\*Notional amount is the number of contracts multiplied by contract size, and may be multiplied by the underlying price. May include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

\*The principal amount is stated in U.S. dollars unless otherwise indicated.

<sup>a</sup> Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At March 31, 2025, the aggregate value of these securities was \$351,698,420, representing 11.7% of net assets.

<sup>b</sup> Income may be received in additional securities and/or cash.

°Principal amount of security, redemption price at maturity, and/or coupon payments are adjusted for inflation.

<sup>d</sup>See Note 4 regarding investments in affiliated management investment companies.

<sup>e</sup>The rate shown is the annualized seven-day effective yield at period end.

At March 31, 2025, the Fund had the following forward exchange contracts outstanding.

\*Notional amount is the number of contracts multiplied by contract size, and may be multiplied by the underlying price. May include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

\$(264,049)

\*The principal amount is stated in U.S. dollars unless otherwise indicated.

<sup>†</sup>Rounds to less than 0.1% of net assets.

<sup>a</sup> Fair valued using significant unobservable inputs. See Note 5 regarding fair value measurements.

<sup>b</sup>Non-income producing.

12

°See Note 3 regarding restricted securities.

<sup>d</sup> Income may be received in additional securities and/or cash.

<sup>e</sup>Defaulted security or security for which income has been deemed uncollectible.

<sup>1</sup>Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At March 31, 2025, the aggregate value of these securities was \$23,845,501, representing 12.2% of net assets.

<sup>g</sup>A portion or all of the security purchased on a delayed delivery basis.

<sup>h</sup>A supranational organization is an entity formed by two or more central governments through international treaties.

<sup>i</sup>The rate shown represents the yield at period end.

See Note 4 regarding investments in affiliated management investment companies.

<sup>k</sup>The rate shown is the annualized seven-day effective yield at period end.

At March 31, 2025, the Fund had the following forward exchange contracts outstanding.

\*Notional amount is the number of contracts multiplied by contract size, and may be multiplied by the underlying price. May include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

\*The principal amount is stated in U.S. dollars unless otherwise indicated.

<sup>a</sup> Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At March 31, 2025, the aggregate value of these securities was \$1,189,390, representing 6.0% of net assets.

<sup>b</sup> Income may be received in additional securities and/or cash.

°A supranational organization is an entity formed by two or more central governments through international treaties.

<sup>d</sup> Principal amount of security, redemption price at maturity, and/or coupon payments are adjusted for inflation.

<sup>e</sup>The rate shown represents the yield at period end.

<sup>f</sup>See Note 4 regarding investments in affiliated management investment companies.

<sup>g</sup>The rate shown is the annualized seven-day effective yield at period end.

At March 31, 2025, the Fund had the following forward exchange contracts outstanding.

# Notes to Schedules of Investments (unaudited)

# 1. Organization

Templeton Income Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of four separate funds (Funds). The Funds follow the accounting and reporting guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services – Investment Companies (ASC 946) and apply the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP), including, but not limited to, ASC 946.

## 2. Financial Instrument Valuation

The Funds' investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Funds calculate the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Board has designated the Funds' investment manager as the valuation designee and has responsibility for oversight of valuation. The investment manager is assisted by the Funds' administrator in performing this responsibility, including leading the cross-functional Valuation Committee (VC). The Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Funds' pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity exists, the pricing services and utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the date that the values of the foreign debt securities are determined.

Investments in open-end mutual funds are valued at the closing NAV.

Certain derivative financial instruments are centrally cleared or trade in the OTC market. The Funds' pricing services use various techniques including industry standard option pricing models and proprietary discounted cash flow models to determine the fair value of those instruments. The Funds' net benefit or obligation under the derivative contract, as measured by the fair value of the contract, is included in net assets.

The Funds have procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Funds primarily employ a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated

#### 2. Financial Instrument Valuation (continued)

future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Funds' business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Funds' portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Funds' portfolio securities to the latest indications of fair value at 4 p.m. Eastern time.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Funds' NAV is not calculated, which could result in differences between the value of the Funds' portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Funds for financial reporting purposes.

## 3. Restricted Securities

At March 31, 2025, investments in restricted securities, excluding securities exempt from registration under the Securities Act of 1933, were as follows:

Shares	lssuer	Acquisition Date	Cost	Value
Templeton Global	otal Return Fund			
434,200,485	<sup>a</sup> K2016470219 South Africa Ltd., A	2/22/11 – 2/01/17	\$1,608,225	\$—

<sup>a</sup>The Fund also invests in unrestricted securities of the issuer, valued at \$31,175 as of March 31, 2025. <sup>b</sup>The Fund also invests in unrestricted securities of the issuer, valued at \$180 as of March 31, 2025.

#### 4. Investments in Affiliated Management Investment Companies

Certain or all Funds invest in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Funds do not invest for purposes of exercising a controlling influence over the management or policies. During the period ended March 31, 2025, investments in affiliated management investment companies were as follows:

#### 4. Investments in Affiliated Management Investment Companies (continued)

#### 5. Fair Value Measurements

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of the Funds' financial instruments and are summarized in the following fair value hierarchy:

- · Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Funds' own assumptions in determining the fair value of financial instruments)

#### 5. Fair Value Measurements (continued)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of March 31, 2025, in valuing the Funds' assets and liabilities carried at fair value, is as follows:

Templeton Global Bond Fund         Assets:         Investments in Securities:**         Foreign Government and Agency Securities         Government and Agency Securities	\$  \$ \$ \$	\$2,259,663,657 330,368,764 8,872,787 351,411,308 \$2,950,316,516 \$24,705,141 135,791

Net Change in

#### 5. Fair Value Measurements (continued)

A reconciliation in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 assets and/or liabilities at the beginning and/or end of the period. At March 31, 2025, the reconciliations are as follows:

	Balance at Beginning of Period	Purchasesª	Sales	Transfer Into Level 3	Transfer Out of Level 3	Net Accretion (Amortiza- tion)		Net Unrealized Appreciation Depreciation)	Balance at End of Period	Appreciation (Depreciation) on Assets Held at Period End

<sup>a</sup>Purchases include all purchases of securities and securities received in corporate actions.

<sup>b</sup>Includes financial instruments determined to have no value.

Significant unobservable valuation inputs for material Level 3 assets and/or liabilities and impact to fair value as a result of changes in unobservable valuation inputs as of March 31, 2025, are as follows:

Description	Fair Value at End of Period	Valuation Technique	Unobservable Inputs	Amount	Impact to Fair Value if Input Increasesª
Templeton Sustainable Emerging Markets Bond Fund					
Assets:					
Investments in Securities:					
Corporate Bonds:					
Costa Rica	\$429,753	Discounted cash flow	Discount rate <sup>b</sup>	7.5%	Decrease
All Other	256,227 <sup>c,</sup>	d,e			
Total	\$685,980				

<sup>a</sup>Represents the directional change in the fair value of the Level 3 financial instruments that would result from a significant and reasonable increase in the corresponding input. A significant and reasonable decrease in the input would have the opposite effect. Significant increases and decreases in these inputs in isolation could result in significantly higher or lower fair value measurements.

<sup>b</sup>The discount rate is comprised of the risk-free rate, the 10-year Costa Rican CDS spread, and an incremental issuer credit spread combined to arrive at an 8% yield on issue date for an 8% coupon bond issued at par. The incremental issuer spread is further adjusted to reflect the current market spread for similar credits above the Costa Rican credit spread.

#### 5. Fair Value Measurements (continued)

<sup>c</sup>Includes the fair value of immaterial assets and/or liabilities developed using various valuation techniques and unobservable inputs. <sup>d</sup>Includes the fair value of assets and/or liabilities derived from recent transactions, private transaction prices, or non-public third-party pricing information that is unobservable. <sup>e</sup>Includes financial instruments determined to have no value.
