Total Returns % (as of 12/31/2019)

Calendar Year Total Returns %

Performance data represents past performance, which does not guarantee future results. Current performance may differ from figures shown. The fund’s investment returns and principal values will change with market conditions, and you may have a gain or a loss when you sell your shares. Please call Franklin Templeton at (800) DIAL BEN/(800) 342-5236 or visit franklintempleton.com for the most recent month-end performance.

Advisor Class shares do not have sales charges or 12b-1 fees and are offered only to certain eligible investors as stated in the prospectus.

The fund’s inception date is 2/1/77. The hypothetical Growth of a $10,000 Investment shown commences from 4/1/81, when the fund changed its investment strategy to focus primarily on California municipal securities. Such a change may affect performance.

Fund Measures
- AMT Exposure 6.66
- Average Duration 6.53 Years
- Average Weighted Maturity 20.40 Years
- Standard Deviation (3 Yrs) - Advisor Class 3.04%

Morningstar Rating™—Advisor Class

Overall Morningstar Rating™: 4 Stars

What Are the Risks?

All investments involve risks, including possible loss of principal. Because municipal bonds are sensitive to interest rate movements, the fund’s yield and share price will fluctuate with market conditions. Bond prices generally move in the opposite direction of interest rates. Thus, as prices of bonds in the fund adjust to a rise in interest rates, the fund’s share price may decline. Because the fund invests principally in a single state, it is subject to greater risk of adverse economic and regulatory changes in that state than a geographically diversified fund. Puerto Rico municipal bonds have been impacted by recent adverse economic and market changes, which may cause the fund’s share price to decline. Changes in the credit rating of a bond, or in the credit rating or financial strength of a bond’s issuer, insurer or guarantor, may affect the bond’s value. The fund may invest a significant part of its assets in municipal securities that finance similar types of projects, such as utilities, hospitals, higher education and transportation. A change that affects one project would likely affect all similar projects, thereby increasing market risk.

Glossary

AMT Exposure: Percentage of a fund's assets invested in bonds with income subject to the alternative minimum tax (AMT). For investors subject to the alternative minimum tax, a small portion of fund dividends may be taxable. Distributions of capital gains are generally taxable.

Average Duration: A measure of the sensitivity of the price (the value of principal) of a fixed-income investment to a change in interest rates. Duration is expressed as a number of years. The weighted average duration of a fund reflects the effective duration of the underlying issues, based on the size of each holding.

Average Weighted Maturity (Tax Free): An estimate of the number of years to maturity, taking the possibility of early payments into account, for the underlying holdings.

Standard Deviation: A measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.

Important Information

Investors should carefully consider a fund's investment goals, risks, charges and expenses before investing. To obtain a summary prospectus and/or prospectus, which contains this and other information, talk to your financial advisor, call us at (800) DIAL BFN/342-5236 or visit franklintempleton.com. Please carefully read a prospectus before you invest or send money.

Information is historical and may not reflect current or future portfolio characteristics. All portfolio holdings are subject to change. For investors subject to the alternative minimum tax, a small portion of fund dividends may be taxable. Distributions of capital gains may be taxable.

Fund Management: CFA® and Chartered Financial Analyst® are trademarks owned by CFA Institute.

Performance: The fund offers other share classes subject to different fees and expenses, which will affect their performance.

Advisor: Effective 10/1/01, the fund began offering Advisor Class Shares. For periods prior to the fund's Advisor Class inception date, a restated figure is used based on the fund's oldest share class, Class A1 performance, excluding the effect of Class A1's maximum initial sales charge but reflecting the effect of the Class A1 Rule 12b-1 fees; and for periods after the fund's Advisor Class inception date, actual Advisor Class performance is used, reflecting all charges and fees applicable to that class.

30-Day Standardized Yield: The fund's 30-day standardized yield is calculated over a trailing 30-day period using the yield to maturity on bonds and/or the dividends accrued on stocks. It may not equal the fund's actual income distribution rate, which reflects the fund's past dividends paid to shareholders.

Taxable Equivalent Yield: The Taxable Equivalent Yield assumes the maximum regular federal income tax rate, maximum state personal income tax rate, and the Medicare tax in effect on December 2019. This combined rate does not consider the impact of California's surcharge on taxable incomes in excess of $1 million.

Composition of Fund: Percentage may not equal 100% due to rounding.

Uninvested cash is not included in the State / U.S. Territory Exposure table.

Morningstar Rating™: Source: Morningstar®, 12/31/19. For each mutual fund and ETF with at least a 3-year history, Morningstar calculates a Morningstar Rating™ based on how a fund ranks on a Morningstar Risk-Adjusted Return measure against other funds in the same category. This measure takes into account variations in a fund's monthly performance, and does not take into account the effects of sales charges and loads, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The weights are: 100% 3-year rating for 36-59 months of total returns, 60% 5-year rating/40% 3-year rating for 60-119 months of total returns, and 50% 10-year rating/30% 5-year rating/20% 3-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent 3-year period actually has the greatest impact because it is included in all three rating periods. The Fund's Advisor Class shares received a Morningstar Rating of 4, 4 and 4 star(s) for the 3-, 5- and 10-year periods, respectively. Morningstar Rating™ is for the named share class only; other classes may have different performance characteristics. Past performance is not an indicator or a guarantee of future performance.
