

Separately Managed Account

# ClearBridge Growth Portfolios

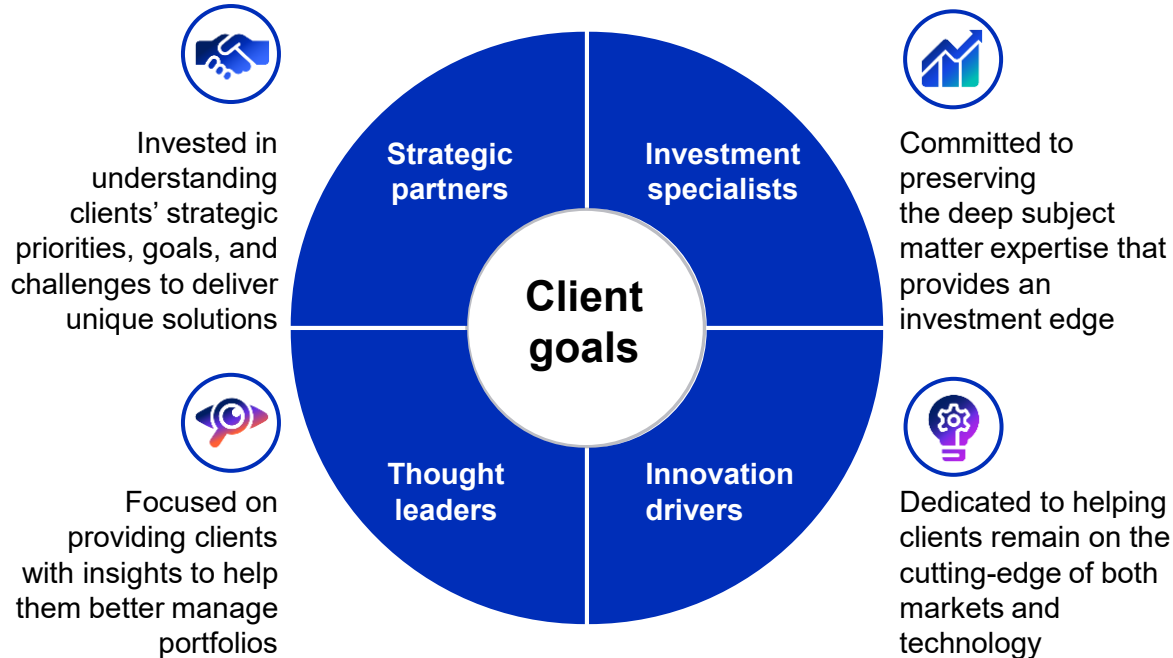

1Q 2026

Separately Managed Accounts (SMAs) are investment services provided by Franklin Templeton Private Portfolio Group, LLC ("FTPPG"), a federally registered investment advisor. Client portfolios are managed based on investment instructions or advice provided by one or more of the following Franklin Templeton affiliated subadvisors: Franklin Advisers, Inc. (Franklin Management is implemented by FTPPG, the designated subadvisor or, in the case of certain programs, the program sponsor or its designee.

These materials are being provided for illustrative and informational purposes only. The information contained herein is obtained from multiple sources that are believed to be reliable. However, such information has not been verified, and may be different from the information included in documents and materials created by the sponsor firm in whose investment program a client participates. Some sponsor firms may require that these materials be preceded or accompanied by investment profiles or other documents, or materials prepared by such sponsor firms, which will be provided upon a client's request. For additional information, documents and/or materials, please speak to your financial professional or contact your sponsor firm.

- Proprietary research and ESG ratings
- 35+ year history of ESG investing with a fully-integrated approach

## About ClearBridge Investments

US\$197.2 billion in assets under management

Headquartered in New York City with additional offices in: Baltimore, USA, Calgary, CA, Edinburgh, UK, Fort Lauderdale, USA, Leeds, UK, London, UK, Melbourne, AU, Sydney, AU

Operate with investment autonomy, wholly-owned subsidiary of Franklin Resources

PRI Signatory since 2008

Data as of March 31, 2026.

ClearBridge Investments consists of ClearBridge Investments, LLC (CBI) and its affiliated managers whose businesses have been operationally integrated with CBI's, including ClearBridge Investments Limited and its subsidiary in Australia, a part of Franklin Templeton Australia Limited doing business as ClearBridge Investments in Australia, a part of Franklin Templeton Investments Corp. doing business as ClearBridge Investments in Canada and ClearBridge Investment Management Limited in the United Kingdom. The business of Franklin Real Asset Advisors has been aligned with ClearBridge Investments. Not all ClearBridge strategies have an ESG objective.

## Firm values

### Embedded in organization from the bottom up

#### Cultivate consistency in all we do

We approach every opportunity with patience and diligence to better assess, and act with knowledge of, the full picture. Together, we use our diverse talents and expertise to seek to create success and stability for our clients.

#### Go above and beyond

We seek to exceed expectations in every aspect of our business, from engaging with the companies we own, to supporting our employees and delivering superior customer service.

#### Ensure responsiveness and accountability

We succeed when clients succeed. Our culture of collaboration creates a strong sense of loyalty and accountability, encourages diverse contributions and enables responsiveness.

#### Promote a long-term perspective

We are committed to long-term strategies and authentic active management to move our clients forward. We approach portfolio companies as business owners and hold stocks for an average of five years.

#### Advocate for sustainability

Integrating ESG considerations into our fundamental research process, promoting sustainability in company engagements and following such practices across the firm can offer clients a return on their investments while making a positive impact.

#### Act with conviction

Differentiated thinking is the basis of our approach, giving us the confidence to invest where our research identifies opportunity that the consensus may overlook and to develop new solutions that benefit our clients.

## Overview

The Growth portfolios seek growth company stocks with the potential for above-average long-term earnings and/or cash flow growth.

## Philosophy

### We believe that:

- An all-capitalization portfolio that seeks a low turnover approach to portfolio construction allows earnings and/or cash flow to compound—does not force sell decisions based upon market capitalization.
- Intensive, bottom-up investment process seeks inefficiently-priced companies with strong fundamentals, incentive-driven management teams, dominant positions in niche markets and/or goods or services customers are practically compelled to use.

## Objectives

### The strategy seeks to:

- Achieve long-term capital appreciation through investment in large-, mid- and small-capitalization stocks that have the potential for above average long-term earnings and/or cash flow growth.
- Select companies that can be held for long periods of time.

## Portfolio positioning

- Designed for investors seeking a growth portfolio with the ability to invest in all market capitalizations<sup>1</sup>.
- Offers a long-term buy-and-hold strategy, which may reduce portfolio turnover.

## Key differentiators

- We believe a true growth portfolio should consist of stocks that can be held not for a quarter or two, but for many years so that earnings and/or cash flow growth can compound over time.
- Portfolios typically concentrated in generally 35-60 holdings.
- Sector concentrations can be significant but are a by product of the bottom-up fundamental research-driven stock selection process.

Effective May 1, 2024, ClearBridge Multi Cap Growth Portfolios was renamed ClearBridge Growth Portfolios. There was no change to the investment objective, principal investment strategies or investment policies.

<sup>1</sup>All market capitalization ranges will not necessarily be represented in an individual account.

Diversification does not assure a profit or protect against market loss.

Managers seek to keep portfolio turnover low to allow for the positive compounding effect of dividends over time, although market, security and other investment considerations may cause turnover to be higher from time to time.

# ClearBridge Growth Portfolios

## Investment process

### STEP 1

#### Define the investment universe

Consider companies across the market capitalization spectrum that we believe have the potential for above-average long-term earnings and/or cash flow growth.

### STEP 2

#### Perform bottom-up fundamental analysis

Emphasize companies with significant franchise value, material ownership stake by management, strong balance sheets and ubiquitous products or services.

### STEP 3

#### Determine buy-list

Identify companies that may be inefficiently priced and/or overlooked by Wall Street at time of position initiation.

### STEP 4

#### Maintain concentrated portfolio with long-term horizon

Construct a low-turnover portfolio of generally 35-60 holdings concentrated by industry and issuer. Allow earnings and/or cash flow growth to compound.

### STEP 5

#### Review holdings continuously

Re-examine a current holding when long-term deterioration in company or industry fundamentals is seen as a significant possibility, valuation is excessive, or new idea provides better risk/return prospects.

Market, security and/or other investment considerations may result in higher turnover from time to time.

The investment process may change over time. The characteristics set forth are intended as a general illustration of some of the criteria the strategy team considers in selecting securities for client portfolios.

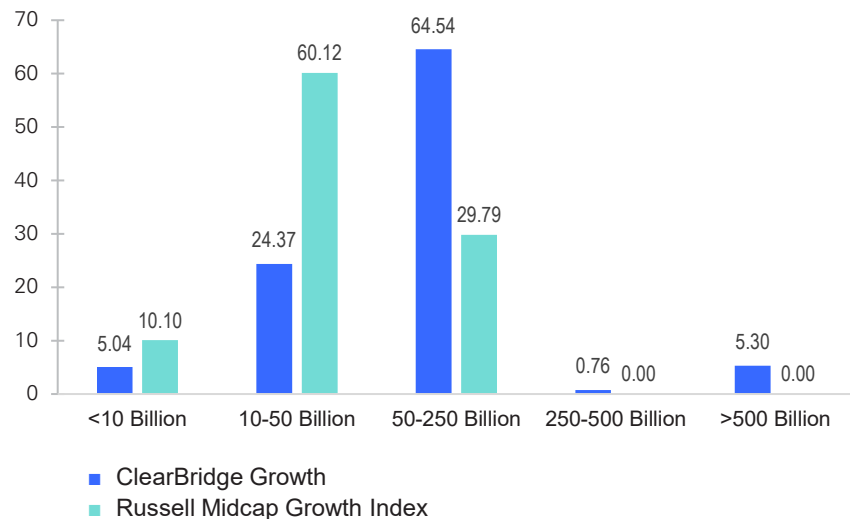

There is no guarantee investment objectives will be achieved.

**The strategy returns shown are preliminary composite returns, subject to future revision (downward or upward). Past performance is not a guarantee of future results. An investment in this strategy can lose value. Please visit [www.franklintempleton.com](http://www.franklintempleton.com) for the latest performance figures. Investors cannot invest directly in an index, and unmanaged index returns do not reflect any fees, expenses or sales charges.**

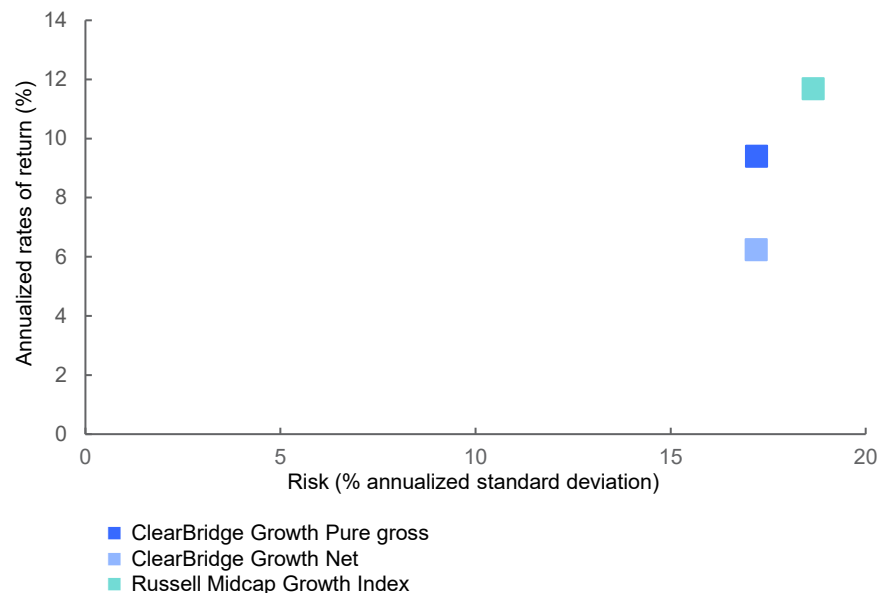

Periods less than one year are not annualized. Performance results are for the composite which includes all actual, fully discretionary accounts with substantially similar investment policies and objectives managed to the composite's investment strategy. Composite returns are stated in U.S. dollars and assume reinvestment of any dividends, interest income, capital gains, or other earnings. The composite may include account(s) that are gross of fees and pure gross of fees. "Pure" gross-of-fee returns do not reflect the deduction of any expenses, including transaction costs. A traditional (or "true") gross-of-fee return reflects performance after the reduction of transaction costs but before the reduction of the investment advisory fee. The gross-of-fee return may include a blend of "true" gross-of-fee returns for non-wrap accounts and "pure" gross-of-fee returns for wrap accounts. Net-of-fee returns are reduced by a model "wrap fee" (3.0% is the maximum anticipated wrap fee for equity and balanced portfolios) which includes trading expenses as well as investment management, administrative and custodial fees. The model wrap fee used represents the highest anticipated wrap fee applicable to the strategy. Actual fees and account minimums may vary.

For fee schedules, contact your financial professional, or if you enter into an agreement directly with Franklin Templeton Private Portfolio Group, LLC ("FTPPG"), refer to FTPPG's Form ADV Part 2A disclosure document. Management and performance of individual accounts may vary for reasons that include the existence of different implementation practices and model requirements in different investment programs. Past performance is not a guarantee of future results. Please see appendix for GIPS® Report and term definitions.

### Compliance Statement:

ClearBridge Investments, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. ClearBridge Investments, LLC has been independently verified for the periods January 1, 1997 - December 31, 2024. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedure for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

### Firm Information:

ClearBridge Investments, LLC ("ClearBridge") is a wholly owned indirect subsidiary of Franklin Resources, Inc. ("Franklin"). In July 2020 Legg Mason, Inc., its parent company, was purchased by Franklin. The investment advisory business now known as ClearBridge was registered in September 2005 to facilitate Legg Mason's acquisition of substantially all the equity asset management businesses known as Citigroup Asset Management. These former businesses serve as the foundation of ClearBridge and its claim of GIPS compliance for institutional accounts through predecessor firms, effective as of January 1997. In June 2008, ClearBridge combined this business with its retail business to form a single GIPS firm. As of April 1, 2013, January 1, 2016, May 1, 2020 and January 1, 2024 ClearBridge affiliates, Global Currents Investment Management, LLC, ClearBridge, LLC, ClearBridge Investments Limited (f/k/a RARE Infrastructure Limited) and Franklin Bissett Asset Management Equity Team have become part of the ClearBridge GIPS firm.

### Composite Information:

The ClearBridge Growth SMA composite consists of discretionary wrap accounts with an account minimum of US \$25,000. Accounts within the composite seek long-term capital appreciation by investing in the stocks of small, mid, and large capitalization companies that the manager believes have the potential for above-average long-term earnings and/or cash flow growth. The strategy is implemented by Franklin Templeton Private Portfolio Group, LLC ("FTPPG"), formerly known as Legg Mason Private Portfolio Group, LLC ("LMPPG"). FTTPPG claims compliance with the Global Investment Performance Standards (GIPS®). FTTPPG has been independently verified for the periods January 1, 2013 - December 31, 2024. FTTPPG is a wholly owned indirect subsidiary of Franklin Resources, Inc and together with its sub-advisers, including ClearBridge, provides investment services primarily in investment programs sponsored by Sponsor Firms. To obtain a GIPS Report and/or the firm's list of composite descriptions, please contact [info@clearbridge.com](mailto:info@clearbridge.com). The main risks of this strategy are General Investment Risk, Industry and Issuer Concentration Risk, Small Cap Risk, Mid Cap Risk, High Volatility Risk and Non-U.S. Investment Risk. As of May 2024 the composite name was change from ClearBridge Multi Cap Growth SMA to ClearBridge Growth SMA.

### Input and Calculation Data:

The fee schedule currently in effect is 3.00% on all assets. Net of fee composite returns are calculated by reducing each monthly composite pure gross rate of return by the highest "bundled" fee charged (3.00%) annually, prorated to a monthly ratio. The "bundled" fee includes transaction costs, investment management, custodial, and other administrative fees. The internal dispersion of annual returns is measured by the asset-weighted standard deviation of portfolio returns included in the composite for the entire year. The composite employs a 10% significant cash flow policy which started in January 2021. A list of composite and limited distribution pooled fund descriptions and a list of broad distribution pooled funds is available upon request. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Past performance is not necessarily indicative of future results. Gross returns are used to calculate presented risk measures. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

### Primary Benchmark Information:

For comparison purposes, composite returns are shown against returns of the Russell Midcap® Growth Index.

### Additional Benchmark Information:

The benchmark was changed from the Russell 3000® Growth Index to the Russell Midcap® Growth Index, back to inception, in May 2024.

## Index Definitions

The **Alerian MLP Index** is a composite of the 50 most prominent energy master limited partnerships (MLPs) and is calculated using a float-adjusted, capitalization-weighted methodology. Source: Alerian.

## Term definitions

**Earnings before interest, taxes, depreciation and amortization (EBITDA)** approximates a firm's operating cash flow by considering its earnings before interest, taxes, depreciation and amortization.

**Free Cash Flow** measures the cash remaining after accounting for a firm's cash expenditures to support its operations and maintain its capital assets.

**Market Capitalization** measures the number of outstanding common shares of a given corporation multiplied by the latest price per share.

**Weighted Median Market Capitalization** represents the value at which half the portfolio's market capitalization weight falls above, and half falls below.

**Weighted Average Market Capitalization** represents the average value of the companies held in the portfolio. When that figure is weighted, the impact of each company's capitalization on the overall average is proportional to the total market value of its shares.

**Dividend Yield** is determined by dividing a stock's annual dividends per share by the current market price per share. Dividend yield is a financial ratio that shows how much a company pays out in dividends. **Dividend Yield is calculated without the deduction of fees and expenses.**

**P/E (Year 1)** is the previous day's closing price of the stock divided by the consensus earnings per share (EPS) of fiscal year 1 (FY1) provided by I/B/E/S. Forecasts are inherently limited and should not be relied upon as indicators of future performance.

The **Price-to-Book** ratio (P/B) is a stock's price divided by the stock's per share book value.

**Earnings Per Share** (EPS) is the portion of a company's profit allocated to each outstanding share of a common stock.

The **Sharpe Ratio** is a risk-adjusted measure, calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe Ratio, the better the portfolio's historical adjusted performance.

**Alpha** is a measure of the difference between actual returns and expected performance, given the level of risk as measured by Beta, where **Beta** measures sensitivity to benchmark movements.

**R-Squared** measures the strength of the linear relationship between the portfolio and its benchmark. R-squared at 1.0 implies perfect linear relationship and zero implies no relationship exists.

**Standard Deviation** is based on quarterly data. Standard deviation is a measure of the variability of returns; the higher the standard deviation, the greater the range of performance (i.e., volatility).

The **Capture Ratios** measure a manager's composite performance relative to the benchmark, considering only those quarters that are either positive (Up) or negative (Down) for the benchmark.

An **Up Market Capture Ratio** greater than 1.0 indicates a manager who has outperformed the benchmark in the benchmark's positive quarters.

A **Down Market Capture Ratio** of less than 1.0 indicates a manager who has outperformed the relative benchmark in the benchmark's negative quarters.
