

ANNUAL REPORT

FRANKLIN TEMPLETON VARIABLE INSURANCE PRODUCTS TRUST

December 31, 2019

FRANKLIN
TEMPLETON

Internet Delivery of Shareholder Reports: Effective January 1, 2021, as permitted by regulations adopted by the SEC, you may not be receiving paper copies of the Fund's annual or semiannual shareholder reports by mail, unless you specifically request them from the insurance company that offers your variable annuity or variable life insurance contract or your financial intermediary. Instead of delivering paper copies of the report, the insurance company may choose to make the reports available on a website, and will notify you by mail each time a shareholder report is posted and provide you with a website link to access the report. Instructions for requesting paper copies will be provided by your insurance company.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the insurance company or your financial intermediary electronically by following the instructions provided by the insurance company or by contacting your financial intermediary.

You may elect to receive all future Fund shareholder reports in paper free of charge from the insurance company. You can inform the insurance company or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by following the instructions provided by the insurance company or by contacting your financial intermediary. Your election to receive reports in paper will apply to all portfolio companies available under your contract with the insurance company.

This notice is not legally a part of the shareholder report.

Important Notes to Performance Information

Performance data is historical and cannot predict or guarantee future results. Principal value and investment return will fluctuate with market conditions, and you may have a gain or loss when you withdraw your money. Inception dates of the funds may have preceded the effective dates of the subaccounts, contracts or their availability in all states.

When reviewing the index comparisons, please keep in mind that indexes have a number of inherent performance differentials over the funds. First, unlike the funds, which must hold a minimum amount of cash to maintain liquidity,

indexes do not have a cash component. Second, the funds are actively managed and, thus, are subject to management fees to cover salaries of securities analysts or portfolio managers in addition to other expenses. Indexes are unmanaged and do not include any commissions or other expenses typically associated with investing in securities. Third, indexes often contain a different mix of securities than the fund to which they are compared. Additionally, please remember that indexes are simply a measure of performance and cannot be invested in directly.

Franklin VolSmart Allocation VIP Fund

This annual report for Franklin VolSmart Allocation VIP Fund covers the fiscal year ended December 31, 2019.

Class 5 Performance Summary as of December 31, 2019

Average annual total return of Class 5 shares* represents the average annual change in value, assuming reinvestment of dividends and capital gains. Average returns smooth out variations in returns, which can be significant; they are not the same as year-by-year results.

Periods ended 12/31/19	1-Year	5-Year	Since Inception (4/1/13)
Average Annual Total Return	+17.95%	+5.20%	+4.80%

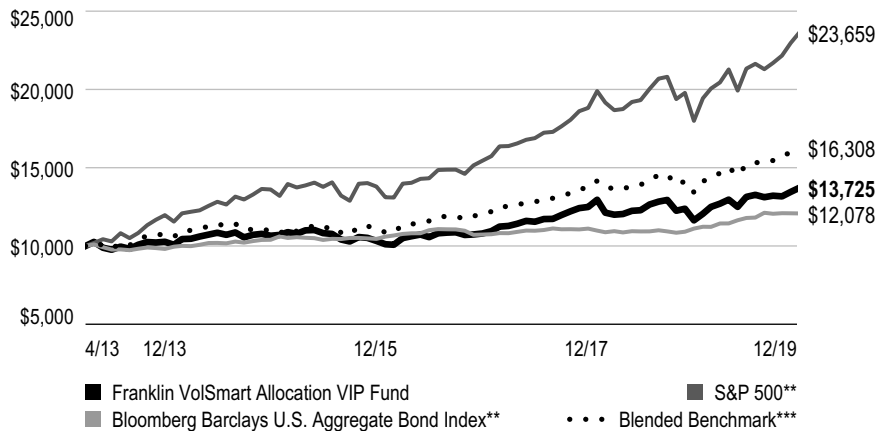

*Prior to 5/1/15, the Fund followed different investment strategies, had different subadvisory arrangements, allocated its core portfolio differently, had a different current target volatility goal and made different use of derivative instruments. As a result, the Fund generally held different investments and had a different investment profile. The Fund has an expense reduction and a fee waiver associated with any investments in a Franklin Templeton money fund and/or other Franklin Templeton fund, contractually guaranteed through 4/30/20. Fund investment results reflect the expense reduction and fee waiver; without these reductions, the results would have been lower.

*Performance reflects the Fund's Class 5 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.*

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

Total Return Index Comparison for a Hypothetical \$10,000 Investment (4/1/13–12/31/19)

The graph below shows the change in value of a hypothetical \$10,000 investment in the Fund over the indicated period and includes reinvestment of any income or distributions. The Fund's performance* is compared to the performance of the Standard & Poor's® 500 Index (S&P 500®), the Bloomberg Barclays U.S. Aggregate Bond Index and the Fund's Blended Benchmark, a combination of leading stock and bond indexes that better reflects the asset allocation of the Fund's portfolio. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. **Please see Important Notes to Performance Information preceding the Fund Summaries.**

**Source: Morningstar. Please see Index Descriptions following the Fund Summaries.

***Source: FactSet. The Fund's Blended Benchmark was calculated internally and rebalanced monthly and was composed of 60% S&P 500, 30% Bloomberg Barclays U.S. Aggregate Bond Index and 10% Bloomberg Barclays 1-3 Month U.S. Treasury Bill Index. Please see Index Descriptions following the Fund Summaries.

Fund Goal and Main Investments

The Fund seeks total return (including income and capital gains) while seeking to manage volatility. The Fund is structured as a limited “fund-of-funds” that seeks to achieve its investment goal by investing its assets partially in other mutual funds, which include other Franklin Templeton mutual funds as well as Franklin Templeton and third-party exchange-traded funds (ETFs) (underlying funds). Each underlying fund is allocated to the equity, fixed income, multi-class or cash asset class based on its predominant asset class and strategies. These underlying funds, in turn, invest in a variety of U.S. and foreign equity, fixed-income and money market securities. The Fund also obtains exposure to certain strategies and investments in its core portfolio by directly investing in the securities and instruments in that strategy.

Fund Risks

All investments involve risks, including possible loss of principal. There can be no guarantee that the Fund will stay within its target volatility. Also, the managed volatility and tail risk protection strategies could negatively impact the Fund’s return and expose the Fund to additional costs. Generally, investors should be comfortable with fluctuation in the value of their investments, especially over the short term. Stock prices fluctuate, sometimes rapidly and dramatically, due to factors affecting individual companies, particular industries or sectors, or general market conditions. Bond prices generally move in the opposite direction of interest rates. Changes in the financial strength of a bond issuer or in a bond’s credit rating may affect its value. Derivatives involve costs and can create economic leverage in the portfolio, which may result in significant volatility and cause the Fund to participate in losses (as well as gains) in an amount that exceeds the Fund’s initial investment. The Fund may not achieve the anticipated benefits, and may realize losses when a counterparty fails to perform. Because the Fund allocates assets to a variety of investment strategies, ETFs and other mutual funds, which involve certain risks, it may be subject to those same risks. The Fund is actively managed but there is no guarantee that the manager’s investment decisions will produce the desired results. The Fund’s

prospectus also includes a description of the main investment risks.

Performance Overview

You can find the Fund’s one-year total return in the Performance Summary. For comparison, the Fund’s equity benchmark, the S&P 500, posted a +31.49% total return, while the Fund’s fixed income benchmark, the Bloomberg Barclays U.S. Aggregate Bond Index, posted a +8.72% total return for the period under review.¹ The Fund’s Blended Benchmark, a combination of leading stock and bond indexes that better reflects the asset allocation of the Fund’s portfolio, posted a +21.42% total return for the same period.²

Economic and Market Overview

U.S. equities, as measured by the S&P 500, posted strong returns during the reporting period, driven by the U.S. Federal Reserve’s (Fed’s) monetary policy easing, solid domestic economic growth and diminished concerns about the global economy and trade relations. Stocks gained sharply early in the year and experienced heightened volatility in May and September before reaching record price highs near the end of 2019. The decline in market volatility reflected many market participants’ shift from growth concerns to a more optimistic outlook.

The Fed provided a substantial boost to equity markets early in the reporting period as it shifted to a more accommodative monetary policy. In January 2019, the Fed signaled the end of its tightening cycle and cut the federal funds rate three times thereafter, lowering it to a range of 1.50%–1.75%. Stocks responded positively to the interest-rate cuts and gained further in December 2019 after the Fed indicated it would likely leave interest rates unchanged in 2020.

Solid U.S. economic growth also supported equities, as healthy consumer spending and a strong labor market kept the economy afloat. The unemployment rate fell during the year, reaching 3.5% in September, November and December 2019, the lowest recorded unemployment rate in 50 years.³ Wages also grew, albeit at a moderate pace, and inflation remained persistently low. In addition, deficit spending by the U.S. government boosted current growth at the expense of

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund’s Statement of Investments (SOI).

long-term debt. Despite the strength in the consumer sector, some parts of the economy struggled, particularly heavy industry. Annual industrial production contracted late in the reporting period, manufacturing output stalled and capital spending declined.

International and trade developments also impacted U.S. stocks during the period. Investors were concerned about slowing global growth and the impact it might have on U.S. equities, but some market participants' predictions of a global recession did not materialize as growth proved resilient amid a series of interest-rate cuts by many central banks. The trade war between the U.S. and China was a dominant theme over the period, and stocks fluctuated as many investors responded to the latest developments, both positive and negative. However, by period-end, markets were reassured by a phase one trade agreement between the two countries, which lowered certain tariffs and addressed some of the principal areas of conflict.

Bond prices rose sharply during the reporting period, as interest-rate cuts and many investors' search for income pushed down yields on most bond categories. Notably, U.S. bonds, as measured by the Bloomberg Barclays U.S. Aggregate Bond Index, performed well.

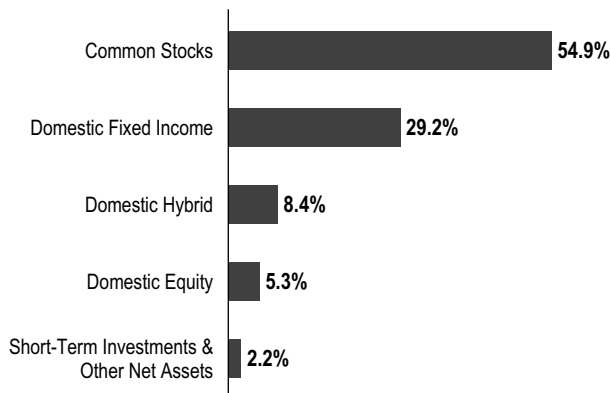

The primary driver of U.S. bond performance was the Fed's interest-rate cuts. Falling interest rates typically increase the value of existing bonds, since their relatively higher yields become more attractive to investors.

Both long-term and short-term U.S. bonds, as measured by subindexes of the Bloomberg Barclays U.S. Aggregate Bond Index, gained during the period, with long-term bonds posting stronger returns due to their higher sensitivity to interest-rate changes. Interest rates on long-term U.S. Treasuries initially fell more than interest rates on short-term U.S. Treasuries, leading to a flattening of the yield curve, which charts the yields of U.S. Treasuries at varying maturity dates. In August 2019, the yield on 10-year U.S. Treasuries fell below the yield on two-year U.S. Treasuries. While some investors considered this inversion a sign that the economy was moving toward a recession, the two-year and 10-year U.S. Treasury yield curve steepened again shortly thereafter amid positive economic signals.

U.S. Treasury bonds, as measured by the Bloomberg Barclays U.S. Treasury Index, gained during the period. Corporate bonds also posted noteworthy returns, driven by the combination of a relatively strong economy and lower interest rates. Both investment-grade and high-yield corporate bonds gained significantly, as measured by the Bloomberg Barclays U.S. Corporate Bond Index and

Asset Allocation*

Based on Total Net Assets as of 12/31/19

*The asset allocation is based on the Statement of Investments (SOI), which classifies each underlying fund into a broad asset class.

Bloomberg Barclays U.S. Corporate High Yield Bond Index, respectively, as solid corporate profits and steady economic growth helped strengthen investors' confidence in corporate creditworthiness. The positive environment for debt extended to mortgage-backed securities, as prepayments due to homeowner refinancing declined after hitting a three-year high in August 2019.

Investment Strategy

Under normal market conditions, the Fund seeks to achieve its investment goal by allocating its assets across certain asset classes, sectors and strategies in an attempt to produce a diversified portfolio that will generate returns, while minimizing the expected volatility of the Fund's returns so that volatility does not exceed a target of 10% per year. (Volatility within the 10% target is referred to as "Target Volatility.") The Fund's assets are primarily invested in its "core portfolio," which is principally composed of various U.S. equity and fixed income investments and strategies, including other mutual funds that provide exposure to such investments and strategies.

In addition, the Fund employs a volatility management strategy, which is designed to manage the expected volatility of the Fund's returns so that volatility remains within the Fund's Target Volatility. Thus, the Fund may utilize certain derivative instruments (primarily futures contracts on indexes) in an effort to adjust the Fund's expected volatility to within the Target Volatility. There is no guarantee that the Fund will stay within its Target Volatility. The Fund also employs a "tail risk protection strategy," designed to protect the Fund from risks related to extreme short-term market downturns (tail risk). Thus, the Fund may utilize certain derivatives (primarily total return swap agreements) in an

effort to hedge the tail risk of the Fund. There is no guarantee that the Fund's volatility management or tail risk protection strategies will be successful.

What is a futures contract?

A futures contract is an agreement between the Fund and a counterparty made through a U.S. or foreign futures exchange to buy or sell an underlying instrument or asset at a specific price on a future date.

What is a total return swap agreement?

A swap agreement, such as an equity total return swap, is a contract between the Fund and a counterparty to exchange on a future date the returns, or differentials in rates of return, that would have been earned or realized if a notional amount were invested in specific instruments.

Manager's Discussion

As of the end of the reporting period, at the asset allocation level, the Fund held roughly 60.2% in equities, 29.2% in fixed income, 8.4% in multi-asset class consisting of equities and fixed income, and 2.2% in cash.

Equities

The Fund's underlying equity allocation benefited from an overweight to the asset class as the S&P 500 posted strong returns in 2019. Our overweight to equity reflected what we viewed as supportive corporate earnings and a continued slow but upward-trending earnings growth environment.

Franklin Rising Dividends strategy, the largest underlying strategy in the Fund, slightly underperformed the S&P 500. Despite a significant gain over the 12-month period, the strategy was underweight information technology (IT), the sector that led the broad market higher. Stock selection in the energy sector also dampened relative returns. Conversely, stock selection in the health care and industrials sectors were beneficial for the strategy.

Franklin DynaTech Fund strengthened relative performance as it outperformed the S&P 500 in 2019. The underlying fund held a meaningful overweight to IT, the top-performing sector in the S&P 500 in 2019. Stock selection in the consumer discretionary and consumer staples sectors also supported relative results.

Fixed Income

Long-duration assets performed well in the second half of the year as the Fed cut interest rates amid macro concerns

Portfolio Strategy Holdings*

12/31/19

	% of Total Net Assets
Franklin Rising Dividends Strategy	54.9%
Franklin Low Duration Total Return Fund	17.3%
Franklin Strategic Income Fund	11.9%
Franklin Income Fund	8.4%
Franklin DynaTech Fund	5.3%
Short-Term Investments & Other Net Assets	2.2%

*The breakdown may not match the SOI.

hanging over markets in 2019, including uncertainty over global trade negotiations and economic indicators revealing the possibility of slowing growth.

What is duration?

Duration is a measure of a bond's price sensitivity to interest-rate changes. In general, a portfolio of securities with a lower duration can be expected to be less sensitive to interest-rate changes than a portfolio with a higher duration.

The Fund's small overweight to fixed income, as well as yield curve and duration positioning within the allocation, detracted from relative returns. Franklin Low Duration Fund outperformed its benchmark for the year; however, it weighed on relative returns as longer-duration assets rallied. High-yield and non-U.S. sovereign bonds generated positive performance for Franklin Strategic Income Fund; however, the underlying fund slightly lagged its benchmark as it was generally underweight U.S. duration.

Multi-Asset

Franklin Income Fund generated strong absolute returns for the year. Some of the underlying fund's high-dividend equity holdings in energy and other economically sensitive sectors, including commodity-linked companies, generally fell out of favor amid rising concerns about the forward oil and natural gas demand scenario and ample global energy supplies. Its fixed income component was impacted by weakening prices in energy high-yield debt; however, U.S. Treasury and investment-grade corporate bond allocations benefited performance.

Hedging

An independent volatility management strategy (implemented using short positions on S&P 500 futures, which were not held at period-end) negatively impacted both absolute and relative results for the review period. While the last quarter of 2018 was characterized by drawdowns and

high volatility, stock markets were relatively calm in 2019, with exceptions such as short-lived turbulence in May and August. Equity market volatility dropped to the lowest level of the year in the fourth quarter of 2019. Relative returns in the hedging component were also dampened by a volatility index-linked hedge, designed to provide tail risk protection during periods of increased market volatility and drawdowns.

Thank you for your participation in Franklin VolSmart Allocation VIP Fund. We look forward to serving your future investment needs.

The foregoing information reflects our analysis, opinions and portfolio holdings as of December 31, 2019, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Class 5 Fund Expenses

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract Level: (1) transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes; and (2) ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses. The table below shows Fund-level ongoing expenses and can help you understand these costs and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

Actual Fund Expenses

The table below provides information about the actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of ongoing Fund expenses but does not include the effect of ongoing Contract expenses, is used to calculate the "Ending Account Value." You can estimate the Fund-level expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number under the headings "Actual" and "Fund-Level Expenses Paid During Period" (*if Fund-Level Expenses Paid During Period were \$ 7.50, then $8.6 \times \$ 7.50 = \64.50*). In this illustration, the estimated expenses paid this period at the Fund level are \$64.50.

Hypothetical Example for Comparison with Other Mutual Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other mutual funds offered through the Contract. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds offered through the Contract.

Please note that expenses shown in the table are meant to highlight ongoing costs at the Fund level only and do not reflect any ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. In addition, while the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.

Share Class	Beginning Account Value 7/1/19	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 12/31/19	Fund-Level Expenses Paid During Period 7/1/19–12/31/19 ^{1, 2}	Ending Account Value 12/31/19	Fund-Level Expenses Paid During Period 7/1/19–12/31/19 ^{1, 2}	
Class 5	\$1,000	\$1,044.80	\$4.12	\$1,021.17	\$4.08	0.80%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 184/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include any ongoing expenses of the Contract for which the Fund is an investment option or acquired fund fees and expenses.

Notes to Financial Statements

Franklin VolSmart Allocation VIP Fund

1. Organization and Significant Accounting Policies

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of eighteen separate funds and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP). Franklin VolSmart Allocation VIP Fund (Fund) is included in this report. The Fund invests primarily in other funds of the Trust (Underlying Funds). Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. At December 31, 2019, 98.3% of the Fund's shares were held through one insurance company. Investment activities of these insurance company separate accounts could have a material impact on the Fund. The Fund offers two classes of shares: Class 2 and Class 5. Each class of shares may differ by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The accounting policies of the Underlying Funds are outlined in their respective shareholder reports. A copy of the Underlying Funds' shareholder reports is available on the U.S. Securities and Exchange Commission (SEC) website at sec.gov. The Underlying Funds' shareholder reports are not covered by this report.

The following summarizes the Fund's significant accounting policies.

a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation Committee (VC). The Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Investments in the Underlying Funds are valued at their closing NAV each trading day.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Certain derivative financial instruments trade in the OTC market. The Fund's pricing services use various techniques including industry standard option pricing models and proprietary discounted cash flow models to determine the fair value of those instruments. The Fund's net benefit or obligation under the derivative contract, as measured by the fair value of the contract, is included in net assets.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Fund primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Fund's business day. Occasionally, events occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call

Franklin VolSmart Allocation VIP Fund (continued)

1. Organization and Significant Accounting

Policies (continued)

a. Financial Instrument Valuation (continued)

into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, the VC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Fund's NAV is not calculated, which could result in differences between the value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Any significant security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent

value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. Derivative Financial Instruments

The Fund invested in derivative financial instruments in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and/or the potential for market movements which expose the Fund to gains or losses in excess of the amounts shown in the Statement of Assets and Liabilities. Realized gain and loss and unrealized appreciation and depreciation on these contracts for the period are included in the Statement of Operations.

Derivative counterparty credit risk is managed through a formal evaluation of the creditworthiness of all potential counterparties. The Fund attempts to reduce its exposure to counterparty credit risk on OTC derivatives, whenever possible, by entering into International Swaps and Derivatives Association (ISDA) master agreements with certain counterparties. These agreements contain various provisions, including but not limited to collateral requirements, events of default, or early termination. Termination events applicable to the counterparty include certain deteriorations in the credit

Franklin VolSmart Allocation VIP Fund (continued)

quality of the counterparty. Termination events applicable to the Fund include failure of the Fund to maintain certain net asset levels and/or limit the decline in net assets over various periods of time. In the event of default or early termination, the ISDA master agreement gives the non-defaulting party the right to net and close-out all transactions traded, whether or not arising under the ISDA agreement, to one net amount payable by one counterparty to the other. However, absent an event of default or early termination, OTC derivative assets and liabilities are presented gross and not offset in the Statement of Assets and Liabilities. Early termination by the counterparty may result in an immediate payment by the Fund of any net liability owed to that counterparty under the ISDA agreement. At December 31, 2019, the Fund had OTC derivatives in a net liability position of \$3,813.

Collateral requirements differ by type of derivative. Collateral or initial margin requirements are set by the broker or exchange clearing house for exchange traded and centrally cleared derivatives. Initial margin deposited is held at the exchange and can be in the form of cash and/or securities. For OTC derivatives traded under an ISDA master agreement, posting of collateral is required by either the Fund or the applicable counterparty if the total net exposure of all OTC derivatives with the applicable counterparty exceeds the minimum transfer amount, which typically ranges from \$100,000 to \$250,000, and can vary depending on the counterparty and the type of the agreement. Generally, collateral is determined at the close of Fund business each day and any additional collateral required due to changes in derivative values may be delivered by the Fund or the counterparty the next business day, or within a few business days. Collateral pledged and/or received by the Fund for OTC derivatives, if any, is held in segregated accounts with the Fund's custodian/counterparty broker and can be in the form of cash and/or securities. Unrestricted cash may be invested according to the Fund's investment objectives. To the extent that the amounts due to the Fund from its counterparties are not subject to collateralization or are not fully collateralized, the Fund bears the risk of loss from counterparty non-performance.

The Fund entered into exchange traded futures contracts primarily to manage and/or gain exposure to equity price risk. A futures contract is an agreement between the Fund and a counterparty to buy or sell an asset at a specified price on a future date. Required initial margins are pledged by the Fund,

and the daily change in fair value is accounted for as a variation margin payable or receivable in the Statement of Assets and Liabilities.

The Fund entered into OTC total return swap contracts primarily to manage and/or gain exposure to equity price risk of an underlying instrument such as a stock, bond, index or basket of securities or indices. A total return swap is an agreement between the Fund and a counterparty to exchange a return linked to an underlying instrument for a floating or fixed rate payment, both based upon a notional amount. Over the term of the contract, contractually required payments to be paid or received are accrued daily and recorded as unrealized appreciation or depreciation until the payments are made, at which time they are recognized as realized gain or loss.

See Note 7 regarding other derivative information.

d. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of December 31, 2019, the Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

Franklin VolSmart Allocation VIP Fund (continued)

1. Organization and Significant Accounting Policies (continued)

e. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Estimated expenses are accrued daily. Dividend income and capital gain distributions by Underlying Funds are recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the Funds based on the ratio of net assets of each Fund to the combined net assets of the Trust or based on the ratio of number of shareholders of each Fund to the combined number of shareholders of the Trust. Fund specific expenses are charged directly to the Fund that incurred the expense.

The Fund indirectly bears its proportionate share of expenses from the Underlying Funds and ETFs. Since the Underlying Funds and ETFs have varied expense levels and

the Fund may own different proportions of the Underlying Funds and ETFs at different times, the amount of expenses incurred indirectly by the Fund will vary.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

f. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

g. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

Franklin VolSmart Allocation VIP Fund (continued)

2. Shares of Beneficial Interest

At December 31, 2019, there were an unlimited number of shares authorized (without par value). During the years ended December 31, 2019 and December 31, 2018, there were no transactions of the Fund's Class 2 shares. Transactions in the Fund's Class 5 shares were as follows:

	Year Ended December 31,			
	2019		2018	
	Shares	Amount	Shares	Amount
Class 5 Shares:				
Shares sold	1,083,696	\$ 12,810,981	2,484,376	\$ 28,578,684
Shares issued in reinvestment of distributions	181,847	2,160,339	79,783	923,085
Shares redeemed	(2,383,442)	(28,340,194)	(2,879,138)	(33,374,019)
Net increase (decrease)	(1,117,899)	\$(13,368,874)	(314,979)	\$ (3,872,250)

3. Transactions with Affiliates

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton. Certain officers and trustees of the Fund are also officers, directors and/or trustees of certain of the Underlying Funds and of the following subsidiaries:

Subsidiary	Affiliation
Franklin Advisers, Inc. (Advisers)	Investment manager
K2/D&S Management Co., LLC (K2 Advisers)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager
Franklin Templeton Distributors, Inc. (Distributors)	Principal underwriter
Franklin Templeton Investor Services, LLC (Investor Services)	Transfer agent

a. Management Fees

The Fund pays an investment management fee to Advisers of 0.80% per year of the average daily net assets of the Fund.

Under a subadvisory agreement, K2 Advisors, an affiliate of Advisers, provides subadvisory services to the Fund. The subadvisory fee is paid by Advisers based on the Fund's average daily net assets, and is not an additional expense of the Fund.

b. Administrative Fees

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on the Fund's average daily net assets, and is not an additional expense of the Fund.

c. Distribution Fees

The Board has adopted distribution plans for Class 2 and Class 5 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plans, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.35% and 0.15% per year of its average daily net assets of Class 2 and Class 5, respectively. The Board has agreed to limit the current rate to 0.25% per year for Class 2. The plan year, for purposes of monitoring compliance with the maximum annual plan rates, is February 1 through January 31.

Franklin VolSmart Allocation VIP Fund (continued)

3. Transactions with Affiliates (continued)

d. Transfer Agent Fees

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

e. Investments in Underlying Funds

The Fund invests in Underlying Funds which are managed by affiliates of the Fund's administrative manager, Franklin Templeton Services, LLC. The Fund does not invest in Underlying Funds for the purpose of exercising a controlling influence over the management or policies. Management fees paid by the Fund are waived on assets invested in the Underlying Funds, as noted in the Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by the Underlying Funds.

Investments in Underlying Funds for the year ended December 31, 2019, were as follows:

	Value at Beginning of Year	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Year	Number of Shares Held at End of Year	Dividend Income

^aDividend income includes capital gain distributions received, if any, from underlying funds, and are presented in corresponding line item in the Statement of Operations.

f. Waiver and Expense Reimbursements

Advisers has contractually agreed in advance to waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Fund so that the expenses (excluding distribution fees and acquired fund fees and expenses and certain non-routine expenses or costs, including those relating to litigation, indemnification, reorganizations, and liquidations) for each class of the Fund do not exceed 0.65%, based on the average net assets of each class until April 30, 2020. Total expenses waived or paid are not subject to recapture subsequent to the Fund's fiscal year end.

4. Expense Offset Arrangement

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended December 31, 2019, the custodian fees were reduced as noted in the Statement of Operations.

5. Income Taxes

For tax purposes, capital losses may be carried over to offset future capital gains.

Franklin VolSmart Allocation VIP Fund (continued)

At December 31, 2019, the capital loss carryforwards were as follows:

Capital loss carryforwards not subject to expiration:	
Short term	\$416,421

The tax character of distributions paid during the years ended December 31, 2019 and 2018, was as follows:

	2019	2018
Distributions paid from:		
Ordinary income	\$ 670	\$921,718
Long term capital gain	2,160,098	1,501
	<u>\$2,160,768</u>	<u>\$923,219</u>

At December 31, 2019, the cost of investments, net unrealized appreciation (depreciation) and undistributed ordinary income for income tax purposes were as follows:

Cost of investments	<u>\$146,118,139</u>
Unrealized appreciation	\$ 42,926,146
Unrealized depreciation	<u>(3,648,816)</u>
Net unrealized appreciation (depreciation)	<u>\$ 39,277,330</u>
Distributable earnings:	
Undistributed ordinary income	<u>\$ 2,132,560</u>

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatment of swaps and foreign currency transactions.

6. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended December 31, 2019, aggregated \$8,840,706 and \$27,070,628, respectively.

7. Other Derivative Information

At December 31, 2019, investments in derivative contracts are reflected in the Statement of Assets and Liabilities as follows:

Derivative Contracts Not Accounted for as Hedging Instruments	Asset Derivatives		Liability Derivatives	
	Statement of Assets and Liabilities Location	Fair Value	Statement of Assets and Liabilities Location	Fair Value
Equity contracts	Unrealized appreciation on OTC swap contracts	\$ —	Unrealized depreciation on OTC swap contracts	\$3,813

Franklin VolSmart Allocation VIP Fund (continued)

7. Other Derivative Information (continued)

For the year ended December 31, 2019, the effect of derivative contracts in the Statement of Operations was as follows:

Derivative Contracts Not Accounted for as Hedging Instruments	Statement of Operations Location	Net Realized Gain (Loss) for the Year	Statement of Operations Location	Net Change in Unrealized Appreciation (Depreciation) for the Year
	Net realized gain (loss) from:		Net change in unrealized appreciation (depreciation) on:	
Equity contracts	Futures contracts	\$(4,148,450)	Futures contracts	\$1,511,553
	Swap contracts	(756,788)	Swap contracts	(717,356)
Totals		<u>\$(4,905,238)</u>		<u>\$ 794,197</u>

For the year ended December 31, 2019, the average month end notional amount of futures contracts and swap contracts represented \$6,219,734 and \$19,100,000, respectively.

See Note 1(c) regarding derivative financial instruments.

8. Credit Facility

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2 billion (Global Credit Facility) which matured on February 7, 2020. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests. Effective February 7, 2020, the Borrowers renewed the Global Credit Facility for a one year term, maturing February 5, 2021, for a total of \$2 billion.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statement of Operations. During the year ended December 31, 2019, the Fund did not use the Global Credit Facility.

9. Fair Value Measurements

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 – quoted prices in active markets for identical financial instruments
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

Franklin VolSmart Allocation VIP Fund (continued)

A summary of inputs used as of December 31, 2019, in valuing the Fund's assets and liabilities carried at fair value, is as follows:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments in Securities:				
Equity Investments	\$ 101,820,086	\$ —	\$ —	\$ 101,820,086
Investments in Underlying Funds	79,447,690	—	—	79,447,690
Short Term Investments	4,131,506	—	—	4,131,506
Total Investments in Securities	\$ 185,399,282	\$ —	\$ —	\$ 185,399,282
Liabilities:				
Other Financial Instruments:				
Swap Contracts	\$ —	\$ 3,813	\$ —	\$ 3,813

10. Subsequent Events

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure other than those already disclosed in the financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Franklin Templeton Variable Insurance Products Trust and Shareholders of Franklin VolSmart Allocation VIP Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the statement of investments, of Franklin VolSmart Allocation VIP Fund (the "Fund") as of December 31, 2019, the related statement of operations for the year ended December 31, 2019, the statement of changes in net assets for each of the two years in the period ended December 31, 2019, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2019 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2019, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2019 and the financial highlights for each of the five years in the period ended December 31, 2019 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2019 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

San Francisco, California

February 20, 2020

We have served as the auditor of one or more investment companies in the Franklin Templeton Group of Funds since 1948.

Tax Information (unaudited)

Franklin VoISmart Allocation VIP Fund

Under Section 852(b)(3)(C) of the Internal Revenue Code, the Fund hereby reports the maximum amount allowable but no less than \$2,160,098 as a long term capital gain dividend for the fiscal year ended December 31, 2019.

Bloomberg Barclays 1-3 Month U.S. Treasury Bill Index measures the performance of U.S. Treasury bills that have a remaining maturity of greater than or equal to one month and less than three months.

Bloomberg Barclays U.S. Aggregate Bond Index is a market capitalization-weighted index representing the U.S. investment-grade, fixed-rate, taxable bond market with index components for government and corporate, mortgage pass-through and asset-backed securities. All issues included are SEC registered, taxable, dollar denominated and nonconvertible, must have at least one year to final maturity and must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, Standard & Poor's and Fitch, respectively.

Bloomberg Barclays U.S. Corporate Bond Index measures the investment grade, fixed-rate, taxable corporate bond market. It includes U.S. dollar-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

Bloomberg Barclays U.S. Corporate High Yield Bond Index measures the U.S. dollar-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and Standard & Poor's is Ba1/BB+/BB+ or below.

Bloomberg Barclays U.S. Government Index: Intermediate Component is the intermediate component of the Barclays U.S. Government Index, which includes public obligations of the U.S. Treasury with at least one year to final maturity and publicly issued debt of U.S. government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. government.

Bloomberg Barclays U.S. High Yield Very Liquid Index is a component of the U.S. Corporate High Yield Index designed to track a more liquid component of the U.S. dollar-denominated, high-yield fixed-rate corporate bond market.

Bloomberg Barclays U.S. Treasury Index measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury with at least one year until final maturity.

Consumer Price Index (CPI) is a commonly used measure of the inflation rate.

FTSE® EPRA®/NAREIT® Developed Index is a free float-adjusted index designed to measure the performance of publicly traded real estate securities in the North American, European and Asian real estate markets.

FTSE World Government Bond Index is a market capitalization-weighted index consisting of investment-grade world government bond markets.

J.P. Morgan (JPM) Global Government Bond Index (GGBI) tracks total returns for liquid, fixed-rate, domestic government bonds with maturities greater than one year issued by developed countries globally.

Lipper Multi-Sector Income Funds Classification Average is calculated by averaging the total returns of all funds within the Lipper Multi-Sector Income Funds Classification in the Lipper Open-End underlying funds universe. Lipper Multi-Sector Income Funds are defined as funds that seek current income by allocation of assets among different fixed income securities sectors (not primarily in one sector except for defensive purposes), including U.S. and foreign governments, with a significant portion rated below investment grade. For the 12-month period ended 12/31/19, there were 324 funds in this category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

Lipper VIP General U.S. Government Funds Classification Average is an equally weighted average calculation of performance figures for all funds within the Lipper General U.S. Government Funds classification in the Lipper VIP underlying funds universe. Lipper General U.S. Government

Funds invest primarily in U.S. government and agency issues. For the 12-month period ended 12/31/19, there were 26 funds in this category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

MSCI All Country Asia Index is a free float-adjusted, market capitalization-weighted index designed to measure equity market performance in developed and emerging markets in Asia.

MSCI All Country World Index (ACWI) is a free float-adjusted, market capitalization-weighted index designed to measure equity market performance in global developed and emerging markets.

MSCI All Country World Index (ACWI) ex USA Index is a free float-adjusted, market capitalization-weighted index designed to measure equity market performance in global developed and emerging markets, excluding the U.S.

MSCI Europe, Australasia, Far East (EAFE) Index is a free float-adjusted market capitalization-weighted index designed to measure the equity market performance of developed markets, excluding the U.S. and Canada.

MSCI Emerging Markets (EM) Index is a free float-adjusted, market capitalization-weighted index designed to measure equity market performance in global emerging markets.

MSCI USA High Dividend Yield Index is based on the MSCI USA Index, its parent index, and includes large- and mid-capitalization stocks. The index is designed to reflect the performance of equities in the parent index (excluding real estate investment trusts) with higher dividend income and quality characteristics than average dividend yields that are both sustainable and persistent.

MSCI World Index is a free float-adjusted, market capitalization-weighted index designed to measure equity market performance in global developed markets.

Russell 1000® Growth Index is market capitalization weighted and measures performance of those Russell 1000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

Russell 1000® Index is market capitalization weighted and measures performance of the approximately 1,000 largest companies in the Russell 3000® Index, which represents the majority of the U.S. market's total capitalization.

Russell 2000® Index is market capitalization weighted and measures performance of the approximately 2,000 smallest companies in the Russell 3000® Index, which represent a small amount of the total market capitalization of the Russell 3000® Index.

Russell 2000® Value Index is market capitalization weighted and measures performance of those Russell 2000® Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

Russell 3000® Growth Index is market capitalization weighted and measures performance of those Russell 3000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

Russell Midcap® Growth Index is market capitalization weighted and measures performance of those Russell Midcap® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

Russell Midcap® Index is market capitalization weighted and measures performance of the smallest companies in the Russell 1000® Index, which represents a modest amount of the Russell 1000® Index's total market capitalization.

Standard & Poor's® 500 Index (S&P 500®) is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance.

Standard & Poor's®/International Finance Corporation Investable (S&P/IFCI) Composite Index is a free float-adjusted, market capitalization-weighted index designed to measure equity performance in global emerging markets.

Board Members and Officers

The name, year of birth and address of the officers and board members, as well as their affiliations, positions held with the Trust, principal occupations during at least the past five years and number of U.S. registered portfolios overseen in the Franklin Templeton fund complex, are shown below. Generally, each board member serves until that person's successor is elected and qualified.

Independent Board Members

Name, Year of Birth and Address	Position	Length of Time Served	Number of Portfolios in Fund Complex Overseen by Board Member*	Other Directorships Held During at Least the Past 5 Years
Harris J. Ashton (1932) One Franklin Parkway San Mateo, CA 94403-1906	Trustee	Since 1988	134	Bar-S Foods (meat packing company) (1981-2010).

Note 1: Rupert H. Johnson, Jr. is the uncle of Gregory E. Johnson.

Note 2: Effective March 12, 2019, John B. Wilson ceased to be a trustee of the Trust.

Note 3: Officer information is current as of the date of this report. It is possible that after this date, information about officers may change.

The Sarbanes-Oxley Act of 2002 and Rules adopted by the Securities and Exchange Commission require the Fund to disclose whether the Fund's Audit Committee includes at least one member who is an audit committee financial expert within the meaning of such Act and Rules. The Fund's Board has determined that there is at least one such financial expert on the Audit Committee and has designated Mary C. Choksi as its audit committee financial expert. The Board believes that Ms. Choksi qualifies as such an expert in view of her extensive business background and experience. She currently serves as a director of Avis Budget Group, Inc. (2007-present) and formerly, Founder and Senior Advisor, Strategic Investment Group (1987 to 2017). Ms. Choksi has been a Member of the Fund's Audit Committee since 2014. As a result of such background and experience, the Board believes that Ms. Choksi has acquired an understanding of generally accepted accounting principles and financial statements, the general application of such principles in connection with the accounting estimates, accruals and reserves, and analyzing and evaluating financial statements that present a breadth and level of complexity of accounting issues generally comparable to those of the Fund, as well as an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions. Ms. Choksi is an independent Board member as that term is defined under the relevant Securities and Exchange Commission Rules and Releases.

The Statement of Additional Information (SAI) includes additional information about the board members and is available, without charge, upon request. Shareholders may call (800) DIAL BEN/342-5236 to request the SAI.

Shareholder Information

Proxy Voting Policies and Procedures

The Trust's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Trust uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Trust's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Trust's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

Quarterly Statement of Investments

The Trust files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year as an exhibit to its report on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.
