Important disclosures

BEFORE INVESTING, CAREFULLY CONSIDER THE FUND'S INVESTMENT OBJECTIVES, RISKS, CHARGES AND EXPENSES. YOU CAN FIND THIS AND OTHER INFORMATION IN ITS PROSPECTUS AT WWW.FLEXPE.COM. PLEASE READ THE PROSPECTUS CAREFULLY.

Secondaries: Private equity secondaries are transactions that offer liquidity solutions to owners of interests in private equity and other alternative investment funds. **Co-investment:** Direct equity co-investment refers to an investment structure in which a private equity firm (General Partner) and direct co-investors collectively invest in portfolio companies. **Primaries:** Investments are made directly in newly formed private equity funds to gain exposure to privately held companies.

Redemptions/Tender Offers: Franklin Templeton intends to recommend that the Fund conduct quarterly tender offers of up to 5% of the Fund's net assets, subject to the approval of the Fund's board in its sole discretion. There can be no assurance that the Fund will conduct tender offers in any particular period and shareholders may be unable to tender any or all shares for repurchase in a periodic repurchase offer or for an indefinite period of time. Shareholders should not expect to be able to sell their shares regardless of how the fund performs.

Gross Expense Ratio: The gross expense ratio reflects the total annual operating expenses for the share class shown, prior to the deduction of any waiver or reimbursement. Actual expenses may be higher and may impact portfolio returns.

Net Expense Ratio: The net expense ratio reflects total expenses after any fee waivers, implemented expense caps or reimbursements and also incentive fees. The Manager has agreed to voluntarily waive its Management Fee through October 1, 2025. Unless otherwise extended by the Manager, the Management Fee payable by the Fund as of October 2, 2025 will be at the annual rate of 1.25%. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice. Expense ratios are as of the most recent prospectus or annual report please see the prospectus for additional details.

Incentive Fee: The incentive fee will be charged on a quarterly basis (and at certain other times). The incentive fee is equal to 12.50% of the excess, if any, of (i) the net profits of the Fund for the relevant period over (ii) the then balance, if any, of the sum of the Hurdle Amount and the Loss Recovery Account. Incentive Fees are accrued monthly and paid quarterly. For purposes of calculating Incentive Fees, such accruals are not deducted from net asset value. Because the Incentive Fee is speculative, no Incentive Fee is presented for the initial year of operations.

Early Repurchase Fee: A 2.00% Early Repurchase Fee payable to the Fund may be charged with respect to the repurchase of Shares at any time prior to the day immediately preceding the one-year anniversary of a Shareholder's purchase of the Shares (on a "first in-first out" basis). The Early Repurchase Fee will be retained by the Fund for the benefit of the remaining Shareholders.

Sales Load: No upfront sales load will be paid with respect to Class S Shares, Class D Shares, Class I Shares or Class M Shares, however, if you buy Class S Shares, Class D Shares or Class M Shares through certain financial intermediaries, they may directly charge you transaction or other fees, including upfront placement fees or brokerage commissions, in such amount as they may determine, provided that selling agents limit such charges to a 3.0% cap on NAV for Class D Shares, a 3.0% cap on NAV Class S Shares and a 3.0% cap on NAV for Class M Shares.

INVESTMENT RISK: Past performance is no guarantee of future results. All investments involve risk, including loss of principal. **Franklin Lexington Private Markets Fund (the "Fund") is subject to a high degree of risk;** specific risk considerations are listed below.

Concentration Risk: An investment should be considered long-term within a multi-asset portfolio and should not be viewed individually as a complete investment program.

Liquidity Risks: The Fund should be viewed as a long-term investment, as it is inherently illiquid and suitable only for investors who can bear the risks associated with the limited liquidity of the Fund. Limited liquidity is provided to shareholders only through the Fund's quarterly repurchase offers for no more than 5% of the Fund's shares outstanding at net asset value. There is no guarantee these repurchases will occur as scheduled, or at all. Shareholders may not be able to sell their shares in the Fund at all or at a favorable price.

Fund Distributions: Distributions are not guaranteed and are subject to change.

Private Market Investment Risks: The fund may be able to invest in private securities that are illiquid and thinly traded, which may limit the manager's ability to sell such securities at their fair market value or when necessary to meet the portfolio's liquidity needs. To the extent the fund invests in privately held companies they present certain challenges and involve incremental risks as opposed to investments in public companies, such as dealing with the lack of available information about these companies as well as their general lack of liquidity. There also can be no assurance that companies will list their securities on a securities exchange, as such, the lack of an established, liquid secondary market for some investments may have an adverse effect on the market value of those investments and on an investor's ability to dispose of them at a favorable time or price.
