management Limited in the United Kingdom. The business of Franklin Real Asset Advisors has been aligned with ClearBridge Investments. Not all ClearBridge strategies have an ESG objective.

Firm values

Embedded in organization from the bottom up

Cultivate consistency in all we do

We approach every opportunity with patience and diligence to better assess, and act with knowledge of, the full picture. Together, we use our diverse talents and expertise to seek to create success and stability for our clients.

Go above and beyond

We seek to exceed expectations in every aspect of our business, from engaging with the companies we own, to supporting our employees and delivering superior customer service.

Ensure responsiveness and accountability

We succeed when clients succeed. Our culture of collaboration creates a strong sense of loyalty and accountability, encourages diverse contributions and enables responsiveness.

Promote a long-term perspective

We are committed to long-term strategies and authentic active management to move our clients forward. We approach portfolio companies as business owners and hold stocks for an average of five years.

Advocate for sustainability

Integrating ESG considerations into our fundamental research process, promoting sustainability in company engagements and following such practices across the firm can offer clients a return on their investments while making a positive impact.

Act with conviction

Differentiated thinking is the basis of our approach, giving us the confidence to invest where our research identifies opportunity that the consensus may overlook and to develop new solutions that benefit our clients.

ClearBridge Investments ESG Principals

[ClearBridge Investments is a signatory to the Principles for Responsible Investment \(PRI\)](#)

About the Principles

- The PRI is an investor initiative in partnership with the UNEP Finance Initiative and the UN Global Compact. The Principles provide a voluntary framework for investment professionals who commit to integrate environmental, social, and governance (ESG) factors into their investment analysis and decision-making practices.

The Principles

- We will incorporate ESG issues into investment analysis and decision-making processes.
- We will be active owners and incorporate ESG issues into our ownership policies and practices.
- We will seek appropriate disclosure on ESG issues by the entities in which we invest.
- We will promote acceptance and implementation of the Principles within the investment industry.
- We will work together to enhance our effectiveness in implementing the Principles.
- We will each report on our activities and progress towards implementing the Principles.

ClearBridge ESG Investment Program

Guidelines for Catholic Issues Screening

The Environmental, Social and Governance (ESG) Investment Program applies ESG integration, active company engagement and shareholder advocacy to ClearBridge investment strategies.

For clients who wish their portfolios to reflect Catholic values, we offer portfolios managed in a manner that is consistent with the socially responsible investment guidelines of the United States Conference of Catholic Bishops (USCCB).

All of the following screens are applied to accounts to exclude companies*:

- Involved in the provision of abortion services.
- Involved in the manufacture of contraceptive products.
- That conduct medical research using human embryonic stem cells and/or fetal tissue.
- Which derive a significant portion of revenues from production of weapons.
 - Which derive a small portion of revenues from controversial weapons including, nuclear, biological, chemical, landmines and weapons of mass destruction.
- Which derive a significant portion of revenues from tobacco products, alcoholic beverages, gambling services, adult entertainment and nuclear power.
- With an ongoing record of significant controversies, suits and/or fines based on gender, race, ethnicity, age, religion or social conditions.
- That have alignments with governments associated with human rights violations or repressive regimes.

To ensure portfolios remain fully invested, portfolio managers may add more companies or increase weights of companies that affirmatively pass through our screening process.

Additionally, upon a client's request we will exclude companies that conduct medical research using replicated cells derived from fetal cell lines (a more conservative interpretation of this restriction favored by some investors).

Last updated based on November 2021 USCCB Guidelines.

* Screening generally involves the exercise of discretion by the ESG team and is based on company and/or other information believed to be reliable, although the accuracy and completeness of such information cannot be guaranteed.

ClearBridge Large Cap Value ESG Catholic Portfolios

Overview

The ClearBridge Large Cap Value ESG Catholic Portfolios are designed for investors seeking long-term growth aligned with Catholic values, using a large-capitalization value investment style.

The ESG Investment Program actively incorporates environmental, social and governance (ESG) factors into the fundamental research platform and into the stock-selection process. In addition, ongoing company engagement and shareholder advocacy are key components of the Program.

A few examples of the ESG considerations include:

- Innovative workplace policies, employee benefits and programs.
- Environmental management system strength, eco-efficiency and life-cycle analysis.
- Community involvement, strategic philanthropy, and reputation management.
- Strong corporate governance and independence on the board.

ClearBridge is a Signatory to the UN Principles for Responsible Investment and is affiliated with the Investor Network on Climate Risk, the Carbon Disclosure Project, the Interfaith Center on Corporate Responsibility, the Global Impact Investing Network, and the US Forum for Sustainable and Responsible Investment.

Philosophy

- Managers utilize an interactive, research-driven approach to identify companies with strong business franchises and attractive valuations, and which have met our environmental, social and governance (ESG) criteria.

Strong business franchises

- Proven business models that we understand.
- Companies with sustainable competitive advantage.
- Capable of generating solid returns across a range of potential scenarios.

Attractive valuations

- Timing and probability of cash flows.
- Discounted earnings from emerging business models or products.
- Evaluate price relative to normalized earnings power.

Objectives

The strategy seeks to:

- Focus on consistent growth of capital while managing volatility.
- Outperform the Russell 1000 Value Index over a full market cycle, and with less risk.
- Actively evaluate a company's "non-financial" drivers of business performance to gauge its level of social awareness and consistency with Catholic values.

ClearBridge Large Cap Value ESG Catholic Portfolios

Investment process

STEP 1

Develop a macroeconomic outlook

Consider broad economic and financial trends, which helps create a framework for securities analysis.

STEP 2

Define the investment universe

Utilize bottom-up analysis to identify best ideas that include companies that we believe have strong franchises and the potential for price appreciation.

STEP 3

Employ fundamental analysis and identify catalysts

- Examine relative valuation, identify favorable entry points and focus on normalized earnings.
- Seek to achieve a valuation better than the S&P 500 Index.

STEP 4

Construct portfolio and manage risk

Identify relevant socially aware considerations for each sector, and compare management culture, programs and corporate policies.

STEP 5

Monitor continuously

Select from among these candidates those with attractive valuations that meet ESG sustainable research criteria.

The investment process may change over time. The characteristics set forth are intended as a general illustration of some of the criteria the strategy team considers in selecting securities for client portfolios. There is no guarantee investment objectives will be achieved.

An investor cannot invest directly in an index. The index is not managed and not subject to management or brokerage commission. Dividends are subject to reinvestment.

Periods less than one year are not annualized. Performance results are for the composite which includes all actual, fully discretionary accounts with substantially similar investment policies and objectives managed to the composite's investment strategy. Composite returns are stated in U.S. dollars and assume reinvestment of any dividends, interest income, capital gains, or other earnings. The composite may include account(s) that are gross of fees and pure gross of fees. "Pure" gross-of-fee returns do not reflect the deduction of any expenses, including transaction costs. A traditional (or "true") gross-of-fee return reflects performance after the reduction of transaction costs but before the reduction of the investment advisory fee. The gross-of-fee return may include a blend of "true" gross-of-fee returns for non-wrap accounts and "pure" gross-of-fee returns for wrap accounts. Net-of-fee returns are reduced by a model "wrap fee" (3.0% is the maximum anticipated wrap fee for equity and balanced portfolios) which includes trading expenses as well as investment management, administrative and custodial fees. The model wrap fee used represents the highest anticipated wrap fee applicable to the strategy. Actual fees and account minimums may vary.

For fee schedules, contact your financial professional, or if you enter into an agreement directly with Franklin Templeton Private Portfolio Group, LLC ("FTPPG"), refer to FTPPG's Form ADV Part 2A disclosure document. Management and performance of individual accounts may vary for reasons that include the existence of different implementation practices and model requirements in different investment programs. Past performance is not a guarantee of future results. Please see appendix for GIPS® Report and term definitions.

What are the risks?

ClearBridge Large Cap Value ESG Catholic Portfolios

All investments involve risks, including possible loss of principal. Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks. The managers' **environmental, social and governance (ESG) strategies** may limit the types and number of investments available and, as a result, may forgo favorable market opportunities or underperform strategies that are not subject to such criteria. There is no guarantee that the strategy's ESG directives will be successful or will result in better performance.

Compliance Statement:

ClearBridge Investments, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. ClearBridge Investments, LLC has been independently verified for the periods January 1, 1997 - December 31, 2024. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedure for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Firm Information:

ClearBridge Investments, LLC ("ClearBridge") is a wholly owned indirect subsidiary of Franklin Resources, Inc. ("Franklin"). In July 2020 Legg Mason, Inc., its parent company, was purchased by Franklin. The investment advisory business now known as ClearBridge was registered in September 2005 to facilitate Legg Mason's acquisition of substantially all the equity asset management businesses known as Citigroup Asset Management. These former businesses serve as the foundation of ClearBridge and its claim of GIPS compliance for institutional accounts through predecessor firms, effective as of January 1997. In June 2008, ClearBridge combined this business with its retail business to form a single GIPS firm. As of April 1, 2013, January 1, 2016, May 1, 2020 and January 1, 2024 ClearBridge affiliates, Global Currents Investment Management, LLC, ClearBridge, LLC, ClearBridge Investments Limited (f/k/a RARE Infrastructure Limited) and Franklin Bissett Asset Management Equity Team have become part of the ClearBridge GIPS firm.

Composite Information:

The ClearBridge Large Cap Value ESG Catholic SMA composite consists of discretionary wrap accounts with an account minimum of US \$25,000. The managers actively integrate criteria inclusive of environmental, social and governance (ESG) issues into the portfolio construction of the strategy. In addition, the portfolios are constructed to be in line with USCCB socially responsible guidelines, as directed by the client. Accounts within the composite seek long-term capital appreciation by investing in securities with favorable risk-adjusted return characteristics. Investments are primarily made in large-capitalization U.S. companies but may also invest in mid-capitalization companies. The strategy is implemented by Franklin Templeton Private Portfolio Group, LLC ("FTPPG"), formerly known as Legg Mason Private Portfolio Group, L LC ("LMPPG"). FTPPG claims compliance with the Global Investment Performance Standards (GIPS®). FTPPG has been independently verified for the periods January 1, 2013 - December 31, 2024. FTPPG is a wholly owned indirect subsidiary of Franklin Resources, Inc and together with its sub-advisers, including ClearBridge, provides investment services primarily in investment programs sponsored by Sponsor Firms. To obtain a GIPS Report and/or the firm's list of composite descriptions, please contact info@clearbridge.com. The main risks of this strategy are General Investment Risk, Mid Cap Risk, ESG Investing Risk, and Non-U.S. Investment Risk.

Input and Calculation Data:

The fee schedule currently in effect is 3.00% on all assets. Net of fee composite returns are calculated by reducing each monthly composite pure gross rate of return by the highest "bundled" fee charged (3.00%) annually, prorated to a monthly ratio. The "bundled" fee includes transaction costs, investment management, custodial, and other administrative fees. The internal dispersion of annual returns is measured by the asset-weighted standard deviation of portfolio returns included in the composite for the entire year. The composite employs a 10% significant cash flow policy which started in January 2021. A list of composite and limited distribution pooled fund descriptions and a list of broad distribution pooled funds is available upon request. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Past performance is not necessarily indicative of future results. Gross returns are used to calculate presented risk measures. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Primary Benchmark Information:

For comparison purposes, composite returns are shown against returns of the Russell 1000® Value Index.

Definitions

Term definitions

Earnings before interest, taxes, depreciation and amortization (EBITDA) approximates a firm's operating cash flow by considering its earnings before interest, taxes, depreciation and amortization.

Free Cash Flow measures the cash remaining after accounting for a firm's cash expenditures to support its operations and maintain its capital assets.

Market Capitalization measures the number of outstanding common shares of a given corporation multiplied by the latest price per share.

Weighted Median Market Capitalization represents the value at which half the portfolio's market capitalization weight falls above, and half falls below.

Weighted Average Market Capitalization represents the average value of the companies held in the portfolio. When that figure is weighted, the impact of each company's capitalization on the overall average is proportional to the total market value of its shares.

Dividend Yield is determined by dividing a stock's annual dividends per share by the current market price per share. Dividend yield is a financial ratio that shows how much a company pays out in dividends. **Dividend Yield is calculated without the deduction of fees and expenses.**

P/E (Year 1) is the previous day's closing price of the stock divided by the consensus earnings per share (EPS) of fiscal year 1 (FY1) provided by I/B/E/S. Forecasts are inherently limited and should not be relied upon as indicators of future performance.

The **Price-to-Book** ratio (P/B) is a stock's price divided by the stock's per share book value.

Earnings Per Share (EPS) is the portion of a company's profit allocated to each outstanding share of a common stock.

The **Sharpe Ratio** is a risk-adjusted measure, calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe Ratio, the better the portfolio's historical adjusted performance.

Alpha is a measure of the difference between actual returns and expected performance, given the level of risk as measured by Beta, where **Beta** measures sensitivity to benchmark movements.

R-Squared measures the strength of the linear relationship between the portfolio and its benchmark. R-squared at 1.0 implies perfect linear relationship and zero implies no relationship exists.

Standard Deviation is based on quarterly data. Standard deviation is a measure of the variability of returns; the higher the standard deviation, the greater the range of performance (i.e., volatility).

The **Capture Ratios** measure a manager's composite performance relative to the benchmark, considering only those quarters that are either positive (Up) or negative (Down) for the benchmark.

An **Up Market Capture Ratio** greater than 1.0 indicates a manager who has outperformed the benchmark in the benchmark's positive quarters.

A **Down Market Capture Ratio** of less than 1.0 indicates a manager who has outperformed the relative benchmark in the benchmark's negative quarters.
